PART II

TRANSFER FROM LOCAL GOVERNMENT EMPLOYMENT TO APPROVED EMPLOYMENT

Persons to whom part II applies

5.—(1) Subject to the provisions of these rules and subject to the conditions specified in rule 6 being satisfied, this part of these rules shall apply—

- (a) to a person who on or after the commencement of these rules enters approved employment within the prescribed period, having left local government employment on or after the prescribed date, and
 - (b) if the fund authority consent, to a person who before the commencement of these rules entered approved employment within the prescribed period, having left local government employment on or after the prescribed date.
- (2) This part of these rules shall not apply to any person—
- (a) who has become entitled to and received payment of any benefit (other than a return of contributions) in respect of his local government employment; or
 - (b) in respect of whom a transfer value has been paid by the fund authority since he left his local government employment; or
 - (c) who on entering approved employment became entitled, without any condition as to receipt of a transfer value, to reckon service in his local government employment in relation to his approved employment.
- (3) Where a person—
- (a) leaves local government employment on or after 4th February 1948; and

- (b) enters overseas employment in which the Superannuation (Local Government and Overseas Employment) Interchange Rules 1969 (or any earlier rules corresponding thereto) applied to him; and
- (c) enters approved employment within 12 months after leaving that overseas employment (or within such longer period as the pension scheme trustees and the fund authority may agree),

this part of these rules shall, if the fund authority consent, apply to him even though he may have left local government employment before the prescribed date in relation to transfers to that approved employment.

Conditions for application of part II

6. The conditions referred to in rule 5 are that the person shall, before or within 3 months after entering approved employment or, if he entered that employment before the commencement of these rules, within 6 months after their commencement—

- (a) notify the pension scheme trustees in writing that he desires these rules to apply to him;
- (b) furnish the pension scheme trustees with particulars in writing of any national service in which he has been engaged since leaving local government employment; and
- (c) pay to the pension scheme trustees an amount equal to any sum paid to him by way of return of contributions (other than voluntary contributions) on or after leaving local government employment, together with any further sum by way of interest required under rule 22.

Payment of transfer value

7.—(1) The fund authority shall, when this part of these rules becomes applicable to a person—

- (a) pay to the pension scheme trustees, subject to the provisions of these rules, the same transfer value as would have been payable under the transfer value regulations if that person had become a contributory employee under another local authority in the circumstances described in section 29 of the Act of 1937, less—
 - (i) an amount equal to any sum which the fund authority may become liable to pay by way of income tax in respect of the amount transferred by way of transfer value; and
 - (ii) an amount equal to any interest required under rule 22; and
- (b) furnish the pension scheme trustees and the person with the same particulars as to previous pensionable service as would have been furnished to the person if instead of entering approved employment he had become a contributory employee under another local authority.

(2) The transfer value payable in respect of a person who left local government employment before 18th August 1968 shall be calculated by reference to his age at 18th August 1969 unless—

- (a) he was a person to whom the rules revoked by rule 23 could have applied and he entered approved employment on or after 18th May 1969 and before 18th August 1969, or
- (b) he enters approved employment on or after 18th August 1969.

(3) The transfer value payable in respect of a person who enters approved employment on or after 18th August 1969 and more than 12 months after leaving local government employment shall be calculated by reference to his age on entering that approved employment.

(4) The transfer value payable in respect of a person who had been an established officer or servant within the meaning of the Asylums Officers' Superannuation Act 1909 (in this rule called “the Act of 1909”) shall be calculated as if paragraph (c) had been omitted from the definition of “service” in paragraph 1 of schedule 1 to the transfer value regulations.

(5) Where—

- (a) a transfer value is payable by a fund authority in respect of a person who before entering local government employment had been subject to the Act of 1909, and
- (b) the body by whom he was last employed while subject to that Act (in this rule called “the hospital body”) would, if he had become entitled to a superannuation allowance on leaving local government employment, have been liable to contribute to that allowance ,

the hospital body shall pay to the fund authority a sum equal to the transfer value which they would have been liable to pay to the Minister of Health under regulation 56(4) of the National Health Service (Superannuation) Regulations 1950(5) if that regulation had become applicable to the person when he entered approved employment.

