EXPLANATORY NOTE

(This Note is not part of the Regulations.)

These Regulations amend the National Health Service (General Medical and Pharmaceutical Services) (Scotland) Regulations 1974 ("the principal Regulations"), regulating the terms upon which doctors and chemists provide such services under the National Health Service (Scotland) Act 1978.

The terms of service for doctors are amended so that, in the course of treating a patient under NHS general medical services, a doctor shall not prescribe a drug or other substance listed in Schedule 2A to the principal Regulations (set out in the Schedule to these regulations) for supply under NHS pharmaceutical services, nor shall a doctor required in terms of the principal Regulations to supply drugs to a patient so supply such a Scheduled drug or substance except in circumstances referred to in regulation 3(4) of these regulations. A doctor may prescribe for supply under NHS pharmaceutical service, and if required as aforesaid may supply under such services, a drug listed in Schedule 2B to the principal Regulations (also set out in the Schedule to these regulations) but only in certain circumstances.

Provision is also made for a doctor, in the course of treating a patient under NHS general medical services, to prescribe with the patient's consent for the supply outwith NHS pharmaceutical services of a drug or substance listed in either Schedule 2A or 2B, but he shall not charge for that prescription. A doctor required under regulation 30 of the principal Regulations to provide NHS pharmaceutical services to a patient ("a dispensing doctor") is permitted to supply such a drug or substance to such a patient with his consent and to charge that patient for such supply.

The regulations make similar amendments to the terms of service for chemists so as to preclude subject to a specified exception the supply under NHS pharmaceutical services of any drug or other substance listed in Schedule 2A, and to limit the supply under such services of a drug listed in Schedule 2B.

Provision is made for the supply under NHS pharmaceutical services before 1st May 1985 of any drug affected by these regulations which has been prescribed by a doctor before 1st April 1985.
