

SCHEDULE 3

(Annex III to the high-speed Directive) ESSENTIAL REQUIREMENTS

Requirements specific to each subsystem

2.4.3 Technical compatibility

The electrical equipment must be compatible with the operation of the control and command and signalling installations.

The characteristics of the current-collection devices must be such as to enable trains to travel under the energy-supply systems for the trans-European high-speed rail system.

The characteristics of the rolling stock must be such as to allow it to travel on any line on which it is expected to operate.
