

SCHEDULE 10

LABELLING AND HEALTH MARKING

PART I

LABELLING

1. In addition to the health mark requirements specified in Part II of this Schedule, the occupier of the dairy establishment shall ensure that the packaging of heat-treated milk and liquid milk-based products shall display visibly and legibly the following particular for control purposes—

- (a) the nature of the heat-treatment applied to the milk;
- (b) an indication, which may be in code, enabling the date of the last heat-treatment referred to in sub-paragraph (a) above to be established; and
- (c) in the case of pasteurised milk, the temperature at which the product shall be stored.

2. The particulars specified in paragraph 1 above need not appear on re-usable glass bottles referred to in regulation 27 of the Food Labelling Regulations 1984⁽¹⁾.

3. Without prejudice to the provisions of the Food Labelling Regulations 1984, the labelling must show clearly for inspection purposes the following particulars—

- (a) the words “raw milk” for raw drinking milk intended for direct human consumption;
- (b) the words “made with raw milk” for milk-based products manufactured from raw milk whose manufacturing process does not include thermisation or heat-treatment;
- (c) in the case of milk-based products other than those referred to in sub-paragraph (b) above, the nature of any heat-treatment applied at the end of the manufacturing process; or
- (d) for milk-based products in which the growth of micro-organisms can occur, the use-by or minimum durability date.

(1) S.I.1984/1305, the relevant amending instrument is S.I. 1990/2488.