(6) Where the hospital body would have had in respect of any such contribution as aforesaid a right of contribution from any other body, that other body shall pay to the fund authority a sum equal to the transfer value which they would have been liable to pay to the Minister of Health under paragraph (5) of the said regulation 56 if that regulation had become applicable to the person when he entered approved employment.

(7) Where any body referred to in paragraph (5) or (6) hereof has been dissolved or has ceased to exercise functions as such, references to that body shall be construed as references to the appropriate authority as defined in paragraph (15).of the said regulation 56

(8) Notwithstanding anything in the Act of 1937, when this part of these rules becomes applicable to a person, he shall cease to be entitled to any payment out of the superannuation fund administered by the fund authority other than a payment by way of return of voluntary contributions.

Exercise by local authority of discretionary powers to increase benefits

8.—(1) Where a person enters, or before the commencement of these rules entered, approved employment after leaving local government employment and these rules have become applicable to him, the authority or body by whom he was employed may, within 6 months after the date on which they are informed by the pension scheme trustees of his notification that he desires these rules to apply to him, exercise any discretion which, with a view to increasing the benefits payable to him, they could have exercised at the time when he left their employment if he had then retired and had been entitled to a retirement pension under regulation 5 of the benefits regulations or (if that regulation was not applicable to him) to any corresponding benefit provided under the superannuation provisions which were applicable to him in that employment.

(2) A decision in the exercise of any discretion under this rule shall be subject to the limitations and restrictions (if any) and to the right of appeal (if any) to which it would have been subject if the discretion had been exercised on the person's retirement in the circumstances aforesaid.

(3) Where a discretion has been exercised under this rule, the service reckonable immediately before he left his former employment by the person in whose favour the discretion has been exercised shall be deemed to have been correspondingly increased, and the transfer value payable in respect of him shall be calculated accordingly.

(4) Any increase in service, if attributable to a decision under this rule to increase benefit otherwise than by any notional increase or extension of the service reckonable for the purpose of calculating benefit, or by treating any specified period of non-contributing service as contributing service or, under a local Act scheme, by similarly converting service of one category to service of another category, shall be ascertained by converting the service in respect of which the higher rate of benefit is payable into contributing service in the manner in which non-contributing service is converted into contributing service under section 2(4) of the Act of 1953.

(5) (1950 I, p. 1327).

(5) Where the amount of any transfer value payable under rule 7 is increased in consequence of the exercise by an authority or body of any power conferred upon them by this rule, that authority or body shall repay the amount of the said increase to the superannuation fund out of which the transfer value is payable.

PART III

TRANSFER FROM APPROVED EMPLOYMENT TO LOCAL GOVERNMENT EMPLOYMENT

Persons to whom part III applies

9. Subject to the provisions of these rules and subject to the conditions specified in rule 10 being satisfied, this part of these rules shall apply—

- (a) to a person who on or after the commencement of these rules enters local government employment within the prescribed period, having left approved employment on or after the prescribed date, and
- (b) if the pension scheme trustees consent, to a person who before the commencement of these rules entered local government employment within the prescribed period, having left approved employment on or after the prescribed date.

Conditions for application of part III

10. The conditions referred to in rule 9 are that—

- (a) the person shall, before or within 3 months after entering local government employment or, if he entered that employment before the commencement of these rules, within 6 months after their commencement—
 - (i) notify the fund authority in writing that he desires these rules to apply to him;
 - (ii) furnish the fund authority with particulars in writing of any national service in which he has been engaged since leaving approved employment; and
 - (iii) pay to the fund authority an amount equal to any sum paid to him by way of return of contributions (other than voluntary contributions and compulsory contributions for family benefits) on or after leaving approved employment, together with any further sum by way of interest required under rule 22, and
- (b) the fund authority shall receive from the pension scheme trustees a transfer value, calculated in accordance with schedule 1, paragraphs 5 and 6 of schedule 2, paragraph 5 of schedule 3 or paragraph 6 of schedule 4, as the case may be, in respect of the service which the person was entitled to reckon for purposes of the approved pension scheme immediately before leaving his approved employment.

Reckoning of service

11.—(1) Subject to the provisions of these rules, a person to whom this part of these rules applies shall be entitled to reckon—

- (a) the pensionable service he was entitled to reckon at full length for the purposes of the approved pension scheme, as contributing service; and
- (b) any other service he was entitled to reckon for such purposes, as contributing service for a period adjusted by the fraction by which it would have been adjusted under that scheme.

