 - (ii) to any controlled entity as if it were food which failed to comply with food safety requirements,

save that each reference to human consumption shall be taken as a reference to animal consumption, that where a notice under subsection (3)(a)(i) is given in relation to a live creature, the notice is to relate to material which may come to be derived from the live creature, that subsection (6) thereof shall apply in relation to the destruction or disposal of a live creature so as to prevent any material which may come to be derived from it from being used for animal consumption and that a justice of the peace shall decline to condemn any creature, product or material falling within sub-paragraph (b) above under subsection (6) thereof if and only if it is proved to him that it does not comprise a controlled entity or is to be returned to Belgium as specified in regulation 2(1)(c) of these Regulations.

(2) The following provisions of the Act shall apply, subject to paragraph (3) below, for the purposes of these Regulations and any reference in those provisions to the Act shall be construed for the purposes of these Regulations as a reference to these Regulations—

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations, which apply to England and Wales, revoke, and re-enact with certain changes, the Animal Feedingstuffs from Belgium (Control) (England and Wales) (No. 2) Regulations 1999 (S.I.1999/2333 “the revoked Regulations”) and implement in England and Wales, in relation to products for animal feeding, Commission Decision 1999/640/EC on protective measures with regard to contamination by dioxins of certain products of porcine and poultry origin intended for human or animal consumption (OJ No. L253, 28.9.1999, p.19).

Like the revoked Regulations, these Regulations define ‘controlled entity’ (regulation 1(2)), prohibit (subject to exceptions (regulation 2)) the carrying out of specified operations in relation to them (regulation 3), specify the enforcement authorities (regulation 4) and apply with modifications provisions of the Food Safety Act 1990 (regulation 5).

In addition to making minor changes to the revoked Regulations, these Regulations, by referring to Decision 1999/640/EC, make the following changes of substance—

- (a) they narrow the coverage of the revoked Order in that—
 - (i) they do not apply to bovine animals, but only to pigs and poultry, and
 - (ii) in relation to the categories of product derived from pigs and poultry to which they apply, they exclude certain material from the category “meat products and other products of animal origin”;
- (b) as a consequence of the fact that products of bovine animals are no longer controlled, they remove the exclusion of milk fat previously contained in the category “products intended for human consumption which contain other products of porcine or poultry origin, which contain more than 2% of animal fat”;
- (c) the controls in them apply irrespective of whether, in the case of poultry, pigs and eggs, these were reared/produced in holdings placed under restriction by Belgian authorities or, in the case of products derived from poultry or pigs, whether the animals concerned were so reared;
- (d) they reflect changes (consequential on the changes referred to in (a) to (c) above) to the certification requirements for the importation from Belgium of animals and animal products controlled by these Regulations, including the fact that there are no longer any conditions restricting the issue by Belgium of such certification, and
- (e) because those conditions no longer apply, they reflect the fact that the return of products to Belgium, in accordance with procedures set out in Article 5 of Decision 1999/640/EC, is now again permitted.
