

WATER ACT 2014

EXPLANATORY NOTES

COMMENTARY

Part 1

Water Industry Chapter 4

Retail Exit: Non-Household Premises

Section 48: Exit applications: further provision

193. [Section 48](#) allows exit regulations to control what a relevant undertaker's conditions of appointment say about making exit applications. In particular, the regulations may prevent the inclusion of a provision that would require a relevant undertaker to make an exit application. The regulations could also include a requirement for Ofwat or the CMA to seek the Secretary of State's consent before exercising their functions in a way that might require a relevant undertaker to make an exit application.
