(4) If a person falls within paragraph (3) and—

(a) he is also a person falling within sub-paragraph (a)(i) or (ii) of paragraph (1), and he has qualifications in general practice awarded outside the EEA which have been accepted by another EEA State as qualifying him to practise as a general practitioner in that State; or

(b) he has acquired experience or knowledge in general practice, wherever obtained, the Board shall, when considering whether it is satisfied as mentioned in paragraph (3), take account of that acceptance or of that experience or knowledge.

(5) If the Board is not satisfied, having taken into account the matters specified in paragraph (4) (where applicable), that a person’s training, qualifications, or both when considered together are equivalent to a CCT in general practice, the Board shall give reasons as to why it is not satisfied, and, in particular, shall inform the person of—

(a) the period of additional training that the person must undertake, and the fields to be covered by it;

(b) any examination, assessment (including a specified period of assessment) or other test of competence that the person must complete to the Board’s satisfaction, in order to satisfy the Board under paragraph (3).

(6) In respect of any application under paragraph (3), the Board shall notify the applicant of its decision (and, where relevant, of the matters set out in paragraph (5)), in accordance with its duty under article 16(4).

(7) If the Board is satisfied, pursuant to paragraph (3), that a person’s training, qualifications, or both when considered together are equivalent to a CCT in general practice, it shall, if the person so requests, issue to that person a written statement attesting to the fact that the person has satisfied the Board that he is eligible for entry in the General Practitioner Register (“statement of eligibility for registration”).

(8) The Board shall make rules as to the procedure to be followed in relation to and by persons applying to the Board under paragraph (3), including rules as to the evidence it requires in support of such an application.

Acquired rights of general practitioners

12.—(1) For the purposes of article 36(2) of the Directive (requirement for all EEA States to specify the acquired rights that it recognises for the purpose of exercising general medical practice under its national social security scheme without a vocational training certificate), a person has an acquired right to practise as a general practitioner if he falls within one of the categories of persons set out in Schedule 6.

(2) If—

(a) a person is included in the General Practitioner Register under article 10(2)(c) only by virtue of an acquired right under paragraph 1(d) of Schedule 6; or
(b) a restricted services principal is included in the General Practitioner Register only by virtue of paragraph 1(a) of Schedule 6, the Registrar of the GMC shall ensure that the restriction on his right to practise as provided for in article 10(6) or (7) (as appropriate) is indicated in that person’s entry in the General Practitioner Register in such manner as the Registrar thinks fit.

(3) The Board shall, if a person so requests in writing, issue a certificate of acquired rights to him if it is satisfied that he has an acquired right to practise by virtue of Schedule 6.

(4) The Board may make rules as to the procedure to be followed and the evidence it requires in support of a request made by a person under paragraph (3).

The Specialist Register

13.—(1) The GMC shall keep a register of specialists (“the Specialist Register”).

(2) Subject to paragraph (3), the Specialist Register shall contain the names of—
   (a) persons who hold a CCT in a specialty listed in Schedule 3 awarded by the Board; and
   (b) other eligible specialists as specified in article 14.

(3) A person is entitled to have his name included in the Specialist Register if he applies to the Registrar of the GMC for the purpose, paying any fee specified by the GMC in rules, and satisfies the Registrar—
   (a) of his entitlement by virtue of paragraph (2); and
   (b) that he is a registered medical practitioner and, in the case of an oral and maxillo-facial surgeon, that he is also a registered dentist.

(4) The Specialist Register shall indicate—
   (a) the specialty in respect of which each person’s name is included in the register; and
   (b) subject to paragraph (5), where the Board is satisfied that he has a particular expertise in a field within that specialty and he so requests in his application under paragraph (3) or subsequently, the name or a description of that field.

(5) In order to satisfy the Board that he has a particular expertise in a field such that he is entitled to have that expertise indicated in the register under paragraph (4)(b), the person must satisfy the Board that he has satisfactorily completed—
   (a) sub-specialty training in the United Kingdom that is approved by the Board; or
   (b) any other sub-specialty training outside the United Kingdom that the Board is satisfied is equivalent to sub-specialty training approved by the Board.

(6) Subject to paragraph (7), a person may not take up appointment to any post as a consultant in the National Health Service in a specialty, or any more specialised field within such a specialty, unless his name is included in the Specialist Register.

(7) Paragraph (6) does not apply to any person who held a post as a consultant in oral and maxillo-facial surgery in the National Health Service immediately before 1st January 1997.

Specialists eligible for entry in the Specialist Register

14.—(1) A person is an eligible specialist for the purposes of article 13(2)(b) if he was included in the specialist register maintained by the GMC under the ESMQO 1995 immediately before article 13 of this Order came into force, by virtue of the transitional provisions set out in article 12 of the ESMQO 1995 (existing specialists).

(2) A person is also an eligible specialist for the purposes of article 13(2)(b) if the STA (or, where applicable, the STA’s appeal panel), has determined that that person is an eligible specialist pursuant to article 9(2) or (3) of the ESMQO 1995 (eligible specialists).

