**1989 No. 2233**

**CONSUMER PROTECTION**

**The Cosmetic Products (Safety) Regulations 1989**

*Made* - - - - *29th November 1989*  
*Laid before Parliament* *6th December 1989*  
*Coming into force*  
*(except as provided in*  
*regulation 1)* *1st January 1990*

Whereas the Secretary of State has, in accordance with section 11(5) of the Consumer Protection Act 1987<sup>(1)</sup>, consulted such organisations as appear to him to be representative of interests substantially affected by these Regulations, such other persons as he considers appropriate and the Health and Safety Commission:

And whereas the Secretary of State is a Minister designated<sup>(2)</sup> for the purposes of section 2 of the European Communities Act 1972<sup>(3)</sup> in relation to measures for safety and consumer protection as respects cosmetic products and any provisions concerning the composition, labelling, marketing, classification or description of cosmetic products and in relation to indication of origin on imported goods:

Now, therefore, the Secretary of State in exercise of powers conferred on him by sections 11, 28 and 30 of the said Act of 1987 and by section 2 of the said Act of 1972 and of all other powers enabling him in that behalf hereby makes the following Regulations:—

**Citation, commencement and revocation**

1.—(1) These Regulations may be cited as the Cosmetic Products (Safety) Regulations 1989 and except as provided by paragraphs (2) to (5) below shall come into force on 1st January 1990.

(2) Regulation 4(2) and Schedule 1, in so far as they relate only to entry numbers 37, 38, 47 (cross-referenced in column 3 with entry number 496) and 87 and to entry numbers 247, 558 and 680 (cross-referenced in column 3 with entry numbers 351, 454 and 132 respectively) in that Schedule, regulation 4(3) and Part I of Schedule 2, in so far as they relate only to entry number 52 in that Part, and regulation 4(5) and Part I of Schedule 4, in so far as they relate only to entry number 40 and the deletion of entry number 6 in that Part, shall come into force—

---

(1) 1987 c. 43.

(2) S.I. 1972/1811, 1975/1707.

(3) 1972 c. 68.

- (a) on 1st January 1990 in relation to the supply of cosmetic products by the manufacturer in or importer into the United Kingdom or, in the case of cosmetic products manufactured or imported into the United Kingdom on behalf of another person, by that other person, except where the cosmetic products are supplied by retail in which case they shall come into force on 1st January 1991; and
- (b) in all other cases, on 1st January 1991.
- (3) Regulation 4(3) and Schedule 2, in so far as they relate only to entry numbers 53 and 54 in Part 1 of Schedule 2, regulation 4(4)(a)(i) and Part I of Schedule 3, in so far as they relate to the deletion of colouring agent 13065, and regulation 4(5) and Part II of Schedule 4, in so far as they relate to the deletion of entry numbers 7 to 10, 14, 18, 22 and 24 in that Part, shall come into force—
- (a) on 1st January 1990 in relation to the supply of cosmetic products by the manufacturer in or importer into the United Kingdom or, in the case of cosmetic products manufactured or imported into the United Kingdom on behalf of another person, by that other person, except where the cosmetic products are supplied by retail in which case they shall come into force on 1st January 1992; and
- (b) in all other cases, on 1st January 1992.
- (4) Regulation 4(3) and Part II of Schedule 2, in so far as they relate only to entry number 1 in that Part, regulation 4(4) and Part II of Schedule 3, in so far as they relate only to the deletion of entry numbers 15800, 19120, 20470, 21115, 42170, 45190, 47000, 73905 and 75660 and the requirement in column 4 relating to entry number 42535 in that Part, regulation 4(5) and Part I of Schedule 4, in so far as they relate only to the requirement in column 4 relating to entry number 39 in that Part, and Part II of Schedule 4, in so far as they relate only to entry number 26 and the deletion of entry numbers 1, 3, 5, 19 and 25 in that Part, and regulation 4(6)(a)(ii) and Part II of Schedule 5 shall come into force—
- (a) on 1st January 1991 in relation to the supply of cosmetic products by the manufacturer in or importer into the United Kingdom or, in the case of cosmetic products manufactured or imported into the United Kingdom on behalf of another person, by that other person, except where the cosmetic products are supplied by retail in which case they shall come into force on 1st January 1993; and
- (b) in all other cases, on 1st January 1993.
- (5) Regulation 6 shall come into force—
- (a) on 1st January 1992 in relation to the supply of cosmetic products by the manufacturer in or importer into the United Kingdom or, in the case of cosmetic products manufactured or imported into the United Kingdom on behalf of another person, by that other person, except where the cosmetic products are supplied by retail in which case it shall come into force on 1st January 1994; and
- (b) in all other cases on 1st January 1994.
- (6) Subject to paragraph (7) below, the Regulations specified in Schedule 7 are hereby revoked:
- (7) The notes in Schedules 3 and 4 shall apply.

## Interpretation

2.—(1) In these Regulations—

“the Directive” means Council Directive No. [76/768/EEC](#)(4) as amended by Council Directive No. [82/368/EEC](#)(5), Commission Directive No. [82/147/EEC](#)(6), Commission

---

(4) O.J. No. L262, 27.9.76, p. 169.

(5) O.J. No. L167, 15.6.82, p. 1.

(6) O.J. No. L63, 6.3.82, p. 26.

Directive No. [83/191/EEC\(7\)](#), Commission Directive No. [83/341/EEC\(8\)](#), Council Directive No. [83/574/EEC\(9\)](#), Commission Directive No. [83/496/EEC\(10\)](#), Commission Directive No. [84/415/EEC\(11\)](#), Commission Directive No. [85/391/EEC\(12\)](#), Commission Directive No. [86/179/EEC\(13\)](#), Commission Directive No. [86/199/EEC\(14\)](#), Commission Directive No. [87/137/EEC\(15\)](#), Commission Directive No. [88/233/EEC\(16\)](#), Council Directive No. [88/667/EEC\(17\)](#) and Commission Directive No. [89/174/EEC\(18\)](#);

“cosmetic product” means any substance or preparation intended to be applied to any part of the external surfaces of the human body (that is to say, the epidermis, hair system, nails, lips and external genital organs) or to the teeth or buccal mucosa wholly or mainly for the purpose of cleaning, perfuming or protecting them or keeping them in good condition or changing their appearance or combating body odour or perspiration except where such cleaning, perfuming, protecting, keeping, changing or combating is wholly for the purpose of treating or preventing disease;

“cosmetic product intended to come into contact with the mucous membranes” means a cosmetic product intended to be applied in the vicinity of the eyes, on the lips, in the oral cavity or to the external genital organs, and does not include any cosmetic product which is intended to come into only brief contact with the skin;

“market research experiment” means any activities conducted for the purpose of ascertaining the opinion of persons of—

- (a) any cosmetic product; or
- (b) anything in, on or with which the cosmetic product is supplied; or
- (c) the appearance or any other characteristic of the cosmetic product or any such thing; or
- (d) the name or description under which the cosmetic product is supplied.

