**3.—(1)** A charging authority shall in accordance with its schedule of instalments in relation to a financial year pay from its collection fund to its relevant precepting authorities, and transfer from its collection fund to its general fund, such amount as will meet its liabilities for that year.

(2) The requirement in paragraph (1) to make payments or transfers in accordance with a schedule of instalments does not apply where—

(a) a substitute precept or calculation has been issued or made in relation to a financial year, and

(b) that substitute precept or calculation has been issued or made on or after the day of the final instalment to be paid or transferred in accordance with the schedule of instalments in that financial year.

(3) An amount to be paid or transferred by a charging authority in respect of the amount of its liabilities for a financial year shall be paid or transferred—

(a) if the precept or calculation in respect of which that amount is being paid or transferred was issued or made before the end of that financial year, in that financial year, (b) in any other case, as soon as is reasonably practicable after the issue of that precept or making of that calculation.

(4) An amount paid or transferred by a charging authority in respect of the amount of its liabilities for a financial year, whether or not paid or transferred in accordance with a schedule of instalments, shall be treated as discharging those liabilities to the extent of the payment or transfer.

(5) For the purposes of paragraph (4), an amount paid or transferred which—

(a) was treated in accordance with that paragraph as discharging a charging authority’s liabilities, but which (b) was subsequently repaid or credited by the relevant precepting authority concerned under section 71(6) of the Act, or transferred under regulation 9, shall, to the extent of the amount so repaid or credited, or transferred under regulation 9, cease to be treated as discharging those liabilities.

(6) The references in paragraphs (1) and (2) to an authority’s schedule of instalments are references to the schedule of instalments determined by the authority in accordance with regulation 4, or where the authority has amended its schedule in accordance with regulation 6, to its schedule of instalments as it currently has effect. (3) A charging authority shall not determine a schedule of instalments under regulation 4 within 21 days of informing each relevant precepting authority under paragraph (1) of the schedule of instalments which it proposes to determine.

#### **Amendment of schedules of instalments for principal authorities**

6.—(1) A charging authority may, with the agreement of the county precepting authority, from time to time amend a schedule of instalments insofar as it relates to future payments, and any such amendment shall have effect from such time as is specified in the amendment.

(2) The power under paragraph (1) to amend a schedule of instalments does not extend to the amendment of any provision insofar as it relates to relevant community councils.

(3) An amended schedule of instalments shall satisfy the requirements of paragraphs 1 to 5 of Schedule 1 to these Regulations. Interest on amount of instalments

7.—(1) A charging authority shall pay interest from its collection fund to a relevant precepting authority in respect of any amount which—

- (a) has become payable to that precepting authority in accordance with a schedule of instalments, but
- (b) has not been so paid.

(2) Interest shall be payable under paragraph (1) on the amount outstanding for every day of the period beginning with the day on which the amount was due to be paid and ending with the day before the day on which it is paid.

8.—(1) Interest payable under regulation 7 in respect of an amount outstanding shall be calculated at the rate which is 2 per cent above the highest base rate quoted by members of the Committee of London and Scottish Bankers at any time in the period for which that interest is payable.

(2) The interest shall be paid at the same time as the amount outstanding is paid.

#### **Calculations under section 95(4) of the Act**

9. Where—

- (a) a charging authority has made a substitute calculation under section 95(4) of the Act(2) in relation to a financial year, and
- (b) an amount transferred under section 97 of the Act from that authority's collection fund to its general fund in relation to that financial year would not have been so transferred had the result of the immediately preceding calculation in relation to that year been the same as that of the substitute calculation, that authority shall, as soon as is reasonably practicable after making that substitute calculation, transfer from its general fund to its collection fund the amount which would not have been so transferred.

---

(2) Section 95 was amended by the Local Government and Housing Act 1989 (c. 42), Schedule 5, paragraph 63.