(2) Where a person had been engaged in national service before entering local government employment, the period of service which he becomes entitled to reckon under the preceding paragraph shall, if the transfer value received under rule 10(b) is calculated so as to include the liability from which the pension scheme trustees were relieved in respect of the period of national service, be treated as increased by so much of that period as would have been reckonable as pensionable service had the person returned to the same approved employment on the termination of his national service.

(3) Any service which would have been reckonable under the approved pension scheme by a person to whom this part of these rules applies for the purpose of determining whether he was entitled to receive a benefit thereunder shall be reckonable to the same extent for the purpose of determining whether he is entitled to receive a benefit as a contributory employee.

(4) Where any part of the service of a person to whom this part of these rules applies is attributable to service, before he entered approved employment, which was non-contributing service for the purpose of these rules or of regulations made under section 67 of the National Health Service Act 1946, such service shall be reckonable in the manner and to the extent to which it would be reckonable if instead of becoming a member of an approved pension scheme on entering approved employment he had become a contributory employee.

(5) A person to whom this part of these rules applies shall not be entitled under section 12(2) of the Act of 1937 to reckon as non-contributing service any service as referred to therein before the date he entered approved employment if—

- (a) a transfer value in respect of that service has been paid under rule 7, or
- (b) a transfer value in respect of that service has been paid under the corresponding provision of any other interchange rules, or
- (c) a transfer of assets in respect of his local government pension rights has been made out of a local authority's superannuation fund under any enactment.

(6) Where at any time after a transfer value has been received under rule 10(b) or any corresponding rule revoked by rule 23, any further period of employment has become reckonable as service for purposes of the approved pension scheme, and the pension scheme trustees remit to the fund authority a further transfer value in respect of it, that further period shall be reckonable as it would have been if the further transfer value had been received under rule 10(b).

Continuation of voluntary contributions

12.—(1) The provisions of this rule shall have effect for the purpose of enabling a person to whom this part of these rules applies to continue any voluntary contributions which are described herein and which he was in course of paying immediately before leaving approved employment.

(2) Where a person elects to continue any such contributions, he shall—

- (a) when notifying the fund authority under rule 10(a)(i), notify them also that he wishes to continue the payment of voluntary contributions;
- (b) within the period specified in rule 10(a) or allowed under rule 21, pay to the fund authority a sum equal to the sum (if any) paid to him by way of return of any such contributions; and
- (c) make the payments required by this rule.

(3) Where the voluntary contributions were paid in respect of added years, the person shall pay the outstanding amounts as they would have been payable in his approved employment; and thereupon in respect of the added years to which the voluntary payments relate he shall enjoy rights and be subject to liabilities as if those years were added years in respect of which payments were being made under regulation 12 of the benefits regulations.

(4) Where the voluntary contributions were paid by way of—

- (i) instalments in discharge of a fixed sum or
- (ii) contributions of a fraction or percentage of emoluments,

as a condition of being entitled to reckon any period of service for the purposes of the approved pension scheme, or as a condition of increasing the length at which any period of service would be reckoned for those purposes, the person shall pay in the former case a sum or sums equivalent to the aggregate amount or value of the unpaid instalments, and in the latter case a sum or sums equivalent to the capital value of the outstanding liabilities (as certified by an actuary appointed by the pension scheme trustees), as if paragraphs 2, 4(a) and 4(b) of schedule 2 to the benefits regulations applied to the payment of any such sum or sums; and thereupon his service shall for purposes of rule 11 be affected as nearly as may be in the same manner as it would have been affected in his approved employment if he had completed those payments before leaving that employment.

(5) Notwithstanding the provisions of this rule, the person shall not be required to make payments between the date on which he retires from local government employment and the date on which he would ordinarily have expected to retire from his approved employment if he had continued therein.

Computation of contributions

13.—(1) Where any enactment relating to local government superannuation refers, in connection with assessing a return of contributions or a benefit, to the amount of the contributions paid by a person, the amount of the contributions paid by a person to whom this part of these rules applies shall be deemed to be increased, in accordance with the provisions of this rule, to take account of earlier periods of service which became reckonable under rule 11.

(2) Subject to the provisions of this rule, where the person was required to pay contributions under the approved pension scheme, the amount of the increase shall be the amount which would have been payable to him if, on leaving his approved employment, he had been entitled to a return of contributions without interest.