A cosmetic product is not the subject of a market research experiment unless—

- (a) any person to whom a cosmetic product is supplied in the course of the experiment is informed, at or before the time at which it is supplied to him, that it is supplied for the purpose of a market research experiment and
- (b) no consideration in money or money’s worth is given by such a person for the cosmetic product or any other cosmetic product supplied to him for comparison.

“preservative” means a substance which is added to a cosmetic product for the primary purpose of inhibiting the development of micro-organisms in that product;

“supply” includes offering to supply, agreeing to supply, exposing for supply and possessing for supply, and cognate expressions shall be construed accordingly; and

“UV filter” means a substance which is added to a sunscreen cosmetic product for the primary purpose of filtering ultra violet rays for the purpose of protecting the epidermis of the user from harmful effects of such ultra violet rays.

(2) References in these Regulations to a numbered regulation or Schedule are references to the regulation or Schedule so numbered in these Regulations.

## General Requirements

3.—(1) Subject to paragraph (2) below, a cosmetic product shall not be liable to cause damage to human health when it is applied under normal conditions of use.

(2) For the purposes of regulation 8, paragraph (1) above shall apply only to the supply by the manufacturer in or importer into the United Kingdom or, in the case of cosmetic products manufactured or imported into the United Kingdom on behalf of another person, by that other person.

## Particular requirements

4.—(1) The following provisions of this regulation are without prejudice to regulation 3 and are subject to regulation 5.

(2) A cosmetic product shall not contain any substance listed in column 2 of Schedule 1:

Provided that no account shall be taken of any such substance which is present only as a trace which could not reasonably have been removed during or after manufacture.

(3) A cosmetic product shall not contain any substance listed in column 2 of Schedule 2 unless the requirements in columns 3, 4, 5 and (in the case of Part II) 7 of that Schedule in relation to that substance are satisfied.

(4) A cosmetic product shall not contain—

(a) any colouring agent listed in columns 1 and 2 of Schedule 3 with the exception of cosmetic products containing colouring agents intended solely to colour hair unless—

(i) the requirements in columns 3 and 4 of Part I of that Schedule in relation to that colouring agent are satisfied; or

(ii) the requirements in columns 3 and 4 of Part II of that Schedule in relation to that colouring agent are satisfied and the cosmetic product in question was supplied on or before the date specified in column 5 of that Part;

(b) any colouring agent which is not listed in that Schedule with the exception of cosmetic products containing colouring agents intended solely to colour hair;

(5) A cosmetic product shall not contain—

(a) any preservative listed in column 2 of Schedule 4 unless—

(i) the requirements in columns 3, 4 and 5 of Part I of that Schedule in relation to that preservative are satisfied; or

(ii) the requirements in columns 3, 4 and 5 of Part II of that Schedule in relation to that preservative are satisfied and the preservative in question is supplied on or before the date specified in column 7 of that Part;

(b) any preservative which is not listed in that Schedule;

(c) any preservative listed in column 2 of Part II of Schedule 4 after the date specified in column 7 of that Part.

(6) A cosmetic product shall not contain—

(a) any UV filter listed in column 2 of Schedule 5 unless—

(i) the requirements in columns 3 and 4 of Part I of that Schedule in relation to that UV filter are satisfied; or

(ii) the requirements in columns 3 and 4 of Part II of that Schedule in relation to that UV filter are satisfied and the UV filter in question is supplied on or before the date specified in column 6 of that Part;

(b) any UV filter which is not listed in that Schedule.

5.—(1) The Secretary of State may authorise the use in a cosmetic product of a particular substance, not being a substance listed in Schedule 1 or 2.

(2) In giving an authorisation the Secretary of State may impose conditions relating to the use of a particular substance in a cosmetic product. The conditions may relate to any matter which the Secretary of State considers appropriate including—

- (a) the purpose of the substance;
- (b) the type of cosmetic product;
- (c) the maximum concentration of the substance in any cosmetic product; and
- (d) information and marking requirements.

(3) The Secretary of State may on reasonable notice vary or revoke any authorisation given under paragraph (1) above.

(4) On giving, varying or revoking an authorisation, the Secretary of State shall arrange for the authorisation, variation or revocation, as the case may be, to be published in such manner as he considers appropriate for bringing it to the attention of persons who, in his opinion, would be likely to have an interest in it.

(5) No person shall be convicted of an offence under section 12 of the Consumer Protection Act 1987 by reason of a cosmetic product's containing a particular substance provided that at the time when but for this regulation an offence would have been committed—

- (a) the use of that particular substance in that cosmetic product was duly authorised; and
- (b) all of the conditions imposed by the authorisation were complied with.

## **Marking**

6.—(1) Subject to the following provisions of this regulation, the container and the outer packaging (if any) in which a cosmetic product is supplied or delivered pursuant to any supply, or a label affixed to the product, the container and the outer packaging, shall bear the following particulars:—

- (a) the name or trade name and the address or registered office of the manufacturer of the product or of a supplier thereof, being a manufacturer or supplier established within a member State of the European Economic Community;
- (b) in the case of a cosmetic product likely within 30 months from the manufacture thereof to cease either to comply with the requirements of regulation 3 or to fulfil the purpose for which it was intended, the words “Best before ... ..” immediately followed by
  - (i) the earliest date on which it is likely to so cease; or
  - (ii) an indication of where that date appears on the labellingand any particular precautions to be observed to ensure that the product does not so cease before that date.
- (c) in the case of a cosmetic product containing a substance listed in column 2 of Schedule 2, the information specified in column 6 of that Schedule in relation to that substance;
- (d) in the case of a cosmetic product containing a preservative listed in column 2 of Schedule 4, the information specified in column 6 of that Schedule in relation to that preservative;
- (e) in the case of a cosmetic product containing a UV filter listed in column 2 of Schedule 5, the information specified in column 5 of that Schedule in relation to that UV filter;
- (f) any particular precautions to be observed in use (not being precautions included in the information referred to in sub-paragraphs (b), (c), (d) and (e) above);

- (g) a means of identifying the batch in which the product was manufactured (or, if the product was not manufactured in a batch, a reference from which the date and place of manufacture can be identified):

Provided that the requirements specified in sub-paragraphs (b) and (g) above need not be complied with in relation to a cosmetic product which is the subject of a market research experiment.

(2) The particulars referred to in sub-paragraphs (a) to (g) of paragraph (1) above shall be in lettering which is visible, indelible and easily legible.

(3) The particulars referred to in sub-paragraph (a) of paragraph (1) above may be abbreviated if such abbreviation does not prevent the person concerned from being identified.

(4) The date referred to in sub-paragraph (b) of paragraph (1) above shall include the month and the year, and the month shall precede the year.

(5) The particulars referred to in sub-paragraphs (b) to (f) of paragraph (1) above shall be in the English language; but this shall not prohibit the additional use of other languages.

