EXPLANATORY NOTE

(This Note is not part of the Order.)

This Order, which comes into operation on 1st January 1977 or such later dates as are specified in Article 1, further amends the Import Duties (General) (No. 5) Order 1975 ("the principal Order") which sets out the United Kingdom Customs Tariff and the protective import duties chargeable in accordance with it.

Article 3(1) provides for certain amendments to the tariff nomenclature and the section and chapter notes as set out in Schedule 1, and for the metrification of the tariff in the meat sector.

Article 3(2) and Schedule 2 provide for the penultimate moves in the rates of duty chargeable on horticultural goods due on 1st January 1977 in accordance with Article 59 of the Act annexed to the Treaty of Accession. In relation to imports from countries outside the European Communities, these moves reduce by a further 20% (making a total reduction of 80%) the difference between the rate of duty applied in the United Kingdom on 1st January 1972 ("the basic duty") and the rates of duty in the Common Customs Tariff (CCT) of the European Economic Community. In relation to imports from other member States of the Community, the moves reduce the basic duty by a further 20% making a total reduction of 80%.

Article 3(3) and (4) amend the special rates of import duty for goods of Portugal and Iceland.

Article 4(1) and (2) provide for the Customs Tariff 1959 (the nomenclature of the United Kingdom Customs Tariff) and for the full rates of import duty (if any) charged by the principal Order to cease to have effect for certain goods from certain dates on which, by virtue of section 5 of the European Communities Act 1972, the "relevant date" is reached after which Community customs duties become chargeable in accordance with that Section. The relevant dates are 4th April 1977 for beef and veal products listed in the Schedule to the Import Duties (General) (No. 2) Order 1976, 1st August 1977 for certain cereal products (not liable to import duty) listed in Schedule 4 to this Order and 1st July 1977 for most other goods liable to import duty apart from horticultural products. The Customs Tariff 1959 is retained in respect of goods of Chapter 24 (tobacco) and goods of Papua New Guinea as special arrangements apply in respect of these goods under Articles 38 and 116 of the Act annexed to the Treaty of Accession.

Article 4(3) provides that from the dates on which the full rates of duty cease to be charged by the principal Order so also shall any preferential rates of import duty or exemptions or reliefs from import duty provided for by any Order made by the Treasury under the Import Duties Act 1958 or section 1 of the Finance Act 1971 cease to apply (including Articles 4 to 10 of the principal Order).

Article 4(4) provides that the provisions of Article 7(2) and (3) of the principal Order shall cease to apply to goods of Cyprus and Malta after 30th June 1977, up to which date, in accordance with agreements between those countries and the European Economic Community, they are entitled to retain the preferential arrangements in force before the dates of the agreements (in general these were the C2 rates or, in certain circumstances, the S rates).

Article 4(5) provides that from 1st July 1977, Article 9 and Schedule 6 of the principal Order, which provide special rates of duty for certain wines, shall cease to have effect.

Article 5 provides from 1st July 1977 for a new Part II of Schedule 5 to the principal Order, to cover only horticultural products.

Article 6 provides for revocation of the principal Order at the end of 1977 and for revocation of certain other Orders no longer required. As from 1st January 1978 Community customs duties on horticultural products become chargeable in accordance with section 5 of the European Communities Act 1972.
