(This Note is not part of the Regulations.)

These Regulations amend the Rules of the Air and Air Traffic Control Regulations 1985. In addition to one minor amendment the following changes are made:

- (1) The requirement in rule 32(1) that a person shall not without permission go on to a part of an aerodrome provided for the use of aircraft has now been extended to any part of an aerodrome which is not a public right of way (regulation 2(1)).
- (2) The rules relating to flight within the aerodrome traffic zone of a Government aerodrome now apply only during such times as are notified (regulation 2(3)).
- (3) The requirement that the commander of an aircraft making use of a radio navigation aid must comply with notified restrictions and procedures has now been extended to cover aids provided by satellite as well as those in the United Kingdom, but the rule no longer applies where the commander is otherwise authorised by an air traffic control unit or where he is required to comply with rule 27 (regulation 2(4)).