(6) The particulars referred to in sub-paragraphs (c) to (f) of paragraph (1) above and any special precautionary information on cosmetic products for professional use, in particular, in hairdressing shall appear on the container or on a label attached thereto: provided that where—

- (a) it is impracticable by reason of the size or shape of the container for the said particulars so to appear, or
- (b) two or more products are supplied together as a single item, each product being in a separate container and the containers being enclosed together in outer packaging which bears clear and conspicuous instructions to the effect that the product must be mixed together in specified proportions before use,

the said particulars shall appear on an enclosed leaflet and an indication shall appear on both the container and the outer packaging (if any) or on a label if attached thereto referring the consumer to the information in the leaflet.

(7) Where it is impracticable, for reasons of size, for the particulars referred to in sub-paragraph (g) of paragraph (1) above to appear on the container and outer packaging, the said particulars shall appear on the packaging in which the product is exposed for supply.

(8) In the case of a supply of soap which is not in a container, either the soap itself or the packaging in which it is exposed for supply or the container in which it was last contained before the supply shall bear the particulars referred to in sub-paragraphs (a) and (g) of paragraph (1) above, and in so far as any of the particulars referred to in sub-paragraphs (b) to (f) of paragraph (1) above are required they shall appear on a leaflet which shall be delivered to the buyer with the soap; and where either of the particulars referred to in sub-paragraphs (a) and (g) of paragraph (1) above appears on the soap itself the requirement of indelibility shall apply only until it has been put into use.

## **Enforcement**

7.—(1) No proceedings for an offence under section 12 of the Consumer Protection Act 1987 in respect of a contravention of regulation 8 by reason of the requirements of regulation 3 being not satisfied shall be brought in England or Wales except by or with the consent of the Secretary of State or the Director of Public Prosecutions and in Northern Ireland except by or with the consent of the Secretary of State or the Director of Public Prosecutions for Northern Ireland.

(2) Regulations 3, 4 and 6 do not apply in any case in which the cosmetic product is supplied for the purposes of exporting that product to any country which is not a member State of the European Economic Community.

(3) Regulation 6(5) does not apply in any case in which the person supplying the cosmetic product reasonably believes that it will not be used in the United Kingdom.

8. Subject to regulations 5 and 7(2) and (3), no person shall supply any cosmetic product in respect of which any of the requirements of regulation 3, 4 or 6 is not satisfied.

9. Any test of goods purchased under section 28, or seized under section 29, of the Consumer Protection Act 1987 (which relates to enforcement) by or on behalf of an enforcement authority for the purpose of ascertaining whether the provisions of these Regulations have been contravened shall in all cases be carried out in accordance with the provisions of paragraphs 2 to 5 of Schedule 6 and any test for which a method is specified in paragraph 6 of that Schedule shall be carried out in accordance with that method.

29th November 1989

## SCHEDULE 1

Regulation 4(2)

## LIST OF SUBSTANCES WHICH COSMETIC PRODUCTS MUST NOT CONTAIN

The alphabetical list set out in column 2 of this Schedule contains one or more of the names of each of the substances referred to in regulation 4(2); in certain cases a name is given of a group of substances, the names of particular examples of which are also given, and in such a case all substances comprised in the group are included, whether or not more specifically named.

The numbers given in columns 1, 3 and 4 are for information only. Those in column 3 are cross-references to other names listed for the same substances (except that where a name is that of a group of substances, the cross-references are to particular examples of that group, and any cross-reference in parenthesis is to the name of a group of substances within which the particular substance falls). Those in column 4 are cross-references to Annex II of the Directive, from which this Schedule is derived.

(1) Number in this Schedule	(2) Name of substance	(3) Cross-reference to this Schedule	(4) Cross-reference to Annex II of the Directive
1	Acenocoumarol (INN)	3	254
2	3-( $\alpha$ -Acetonylbenzyl)-4-hydroxycoumarin and its salts	372, 704	203
3	3-( $\alpha$ -Acetonyl-p-nitrobenzyl)-4-hydroxycoumarin	1	254
4	2-(or $\beta$ -)Acetoxyethyltrimethylammonium hydroxide and its salts	6	2
5	2-Acetylamino-5-chlorobenzoxazole	151	1
6	Acetylcholine and its salts	4	2
7	Acetylene chlorides	227, 702	126
8	Acetylenic alcohols, their esters, ethers and salts	17	16
9	Acetyletyltetramethyltetra- <del>in</del> (AETT)	417	362
10	$\beta$ -(7 $\alpha$ -Acetylthio-17 $\beta$ -hydroxy-3-oxoandrost-4-en-17 $\alpha$ -yl)propionic acid lactone	599	4

710	Zoxazolamine (INN)	29	24

## SCHEDULE 2

Regulations 4(3) and 6(1)

LIST OF SUBSTANCES WHICH COSMETIC PRODUCTS  
MUST NOT CONTAIN EXCEPT SUBJECT TO RESTRICTIONS

In this Schedule, the matters specified in columns 3, 4, 5 and 6 which apply to a particular substance are those set out to the right of its name as mentioned in column 2; and the matters specified in columns 4, 5 and 6 which apply in any particular case are those set out to the right of the matter specified in column 3 which applies in that case. The substance may not be used except for the purposes or contained other than in the types of product specified in column 3. The concentration of the substance in a product may not exceed the limit specified in column 4: where the names of two or more substances are mentioned in a single item as set out in column 2 and a product contains more than one of those substances, the limit specified in column 4 is the limit for all of those substances taken together; and where a product is intended to be mixed with another product in specified proportions before use, the level of concentration shall be calculated by reference to the mixture. Other requirements are specified in column 5. In column 4 of this Schedule, the percentage concentration is measured by reference to mass (m/m) unless a contrary intention appears.

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

## PART I

substances listed in annex iii, part i of the directive as substances which cosmetic products must not contain except subject to the restrictions laid down

(1) Reference Number	(2) Name of substance	(3) Purpose of substance or type of product	(4) Maximum concentration of substance in product	(5) Other requirements	(6) Required information
1	Boric acid	Talcum powder	5 per cent	Not to be used in products intended for children less than three years old	Not to be used for children under three years of age
		Oral hygiene products	0.5 per cent	—	—
		Other products	3 per cent	—	—
2	(a) Thioglycollic acid, its salts and esters	Hair waving or straightening products for general use	8 per cent (calculated as thioglycollic acid) ready for use	pH value 7 to 9.5	Contains thioglycollate. Follow the instructions. Keep out of reach of children. For professional use only (where applicable)
		Hair waving or straightening products for professional use	11 per cent (calculated as thioglycollic acid) ready for use	pH value 7 to 9.5	
		Depilatories	5 per cent (calculated as thioglycollic	pH value 7 to 12.7	

### Combination Rules

- A. Where a cosmetic product contains two or more substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 1.
- B. Where a cosmetic product contains the substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 2; but the concentration of each substance shall not in any event exceed the limit specified for the substance in respect of the product in column 4 above.
- C. The relevant quotient for each substance is the actual concentration of the substance in the product divided by the maximum concentration specified for the substance in respect of the product in Column 4 of this Schedule.

