

SCHEDULE 2

Information to be included in applications for consent to release or market organisms other than genetically modified higher plants

PART III

Information relating to the conditions of release

The release

34. The description of the proposed deliberate release, including the initial purpose or purposes of the release and any intention to use the genetically modified organism as or in a product in the future.
35. The intended dates of the release and time planning of the experiment including frequency and duration of releases.
36. The preparation of the site before the release.
37. The size of the site.
38. The method or methods to be used for the release.
39. The quantity of organisms to be released.
40. The disturbance on the site, including the type and method of cultivation, and mining, irrigation or other activities.
41. The worker protection measures taken during the release.
42. The post-release treatment of the site.
43. The techniques foreseen for elimination or inactivation of the organisms at the end of the experiment or other purpose of the release.
44. Information on, and the results of, previous releases of the organisms, and in particular, releases on a different scale or into different ecosystems.
