## FOOD AND DRUGS

## COMPOSITION AND LABELLING

**The Colouring Matter in Food (Scotland) Regulations 1966**

<i>Made</i> - - - -	3rd November 1966
<i>Laid before Parliament</i>	16th November 1966
<i>Coming into Operation</i>	26th June 1967

In exercise of the powers conferred upon me by sections 4, 7 and 56 of the Food and Drugs (Scotland) Act 1956(a), and of all other powers enabling me in that behalf, and after consultation with such organisations as appear to me to be representative of interests substantially affected by these regulations and after reference to the Scottish Food Hygiene Council under section 25 of the said Act (in so far as the regulations relate to the labelling, marking or description of food), I hereby make the following regulations:—

*Citation and commencement*

1. These regulations may be cited as the Colouring Matter in Food (Scotland) Regulations 1966, and shall come into operation on 26th June 1967.

*Interpretation*

2.—(1) In these regulations, unless the context otherwise requires—

“the Act” means the Food and Drugs (Scotland) Act 1956;

“butter” means the fatty substance intended for sale for human consumption which—

(a) is usually known as butter,

(b) is derived exclusively from cow's milk, the pH of which may have been adjusted by the addition of an alkali carbonate, and includes whey butter;

“cheese” means the fresh or matured product intended for sale for human consumption, which is obtained as follows—

(a) in the case of any cheese other than whey cheese—

(i) by coagulating any or a combination of any of the following substances, namely milk, cream, skimmed milk, partly skimmed milk, concentrated skimmed milk, reconstituted dried milk and butter milk, and

(ii) partially draining the whey resulting from any such coagulation;

(b) in the case of whey cheese—

(i) by concentrating whey with or without the addition of milk and milk fat, and moulding such concentrated whey, or

(ii) by coagulating whey with or without the addition of milk and milk fat;

“cheese spread” means cheese which has been subjected to a process of melting and mixing with milk products other than cheese, with or without the addition of emulsifying salts;

"container" includes any form of packaging of food for sale as a single item, whether by way of wholly or partly enclosing the food or by way of attaching the food to some other article, and in particular includes a wrapper or confining band;

"food" means food intended for sale for human consumption and includes drink, chewing gum and other products of a like nature and use, and articles and substances used as ingredients in the preparation of food or drink or of such products;

"hard cheese" means cheese other than soft cheese, whey cheese, processed cheese or cheese spread;

"human consumption" includes use in the preparation of food for human consumption;

"permitted colouring matter" means any colouring matter described in schedule 1 to these regulations, which complies with the specification specified in that schedule in relation to such colouring matter, or any combination of two or more such colouring matters;

"processed" in relation to any food, includes curing by smoking and any treatment or process resulting in a substantial change in the natural state of any food but does not include boning, paring, grinding, cutting, cleaning or trimming and "unprocessed" shall be construed accordingly;

"processed cheese" means cheese which has been subjected to a process of melting and mixing with or without the addition of emulsifying salts;

"sell" includes offer or expose for sale or have in possession for sale, and "sale" and "sold" shall be construed accordingly;

"soft cheese" means cheese which is readily deformed by moderate pressure but does not include whey cheese, processed cheese or cheese spread, and any reference to soft cheese includes a reference to cream cheese or curd cheese;

"vegetable" includes pulses;

"whey cheese" means the product obtained by one or other of the processes referred to in paragraph (b) of the foregoing definition of "cheese"; and other expressions have the same meaning as in the Act.

(2) The Interpretation Act 1889(a) shall apply for the interpretation of these regulations as it applies for the interpretation of an Act of Parliament.

(3) All percentages mentioned in these regulations are percentages calculated by weight and, unless a contrary intention is expressed, are calculated on the weight of the product as sold.

(4) Any reference in these regulations to a label borne on a container shall be construed as including a reference to any legible marking on the container however effected.

(5) For the purposes of these regulations, the supply of food, otherwise than by sale, at, in or from any place where food is supplied in the course of a business shall be deemed to be a sale of that food.