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Reference Number	(2) Name of substance	(3) Purpose of substance or type of product	(4) Maximum concentration of substance in product	(5) Other requirements	(6) Required information
			acid) ready for use		
		Other hair care products which are removed after application	2 per cent (calculated as thioglycollic acid) ready for use	pH value 7 to 9.5  The directions for use drawn up in national or official languages must incorporate the following instructions— Avoid contact with eyes. In the event of contact with the eyes rinse immediately with plenty of water and seek medical advice. Wear suitable gloves (this latter instruction does not apply to Depilatories)	
	(b) Thioglycollic acid esters	Hair waving or straightening products for general use	8 per cent (calculated as thioglycollic acid) ready for use	pH value 6 to 9.5	

**Combination Rules**

- A. Where a cosmetic product contains two or more substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 1.
- B. Where a cosmetic product contains the substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 2; but the concentration of each substance shall not in any event exceed the limit specified for the substance in respect of the product in column 4 above.
- C. The relevant quotient for each substance is the actual concentration of the substance in the product divided by the maximum concentration specified for the substance in respect of the product in Column 4 of this Schedule.

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Reference Number	(2) Name of substance	(3) Purpose of substance or type of product	(4) Maximum concentration of substance in product	(5) Other requirements	(6) Required information
		Hair waving or straightening products for professional use	11 per cent (calculated as thioglycollic acid) ready for use	pH value 6 to 9.5  The directions for use drawn up in national or official languages must incorporate the following instructions —May cause sensitisation in the event of contact with the skin. Avoid contact with eyes. In the event of contact with the eyes rinse immediately with plenty of water and seek medical advice. Wear suitable gloves	
3	Oxalic acid, its esters and alkaline salts	Hair care products	5 per cent	—	For professional use only
4	Ammonia	All purposes and products	6 per cent calculated as NH <sub>3</sub>	—	Contains ammonia (not required when concentration is not more

**Combination Rules**

- A. Where a cosmetic product contains two or more substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 1.
- B. Where a cosmetic product contains the substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 2; but the concentration of each substance shall not in any event exceed the limit specified for the substance in respect of the product in column 4 above.
- C. The relevant quotient for each substance is the actual concentration of the substance in the product divided by the maximum concentration specified for the substance in respect of the product in Column 4 of this Schedule.

*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

(1) Reference Number	(2) Name of substance	(3) Purpose of substance or type of product	(4) Maximum concentration of substance in product	(5) Other requirements	(6) Required information
					than 2 per cent)
5	Tosylchloramide Sodium	All purposes and products	0.2 per cent	—	—
6	Chlorates of alkali metals	Toothpaste Other uses	5 per cent 3 per cent	— —	— —
7	Dichloromethane	All purposes and products	35 per cent (and when mixed with 1,1,1-trichloroethane, total concentration must not exceed 35 per cent)	Purity of the dichloromethane must be not less than 99.8 per cent	—
8	<i>m</i> - and <i>p</i> -Phenylenediamines; their <i>N</i> -substituted derivatives; <i>N</i> -substituted derivatives of <i>o</i> -phenylenediamines	Oxidizing colouring agents for hair dyeing for general use	6 per cent calculated as a free base, subject to the provisions of “Combination Rule A” set out below	—	Contains phenylenediamines. Can cause an allergic reaction. Sensitivity test advisable before use. Do not use to dye eyelashes or eyebrows
		Oxidizing colouring agents for hair dyeing for professional use	6 per cent calculated as a free base, subject to the provisions of “Combination	—	Contains phenylenediamines. For professional use only. Can cause an allergic

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Reference Number	(2) Name of substance	(3) Purpose of substance or type of product	(4) Maximum concentration of substance in product	(5) Other requirements	(6) Required information
					eyelashes or eyebrows
		Oxidizing colouring agents for hair dyeing for professional use	10 per cent calculated as a free base, subject to the provisions of “Combination Rule A” set out below	—	Contains diaminophenols. For professional use only. Can cause allergic reaction. Sensitivity test advisable before use
11	Dichlorophen	All purposes and products	0.5 per cent	—	Contains dichlorophen
12	Hydrogen peroxide	Hair care products preparations	12 per cent of H <sub>2</sub> O <sub>2</sub> (40 volumes)	—	Contains hydrogen peroxide. Avoid contact with eyes. Rinse eyes immediately if product comes into contact with them
		Skin hygiene preparations	4 per cent of H <sub>2</sub> O <sub>2</sub>	—	Contains hydrogen peroxide. Avoid contact with eyes. Rinse eyes immediately if product comes into contact with them

**Combination Rules**

- A. Where a cosmetic product contains two or more substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 1.
- B. Where a cosmetic product contains the substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 2; but the concentration of each substance shall not in any event exceed the limit specified for the substance in respect of the product in column 4 above.
- C. The relevant quotient for each substance is the actual concentration of the substance in the product divided by the maximum concentration specified for the substance in respect of the product in Column 4 of this Schedule.

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Reference Number	(2) Name of substance	(3) Purpose of substance or type of product	(4) Maximum concentration of substance in product	(5) Other requirements	(6) Required information
		Nail hardening preparations	2 per cent of H <sub>2</sub> O <sub>2</sub>	—	Contains hydrogen peroxide. Avoid contact with eyes. Rinse eyes immediately if product comes into contact with them
13	Formaldehyde (See also Part I of Schedule 4)	Nail hardeners	5 per cent	—	Contains formaldehyde. Protect cuticles with grease or oil. (Not required when concentration is not more than 0.05 per cent)
14	Hydroquinone	Oxidizing colouring agent for hair dyeing for general use	2 per cent subject to the provision of “Combination Rule B” set out below	—	Contains hydroquinone. Do not use to dye eyelashes or eyebrows. Rinse eyes immediately if product comes into contact with them
		Oxidizing colouring agent for hair dyeing for	2 per cent subject to the provisions of “Combination	—	Contains hydroquinone. For professional use only.

#### Combination Rules

- A. Where a cosmetic product contains two or more substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 1.
- B. Where a cosmetic product contains the substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 2; but the concentration of each substance shall not in any event exceed the limit specified for the substance in respect of the product in column 4 above.
- C. The relevant quotient for each substance is the actual concentration of the substance in the product divided by the maximum concentration specified for the substance in respect of the product in Column 4 of this Schedule.

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Reference Number	(2) Name of substance	(3) Purpose of substance or type of product	(4) Maximum concentration of substance in product	(5) Other requirements	(6) Required information
		professional use	Rule B” set out below		Rinse eyes immediately if product comes into contact with them
		Agents for localised skin lightener	2 per cent	—	Contains hydroquinone. Avoid contact with eyes. Apply to small areas. If irritation develops discontinue use. Do not use on children under the age of 12
15	Potassium and sodium hydroxide	Nail cuticle solvent	5 per cent calculated as sodium hydroxide	—	Contains alkali. Avoid contact with eyes. Can cause blindness. Keep out of reach of children
		Hair straightener for general use	2 per cent calculated as sodium hydroxide	—	Contains alkali. Avoid contact with eyes. Can cause blindness. Keep out of reach of children

**Combination Rules**

- A. Where a cosmetic product contains two or more substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 1.
- B. Where a cosmetic product contains the substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 2; but the concentration of each substance shall not in any event exceed the limit specified for the substance in respect of the product in column 4 above.
- C. The relevant quotient for each substance is the actual concentration of the substance in the product divided by the maximum concentration specified for the substance in respect of the product in Column 4 of this Schedule.

