APPLICATIONS FOR REGISTRATION

Form for applications

12. Applications to register designs shall be made on Designs Form 2A.

Application for same design in respect of more than one article

13. Where it is desired to register the same design in respect of more than one article other than sets of articles, a separate application shall be made in respect of each article and each application shall be numbered separately and shall be treated as a separate and distinct application.

Article to which design is applied

14.—(1) Every application shall state the article to which the design is to be applied and that the applicant claims to be the proprietor of the design in relation to that article.

(2) If any question arises as to whether an article to which a design is to be applied is made substantially of lace or as to whether a design to be applied to a textile article consists substantially of checks or stripes, it shall be decided by the registrar.

Statement of novelty on representations or specimens

15.—(1) Except in the case of an application to register the pattern or ornament of a design to be applied to a textile article, to wallpaper or similar wall covering or to lace or to sets of textile articles or lace, a statement satisfactory to the registrar of the features of the design for which novelty is claimed shall appear on each representation or specimen of the design.

(2) The statement referred to in paragraph (1) above shall appear on the front of the first sheet only of each representation or specimen (except where the registrar is satisfied that this is impracticable in which case it shall appear in a place satisfactory to the registrar) and it shall be separate from any other statement or disclaimer.

Registration of same design in respect of other articles, etc.

16. If the application is for the registration of a design which has already been registered or applied for in respect of one or more articles, or consists of a design already registered or applied for with modifications or variations not sufficient to alter the character or substantially to affect the identity thereof, and it is desired to claim the protection of section 4 for such application, it shall contain the number or numbers of the registration or registrations already effected or the application or applications already made.

REPRESENTATIONS AND SPECIMENS

Supply of representations and specimens

17. Except as regards applications for registration of designs to be applied to sets of articles, there shall be furnished in connection with an application four identical representations of the design, in a form satisfactory to the registrar, or four specimens. Where representations are supplied the registrar may at any time before registration require specimens or additional representations.

Representations and specimens for sets of articles

18.—(1) There shall be furnished in connection with an application for the registration of a design to be applied to a set of articles five identical representations of the design in a form satisfactory to the registrar, or five specimens.

(2) The representations shall show the design as applied to each different article included in the set.

Size and presentation of representations

19.—(1) Each representation of the design, whether to be applied to a single article or to a set of articles, shall be upon paper of the size prescribed by rule 5 above and not on cardboard, and shall appear on one side only of the paper. The figure or figures shall be placed in an upright position on the sheet except where the registrar is satisfied that it is impracticable. When more figures than one are shown, these shall where reasonably practicable be on one and the same sheet, and each shall be designated perspective view, front view, side view, plan or otherwise as the case may be.

(2) Each sheet shall bear in the top left hand corner the name of the applicant and in the top right hand corner the number of sheets comprising the representation and the consecutive number of each sheet.

Drawings or tracings

20. When the representations furnished are drawings or tracings they shall be in ink and if on tracing cloth or tracing paper shall be mounted on paper of the size prescribed by rule 5 above.

Replacement of specimens by representations

21. When specimens are furnished and are not, in the registrar's opinion, of a kind which can be conveniently mounted in a flat position by means of an adhesive upon paper or by stitching on linen-backed sheets of paper of the size prescribed by rule 5 above and stored without damage to other documents, representations shall be furnished in place of specimens.

Words, letters or numerals

22. In an application where words, letters or numerals appear in the design, the registrar may require that a disclaimer of any right to their exclusive use shall appear on each representation or specimen.

Repeating surface patterns

23. Each representation or specimen of a design which consists of a repeating surface pattern shall show the complete pattern and a sufficient portion of the repeat in length and width, and shall not be of less size than 180 mm by 130 mm (7 inches by 5 inches).

Use of portrait of a member of the Royal Family or armorial bearings, etc.

