The Nightwear (Safety) Regulations 1985

Washing of nightwear prior to testing

- 11.** Before being tested for compliance with the flammability performance requirements—
- (a) any fabric treated with chemicals to make it safer from fire shall be washed using the procedure specified in clause 6.5.2 of BS 5651;
 - (b) any fabric not so treated shall be washed using the same procedure, except that the requirements of clause 6.5.2.7 of BS 5651 shall not be observed.
