Designation of other UK qualified entities

4.—(1) On application to him in writing, supported by such evidence as he may require, the Secretary of State may designate any organisation whose purpose is to protect the collective interests of consumers included in the Directives as an other UK qualified entity where he considers that the organisation meets the criteria in paragraph (2) below.

(2) The criteria are—

- (a) that the organisation is so constituted, managed and controlled as to be expected to act independently, impartially and with complete integrity;
- (b) that the organisation has demonstrated the ability to protect the collective interests of consumers included in the Directives by promoting high standards of integrity and fair dealing in the conduct of business in relation to such consumers;
- (c) that the organisation is ready and willing to co-operate, by the sharing of information and otherwise, with the Director, other qualified entities and any other authority, body or person having responsibility for the regulation of the matters covered by these Regulations.

(3) An organisation shall not be regarded as failing to meet the criterion set out in paragraph (2) (a) above by reason only of a connection with a person carrying on business of a kind that could be affected, directly or indirectly, by action taken under these Regulations so long as that person does not control the organisation and any profits of the business are used for the purpose mentioned in paragraph (2)(b) above.

(4) A designation under this regulation may be for all purposes under these Regulations or in relation only to particular types of Community infringement and shall be published in such manner as appears to the Secretary of State best calculated for bringing it to the attention of persons who may be concerned.

(5) At the request of an organisation designated under this regulation the Secretary of State shall communicate to the European Commission that the organisation is qualified to bring proceedings under these Regulations and the name and purpose of the organisation.

(6) The Secretary of State may withdraw or amend a designation under this regulation at the request of an organisation or if it no longer appears to him that the organisation meets the criteria in paragraph (2) above generally or in relation to particular types of Community infringement.

(7) Where a designation is withdrawn or amended under paragraph (6) above the Secretary of State shall publish the withdrawal or amendment in accordance with paragraph (4) and, if he has communicated to the European Commission under paragraph (5) above, he shall make a further communication accordingly.

Proceedings in other Member States and Co-operation with Community qualified entities

5.—(1) The Director and any public UK qualified entity shall have all necessary powers—

- (a) to enable them to bring proceedings under the provisions corresponding to these Regulations in any other Member State;
- (b) to bring proceedings in the United Kingdom on behalf of any Community qualified entity.

(2) Without prejudice to the generality of paragraph (1) above, the Director, any public UK qualified entity and any organisation in relation to which a communication has been made under regulation 4(5) above may enter into arrangements to share information with each other and with any Community qualified entity (whether or not he or it would otherwise be entitled to disclose it)

and generally to co-operate with any such entity for the purpose of bringing proceedings under these Regulations or the provisions corresponding to them in any other Member State.

Advice and information

6.—(1) As soon as is reasonably practicable after the making of these Regulations, the Director must prepare and publish advice and information with a view to—

(4) Any advice or information published by the Director under this regulation is to be published in such form and in such manner as he considers appropriate.

(5) If the Director is preparing any advice or information under this regulation he must consult such persons as he considers representative of persons affected by these Regulations.

(6) If the proposed advice or information relates to a matter in respect of which a public UK or other UK qualified entity may act, those consulted must include that qualified entity.

Co-ordination

7.—(1) If more than one of the Director, any public or other UK qualified entity are contemplating bringing proceedings under these Regulations the Director may, in any particular case, direct which of these entities is to bring such proceedings or that only he may do so.

(2) Where the Director directs that only he may bring such proceedings he may take into account whether cessation of the infringement could be achieved by other means in deciding whether or not to bring proceedings.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations implement Directive [98/27/EC](#) of the European Parliament and of the Council of 19 May 1998 on injunctions for the protection of consumers' interests, referred to in the Regulations as the "Injunctions Directive" (OJ No L166, 11.6.98, p.51).