(3) Where an amount described in paragraph (1) of this rule is the amount of a person's contributions with interest thereon, interest shall also be payable on the amount by which those contributions are increased under paragraph (2), calculated—

- (a) as respects the period ending immediately before he entered local government employment, at the rate at which it would have been calculated under his approved pension scheme if on leaving his approved employment he had been entitled to a return of contributions with interest; and
- (b) as respects the period beginning on his entry into local government employment, in the manner described in section 10(1) of the Act of 1937.

(4) Subject to the provisions of this rule, where the person was not required to pay contributions under the approved pension scheme, he shall be deemed to have made to the appropriate superannuation fund, on becoming a contributor thereto, contributions in respect of the period of his approved employment of an aggregate amount equal to three-eighths of his annual salary (as defined in paragraph (6) of this rule) immediately before he left approved employment, multiplied by the number of completed years of service reckonable under the approved pension scheme at that date and the increase required by this rule shall be calculated accordingly:

Provided that—

- (a) no such increase shall be effected in the case of a person who is entitled, on leaving local government employment, to a return of contributions under section 10(2) or (4) of the Act of 1937;
- (b) in so far as such service includes earlier service before entering approved employment in which the person was required to pay contributions to a superannuation scheme under any enactment, it shall be excluded from any calculation under this paragraph, and the amount

of the increase in respect of that earlier service shall be the amount which would have been payable to him if on its termination he had been entitled to a return of contributions without interest.

- (5) For the purposes of this rule no account shall be taken of—
- (a) payments made voluntarily for securing family benefits;
 - (b) any sum in respect of contributions which were returned to and retained by the person who paid them;
 - (c) any voluntary contributions described in rule 12 which have not been continued under that rule; or
 - (d) any sum paid by way of interest under rule 10(a)(iii).

(6) For the purposes of this rule “annual salary” means the average annual amount of the pensionable salary and emoluments of the person's office during the three years ending with the last day of his period of service in approved employment or, when that period is less than three years, during the actual period of that service; and for the purposes of this paragraph any earlier period of service in employment subject to a non-contributory superannuation scheme under any enactment which had become reckonable for the purposes of the approved pension scheme shall be aggregated with the period of service in approved employment.

Modification of benefits and obligations in relation to National Insurance

14.—(1) In this rule—

“insured person” means an insured person within the meaning of the National Insurance Act 1965 or, if the person left approved employment before 5th July 1948, an insured person under the National Health Insurance Acts 1936 to 1938 or the Widows', Orphans' and Old Age Contributory Pensions Act 1936;

“pension scheme modification provisions” means any provisions analogous to the modification regulations and contained in or relating to an approved pension scheme, whereby the benefits provided under that scheme are modified in pursuance of any enactment re-enacted in the National Insurance Act 1965, whether directly, or indirectly, by adjustment of remuneration by reference to which benefits are calculated, or otherwise;

“unreduced” in relation to a transfer value, means without reduction pursuant to paragraph 8 of schedule 1 by reason of the provisions for flat-rate retirement pension in the National Insurance Act 1965.

(2) Where the following conditions are satisfied in relation to a person to whom this part of these rules applies, namely—

- (a) that he was an insured person in his approved employment, and
- (b) that a transfer value is received which is unreduced in respect of the whole of the period of employment which he becomes entitled to reckon under these rules,

the modification regulations shall apply to him as a person who retains unmodified status.

(3) Where the conditions specified in paragraph (2) above are not satisfied in relation to such a person, the modification regulations shall apply to him as if any period of employment which he becomes entitled to reckon under these rules were service rendered after 5th July 1948:

Provided that—

- (a) if part of the transfer value is received unreduced, the period of employment to which that part relates shall be treated as service before 1st September 1947; and
- (b) if on or before 5th July 1948 the pension scheme modification provisions (or any corresponding provisions contained in any scheme to which he was formerly subject in

employment which was reckonable as service for the purposes of the approved pension scheme) modified benefit by reference to a table and to age at a given date, schedule 1 to the modification regulations shall apply to him as a person entitled to the optant's rate, except that references to the material date shall be construed as references to the date which was relevant for purposes of the pension scheme modification provisions.

(4) Nothing in this rule shall affect the application of regulation 32 of the modification regulations (which provides for reduction of local government pensions in respect of certain former employments).

