EXPLANATORY NOTE

(This Note is not part of the Order.)

This Order re-enacts, with amendments, the provisions of the Medicines (Prescription Only) Order 1980 and its amending instruments, which are revoked. The Order specifies descriptions and classes of medicinal products which may be sold or supplied by retail only in accordance with a prescription given by a doctor, dentist, veterinary surgeon or veterinary practitioner and which may be administered only by or in accordance with the directions of such a person. The Order also confers exemptions from those restrictions and prescribes conditions which must be fulfilled if a sale or supply is to be taken as being in accordance with a prescription.

The principal changes made by the Order are—

- (a) that the medicinal products, the descriptions and classes of which are specified, no longer include products which are veterinary drugs within the meaning given in section 132(1) of the Medicines Act 1968 (such products are now included in the Medicines (Veterinary Drugs) (Prescription Only) Order 1983 (S.I. 1983/1213)), and
- (b) changes (including additions and omissions) in and relating to the list of substances (in column 1 of Part I of Schedule 1) which, if contained in a medicinal product, make that product a prescription only medicine and changes to the list of named products (in Part III of Schedule 1) which are prescription only medicines.

Where a substance or product appears in such a list for the first time it is shown in Schedule 1 in bold type, except where the addition results solely from a change in name. There are also various consequential and minor changes.
