Article 2

DESCRIPTION OF THE DESIGNATED AREA

The area of which the coastal limits are a point on the coast at the boundary between the parishes of Dunottar and Kineff (Ordnance Survey Grid Reference NO 880796) and a point on the coast at Red Head (Ordnance Survey Grid Reference NO 702473) and which extends seaward for three miles from mean low water springs and landward to include the catchment area of each river which flows directly or indirectly into the sea within the coastal limits aforementioned.

EXPLANATORY NOTE

(This note is not part of the Order)

This Order creates a new salmon fishery district by amalgamating the former districts of the River Bervie, the River North Esk and the River South Esk which are abolished. Regulation 3 provides for the retention of regulations relating to the due observance of the weekly close time and to the meshes of nets (matters specified in section 6(6) of the Salmon Fisheries (Scotland) Act 1862) which applied in the superseded districts. These will apply in the same way in the new district. The Order makes different provision for the annual close times and periods when rod and line angling only is permitted in (a) the former district of the River Bervie, and (b) the former districts of the River North Esk and the River South Esk.