Application of section 11 of the Act of 1953

15. The provisions of section 11 of the Act of 1953 (which enables persons who would otherwise be debarred from becoming contributory employees on grounds of age to reckon, in relation to local government employment, previous service reckonable under a pension scheme) shall apply in relation to a person who entered the employment of a local authority from approved employment before the commencement of these rules; and the references in subsection (3) of that section to the passing of the Act shall be construed as including references to the commencement of these rules.

Preservation of rights as designated employee

16.—(1) Subject to the provisions of this rule, where a person to whom this part of these rules applies—

- (a) entered approved employment in such circumstances that, if that employment and any previous employment held by him as a pensionable employee of the body had been local government employment, he would have had the rights of a designated employee who, without a disqualifying break of service, is a contributory employee, and
- (b) was afforded, and throughout his approved employment continued to enjoy, rights corresponding to those to which he would have been entitled if the Act of 1937 had been applicable to him in that employment,

then for the purposes of sections 6 and 31 of the Act of 1937 (which inter alia make provision for designated employees) he shall be deemed not to have had a disqualifying break of service between the date on which he first left local government employment and the date on which he again enters local government employment.

(2) This rule shall apply only to a person who under or in consequence of the Electricity Act 1947 or the Gas Act 1948 left local government employment and entered employment in which he became a member of a Protected Persons Superannuation Scheme of the British Electricity Authority, an Area Electricity Board or an Area Gas Board, and has remained such a member until immediately before his re-entry into local government employment.

Preservation of rights as transferred poor law or rating employee

17.—(1) Subject to the provisions of this rule, where a person to whom this part of these rules applies—

- (a) was entitled immediately before entering approved employment to rights under Part I of Schedule 2 of the Act of 1937 (which Part relates to transferred poor law and transferred rating employees), and
- (b) immediately before leaving that approved employment was entitled to rights corresponding to those to which he would have been entitled if the Act of 1937 had been applicable to him in that employment,

then for the purposes of Part I of Schedule 2 to the Act of 1937 he shall be deemed not to have had a disqualifying break of service between the date on which he first left local government employment and the date on which he again enters local government employment.

(2) This rule shall not apply to a person who transferred from approved employment to local government employment before the commencement of these rules unless—

- (a) he gives notice in writing to the fund authority within 6 months of that date, or such longer period as they may allow, that he desires this rule to apply to him, and
- (b) the fund authority consent.

Period of approved employment: effect on later period of local government employment and on transfer values

18. Where a person to whom this part of these rules applies—

- (a) had entered, and then left, local government employment before the commencement of these rules, and then
- (b) had entered, or enters, further employment in such circumstances that a transfer value is paid under section 29 of the Act of 1937 or by virtue of interchange rules,

then, if the fund authority to whom the person first paid contributions after leaving approved employment receive a transfer value under rule 10(b), they shall—

- (i) treat the service which becomes reckonable under rule 11 as though it had been reckonable at the time when he ceased to participate in their fund and
- (ii) re-calculate the transfer value which they paid in respect of him.

Right of appeal

19. The provisions of section 35 of the Act of 1937 (which provides for the decision of questions and appeals to the Minister) shall have effect in relation to a person who enters local government employment in circumstances in which these rules apply as if the reference in that section to regulations made under that Act included a reference to these rules:

Provided that this rule shall not apply in relation to a person who is a local Act contributor.

PART IV

MISCELLANEOUS

Persons participating in pension schemes

20.—(1) Subject to the provisions of this rule, these rules shall apply to any person who on or after the prescribed date—

- (a) having been in employment by virtue of which he was entitled to participate in an approved pension scheme, but not as an employee of an approved body, enters local government employment or
- (b) having been in local government employment, enters employment by virtue of which he is entitled to participate in an approved pension scheme, but not as an employee of an approved body,

as if that participating employment were approved employment; and unless the context otherwise requires references in these rules to persons in approved employment shall be deemed to include references to persons employed in employment by virtue of which they are entitled to participate in

an approved pension scheme, and references to pensionable employees and pensionable employment shall be construed accordingly.

(2) Where in consequence of this rule payment would be required to be made by a local authority or a fund authority, this rule shall apply only with the consent of that authority.

