

Merchant Shipping Act 1894

1894 CHAPTER 60

PART V

SAFETY.

Draught of Water and Load-Line.

436 Ship's draught of water to be recorded.

- (1) The Board of Trade may, in any case or class of cases in which they think it expedient to do so, direct any person appointed by them for the purpose, to record, in such manner and with such particulars as they direct, the draught of water of any sea-going ship, as shown on the scale of feet on her stem and stern post, and the extent of her clear side in feet and inches, upon her leaving any dock, wharf, port, or harbour for the purpose of proceeding to sea, and the person so appointed shall thereupon keep that record, and shall forward a copy thereof to the Board of Trade.
- (2) That record or copy, if produced out of the custody of the Board of Trade, shall be admissible in evidence in manner provided by this Act.
- (3) The master of every British sea-going ship shall, upon her leaving any dock, wharf, port, or harbour for the purpose of proceeding to sea, record her draught of water and the extent of her clear side in the official log-book (if any), and shall produce the record to any chief officer of customs whenever required by him, and if he fails without reasonable cause to produce the record shall for each offence be liable to a fine not exceeding twenty pounds.
- (4) The master of a sea-going ship shall, upon the request of any person appointed to record the ship's draught of water, permit that person to enter the ship and to make such inspections and take such measurements as may be requisite for the purpose of the record ; and if any master fails to do so, or impedes, or suffers anyone under his control to impede, any person so appointed in the execution of his duty, he shall for each offence be liable to a fine not exceeding five pounds.

Status: This is the original version (as it was originally enacted).

- (5) In this section the expression "clear side" means the height from the water to the upper side of the plank of the deck from which the depth of hold as stated in the register is measured, and the measurement of the clear side is to be taken at the lowest part of the side.