(3) A person is also an eligible specialist for the purposes of article 13(2)(b) if he holds a recognised specialist qualification (as specified in article 15) and he is—
   (a) a national of an EEA State; or
   (b) a person who for the purposes of access to and the practice of the medical profession is entitled to be treated in the same way as such a national in order to enable an enforceable Community right to be exercised.

(4) A person is also an eligible specialist for the purposes of article 13(2)(b) if—
   (a) he does not fall within paragraph (3); but
(b) he has—
   (i) undertaken specialist training, or
   (ii) been awarded specialist qualifications,
in a specialty listed in Schedule 3, and he satisfies the Board that that specialist training is, or
those qualifications are, or both when considered together are, equivalent to a CCT in the
specialty in question.

(5) A person is also an eligible specialist for the purposes of article 13(2)(b) if—
   (a) he has—
       (i) undertaken specialist training, or
       (ii) been awarded specialist qualifications,
outside the United Kingdom in a medical specialty not listed in Schedule 3; or
   (b) he has knowledge of or experience in any medical specialty derived from academic or
research work,
and he satisfies the Board that these give him a level of knowledge and skill consistent with
practise as a consultant in the National Health Service.

(6) If a person falls within paragraph (4) or (5) and—
   (a) he is also a person falling within sub-paragraph (a) or (b) of paragraph (3), and he
has specialist qualifications awarded outside the EEA which have been accepted by
another EEA State as qualifying him to practise as a specialist in that State; or
   (b) he has acquired specialist medical experience or knowledge, wherever obtained,
the Board shall, when considering whether it is satisfied as mentioned in paragraph (4) or (5),
take account of that acceptance or of that experience or knowledge.

(7) In paragraphs (4) and (5), “specialist training” means specialist medical training that—
   (a) comprises of theoretical and practical instruction in a post specifically designated as
a training post;
   (b) takes place in a university centre, a teaching hospital or other health establishment;
   (c) is supervised by an appropriate authority or other body; and
   (d) involves the personal participation of the person training to be a specialist in the
activity and in the responsibilities of the establishment concerned.

(8) If the Board is not satisfied, having taken into account the matters specified in paragraph
(6) (where applicable), that—
   (a) under paragraph (4), a person’s specialist training, or specialist qualifications, or both
when considered together, are equivalent to a CCT in the specialty in question; or
   (b) under paragraph (5)—
       (i) a person’s specialist training, or specialist qualifications, or both when
considered together, give him the required level of knowledge and skill, or
       (ii) a person’s knowledge of, or experience in, any medical specialty derived from
academic or research work, give him the required level of knowledge and skill,
paragraph (9) shall apply.

(9) Where this paragraph applies, the Board shall give reasons as to why it is not satisfied,
and, in particular, shall inform the person of—
   (a) the period of additional training that the person must undertake, and the fields to be
covered by it;
   (b) any examination, assessment (including a specified period of assessment) or other test
of competence that the person must complete to the Board’s satisfaction,
in order to satisfy the Board under paragraph (4) or (5).

(10) In respect of any application under paragraph (4) or (5), the Board shall notify the
applicant of its decision (and, where relevant, of the matters set out in paragraph (9)), in
accordance with its duty under article 16(4).

(11) If the Board is satisfied—
   (a) pursuant to paragraph (4), that a person’s specialist training, specialist qualifications,
   or both when considered together, are equivalent to a CCT in the specialty in
question; or
   (b) pursuant to paragraph (5) that—
(i) a person’s specialist training, specialist qualifications, or both when considered together, give him the required level of knowledge and skill, or

(ii) a person’s knowledge of, or experience in, any medical specialty derived from academic or research work, give him the required level of knowledge and skill, it shall, if the person so requests, issue to that person a written statement attesting to the fact that the person has satisfied the Board that he is eligible for inclusion in the Specialist Register (“statement of eligibility for registration”).

(12) The Board shall make rules as to the procedure to be followed in relation to and by persons applying to the Board under paragraph (4) or (5), including rules as to the evidence it requires in support of such an application.

(4) If it appears to the Board that any committee or sub-committee is failing to perform its functions adequately, the Board may give a direction as to the proper performance of those functions.

(5) The powers of the Board may be exercised even though there is a vacancy among its members.

(6) No proceedings of the Board shall be invalidated by any defect in the appointment of a member.

(7) No person who is a member of the Board or any of its committees or sub-committees who is also a registered medical practitioner may take part in any proceedings of the Board in any period during which he is the subject of any investigation, proceedings or a determination concerning his fitness to practise his profession.

**SCHEDULE 4**

**Article 5(6)**

**TEXT OF ARTICLES 30, 31(1) AND 34 OF THE DIRECTIVE**

**Article 30**

Each Member State which dispenses the complete training referred to in Article 23 within its territory shall institute specific training in general medical practice meeting requirements at least as stringent as those laid down in Articles 31 and 32, in such a manner that the first diplomas, certificates or other evidence of formal qualifications awarded on completion of the course are issued not later than 1st January 2006.