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Reference Number	(2) Name of substance	(3) Purpose of substance or type of product	(4) Maximum concentration of substance in product	(5) Other requirements	(6) Required information
		Hair straightener for professional use	4.5 per cent calculated as sodium hydroxide	—	For professional use only. Avoid contact with eyes. Can cause blindness
		pH adjuster for depilatories	—	pH value not to exceed 12.7	Keep out of reach of children. Avoid contact with eyes
		Other uses as pH adjuster	—	pH value not to exceed 11	Keep out of reach of children. Avoid contact with eyes
16	$\alpha$ -Naphthol	Colouring agent for hair dyeing	0.5 per cent	—	Contains $\alpha$ - naphthol
17	Sodium nitrite	Rust inhibitor	0.2 per cent	Do not use with secondary and/or tertiary amines or other substances forming nitrosamines	—
18	Nitromethane	Rust inhibitor	0.3 per cent	—	—
19	Phenol and its alkali salts	Soaps and shampoos	1 per cent calculated as phenol	—	Contains phenol

#### Combination Rules

- A. Where a cosmetic product contains two or more substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 1.
- B. Where a cosmetic product contains the substances to which this Combination Rule applies, the concentration in the product of each of those substances shall be such that the sum of the relevant quotients for those substances (as defined in Rule C below) shall not exceed 2; but the concentration of each substance shall not in any event exceed the limit specified for the substance in respect of the product in column 4 above.
- C. The relevant quotient for each substance is the actual concentration of the substance in the product divided by the maximum concentration specified for the substance in respect of the product in Column 4 of this Schedule.

*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

(1) Reference Number	(2) Name of substance	(3) Purpose of substance or type of product	(4) Maximum concentration of substance in product	(5) Other requirements	(6) Required information	(7) Permitted for use until
5	sulphate trihydrate  ENTRY DELETED					

### PART III

substances excluded from the scope of the directive (mentioned in annex v)

(1) Reference Number	(2) Name of substance	(3) Purpose of substance or type of product	(4) Maximum concentration of substance in product	(5) Other requirements	(6) Required information
1	Lead acetate	Hair care products	3 per cent	—	Contains lead acetate. Wash hands after use. Do not use on broken or abraded skin. Keep out of reach of children
2	Thiomersal and phenylmercuric compounds	To preserve concentrated shampoos and hair creams which contain non-ionic emulsifiers which render other preservatives ineffective	0.003 per cent calculated as mercury. When mixed with other mercury compounds the total mercury concentration must not exceed 0.007 per cent	—	—

### SCHEDULE 3

Regulation 4(4)

#### LIST OF COLOURING AGENTS WHICH COSMETIC PRODUCTS MUST NOT CONTAIN EXCEPT SUBJECT TO RESTRICTIONS AND EXCEPT COLOURING AGENTS INTENDED SOLELY TO COLOUR HAIR

In this Schedule the colouring agents referred to in regulation 4(4)(a) are—

- (i) those identified in column 1 either by name or by colour index number (the colour index numbers being those specified in the third edition of The Colour Index published in 1971 by the Society of Dyers and Colourists);
- (ii) lakes or salts of these colouring agents which do not use substances prohibited under Annex II or which are excluded under Annex V from the scope of the Directive.

In the case of colouring agents identified by the addition of (\*) to the name or colour index number, the insoluble barium, strontium and zirconium lakes, salts and pigments of these colouring agents shall also be permitted. They must pass the test for insolubility which will be determined by the procedure laid down in Article 8 of the Directive.

Colouring agents whose number is preceded by the letter “E” in accordance with the EEC Directive of 23 October 1962 on the approximation of the rules of member States concerning foodstuffs and colouring matter<sup>(22)</sup>, as amended,<sup>(23)</sup> and adapted<sup>(24)</sup> must fulfil the purity requirements laid down in those Directives. They continue to be subject to the general criteria set out in Annex III to the 1962 Directive concerning colouring matters where the letter “E” has been deleted therefrom.

### PART I

colouring agents listed in annex iv part 1 (formerly annex iii part 2) of the directive<sup>(25)</sup> as colouring agents which cosmetic products must not contain except subject to the restrictions laid down

#### Field of application

In column 3 of this Schedule, the entry “X” in a sub-column means that the colouring agent must not be used other than as follows—

Sub-column 1=Colouring agents allowed in all cosmetic products;

Sub-column 2=Colouring agents allowed in all cosmetic products except those intended to be applied in the vicinity of the eyes, in particular eye make-up and eye make-up remover;

Sub-column 3=Colouring agents allowed exclusively in cosmetic products except cosmetic products intended to come into contact with the mucous membranes;

Sub-column 4=Colouring agents allowed exclusively in cosmetic products intended to come into contact only briefly with the skin.

(22) O.J. No. 115, 11.11.62, p. 2645.

(23) Council Directives Nos. 65/469/EEC, 67/653/EEC, 68/419/EEC, 70/758/EEC, 76/399/EEC and 78/144/EEC (O.J. Nos. L178, 26.10.65, p. 2793; L263, 30.10.67, p. 4; L309, 24.12.68, p. 24; L157, 18.7.70, p. 36; L108, 26.4.76, p. 19; L44, 15.2.78, p. 20).

(24) Annexes I and VII to the Act of Accession of 22 January 1972, as adjusted by the Council Decision of 1 January 1973 (O.J. No. L2, 1.1.73, p. 1).

(25) See Directives 86/179/EEC, 87/137/EEC, 88/233/EEC, 88/667/EEC, 89/174/EEC.

## PART II

colouring agents listed in annex iv part 2 of the directive(26) as colouring agents which cosmetic products must not contain except subject to the restrictions laid down and where cosmetic product supplied before a certain date

### Field of application

In column 3 of this Schedule, the entry “X” in a sub-column means that the colouring agent must not be used other than as follows—

Sub-column 1=Colouring agents allowed in all cosmetic products;

Sub-column 2=Colouring agents allowed in all cosmetic products except those intended to be applied in the vicinity of the eyes, in particular eye make-up and eye make-up remover;

Sub-column 3=Colouring agents allowed exclusively in cosmetic products intended not to come into contact with the mucous membranes;

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Sub-column 4=Colouring agents allowed exclusively in cosmetic products intended to come into contact only briefly with the skin.

