### SECTION 3

#### OLD AGE PENSIONS

**ARTICLE 15.**—(1) Subject to the provisions of Article 17, where a national of either High Contracting Party submits a claim to receive an old age pension by virtue of insurance periods and equivalent periods completed under the legislation of both High Contracting Parties, his claim shall be determined in accordance with the provisions of the succeeding paragraphs of this Article.

(2) The appropriate social security authority of each High Contracting Party shall determine, in accordance with its own national legislation, whether the national satisfies the conditions for receiving a pension under that legislation and for this purpose shall take into account all the insurance periods and equivalent periods completed by him under the legislation of the two Parties as if they had been completed under its own legislation.

(3) Where the right to a pension is established in accordance with the provisions of paragraph (2) of this Article, the social security authority of each High Contracting Party shall calculate—

- (a) the pension which would have been due to the national under its own national legislation if all the insurance periods and equivalent periods completed by him under the legislation of both Parties, calculated in accordance with the provisions of Article 25, had been completed under its own national legislation, and
- (b) that part of such pension which bears the same relation to the whole as the total of all the insurance periods and equivalent periods completed by the national under its own national legislation bears to the total of all the insurance periods and equivalent periods completed by him under the legislation of both Parties.

The part thus calculated shall be the pension actually due to the national from the social security authority concerned.

(4) Where the total of all the insurance periods and equivalent periods completed by a national under the legislation of one (or the other) High Contracting Party is less than twelve months, no pension shall be paid under the legislation of that Party.

(5) For the purpose of applying this Article, in those cases where the national concerned is a woman claiming an old age pension by virtue of her husband's insurance, an insurance period or equivalent period completed by a national shall be deemed to mean an insurance period or equivalent period completed by the husband of a national.

(6) The Provisions of this Article shall not apply to the special pension (“pension anticipée”) provided for underground coal miners and persons treated as miners, under the legislation of Belgium.

(7) A pension which is payable under the Belgian special scheme for the retirement of miners and persons treated as miners shall not be paid to a person who is in receipt of wages unless he is employed in the Belgian coal mines.

**ARTICLE 16.** Where a national of either High Contracting Party does not simultaneously satisfy the conditions laid down by the legislation of both High Contracting Parties, his right to receive a pension under the legislation of each Party shall be established and extended as and when he satisfies the conditions laid down by the legislation of that Party, account being taken of the provisions of Article 15.

**ARTICLE 17.**—(1) A national of either High Contracting Party may, at the time when his right to receive a pension is established, choose not to take advantage of the provisions of Article 15 of the present Convention. In that case the old age pension which he is entitled to receive under the legislation of each High Contracting Party shall be paid to him separately by its social security authority without regard to insurance periods completed by him under the legislation of the other Party.

(2) Such national shall be entitled to make a fresh choice between taking advantage of the provisions of Article 15 and those of this Article, if it is in his interest to do so, either when the legislation of either High Contracting Party is amended, or when he goes from the territory of one Party to that of the other, or when, in accordance with the provisions of Article 16 or otherwise, his right to a pension is established or varied under the legislation of either Party.

**ARTICLE 18.**—(1) Subject to the provisions of paragraph (2) of this Article where, under the legislation of one High Contracting Party, a national of either High Contracting Party would be entitled to receive an old age pension if he were in the territory of that Party, he shall be entitled to receive that pension while he is in the territory of the other Party.

(2) In any case where a national of either High Contracting Party left the territory of the United Kingdom before the 30th September, 1946, the rate of pension which he is entitled to receive under the legislation of the United Kingdom by virtue of the foregoing provisions of this Article shall be determined as follows:—

- (a) if the pension was paid before the national left the territory of the United Kingdom, the rate shall be the rate applicable in that territory at the time when the pension was last paid;
- (b) if the pension was not paid before the national left the said territory by reason of delay in making, or failure to make, a claim the rate shall be the rate of pension which the national would have been entitled to receive immediately before leaving the said territory if a claim had been made at that time;
- (c) if the pension was not paid before the national left the said territory because the national (or her husband, as the case may be) had not then attained pensionable age, the rate shall be the rate at which the pension would have been paid at that age had the national remained in the said territory until the national (or her husband, as the case may be) attained that age and made a claim.

(3) If at any time the rates of old age pensions awarded under the legislation of the United Kingdom before the 1st October, 1946, and payable to pensioners resident outside the United Kingdom are generally increased, similar increases shall be applied from the same date to such pensioners resident in the territory of Belgium.

**ARTICLE 19.** If the legislation of one High Contracting Party allows a person, subject to certain conditions, to maintain, for the purpose of establishing his right to an old age pension, his status as an employed person or as a person employed in a particular occupation, at a time when he is unable to follow his employment, any of those conditions which concern contributions shall be deemed to be satisfied if contributions have been credited to him under the legislation of the other High Contracting Party.

**ARTICLE 20.**—(1) Where a special scheme established under the legislation of one High Contracting Party provides that old age pensions shall be dependent on the completion of insurance

periods in an occupation to which the special scheme applies, periods completed under the legislation of the other High Contracting Party shall be treated as insurance periods for the purpose of determining the right to receive an old age pension under the said special scheme only if they were completed under a corresponding special scheme of the latter Party.

(2) If, under the legislation of the latter Party, there is no special scheme for the occupation in question, any insurance period or equivalent period, completed under the special scheme of the former Party, shall nevertheless be treated as an insurance period or equivalent period under the general insurance scheme of the latter Party for the purpose of determining the right to receive an old age pension under that scheme.