### *Enforcement*

3.—(1) The local authority of any area shall, subject to the provisions of the next following paragraph, enforce and execute the provisions of these regulations within their area.

(2) Where any part of the area of a local authority lies within the area of a port local authority such of the functions of the local authority under these regulations in relation to any food imported into that part shall, in so far as these functions fall to be exercised by the port local authority by virtue of any order made under section 172 of the Public Health (Scotland) Act 1897(b), be exercised by that port local authority.

(3) In this regulation "local authority" means the council of a county or of a large burgh within the meaning of the Local Government (Scotland) Act 1947(a); and any small burgh within the meaning of that Act shall, for the purposes of these regulations, be included in the county in which it is situated; and "port local authority" includes a joint port local authority.

#### *Exemptions*

4. The provisions of these regulations shall not apply in relation to any colouring matter (including any colouring matter which is an ingredient of any colouring compound or of any colouring and flavouring compound), any diluent combined with any colouring matter or any food having any colouring matter in it or on it, which is sold—

- (a) for exportation to any place outside the United Kingdom; or
- (b) for the purpose of scientific laboratory testing, if the container of any such colouring matter, diluent or food bears a label stating clearly that such colouring matter, diluent or food, as the case may be, is sold only for such purpose.

#### *Sale, etc., of colouring matter and food containing colouring matter*

5.—(1) No colouring matter, whether such colouring matter is an ingredient of any colouring compound or of any colouring and flavouring compound or not, shall be sold, consigned, delivered or imported into Scotland for use as an ingredient in the preparation of food unless such colouring matter is a permitted colouring matter.

(2) No food sold, consigned, delivered or imported into Scotland shall have in it or on it any colouring matter other than a permitted colouring matter.

(3) No food sold, consigned, delivered or imported into Scotland shall have in it or on it any mark, however effected, in any colouring matter other than a permitted colouring matter.

(4) No person shall sell, consign, deliver or import into Scotland any food or colouring matter which does not comply with this regulation.

#### *Prohibition of the use of added colouring matter*

6.—(1) Save as hereinafter provided, no meat, game, poultry, fish, fruit or vegetable, in a raw or unprocessed state, sold, consigned, delivered or imported into Scotland for human consumption, shall have in it or on it (otherwise than for the purpose of marking) any added colouring matter:

Provided that—

- (a) the husk containing any nut may have in it or on it added permitted colouring matter;
- (b) the peel of any orange may have in it or on it added permitted colouring matter if—
  - (i) the words "colour added" are marked on the peel of such orange in permitted colouring matter, and
  - (ii) the said words are printed distinctly and legibly and are conspicuously visible.

(2) No tea (whether in leaf or essence form), coffee bean, ground coffee, coffee essence, white bread, soda bread, cream, condensed milk or dried milk, sold, consigned, delivered or imported into Scotland for human consumption shall have in it or on it any added colouring matter:

Provided that the provisions of this paragraph shall not apply in relation to any white bread or soda bread sold, consigned, delivered or imported into Scotland for use by a manufacturer for the purposes of his manufacturing business.

(3) No bread, other than white bread or soda bread, sold, consigned, delivered or imported into Scotland for human consumption, shall have in it or on it any added colouring matter other than caramel:

Provided that the provisions of this paragraph shall not apply in relation to any bread sold, consigned, delivered or imported into Scotland for use by a manufacturer for the purposes of his manufacturing business.

(4) No processed cheese or cheese spread other than sage cheese spread, sold, consigned, delivered or imported into Scotland shall have in it or on it any added colouring matter other than a permitted colouring matter within items (1) to (4) of Part III of schedule 1 to these regulations.

(5) No sage cheese or sage cheese spread sold, consigned, delivered or imported into Scotland shall have in it or on it any added colouring matter other than a green permitted colouring matter within item (3) of Part III of schedule 1 to these regulations.

