

SCHEDULE 4

LIFERAFTS

PART II

OPEN REVERSIBLE LIFERAFTS

Liferaft Fittings

3.10 Where appropriate the equipment shall be stowed in a container which, if it is not an integral part of, or permanently attached to the liferaft, shall be stowed and secured to the liferaft and be capable of floating in water for at least 30 minutes without damage to its contents. The line which secures the equipment container to the liferaft shall have a breaking strain of 2 kN or a breaking strain of 3:1 based on the mass of the complete equipment pack, whichever is the greater.
