

Public Health Act 1936

1936 CHAPTER 49

PART II

SANITATION AND BUILDINGS.

Private sewers and drains and cesspools.

42 Power of local authority to alter drainage system of premises.

- (1) Where any premises have a drain or sewer communicating with a public sewer or a cesspool, but that system of drainage, though sufficient for the effectual drainage of the premises, is not adapted to the general sewerage system of the district, or is in the opinion of the local authority otherwise objectionable, the authority may, at their own expense and on condition that they first provide in a position equally convenient to the owner of the premises a drain or sewer equally effectual for the drainage thereof and communicating with a public sewer, close the existing drain or sewer and fill up the cesspool, if any, and do any work necessary for that purpose.
- (2) A local authority who propose to execute any work under this section shall give notice of their proposals to the owner of the premises in question and, if he is aggrieved thereby, as regards either the position or the sufficiency of the drain or sewer proposed to be provided for the drainage of the premises, he may appeal to a court of summary jurisdiction.