(6) No hard cheese, soft cheese or whey cheese sold, consigned, delivered or imported into Scotland shall have in it or on it any added colouring matter except annatto or carotene or both of these substances:

Provided that the rind of hard cheese may contain any permitted colouring matter.

(7) No butter sold, consigned, delivered or imported into Scotland shall have in it or on it any added colouring matter except annatto, carotene or turmeric, or two or all of these substances.

(8) No person shall sell, consign, deliver or import into Scotland any food which does not comply with this regulation.

*Arsenic, lead and copper limits for colouring matters and diluents*

7.—(1) No colouring matter, whether such colouring matter is an ingredient of any colouring compound or of any colouring and flavouring compound or not, sold, consigned, delivered or imported into Scotland for use as an ingredient in the preparation of food, and no diluent combined with any such colouring matter shall contain—

(a) in the case of any such colouring matter, any arsenic, lead or copper, as the case may be, in excess of any amount specified therefor in the specification in schedule 1 to these regulations relating to such colouring matter:

Provided that if two or more colouring matters are combined, the amount of arsenic, lead or copper, as the case may be, permitted to be contained in such combination shall be determined by multiplying the amount of arsenic, lead or copper, as the case may be, laid down in the specification in the said schedule 1 relating to each colouring matter present in such combination, by the proportion of the total amount of such combination represented by that colouring matter and by adding together the products resulting therefrom;

(b) in the case of any such diluent, more than the amount of arsenic, lead or copper, as the case may be, laid down in the specification in the said schedule 1 relating to the colouring matter which is combined with any such diluent:

Provided that if any such diluent is combined with two or more colouring matters the amount of arsenic, lead or copper, as the case may be, permitted to be contained in such diluent shall be determined by multiplying the amount of arsenic, lead or copper, as the case may be, laid down in the specification in the said schedule 1 relating to each colouring matter present in such combination, by the proportion of the total amount of colouring matter in such combination represented by that colouring matter and by adding together the products resulting therefrom.

(2) No person shall sell, consign, deliver or import into Scotland any colouring matter or any diluent combined with any colouring matter which does not comply with this regulation.

#### *Advertisements and Labelling*

8.—(1) No person shall advertise for sale any colouring matter (including any colouring matter which is an ingredient of any colouring compound or of any colouring and flavouring compound) for use as an ingredient in the preparation of food unless such colouring matter is a permitted colouring matter.

(2) No person shall sell, consign or deliver any colouring matter (including any colouring matter which is an ingredient of any colouring compound or of any colouring and flavouring compound) for use as an ingredient in the preparation of food unless such colouring matter or such compound is packed in a container bearing a label which complies with the requirements specified in schedule 2 to these regulations:

Provided that until regulation 8(3) of, and schedule 2 to, the Colouring Matter in Food (Scotland) Regulations 1957(a) are revoked in accordance with regulation 13(2) of these regulations the requirements of this paragraph shall not have effect in relation to any sale, consignment or delivery in compliance with the provisions of the said regulation 8(3) of, and schedule 2 to, the said regulations of 1957; and the provisions of such regulation 8(3) and schedule 2 shall not have effect (pending their revocation in accordance with regulation 13(2) of these regulations) in relation to any sale, consignment or delivery in compliance with the requirements of this paragraph or in relation to any sale to which an exemption in regulation 4 of these regulations applies.

#### *Condemnation of food*

9. Where any food is certified by a public analyst as being food which it is an offence against regulation 5 or 6 of these regulations to sell, consign, deliver or import into Scotland, that food may be treated for the purposes of section 9 of the Act (under which food may be seized and destroyed on the order of a justice of the peace) as being unfit for human consumption.

#### *Penalties*

10.—(1) If any person contravenes or fails to comply with any of the foregoing provisions of these regulations he shall be guilty of an offence under these regulations.

