**EXPLANATORY NOTE**

*(This Note is not part of the Regulations.)*

The Pensions Increase (Approved Schemes) (Local Government) (Scotland) Regulations 1968 provide for the payment of allowances to certain retired local government employees whose pension rights were secured through insurance policies. The allowances correspond broadly to the increases for which they would have been eligible under pensions increase legislation had they been pensionable as contributory employees in their local government employment. These Regulations authorise new or increased allowances which correspond with the new increases provided by the Pensions (Increase) Act 1969. They also amend the Regulations of 1968 by extending the scope of the nursing association employment which is reckonable for these purposes.

The Regulations are given retrospective effect under the express powers of section 3(4) of the Pensions (Increase) Act 1965 and paragraph 10 of Schedule 2 to the Pensions (Increase) Act 1969.
