

SCHEDULE 2

REQUIREMENTS FOR WATER FITTINGS

Water for outside use

30. Every pipe which conveys water to a drinking vessel for animals or poultry shall be fitted with—

- (a) a float-operated valve, or some other no less effective device to control the inflow of water, which is—
 - (i) protected from damage and contamination; and
 - (ii) prevents contamination of the water supply; and
- (b) a stopvalve or servicing valve as appropriate.

31. Every pond, fountain or pool shall have an impervious lining or membrane to prevent the leakage or seepage of water.

Changes to legislation:

There are currently no known outstanding effects for the The Water Supply (Water Fittings) Regulations 1999, Cross Heading: Water for outside use.