(2) Any person who is guilty of an offence under these regulations shall be liable—

(a) on summary conviction to—

- (i) a fine not exceeding £100 or to imprisonment for a term not exceeding six months, or to both such fine and imprisonment; and
- (ii) in the case of a continuing offence, to a further fine not exceeding £10 for every day during which the offence is continued; or

(b) on conviction on indictment to—

- (i) a fine not exceeding £500 or to imprisonment for a term not exceeding one year or to both such fine and imprisonment; and
- (ii) in the case of a continuing offence, to a further fine not exceeding £50 for every day during which the offence is continued.

#### *Defences*

11.—(1) In any proceedings for an offence against these regulations in relation to the publication of an advertisement, it shall be a defence for the accused to prove that, being a person whose business it is to publish or arrange

for the publication of advertisements, he received the advertisement for publication in the ordinary course of business and did not himself make or cause to be made any material alteration in the substance of that advertisement.

(2) In any proceedings against the manufacturer or importer of any colouring matter for use as an ingredient in the preparation of food, or of any food having colouring matter in it or on it, for an offence against these regulations in relation to the publication of an advertisement, it shall rest on the accused to prove that he did not publish, and was not a party to the publication of, the advertisement.

*Application of various sections of the Act*

12.—(1) Sections 41(2) and (5) (which relates to proceedings), 42(1), (2) and (3) (which relates to evidence of certificates of analysis), 44 (which relates to the power of a court to require analysis by the Government Chemist), 46(2) (which relates to the conditions under which a warranty may be pleaded as a defence) and 47 (which relates to offences in relation to warranties and certificates of analysis) of the Act shall apply for the purposes of these regulations as if references therein to proceedings, or a prosecution, under or taken under the Act included references to proceedings, or a prosecution as the case may be, taken for an offence against these regulations and in addition as if—

- (a) in the case of section 44(1) of the Act, the reference therein to section 41(5) of the Act included a reference to said section 41(5) as applied by these regulations; and
- (b) in the case of section 47(1) and (2) of the Act, the references therein to an offence against the Act included references to an offence against these regulations.

(2) Section 41(4) of the Act shall apply for the purposes of these regulations as if the reference therein to section 47 of the Act included a reference to said section 47 as applied by these regulations.

*Revocation of the Colouring Matter in Food (Scotland) Regulations*

13.—(1) The Colouring Matter in Food (Scotland) Regulations 1957, except regulation 8(3) thereof and schedule 2 thereto, are hereby revoked.

(2) Regulation 8(3) of, and schedule 2 to, the Colouring Matter in Food (Scotland) Regulations 1957 shall be revoked on 1st January 1968.

(3) The Food and Drugs (Legal Proceedings) (Scotland) Regulations 1962(a) shall be amended by deleting from the schedule thereto the item relating to the Colouring Matter in Food (Scotland) Regulations 1957.

(4) Section 38 of the Interpretation Act 1889 shall apply as if these regulations were an Act of Parliament and as if the regulations revoked by these regulations were an Act of Parliament repealed by an Act of Parliament.

*Amendment of the Arsenic in Food (Scotland) Regulations 1959*

14. The Arsenic in Food (Scotland) Regulations 1959(b), as amended (c), shall be further amended by adding after sub-paragraph (c) of regulation 4(2) of those regulations (which sets forth certain exemptions from the arsenic limits imposed by the regulations) the following sub-paragraph:—

“(d) to any colouring matter for use as an ingredient in the preparation of food, or to any diluent combined with any such colouring matter, which complies with the specification or compositional requirements, as the case may be, for such colouring matter or for such diluent prescribed by the Colouring Matter in Food (Scotland) Regulations 1966.”.

(a) S.I. 1962/1668 (1962 II, p. 2029).  
(c) S.I. 1960/2344 (1960 II, p. 1479).

(b) S.I. 1959/928 (1959 I, p. 1296).

*Amendment of the Lead in Food (Scotland) Regulations 1961*

15. The Lead in Food (Scotland) Regulations 1961(a) shall be amended by adding after paragraph (3) of regulation 4 of those regulations (which specifies limits for any lead content of food) the following paragraph:—

“(4) The foregoing provisions of this regulation shall not apply in relation to any colouring matter for use as an ingredient in the preparation of food, or to any diluent combined with any such colouring matter, which complies with the specification or compositional requirements, as the case may be, for such colouring matter or for such diluent prescribed by the Colouring Matter in Food (Scotland) Regulations 1966.”.