## SCHEDULE 4

Regulations 4(5) and 6(1)

**LIST OF PRESERVATIVES WHICH COSMETIC PRODUCTS  
MUST NOT CONTAIN EXCEPT SUBJECT TO RESTRICTIONS**

In this Schedule, the matters specified in columns 3, 4, 5 and 6 which apply to a particular substance are those set out to the right of its name as mentioned in column 2; and the matters specified in columns 4, 5 and 6 which apply in any particular case are those set out to the right of the matter specified in column 3 which applies in that case. The substance may not be used or contained other than in the types of product specified in column 3. The concentration of the substance, when it is used as a preservative, in a product may not exceed the limit set out in column 4. Where a product is intended to be mixed with another product in specified proportions before use, the level of concentration shall be calculated by reference to the mixture. Other requirements are specified in column 5.

In column 4 of this Schedule, "A" indicates that the concentration of the substance in a product may exceed the limit set out in that column provided that—

- (a) the presence of any excess of the substance in a product over the concentration so set out is not for the primary purpose of inhibiting the development of micro-organisms; and
- (b) the purpose for which any such excess is present in the product is apparent from the labelling of the product.

In this Schedule—

"salts" means salts of the cations sodium, potassium, calcium, magnesium, ammonium and ethanolamines and of the anions chloride, bromide, sulphate and acetate;

"esters" means esters of methyl, ethyl, propyl, isopropyl, butyl, isobutyl and phenyl.

In column 4 of this Schedule, the percentage concentration is measured by reference to mass (m/m) unless a contrary intention appears.

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

All preservative substances containing formaldehyde or any substances named in this Schedule which release formaldehyde must be labelled with the warning “contains formaldehyde” when the concentration of formaldehyde in the final product exceeds 0.05 per cent.

## PART I

preservatives listed in annex vi, part i of the directive(27) as preservatives which cosmetic products may not contain except subject to the restrictions laid down

(1) Reference Number	(2) Name of substance	(3) Purpose of substance or type of product	(4) Maximum concentration of substance in product	(5) Other requirements	(6) Required information
1	Benzoic acid, its salts and esters	All products	0.5 per cent (acid)	— A	—
2	Propionic acid and its salts	All products	2 per cent (acid)	— A	—
3	Salicylic acid and its salts	All products	0.5 per cent (acid)	A	Not to be used in preparations for children under three years of age except for shampoos  Not to be used for children under three years of age (Solely for products which might be used for children under three years of age and which remain in prolonged contact with the skin)
4	Sorbic acid (hexa-2,4- dienoic acid) and its salts	All products	0.6 per cent (acid)	— A	—
5	Formaldehyde and paraformaldehyde	For oral hygiene	0.1 per cent (concentrations expressed as free formaldehyde)	Not to be used in aerosol dispensers (sprays)	—
		Except for oral hygiene (see	0.2 per cent (concentrations		

**a** Note: (1) This entry is deleted with effect from the dates specified in regulation 1(2). Until then the corresponding entry in Part I of Schedule 5 to S.I. 1984/1260 (substituted by Schedule 4 to S.I. 1987/1920) continues in force.

*Status:* This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Reference Number	(2) Name of substance	(3) Purpose of substance or type of product	(4) Maximum concentration of substance in product	(5) Other requirements	(6) Required information

## SCHEDULE 5

Regulations 4(6) and 6(1)

LIST OF UV FILTERS WHICH COSMETIC PRODUCTS MUST  
NOT CONTAIN EXCEPT SUBJECT TO RESTRICTIONS

In this Schedule, the matters specified in columns 3, 4 and 5 which apply to a particular substance are those set out to the right of its name as mentioned in column 2. The concentration of the substance in a product may not exceed the limit specified in column 3. Where a product is intended to be mixed with another product in specified proportions before use, the level of concentration shall be calculated by reference to the mixture. Other requirements are specified in column 4. In column 3 of this Schedule, the percentage concentration is measured by reference to mass (m/m) unless a contrary intention appears.

## PART I

uv filters listed in annex vii, part i, of the directive(29) as uv filters which cosmetic products may not contain except subject to the restrictions laid down

(1) Reference Number	(2) Name of substance	(3) Maximum concentration of substance in product	(4) Other requirements	(5) Required information
1	4-Aminobenzoic acid	5 per cent	—	—
2	<i>N,N,N</i> -Trimethyl-4-(2-oxoborn-3-ylidenemethyl)anilinium methyl sulphate	6 per cent	—	—

(29)

See Directive [83/574/EEC](#).

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Reference Number	(2) Name of substance	(3) Maximum concentration of substance in product	(4) Other requirements	(5) Required information
3	Homosalate (INN)	10 per cent	—	—
4	Oxybenzone (INN)	10 per cent	—	Contains oxybenzone. (Not required when concentration is not more than 0.5 per cent, and when the substance is only intended to protect the product.)
5	3-Imidazol-4- ylacrylic acid and its ethyl ester	2 per cent (expressed as acid)	—	—
6	2- Phenylbenzimidazo- sulphonic acid and its potassium, sodium and triethanolamine salts	8 per cent (expressed as acid)	—	—

## PART II

uv filters listed in annex vii, part 2 of the directive<sup>(30)</sup> as uv filters which cosmetic products may not contain except subject to the restrictions laid down and where supplied before a certain date

(1) Reference Number	(2) Name of substance	(3) Maximum concentration of substance in product	(4) Other requirements	(5) Required information	(6) UV filter supplied until
1	<i>N</i> - Propoxylated ethyl 4— <i>bis</i> aminobenzoate, mixed isomers	5 per cent	—	—	31.12.1991

(30)

See Directives [83/574/EEC](#), [89/174/EEC](#).

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(1) Reference Number	(2) Name of substance	(3) Maximum concentration of substance in product	(4) Other requirements	(5) Required information	(6) UV filter supplied until
2	Ethoxylated ethyl 4-aminobenzoate	10 per cent	—	—	31.12.1991
3	ENTRY DELETED				
4	Glycerol 1-(4-aminobenzoate)	5 per cent	Must not contain any benzocaine (INN)	—	31.12.1991
5	2-Ethylhexyl 4-dimethylaminobenzoate	8 per cent	—	—	31.12.1991
6	2-Ethylhexyl salicylate	5 per cent	—	—	31.12.1991
7–11	ENTRIES DELETED				
12	Isopentyl 4-methoxycinnamate mixed isomers	10 per cent	—	—	31.12.1991
13	2-Ethylhexyl 4-methoxycinnamate	10 per cent	—	—	31.12.1991
14–15	ENTRIES DELETED				
16	2-Hydroxy-4-methoxy-4-methylbenzophenone (Mexenone)	4 per cent	—	Contains Mexenone (Not required when concentration is not more 0.5 per cent and when the substance is only intended to protect the product)	31.12.1991
17	2-Hydroxy-4-methoxybenzophenone (expressed as sulphonic acid and sodium salt (Sulisobenzone	5 per cent	—	—	31.12.1991

