EXPLANATORY NOTE

(This note is not part of the Regulations)

1. These Regulations re-enact with modifications the provisions of the Motor Vehicles (Type Approval and Approval Marks) (Fees) Regulations 1993.
2. The Regulations prescribe the fees payable for the examination of vehicles and vehicle parts, the examination of complete vehicles and the issue of documents in connection with—
 - (a) the type approval of vehicles and vehicle parts and the authorisation of the application of approval marks to vehicles and vehicle parts for the purposes of Community Instruments or ECE Regulations; and
 - (b) the national scheme for the type approval of vehicles and vehicle parts established under sections 54 to 66 of the Road Traffic Act 1988, the Motor Vehicles (Type Approval) (Great Britain) Regulations 1984 ([S.I. 1984/981](#)) and the Motor Vehicles (Type Approval for Goods Vehicles) (Great Britain) Regulations 1982 ([S.I. 1982/1271](#)).
3. In addition the Regulations prescribe the fees payable for—
 - (a) the examination of premises with a view to their being approved for the purposes of carrying out examinations in accordance with a type approval scheme, a Community Instrument or an ECE Regulation; and

(b) advising a manufacturer whether his arrangements for securing conformity of production are likely to be accepted by the Secretary of State.

4. In addition to minor drafting changes, the Regulations make the following changes of substance.

5. The principal changes relate to the fee amounts but these changes do not result in an overall percentage increase. However, some fees are increased, some are reduced and some remain the same.

6. An additional charge is introduced for work carried out in the U.S.A., Canada or Mexico by a person who is resident in the U.S.A. and acting for or on behalf of the Secretary of State.

7. The introduction of new or amended ECE Regulations and new Community Instruments means that—

(a) certain new fees relating to vehicle noise, protective steering of passenger cars and electrical power connections of agricultural vehicles have been added to Schedule 1; and

(b) alternatives to existing ECE Regulations or Community Instruments in relation to external projections, speed limiters, fuel consumption, exhaust emissions, braking devices, side rear and stop lamps, controls tell-tales and indicators, anti-theft devices and identification of controls—

appear for the first time.

8. Copies of the ECE Regulations and Community Instruments referred to in these Regulations may be obtained from Her Majesty's Stationery Office.