24. Where a portrait of Her Majesty or of any member of the Royal Family, or a reproduction of the armorial bearings, insignia, orders of chivalry, decorations or flags of any country, city, borough, town, place, society, body corporate, institution or person appears on a design, the registrar, before proceeding to register the design, shall, if he so requires, be furnished with a consent to the registration and use of such portrait or reproduction from such official or other person as appears to the registrar to be entitled to give consent, and in default of such consent he may refuse to register the design.

Use of portrait of living or recently dead person

25. Where the name or portrait of a living person appears on a design, the registrar shall be furnished, if he so requires, with consent from such person before proceeding to register the design and, in the case of a person recently dead, the registrar may call for consent from his personal representative before proceeding with the registration of a design on which the name or portrait of the deceased person appears.

Copies and translations

28.—(1) In addition to the representations or specimens filed with every convention application there shall be filed with the application, or within three months thereafter, a copy of the representation of the design filed or deposited in respect of the first application in a convention country, duly certified by the authority with which it was filed or otherwise verified to the satisfaction of the registrar.

(2) If any certificate or other document relating to the application is in a language other than English, a translation thereof into English verified to the satisfaction of the registrar as corresponding to the original text shall be annexed thereto.

PROCEDURE ON RECEIPT OF APPLICATION

Statement of objections by registrar

29. If upon consideration there appears to the registrar to be any objection to the application, a statement of those objections shall be sent to the applicant in writing, and unless within two months thereafter the applicant applies for a hearing or makes observations in writing on those objections, he shall be deemed to have withdrawn his application.

Decision of registrar to be communicated in writing

30. If the applicant applies for a hearing, the decision of the registrar at the hearing shall be communicated to the applicant in writing, together with an indication in general terms of the grounds for that decision.

Appeal from registrar's decision

31. If the applicant desires to appeal from the registrar's decision, he shall within one month from the date of the decision apply to the registrar, upon Designs Form 7, requesting him to state in writing the grounds of, and the materials used by him in arriving at, his decision. Upon receipt of such application, the registrar shall send to the applicant a statement as aforesaid in writing and the date when the statement is sent shall be deemed to be the date of the registrar's decision for the purpose of an appeal.

An application under section 18(2) for a copy of a certificate of registration shall be made on Designs Form 6 and, where the original certificate has been lost, destroyed or otherwise cannot be produced, shall be accompanied by evidence setting out in full and verifying the circumstances in which the original certificate was lost, destroyed or cannot be produced.  - (b) that, where an application for the registration of a design disclosed more than one design and has been amended so as to exclude one or more designs from the application, a subsequent application for the registration of a design so excluded made by the person who made the earlier application or his successor in title shall be treated as having been made on the date on which the earlier application was made or is treated as having been made, provided always that the later application is filed before the end of the period provided by rule 36 below for the completion of the earlier application (including any extension of time allowed under the said rule 36) or the date on which the certificate of registration of the

design which is the subject of the earlier application (as amended) is granted, whichever is the earlier.

(2) Nothing in paragraph (1)(a) of this rule shall be taken to limit the discretion of the registrar to decline to accept an amendment of an application for the registration of a design.

Industrial application of designs

35. A design shall be regarded for the purposes of section 6 as “applied industrially” if it is applied—

Substitution

37. In the case of the death of any applicant for the registration of a design after the date of his application, and before registration of the design has been effected, the registrar may, on being satisfied of the applicant’s death, enter in the register, in place of the name and address of such deceased applicant, the name and address of the person owning the design, on such ownership being proved to the satisfaction of the registrar.

(3) The registrar shall enter in the register notice of the application and shall publish such notice in the Journal.

(4) If, upon consideration of the evidence, the registrar is not satisfied that a case for an order under section 8A has been made out, he shall notify the applicant accordingly and, unless within two months the applicant requests to be heard in the matter, the registrar shall refuse the application.

(5) If the applicant requests a hearing within the time allowed, the registrar shall, after giving the applicant an opportunity of being heard, determine whether the application shall be allowed or refused.

(6) If the registrar decides to allow the application, he shall notify the applicant accordingly and require him to file Designs Form 30, together with Designs Form 9A, duly completed, and the amount of the unpaid extension fee and the prescribed restoration fee, upon receipt of which the registrar shall order the restoration of the right in the design and advertise the fact in the Journal.

