- “and of any order varying or revoking any provisions of this order so far as it affects its area” and for the words “the order” there shall be substituted the words “the orders”; and
- (c) for the Schedule, there shall be substituted the Schedule to this order.

### **Transitional Provisions**

**3.** Where an application for consent in pursuance of section 34 of the Control of Pollution Act 1974 in respect of any discharge is duly made to a water authority before 15th October 1987 and the discharge in question is substantially a continuation of a previous discharge which during the year ending on 14th October 1987 was by virtue of article 3 of the 1983 Order lawfully made without such consent (any reduction of the temperature, volume or rate of the discharge as compared with that of the previous discharge being disregarded), the authority shall be deemed to have given unconditionally the consent applied for—

- (a) until the authority actually gives the consent unconditionally; or
- (b) if the authority refuses consent or gives it subject to conditions, until the expiration of the period of three months beginning with the date when the authority serves on the applicant notice of the refusal or the conditions subject to which consent is given; or
- (c) if during that period the applicant appeals to the Secretary of State against the decision in pursuance of section 39 of that Act, until the determination of the appeal.

### EXPLANATORY NOTE

This order varies the Control of Pollution (Exemption of Certain Discharges from Control) Order 1983.

Section 32(1) of the Control of Pollution Act 1974 makes certain discharges of trade or sewage effluent unlawful if made without the consent of a water authority (in Scotland, a river purification authority).

The 1983 order permitted certain discharges authorised by earlier statutes to be continued without such consent after section 32(1) came into force. The permitted discharges are described in the Schedule to the order. This order withdraws many of the exemptions from 15th October 1987 by substituting a new and more limited Schedule. In particular discharges direct to rivers or to the sea of trade or sewage effluent established before 1974 will now require a consent under section 34 of the 1974 Act.

There are transitional provisions in article 3 of the order. If an application for consent is made before 15th October 1987 and the other conditions of article 3 are satisfied, the discharge to which the application relates can lawfully be continued until—

- (a) consent is given unconditionally;
- (b) 3 months after consent is refused or granted subject to conditions; or
- (c) the final determination of any appeal.

Copies of the EEC Directives referred to in this order may be obtained from Her Majesty's Stationery Office.

Information concerning waters to which those EEC Directives apply may be obtained from the water authority concerned.