*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

(1) Reference Number	(2) Name of substance	(3) Maximum concentration of substance in product	(4) Other requirements	(5) Required information	(6) UV filter supplied until
	and Sulisobenzone sodium)				
18–23	ENTRIES DELETED				
24	$\alpha$ -(2- Oxoborn-3- ylidene)- toluene-4- sulphonic acid and its salts	6 per cent (expressed as acid)	—	—	31.12.1991
25	3-(4- Methylbenzylidene)- d-1-camphor	6 per cent	—	—	31.12.1991
26	3-Benzylidene camphor	6 per cent	—	—	31.12.1991
27	ENTRY DELETED				
28	4-Isopropyl dibenzoylmethane	5 per cent	—	—	31.12.1991
29	4- Isopropylbenzyl salicylate	4 per cent	—	—	31.12.1991
30	ENTRY DELETED				
31	1-(4-tert- Butylphenyl)-3- (4- methoxyphenyl)propane 1,3-dione	5 per cent	—	—	31.12.1991
32	2,4,6- Trianilino- (p-carbo-2' ethylhexyl-1'- oxi)-1,3,5- triazine	5 per cent	—	—	31.12.1991

## SCHEDULE 6

Regulation 9

### SAMPLING AND TESTING

#### 1. In this Schedule—

“Annex A” means the Annex to Commission Directive No. 80/1335/EEC(31), as amended by Commission Directive No. 87/143/EEC(32);

“Annex B” means the Annex to Commission Directive No. 82/434/EEC(33);

“Annex C” means the Annex to Commission Directive No. 83/514/EEC(34);

“Annex D” means the Annex to Commission Directive No. 85/490/EEC(35);

“purchase” means purchase for the purpose of carrying out a test.

2. An enforcement authority intending to purchase a cosmetic product shall purchase a sufficient laboratory sample, as defined in paragraph 2.3 of Part I of Annex A, for the purpose of Annex A; and, for the purposes of the definition of “total sample” in paragraph 2.2 of Part I of Annex A, samples shall be regarded as having the same batch number if:

- (a) the means of identifying the batch referred to in regulation 6(1)(g) above shows that they were manufactured in the same batch; or
- (b) in the case of a product not manufactured in a batch, the reference referred to in regulation 6(1)(g) above shows that they are derived from the same unit of production; or
- (c) in the case of a product which does not comply with the requirements of regulation 6(1)(g) above, the officer effecting the purchase has reasonable cause to believe that they were manufactured in the same batch or are derived from the same unit of production, as the case may be.

3. The immediate container, if any, of a cosmetic product purchased by an enforcement authority shall not have been opened by, on behalf of or at the request of the enforcement authority before the purchase takes place and the container shall not thereafter be opened except in accordance with paragraph 5.3 of Part I of Annex A and paragraph 1.2 of Part II of Annex A.

4. As soon as an enforcement authority has purchased a cosmetic product, the officer effecting the purchase shall—

- (a) either—
  - (i) place a seal on the product’s container or outer packaging, or
  - (ii) place the product in a container and forthwith place a seal on that container, in such a way that the product’s immediate container cannot be opened or (in the case of a product which was not in a container when it was purchased) the product cannot be touched without (in either case) the seal being broken in such a manner that it would be apparent thereafter that it had been broken, and
- (b) attach to the product a label indicating—
  - (i) the name of the product,
  - (ii) the date, time and place at which the product was purchased,
  - (iii) his own name, and
  - (iv) the name of the enforcement authority making the purchase.

(31) O.J. No. L383, 31.12.80, p. 27.

(32) O.J. No. L57, 27.2.87, p. 56.

(33) O.J. No. L185, 30.6.82, p. 1.

(34) O.J. No. L291, 24.10.83, p. 9.

(35) O.J. No. L295, 7.11.85, p. 30.

*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

5.—(1) Subject to sub-paragraph (2) below, the provisions of Part I of Annex A, other than paragraphs 3.1, 3.2 and 4, and of Part II of Annex A, other than paragraph 1.4, shall be complied with in the sampling of cosmetic products and the laboratory preparation of test portions.

(2) Where, because of the way in which a cosmetic product is put up for sale, it is not practicable for Part II of Annex A to be complied with, it shall be prepared for testing in accordance with good analytical practice, and the person so preparing it shall record in writing the method of preparation which he has used.

6.—(1) Any test to determine whether a cosmetic product contains a significant amount of free sodium hydroxide or free potassium hydroxide shall be carried out in accordance with paragraphs 1 to 4 of Part III of Annex A.

(2) Any test to determine the amount of free sodium hydroxide or free potassium hydroxide in a hair straightener product or a nail cuticle solvent product shall be carried out in accordance with paragraphs 1, 2, 3 and 5 of Part III of Annex A.

(3) Any test to determine whether a hair-care product contains oxalic acid or any alkaline salt of oxalic acid or to determine the amount of such a substance in a hair-care product shall, subject to the limitation specified in the second sentence of paragraph 1 of Part IV of Annex A, be carried out in accordance with the said Part IV.

(4) Any test to determine the amount of chloroform in toothpaste shall, subject to the limitation specified in the second sentence of paragraph 1 of Part V of Annex A, be carried out in accordance with the said Part V.

(5) Any test to determine the amount of zinc chloride, zinc sulphate or zinc 4-hydroxybenzenesulphonate by virtue of their zinc contents in a cosmetic product shall be carried out in accordance with Part VI of Annex A and Commission Directive [87/143/EEC\(36\)](#), and shall take into account paragraph 11 of Part VII of Annex A.

(6) Any test to determine whether a cosmetic product contained in an aerosol dispenser or a cream, emulsion, lotion, gel or oil intended to be applied to the skin contains 4-hydroxybenzenesulphonic acid, or to determine the amount of that acid in such a product, shall be carried out in accordance with Part VII of Annex A.

(7) Any test to determine whether a hair-care product contains persulphate, bromate or hydrogen peroxide shall be carried out in accordance with Part A of Part 1 of Annex B.

(8) Any test to determine whether a hair-care product contains barium peroxide shall be carried out in accordance with Part B of Part 1 of Annex B.

(9) Any test to determine the amount of hydrogen peroxide in a hair-care product shall be carried out in accordance with Part C of Part 1 of Annex B.

(10) Any test to determine whether a hair-dye contains any of the oxidation colorants specified in paragraph 1 of Part II of Annex B, or to determine the amount of such a substance in a hair-dye, shall be carried out in accordance with the said Part II.

(11) Any test to determine whether a cosmetic product contains nitrite, or to determine the amount of that substance in a cosmetic product, shall be carried out in accordance with Part III of Annex B.

(12) Any test to determine whether a cosmetic product contains free formaldehyde, or to determine the amount of that substance in a cosmetic product, shall be carried out in accordance with Part IV of Annex B.

(13) Any test to determine the amount of resorcinol in a shampoo or hair lotion shall, subject to the limitation specified in the second sentence of paragraph 1 of Part V of Annex B, be carried out in accordance with the said Part V.

---

(36) O.J. No. L57, 27.2.87, p. 56.

(14) Any test to determine the amount of methanol in relation to ethanol or propan-2-ol in a cosmetic product shall be carried out in accordance with Part VI of Annex B.

