EXPLANATORY NOTE

(This note is not part of the Order)

This Order, which comes into force on 1st September 1996, fixes the amounts of the tolls to be paid to use the Dartford-Thurrock Crossing.

The classes of vehicles in respect of which tolls may be levied under the Dartford-Thurrock Crossing Act (“the Act”) are those established by the Dartford Tunnel Tolls (Revision) Order 1983. As in previous years, a toll is levied in respect of all classes except that comprising bicycles which are not mechanically powered.

For each class of vehicle in respect of which a toll is levied, the amount of the toll has been calculated, in accordance with section 17(5) of the Act, by increasing the amount applicable in the case of that class on 1st January 1986 by the same percentage as the percentage increase in the retail prices index between December 1985 and June 1996 which is the base month in relation to the revision date in question. The percentage increase is 59.3% and after applying the rounding provisions in section 17(6) of the Act results in an increase in tolls as follows: —

for each motor car, including motor car with three wheels, or taxi up to 1524kg (30cwts) unladen weight, of 10 pence (from 90p to £1).

The tolls for all other classes of vehicle in respect of which tolls are leviable remain at the level prescribed by the Dartford-Thurrock Crossing Tolls Order 1995. That Order is now revoked.
