[<sup>F2</sup>(1A) Basic material of *Pinus pinaster* Ait. may be categorised as “qualified” if the requirement in Schedule 4, paragraph (1)(c) is not met, in accordance with [Commission Regulation \(EC\) No. 69/2004](#) authorising derogations from certain provisions of Council Directive 1999/105/EC in respect of the marketing of forest reproductive material derived from certain basic material.]

(2) In these Regulations “the relevant Schedule” refers, in respect of each category of forest reproductive material described in sub-paragraphs (1)(a) to (d), to the Schedule referred to in the sub-paragraph in which the category is described.

### Approval of basic material for use in the production of forest reproductive material

7.—(1) [F15The appropriate authority] may approve basic material where, subject to paragraphs (2) to (4), they are satisfied that it meets the requirements set out in at least one of Schedules 2 to 5 and in the case of basic material in the form of clones and clonal mixtures, they may give approval which lasts for a specified number of years or to a specified maximum level of production.

(2) [F15The appropriate authority] may give approval (“conditional approval”) lasting for a period of up to ten years in respect of basic material under paragraph (1) for the production of forest reproductive material categorised pursuant to regulation 4(1)(d) as “tested” notwithstanding the absence of concluded genetic evaluation or comparative tests, where [F15the appropriate authority] are satisfied that the provisional results of genetic evaluation or comparative tests referred to in Schedule 5 demonstrate that the basic material is likely to meet the requirements for approval under these Regulations once the genetic evaluation or comparative tests are concluded.

(3) [F15The appropriate authority] may, up to and including 31st December 2012, approve basic material under paragraph (1) for the production of forest reproductive material categorised pursuant to regulation 4(1)(d) as “tested”:

- (a) in the case of forest reproductive material of the species and artificial hybrids not previously controlled by the 1977 or 1973 Regulations, where concluded comparative test results are obtained using a testing method which does not satisfy the requirements set out in Schedule 5, if such comparative tests begun before 1st January 2003 have shown to the satisfaction of [F15the appropriate authority] that the reproductive material derived from the basic material is superior to the relevant standard as provided for in Schedule 5; and
- (b) where genetic evaluation test results are obtained using a testing method which does not satisfy the requirements set out in Schedule 5, if such genetic evaluation tests begun before 1st January 2003 have shown to the satisfaction of [F15the appropriate authority] that the reproductive material derived from the basic material is superior to the relevant reference population as provided for in Schedule 5.

(4) Basic material consisting of a genetically modified organism shall not be approved under this regulation unless—

- (a) [F15the appropriate authority] are satisfied that it is safe for human health and the environment; and