- 75.—(1) The following shall be excluded days for all purposes under the Act:

- (a) any period of time specified in the Act or these Rules for such giving, making or filing,
- (b) the period of six months specified in section 6(2) or 14(1), or

was wholly or mainly attributable to a failure or undue delay in the postal services in the United Kingdom, the registrar may, if he thinks fit—

- (i) in the case of a period of time falling within sub-paragraph (a) above, extend the period so that it ends on the day of the receipt by the addressee of the notice, application or other document (or, if the day of such receipt is an excluded day, on the first following day which is not an excluded day), or
- (ii) in the case of the said periods of six months or the period of time referred to in rule 34(1)(b) above, determine that the application shall be treated as having been made within the relevant period,

in each case upon such notice to other parties and upon such terms as he may direct.

EXPLANATORY NOTE

(This note is not part of the Rules)

These Rules revoke and replace with modifications the Designs Rules 1984, as amended. Some of the modifications are consequent on the amendment of the Registered Designs Act 1949 (“the 1949 Act”) by the Copyright, Designs and Patents Act 1988. The majority of the rules contained in the 1984 Rules have been modified to a greater or lesser extent and the order of some of those rules has been changed. The principal modifications are—

- (a) provision is made for the filing of forms which contain the information required by the Forms set out in Schedule 1 to these Rules but are not replicas of those Forms (rule 4);
- (b) specific provision is made for the signature of documents by unincorporated bodies or associations other than firms (rule 6);
- (c) new provisions are included relating to the positioning of the statement of novelty on representations and specimens of designs (rule 15(2));
- (d) the number of representations or specimens of a design required to be furnished to the registrar on an application for registration is increased (rules 17 and 18);
- (e) a single, standard certificate of registration of a design is introduced (rule 32 and Schedule 2);
- (f) provision is made for the issue by the registrar of copies of certificates of registration of designs in additional circumstances (rule 33);
- (g) new provisions are included relating to when designs are to be regarded as “new” (rules 34 and 35);
- (h) new provisions are included relating to the extension of the duration of the rights in registered designs, including provision for the sending of “reminders” by the registrar and for the restoration of lapsed rights (rules 38 to 41);
- (i) the requirement to produce to the registrar the originals of deeds of assignment or mortgage and various other documents relating to dealings in rights in registered designs is removed;
- (j) a request for the alteration or correction of an address or address for service is now required to be made in writing but not on a specific Form (rule 46);
- (k) a request under section 21 of the 1949 Act for the correction of an error can now be made by any “person interested” and not just by an applicant for the registration, or the registered proprietor, of a design (rule 47);
- (l) the requirement that a party wishing to be heard by the registrar in proceedings for a compulsory licence under section 10 of the 1949 Act or for the cancellation of the registration of a design under section 11(2) or (3) of the 1949 Act must file a Form is replaced by a requirement that he must give notice in writing to the registrar (rule 57(2));
- (m) provision is made for the making of applications to settle the terms of licences of right (rule 59);
- (n) as a consequence of the amendment of section 30 of the 1949 Act provision for the awarding of costs by the registrar and the requiring of security for costs is now made in the Rules rather than in the 1949 Act (rules 60 and 61);

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (o) as a consequence of the amendment of section 31 of the 1949 Act certain provisions relating to evidence in proceedings before the registrar are now contained in the Rules rather than in the 1949 Act (rule 62);
- (p) provision is made for the appointment by the registrar of advisers to assist him in proceedings before him (rule 66);
- (q) provision is made for the inspection of the register and other material by the public (rule 67);
- (r) the circumstances in which time periods for filing documents can be extended are expanded (rule 76);
- (s) certain Forms have been amalgamated to produce Forms 2A, 9A, 12A and 25A; Forms 29, 30 and 31 are introduced (Schedule 1).

Fees and the address of the Patent Office are prescribed in separate sets of rules.