*William Ross,*

*Part II—Compositional Requirements for the Colouring Matter Commonly Known as Black 7984*

The colouring matter commonly known as Black 7984 shall comply with the following requirements:—

*Inorganic impurities*

1. The colouring matter shall not contain, for every kilogram of pure colouring matter—
  - (a) more than 1 milligram of arsenic;
  - (b) more than 10 milligrams of lead;
  - (c) more than 100 milligrams of any of the following substances, namely antimony, copper, chrome, zinc, or barium sulphate, or more than 200 milligrams of any combination of these substances.
2. The colouring matter shall not contain any detectable quantity of cadmium, mercury, selenium, tellurium, thallium or uranium, any chromate, or any soluble barium compound.

*Organic impurities*

3. The colouring matter shall not contain—
  - (a) any 2-naphthylamine, benzidine or 4-amino-diphenyl (or xenylamine), or any derivative of any of these substances;
  - (b) any aromatic polycyclic hydrocarbon;
  - (c) more than 0.01 per cent. of the pure colouring matter present, of free aromatic amines;
  - (d) more than 0.5 per cent. of the pure colouring matter present, of synthetic intermediates other than free aromatic amines;
  - (e) more than 4 per cent. of the pure colouring matter present, of subsidiary colours such as isomers or homologues;
  - (f) more than 0.2 per cent. of the pure colouring matter present, of any substance extractable by diethyl ether.
4. The colouring matter shall not contain more than 0.2 per cent. of the pure colouring matter present, of matter insoluble in water.

Part III Other Colours

Column 1  Common Name or Description of Colour	Column 2 Specification		
	a  British Standard	b  Specifications for Identity and Purity of Food Additives. Vol. II. Food Colors, Food and Agriculture Organisation of the United Nations, Rome, 1963	c  Other specification or compositional requirement
(1) Caramel ... ..	3874 : 1965	—	—
(2) Carmine (The colouring matter prepared from cochineal) ... ..	3916 : 1965	—	—
(3) The following colouring matters of vegetable origin:—			
(a) any colouring matter natural to edible fruit or vegetables ... ..	—	—	A standard of purity consistent with good manufacturing practice.
(b) Alkanet ... ..	—	Number 5	—
(c) Annatto ... ..	—	—	A standard of purity consistent with good manufacturing practice.
(d) Carotene ... ..	—	—	A standard of purity consistent with good manufacturing practice.
(e) Chlorophyll... ..	—	—	A standard of purity consistent with good manufacturing practice.
(f) Flavine ... ..	—	—	A standard of purity consistent with good manufacturing practice.
(g) Indigo ... ..	—	—	A standard of purity consistent with good manufacturing practice.
(h) Orchil ... ..	—	Number 17	—

(j) Persian berry ... ..	—	—	A standard of purity consistent with good manufacturing practice.
(k) Safflower ... ..	—	—	A standard of purity consistent with good manufacturing practice.
(l) Saffron ... ..	—	—	A standard of purity consistent with good manufacturing practice.
(m) Sandalwood... ..	—	—	A standard of purity consistent with good manufacturing practice.
(n) Turmeric ... ..	—	Number 14	—
(o) The pure colouring principle of any of the colouring matters mentioned in the preceding paragraphs (a) to (n) inclusive, whether isolated from such colouring matters or produced synthetically.	—	—	A standard of purity consistent with good manufacturing practice.
(4) $\beta$ -apo-8'-Carotenal and the ethyl ester of $\beta$ -apo-8'-Carotenoic acid	—	—	A standard of purity consistent with good manufacturing practice.
(5) Canthaxanthin ... ..	—	—	A standard of purity consistent with good manufacturing practice.
(6) Bole or iron oxide ... ..	—	Number 2	—
(7) Carbon black ... ..	—	—	A standard of purity consistent with good manufacturing practice.
(8) Charcoal ... ..	—	—	A standard of purity consistent with good manufacturing practice.
(9) Titanium dioxide ... ..	—	—	A standard of purity consistent with good manufacturing practice.
(10) Ultramarine ... ..	—	Number 4	—
(11) Silver, gold or aluminium in leaf or powder form, for use solely for the external colouring of dragees and the decoration of sugar-coated flour confectionery.	—	—	A standard of purity consistent with good manufacturing practice.
(12) The aluminium and calcium salts (lakes) of any water-soluble colour mentioned in this schedule.	—	—	A standard of purity consistent with good manufacturing practice.