(15) Any test to determine the amount of dichloromethane or 1,1,1-trichloroethane in a cosmetic product shall be carried out in accordance with paragraphs 1 to 10 of that part of Annex C which is headed "Determination of dichloromethane and 1,1,1-trichloroethane".

(16) Any test to determine whether a cosmetic product contains quinolin-8-ol or bis(8-hydroxyquinolinium) sulphate, or to determine the amount of such a substance in a cosmetic product, shall be carried out in accordance with paragraphs 1 to 9 of that part of Annex C which is headed "Identification and determination of quinolin-8-ol and bis(8-hydroxyquinolinium) sulphate".

(17) Any test to determine the amount of ammonia in a cosmetic product shall be carried out in accordance with paragraphs 1 to 8 of that part of Annex C which is headed "Determination of ammonia".

(18) Any test to determine whether a cosmetic product contains nitromethane, or to determine the amount of that substance in a cosmetic product, shall be carried out in accordance with paragraphs 1 to 7 of that part of Annex C which is headed "Identification and determination of nitromethane".

(19) Any test to determine whether a hair waving, hair straightening or depilatory product contains mercaptoacetic acid, or to determine the amount of that substance in such a product, shall be carried out in accordance with paragraphs 1 to 6 of that part of Annex C which is headed "Identification and determination of mercaptoacetic acid in hair-waving, hair-straightening and depilatory products".

(20) Any test to determine whether a cosmetic product contains hexachlorophene (INN) shall be carried out in accordance with paragraphs 1 to 7 of Part A of that part of Annex C which is headed "Identification and determination of hexachlorophene".

(21) Any test to determine the amount of hexachlorophene (INN) in a cosmetic product shall be carried out in accordance with paragraphs 1 to 9 of Part B of that part of Annex C which is headed "Identification and determination of hexachlorophene".

(22) Any test to determine the amount of tosylchloramide sodium (INN) in a cosmetic product shall be carried out in accordance with paragraphs 1 to 9 of that part of Annex C which is headed "Quantitative determination of tosylchloramide sodium (INN) (chloramine-T)".

(23) Any test to determine the total amount of fluorine in dental creams shall be carried out in accordance with paragraphs 1 to 8 of that part of Annex C which is headed "Determination of total fluorine in dental creams".

(24) Any test to determine whether a cosmetic product contains organomercury compounds shall be carried out in accordance with paragraphs 1 to 4 of Part A of that part of Annex C which is headed "Identification and determination of organomercury compounds".

(25) Any test to determine the amount of organomercury compounds in a cosmetic product shall be carried out in accordance with paragraphs 1 to 7 of Part B of that part of Annex C which is headed "Identification and determination of organomercury compounds".

(26) Any test to determine the amount of alkali sulphides or alkaline earth sulphides in a cosmetic product shall be carried out in accordance with paragraphs 1 to 8 of that part of Annex C which is headed "Determination of alkali and alkaline earth sulphides".

(27) Any test for the identification and determination of the amount of glycerol 1-(4-aminobenzoate) in a cosmetic product shall be carried out in accordance with that part of Annex D which is headed "Identification and determination of glycerol 1-(4-aminobenzoate)".

(28) Any test to determine the amount of chlorobutanol (INN) in a cosmetic product shall be carried out in accordance with that part of Annex D which is headed "Determination of chlorobutanol".

**Status:** This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

(29) Any test for the identification and determination of the amount of quinine in a cosmetic product shall be carried out in accordance with that part of Annex D which is headed “Identification and determination of quinine”.

(30) Any test for the identification and determination of inorganic sulphites and hydrogen sulphites in a cosmetic product shall be carried out in accordance with that part of Annex D which is headed “Identification and determination of inorganic sulphites and hydrogen sulphites”.

(31) Any test for the identification and determination of chlorates of the alkali metals in a cosmetic product shall be carried out in accordance with that part of Annex D which is headed “Identification and determination of chlorates of the alkali metals”.

(32) Any test for the identification and determination of sodium iodate in a cosmetic product shall be carried out in accordance with that part of Annex D which is headed “Identification and determination of sodium iodate”.

### EXPLANATORY NOTE

*(This note is not part of the Regulations)*

These Regulations consolidate with amendments the Cosmetic Products (Safety) Regulations 1984 as amended. They implement the requirements of Council Directives No. [76/768/EEC](#), as amended the last amendments being Council Directive No. [88/667/EEC](#) and Commission Directive [89/174/EEC](#), and of Commission Directives No. [80/1335/EEC](#), as amended, No. [82/434/EEC](#), No. [83/514/EEC](#) and No. [85/490/EEC](#), relating to cosmetic products, and, as permitted by the Directives, impose certain additional requirements relating to the composition of cosmetic products. The Regulations are made under the Consumer Protection Act 1987 and the European Communities Act 1972.

The last amending Council and Commission Directives which are implemented for the first time by these Regulations–

1. Require that marking information shall, if practicable, be borne on both the internal container and the outer packaging (regulation 6).

2. Prohibit four substances from use in cosmetic products by the addition of their names to Schedule 1 to these Regulations. The substances being Amyl 4-dimethylaminobenzoate, mixed isomers (Padimate A (INN)), Benzoyl peroxide, 2-Amino-4-nitrophenol and 2-Amino-5-nitrophenol (Schedule 1, items 37, 38, 47 (496) and 87).

3. Remove the authority to use oestrone by deleting the exemptions previously given for item 490 of Schedule 1 (Schedule 1, item 490).

4. Remove the need for the requirement that the marking of hair care and soap products containing etidronic acid shall declare the fact (Schedule 2, Part I, item 53).

5. Approve, provisionally and until 31st December 1990, the use of Quinolin-8-ol and bis (8-hydroxyquinolium) sulphate in certain stated types of cosmetics and at concentrations set out (Schedule 2, Part II, item 1).

6. Delete from the list of provisionally approved colouring agents nine formerly allowed colouring agents, extend the authorisation dates for all other provisionally approved colouring agents to 31st December 1989 and limit the use of colouring agent 42535 in hair preparations to a maximum concentration of one hundred parts per million (Schedule 3, Part II).

7. Reduce the permitted concentration for the use of 5-chloro-2-methyl-isothiazol-3(2H) one and 2-methyl-isothiazol-3(2H) one with magnesium chloride and magnesium nitrate as a preservative from 0.003 per cent to 0.0015 per cent (Schedule 4, Part I, item 39).

8. Permit the use on a provisional basis, and until 31st December 1991, of Glutaraldehyde as a preservative (Schedule 4, Part II, item 26).

9. Remove five provisionally approved preservatives and extend the allowed use of four others to 31st December 1989 (Schedule 4, Part II, items 1, 3, 4, 5, 15, 16, 19, 20 and 25).

10. Reissue the list of currently provisionally approved ultra violet filters and extend their allowed use until 31st December 1991 (Schedule 5, Part 2).

The Colour Index referred to in these Regulations may be obtained from the Society of Dyers and Colourists, PO Box No. 244, 82, Grattan Road, Bradford BD1 2JB.
