### **BACKGROUND AND SUMMARY**

#### **Part 6: Education Evaluation**

63. [Sections 78 to 80](#) are intended to make the sharing of information between Government Departments and schools, colleges and other assessment centres easier. This is expected to have the following benefits: enable parents and students to make more informed choices concerning education and employment destinations; help providers of education and training to evaluate their effectiveness in delivering qualifications; help schools and colleges to assess their information, advice and guidance services, and, along with higher education institutions, to tailor their provision to labour market demands; inform Government about which qualifications and courses lead to sustained employment and higher incomes, and the link between family income and education outcomes; and make data available and more transparent.