## Regulation 8

## SCHEDULE 2

LABELLING OF COLOURING MATTER AND  
COLOURING AND FLAVOURING COMPOUNDS

1. Each container to which regulation 8 of these regulations relates shall bear a label on which is printed a true statement in the form of one of the following declarations:—

(a) in the case of any colouring matter alone—

FOOD COLOUR CONTAINS (X) (Y)
---------------------------------------

(b) in the case of any compound substance containing colouring matter or a combination of colouring and flavouring matter—

COMPOUND CONTAINING FOOD COLOUR (X) (Y)
--

and the declaration shall in each case be completed by inserting at (X) the common name of the colouring matter present, solely or as an ingredient of any compound substance, in the container and at (Y) a correct description of any other substance present in the preparation in the container.

2. Two or more substances declared at (Y), pursuant to paragraph 1 of this schedule, shall appear in the order of the proportion by weight which such substances bear respectively to the total contents of the container at the time of sale by the manufacturer, the substance present in the greatest proportion by weight being specified first.

3. Any declaration required by paragraph 1 of this schedule shall be printed distinctly and legibly in dark type upon a light-coloured ground or in light type upon a dark-coloured ground. The type used for labels on containers of quantities of not less than 4 ounces or 4 fluid ounces, as the case may be, shall be not less than one-eighth of an inch in height, and the type used for labels on containers of quantities of less than 4 ounces or 4 fluid ounces, as the case may be, shall be not less than one-sixteenth of an inch in height. The declaration shall be printed within a surrounding line and no other matter shall be printed within such surrounding line. Every letter of every word shall be of uniform size and colour and the ground within the said surrounding line shall be of uniform colour, provided that the initial letter in any word may be larger than the other letters in that word.

4. Any label required by paragraph 1 of this schedule shall be securely affixed to or be part of the wrapper or container and in any case shall be so placed as to be clearly visible and shall be either part of any main label or a separate label placed in close proximity thereto.

## EXPLANATORY NOTE

*(This Note is not part of the Regulations.)*

These regulations which apply to Scotland only, come into operation on 26th June 1967, and supersede the Colouring Matter in Food (Scotland) Regulations 1957, except that the labelling provisions of those regulations continue in force for a transitional period ending on 31st December 1967. During that period, the labelling provisions of these regulations will not have effect in relation to any colouring matter sold in compliance with the comparable provisions of those regulations and vice versa (regulation 8).

These regulations—

- (a) prescribe the colouring matters which may be added to food sold for human consumption (regulation 5);
- (b) limit the use of such colouring matters in or on certain named foods (regulation 6);
- (c) regulate the amounts of arsenic, lead and copper contained in permitted colouring matters and in diluents combined with such colouring matters (regulation 7 and schedule 1);
- (d) make consequential amendments to the Arsenic in Food (Scotland) Regulations 1959 and the Lead in Food (Scotland) Regulations 1961 (regulations 14 and 15); and
- (e) revise the advertising and labelling requirements for colouring matters (regulation 8 and schedule 2).

The regulations do not apply to any colouring matter, to any diluent combined with any colouring matter, or to any food having colouring matter in it or on it which is sold for export, or for the purpose of scientific laboratory testing (regulation 4).