(3) Where a national of either High Contracting Party has been employed for at least twelve months in the territory of one High Contracting Party in an occupation for which, in the territory of the other Party there is a special scheme, any insurance period completed by him under the legislation of the former Party during such employment, shall, for the purpose of determining his right to receive an old age pension under the said special scheme, be treated as an insurance period completed under that scheme.

#### SECTION 4

##### BENEFITS IN RESPECT OF WIDOWHOOD AND ORPHANHOOD

**ARTICLE 21.**—(1) The provisions relating to old age pensions contained in Section 3 shall apply, subject to such modifications as the differing nature of the benefits may require, to widowhood benefits provided under the legislation of the two High Contracting Parties other than benefits or increases of benefit for children.

(2) Where under the legislation of one High Contracting Party a national of either High Contracting Party would be entitled to receive an orphan's benefit or an increase of widowhood benefit in respect of a child, if he were in the territory of that Party, he shall be entitled to receive such benefit while he is in the territory of the other Party provided that he is not entitled to receive any corresponding benefit under the legislation of that other Party.

(3) For the purpose of applying this Article, a widowed mother's allowance payable under the legislation of the United Kingdom shall be treated as if it included an increase of benefit at the appropriate rate in respect of the first or only child in her family and as if the provisions of that legislation conferred a right to that increase.

#### SECTION 5

##### INDUSTRIAL ACCIDENTS AND DISEASES

**ARTICLE 22.** Where, under the legislation of one High Contracting Party relating to industrial accidents and diseases, a national of either High Contracting Party would be entitled to receive a benefit if he were in the territory of that Party, he shall be entitled to receive that benefit while he is in the territory of the other Party.

**ARTICLE 23.** In assessing, for the purpose of the legislation of one High Contracting Party, the degree of disablement due to an industrial accident, any previous industrial accident for which benefit is payable under the legislation of the other Party shall be treated as if it were an industrial accident covered by the legislation of the former Party.

#### SECTION 6

- (a) a national of either High Contracting Party shall be treated, where necessary, as if his place of birth were in the territory of the first-mentioned Party, if it is in the territory of the other Party;
- (b) a national of either High Contracting Party, who is ordinarily resident in, or is employed in the territory of the first-mentioned Party, shall be treated as if he had been resident or employed in the territory of that Party during any period during which he was respectively resident or employed in the territory of the other Party.

(2) Where, for any period, family allowances would be payable in respect of a child under the legislation of both High Contracting Parties, they shall be payable for that period under the legislation of one Party only and the claimant shall be entitled to choose which allowances he shall receive, provided that where such allowances would be payable to different persons, the competent authorities of the two High Contracting Parties shall determine by agreement which allowance shall be payable.

## SECTION 7

### GENERAL PROVISIONS

**ARTICLE 25.**—(1) In applying the provisions contained in Articles 9, 13, 15 and 24 (1) (b) relating to the adding together of insurance periods and equivalent periods for the purpose of establishing the right to receive benefit, the social security authority of each High Contracting Party, having regard to the relevant provisions of its own national legislation, shall add to any insurance periods and equivalent periods completed under that legislation any insurance periods and equivalent periods completed under the legislation of the other Party, except to the extent that the latter coincide with the former.

(2) The provisions of paragraph (1) of this Article shall be applied in accordance with the following rules:—

- (a) where a period of compulsory insurance completed under the legislation of one High Contracting Party coincides with a period of voluntary insurance completed under the legislation of the other, only the period of compulsory insurance shall be taken into account;
- (b) where an insurance period completed under the legislation of one High Contracting Party coincides with an equivalent period completed under the legislation of the other, only the insurance period shall be taken into account;
- (c) where an equivalent period completed under the legislation of one High Contracting Party coincides with an equivalent period completed under the legislation of the other, account shall be taken only of the equivalent period completed under the legislation of the Party in whose territory the national concerned was last employed before the beginning of such period or, if he was not so employed, only of the equivalent period completed under the legislation of the Party in whose territory he is first employed after the end of such period.

**ARTICLE 26.** When, under the legislation of either High Contracting Party, the amount of any benefit is related to the average wage earned during insurance periods, the average wage to be taken into account for the calculation of the benefit due to be paid under that legislation shall be calculated on the basis of the wages earned during the insurance periods actually completed under that legislation. This provision shall not apply to periods for which that legislation prescribes a national wage, nor to the periods referred to in paragraph (6) of Article 13.

**ARTICLE 27.** Where, under the provisions of this Part of the present Convention, any benefit is payable by the social security authority of one High Contracting Party to a person who is resident in the territory of the other, the payment may, by agreement between the social security authorities of the two High Contracting Parties, be made by the social security authority of the latter Party as agent for the authority of the former Party.

**ARTICLE 29.** Subject to the provisions of Article 21, in all cases where under the legislation of one High Contracting Party, any benefit *other than a family allowance* would have been paid in respect of a dependant if the dependant had been in the territory of that Party, such benefit shall be paid if the dependant is in the territory of the other.

**ARTICLE 30.**—(1) Where a person who is receiving a benefit under the legislation of one High Contracting Party, claims a benefit under the legislation of the other High Contracting Party, any provision of the legislation of the latter Party which restricts the right to receive one benefit by reason of the receipt of another benefit shall apply to that person as if the benefit payable under the legislation of the former Party were a corresponding benefit payable under the legislation of the latter Party.