Extension of time

21.—(1) A fund authority and pension scheme trustees may at any time, on the application of a person who desires these rules to apply to him, agree to extend any of the following periods, namely—

- (a) the periods of 6 and of 12 months referred to in rule 4(1) and
- (b) the periods of 3 and of 6 months referred to in rules 6 and 10 within which the person must notify in writing that he desires these rules to apply to him.

(2) A fund authority or pension scheme trustees may, in respect of a person required to furnish particulars in writing of national service or pay any sum described in rule 6(c) or 10(a) (iii), at any time extend, on the application of that person, the period of 3 or of 6 months referred to in rule 6 or 10, as the case may be, within which he must take such action; and when the person receives notice in writing of their approval of his application, he shall be deemed to have complied with the relevant condition specified in that rule.

(3) Rules 16 and 17 shall not apply to a person in respect of whom a period is extended under paragraph (1) of this rule.

Interest on returned contributions

22.—(1) Where a period of 12 months is extended pursuant to rule 21 (1)(a), the fund authority in respect of a person who has left local government employment, or the pension scheme trustees in respect of a person who has left approved employment, may require that person to pay compound interest on any sum paid to him by way of return of contributions (other than voluntary contributions and compulsory contributions for family benefits) on or after leaving that employment, at a rate of 3% per annum with half-yearly rests for a period beginning either with the date 12 months after the date on which he left that employment or, where this is later, the date on which he received such sum, and ending with the date on which he notified in writing that he desired these rules to apply to him.

(2) The interest payable under this rule shall not exceed a sum equal to one-half of the difference between the transfer value payable under these rules and the transfer value which would be payable if calculated by reference to the person's age on leaving such employment.

Revocations

23. The Superannuation (Local Government and Public Boards) Interchange Rules 1949(6) and the Superannuation (Local Government and Public Boards) Interchange (Amendment) Rules 1955(7) are hereby revoked:

Provided that the rules hereby revoked shall continue to apply in relation to any person to whom those rules became applicable before the commencement of these rules, following the taking of such action (including the service of notifications and the making of payments) as was required for such application.

TRANSFER VALUES RECEIVABLE FROM PENSION SCHEME TRUSTEES

Method of calculation

1. A transfer value receivable under these in respect of a person who leaves approved employment in which he was a member of an approved pension scheme mentioned in the table in this schedule shall be an amount equal to the transfer value which would have been payable under the transfer value regulations if—

- (a) the person, at the date when he left the approved employment, had ceased to be a contributory employee under one local authority and had become such an employee under another local authority in the circumstances described in section 29 of the Act of 1937 and
- (b) the transfer value regulations had, at that date, been subject to the modifications set out in this schedule and to such incidental and consequential modifications as might have been necessary.

Contributing service

2. References to contributing service shall be construed as references to service which—

- (a) would have been reckonable for the purpose of calculating a benefit under the approved pension scheme and
- (b) is not non-contributing service:

Provided that where such service would not have been reckonable at full length, it shall be reckonable as service for a period adjusted by the fraction by which it would have been adjusted under that scheme.

Non-contributing service

3. References to non-contributing service shall be construed as references to service which—

- (a) would have been reckonable for the purpose of calculating a benefit under the approved pension scheme and
- (b) is attributable to service, before entering approved employment, which was non-contributing service for the purpose of the Act of 1937 or of regulations made under section 67 of the National Health Service Act 1946.

Voluntary contributions

4. Where the person was formerly in local government employment and was making voluntary contributions which he had continued but not completed while in approved employment, or where the person was making similar payments originating in the approved employment or any other employment, and in either case has elected to continue payments under rule 12, then—

- (a) the period in respect of which the payments were being made shall be treated as if the payments had been completed before he left approved employment; and

- (b) the transfer value shall be reduced by the amount of the payments outstanding at the date of leaving approved employment.

Added years

5. References to added years shall be construed as references to added years as defined in rule 2(1).

Age

6.—(1) Where the person left approved employment before 18th August 1968, references to his age shall be construed as references to his age at 18th August 1969 unless—

- (a) he was a person to whom the rules revoked by rule 23 could have applied and he entered local government employment on or after 18th May 1969 and before 18th August 1969, or
- (b) he enters local government employment on or after 18th August 1969.

(2) Where the person entered local government employment on or after 18th August 1969 and more than 12 months after leaving approved employment, references to his age shall be construed as references to his age on entering local government employment.