The Regulations apply to any act contrary to a provision in certain EC consumer protection directives as transposed into the legal order of a Member State and which harms the collective interests of consumers. For the purpose of these Regulations these acts are defined as "Community infringements". The ten relevant directives, which cover a wide range of consumer protection measures, are listed in Schedule 1. The Regulations also contain a non-exhaustive list of the United Kingdom legislation which, for the purposes of the definition of "Community infringement", are to be regarded as transposing the ten EC directives into the United Kingdom legal order (regulation 2(3)).

The Regulations provide that the provisions of Schedule 2 have effect in place of the corresponding provisions in Part III of the Fair Trading Act 1973 (the “Act”) in relation to Community infringements (regulation 3). The existing provisions of Part III provide a means of dealing with traders who persist in a course of conduct which breaches the constraints imposed by civil or criminal law, in a way which is detrimental to the interests of consumers. Under section 35 of the Act the Director General of Fair Trading can apply for an order that the trader refrain from carrying on that course of conduct.

Schedule 2 provides that the Director General of Fair Trading and any qualified entity have the power to bring proceedings under section 35 of the Act in relation to any Community infringement. In addition to widening the range of bodies who may bring proceedings under section 35 of the Act, it displaces the existing requirement that before bringing proceedings under this section the Director General must first use his best endeavours to obtain a satisfactory written assurance from the trader that he will refrain from continuing that course of conduct or a similar one.

Except where the Director General considers that circumstances justify proceedings being brought immediately, qualified entities must first consult both the Director General and the trader and give the latter the opportunity to stop the infringement without the need for court action. If the infringement is not stopped within two weeks after the request for consultation is received, the qualified entity may bring proceedings without further delay.

Where the relevant Court is satisfied that the trader has engaged in conduct which constitutes a Community infringement or is likely to do so, the court may make an order (including an interim order) under section 37 of the Act. The order, to be known as a Stop Now Order, must require the trader to stop the infringement or not to engage in the conduct which would constitute an infringement. In addition, the court may, where appropriate, order the publication of the decision to make the order (in full or in part) and/or the publication of a corrective statement with a view to eliminating effects of the infringement.

The Regulations identify three categories of qualified entities: “public UK qualified entities” listed in Schedule 3 to the Regulations (statutory regulators and trading standards departments); “other UK qualified entities”; and “Community qualified entities.”

“Community qualified entities” are defined as entities from other Member States which are listed in the Official Journal of the European Communities under Article 4.3 of the Injunctions Directive.

“Other UK qualified entities” are private consumer organisations meeting objective criteria set out in regulation 4(2) who have been designated for this purpose by the Secretary of State. Private consumer organisations may be designated for all purposes under these Regulations or in relation only to particular types of Community infringement. The names of other UK qualified entities are to be published in a manner that appears to the Secretary of State best calculated for bringing it to the attention of persons who may be concerned. At the request of an other UK qualified entity, the Secretary of State is required to notify the European Commission that it should be added to the list of bodies qualified to bring proceedings which is published in the Official Journal (regulation 4).

The Regulations empower the Director General and public UK qualified entities to bring proceedings in other Member States and to bring proceedings in the UK on behalf of Community qualified entities. The Director General, public UK qualified entities and other UK qualified entities on the Official Journal list may co-operate with each other and with Community qualified entities for the purpose of bringing proceedings under these Regulations or in other Member States (regulation 5).

The Director General is required to publish advice and information concerning the operation of the Regulations (regulation 6). If more than one of the Director General, any public or other UK qualified entity are contemplating bringing proceedings under these Regulations against a particular trader, the Director General may direct which entity may bring proceedings, or that only he may do so. Where the Director General directs that only he may bring proceedings he may take into account whether the infringement could be stopped by other existing means (regulation 7).

A Regulatory Impact Assessment of the costs and benefits which will result from these Regulations has been prepared by the Department of Trade and Industry and is available from Consumer Affairs Directorate, Department of Trade and Industry, Room 407, 1 Victoria Street, London SW1H 0ET (Telephone 020 7215 0341). Copies have been placed in the libraries of both Houses of Parliament.
