**1990 No. 2179**

**The Building Standards (Scotland) Regulations 1990**

**PART II**

**BUILDING STANDARDS**

**Drainage and sanitary facilities**

**24.—(1)** A building shall be provided with a drainage system sufficient to ensure hygienic disposal of discharges from the building.

(2) In this regulation “discharges” includes effluents, used water and the run-off of rainwater from roofs and other exposed surfaces of the building.
