and accordingly the calculation is—

$$\frac{£239,000,000 \times 0.6563}{£20,186,201} = 7.7704417 \text{ pence;}$$

- (2) the unrounded amount in the pound is rounded to two places of decimals to give 7.77 pence.

### EXPLANATORY NOTE

*(This note is not part of the Order)*

Section 13 of the London Regional Transport Act 1984 provides that the Secretary of State may, in respect of any year, make a levy on the rating authorities for all the rating areas in Greater London to recover a contribution from Greater London ratepayers towards his estimated expenditure in that year on grants to London Regional Transport, and for the purpose of raising the levy the Secretary of State may issue a demand for payments to the rating authorities. Such a demand shall require the rating authorities to levy as part, or as an additional item of the rate, a rate of an amount in the pound specified by Order in respect of the year to which the demand relates.

This Order specifies an amount of 7.77 pence in the pound in respect of the year 1987/8 (article 3). As required by section 13(7) of the London Regional Transport Act 1984 this Order sets out the factors taken into account (article 4) and the method of calculation employed (article 5) in determining the amount in the pound.