(3) The transfer value payable in respect of a further period of employment described in rule 11(6) shall be calculated by reference to the person's age at the date on which the pension scheme trustees notify the fund authority that such a transfer value has become payable.

Remuneration

7. References to a person's remuneration shall be construed as references to his annual remuneration for the purpose of the approved pension scheme immediately before leaving approved employment.

National Insurance

8.—(1) Where a person's benefits under the approved pension scheme would have been reduced in respect of any period of approved employment by reason of the provisions for flat-rate retirement pension in the National Insurance Act 1965, the amount of the transfer value shall be reduced by the sum shown in the appropriate column of the table in schedule 5 to the modification regulations in relation to an age which corresponds—

- (a) in the case of a person referred to in paragraph 6 of this schedule, with the age specified therein and
- (b) in any other case, with his age at the date of leaving his approved employment,

in respect of each one pound of the amount by which any benefit by way of annual amounts to which he may become entitled under the approved pension scheme may be reduced thereunder in respect of any period of which account is taken in the calculation of the transfer value (excepting any period referred to in sub-paragraph (2) hereof), and by a proportionate sum in respect of any fraction of a pound included in the said amount.

(2) Where either—

- (a) a person's benefits under the approved pension scheme would have been reduced in respect of any period of approved employment by reason of the provisions for graduated retirement benefit in the National Insurance Act 1965, or
- (b) on or after leaving approved employment a payment in lieu of contributions has been made or equivalent pension benefits have been assured,

the amount of the transfer value (or such part of it as is attributable to the period of such employment) shall be reduced in the manner provided by regulation 28(3) of the modification regulations so far as it is applicable: and for this purpose references in the said regulation 28(3) to graduated reduction shall be construed as references to a reduction no part of which is made by reason of the provisions for flat-rate retirement pension in the National Insurance Act 1965, and references to paragraph (1) of that regulation shall be construed as references to sub-paragraph (1) of this paragraph.

Interest on returned contributions

9. The transfer value shall be reduced by an amount equal to that paid under rule 22 by the person in respect of interest on the contributions returned to him on or after he left approved employment.

Income tax

10. The transfer value shall be reduced by an amount equal to any income tax which the pension scheme trustees may have become liable to pay in respect of the transfer value.

Certain employees in the gas industry

11.—(1) Paragraph 3 of this schedule shall not apply to a person who transferred to a Gas Staff Pension Scheme having previously been a member of a Protected Persons Scheme of an Area Gas Board with his former local government superannuation rights.

(2) So far as any reduction required by paragraph 8 of this schedule is required solely by reason of the provisions for flat-rate retirement pension in the National Insurance Act 1965, it shall not be made in the case of a person leaving employment in which he was member of a Gas Staff Pension Scheme if he served continuously on the gas industry during a period which commenced before 6th July 1948 and ended with his leaving that employment.

EXPLANATORY NOTE

These Rules replace, and extend, the Superannuation (Local Government and Public Boards) Interchange Rules 1949 and 1955, which provided for the interchange of superannuation rights between local government employment and employment by certain public authorities who maintain pension schemes.

The Rules prescribe the action to be taken by a person who wishes to take advantage of the Rules, and in particular provide for—

- (i) the payment of appropriate transfer values;
- (ii) the repayment of returned contributions;
- (iii) the exercise of discretionary powers by local authorities when a person leaves local government employment and enters other specified employment;
- (iv) the reckoning of previous pensionable service in other specified employment;
- (v) the continuation of voluntary contributions;
- (vi) preservation of rights in respect of earlier local government employment when a person re-enters local government employment.

The principal changes from the previous Rules are that—

- (a) the bodies and pension schemes to which the rules apply are listed (in schedules 1 to 4);
- (b) provision is made for transfers involving employment by a body with “fractional” or “unequal” pension schemes—that is to say, schemes which are not actuarially equivalent to the local government scheme: employment subject to such schemes can be reckoned in the local government scheme at adjusted length;
- (c) a person transferring from certain employment subject to an “unequal” scheme may make payments to enhance his reckonable service;
- (d) any time limits prescribed by the Rules can be extended by the authority or authorities concerned;
- (e) a person can in certain circumstances be required to pay interest on returned contributions held by him.

The Rules are given retrospective effect to a limited extent under the express power of, and subject to the safeguards required by, section 2(5) of the Superannuation (Miscellaneous Provisions) Act 1948.