**Article 31**

1. The specific training in general medical practice referred to in Article 30 must meet the following minimum requirements:
   (a) entry shall be conditional upon the successful completion of at least six years’ study within the framework of the training course referred to in Article 23;
(b) it shall be a full-time course lasting at least three years, and shall be supervised by the competent authorities or bodies;
(c) it shall be practically rather than theoretically based; the practical instruction shall be given, on the one hand, for at least six months in an approved hospital or clinic with suitable equipment and services and, on the other hand, for at least six months in an approved general medical practice or in an approved centre where doctors provide primary care; it shall be carried out in contact with other health establishments or structures concerned with general medical practice; however, without prejudice to the aforesaid minimum periods, the practical instruction may be given for a maximum period of six months in other approved health establishments or structures concerned with general medical practice;
(d) it shall entail the personal participation of the trainee in the professional activities of the persons with whom he works.

Article 34

1. Without prejudice to the principle of full-time training laid down in Article 31(1)(b), Member States may authorize specific part-time training in general medical practice in addition to full-time training, where the following particular conditions are met:
   —the total duration of training may not be shortened because it is being followed on a part-time basis,
   —the weekly duration of part-time training may not be less than 50 per cent of weekly full-time training,
   —part-time training must include a certain number of full-time training periods, both for the training conducted at a hospital or clinic and for the training given in an approved medical practice or in an approved centre where doctors provide primary care. These full-time training periods shall be of sufficient number and duration as to provide adequate preparation for the effective exercise of general medical practice.

2. Part-time training must be of a level and quality equivalent to that of full-time training. It shall lead to a diploma, certificate or other evidence of formal qualification, as referred to in Article 30.

SCHEDULE 5

TEXT OF ANNEX I TO THE DIRECTIVE

CHARACTERISTICS OF THE FULL-TIME AND PART-TIME TRAINING OF SPECIALISTS AS REFERRED TO IN ARTICLES 24(1)(C) AND 25

1. Full-time training of specialists

Such training shall be carried out in specific posts recognised by the competent authority.

It shall involve participation in all the medical activities of the department where the training is carried out, including on-call duties, so that the trainee specialist devotes to this practical and theoretical training all his professional activity throughout the duration of the standard working week and throughout the year according to provisions agreed by the competent authorities. Accordingly these posts shall be subject to appropriate remuneration.

Training may be interrupted for reasons such as military service, secondment, pregnancy or sickness. The total duration of the training shall not be reduced by reason of any interruption.

2. Part-time training of specialists

This training shall meet the same requirements as full-time training, from which it shall differ only in the possibility of limiting participation in medical activities to a period at least half of that provided for in the second paragraph of point 1.

The competent authorities shall ensure that the total duration and quality of part-time training of specialists are not less than those of full-time trainees. Appropriate remuneration shall consequently be attached to such part-time training.

PART 1

THE ESMQO 1995 AND THE VOCATIONAL TRAINING REGULATIONS

Interpretation

1. In this Part—
   (a) “old specialist register” means the register of specialists maintained by the GMC under article 8 of the ESMQO 1995 (the specialist register); and
   (b) “relevant date” means the date on which this Part comes into force.

General practitioners

2. Where the JCPTGP has approved training under regulation 6 or 8 of either the Vocational Training Regulations, the Vocational Training Regulations (Scotland) or the Vocational Training Regulations (Northern Ireland) (which relate to prescribed medical experience and approval of training posts), the Board shall be deemed to have approved that training under article 4, and if that training is continuing immediately before the relevant date, the Board shall be deemed to have approved such training, until such time as the Board—
   (a) gives approval under article 4(5);
   (b) gives approval under article 4(5) subject to conditions under article 4(7); or
   (c) withdraws approval under article 4(8) or 9(4).

3. Where the JCPTGP has approved a GP Trainer under regulation 7 of either the Vocational Training Regulations, the Vocational Training Regulations (Scotland) or the Vocational Training Regulations (Northern Ireland) (which relate to approval of trainers), and that approval continues immediately before the relevant date, the Board shall be deemed to have approved that general practitioner under article 4, until such time as the Board—
   (a) gives approval under article 4(5);
   (b) gives approval under article 4(5) subject to conditions under article 4(7); or
   (c) withdraws approval under article 4(8) or 9(4).

4. Where an appeal is made against a decision of the JCPTGP which was made under regulation 7 of either the Vocational Training Regulations or the Vocational Training Regulations (Northern Ireland) (appeal against a decision to refuse to approve a GP Trainer)—
   (a) before the relevant date but where the appeal has not been determined by that date; or
   (b) on or after the relevant date within the time limit specified in regulation 7(5) or (6) of the Regulations specified above,
the appeal shall be dealt with in accordance with the relevant provisions of the Vocational Training Regulations or the Vocational Training Regulations (Northern Ireland) (as appropriate).

5. Where a person has applied to the JCPTGP for a certificate of equivalent experience or a certificate of prescribed experience before the relevant date, but the application has not been determined before that date—
   (a) the Board shall determine that application in accordance with the relevant provisions of the Vocational Training Regulations, the Vocational Training Regulations (Scotland) or the Vocational Training Regulations (Northern Ireland) (as appropriate);
   (b) the time limit specified in regulation 12A of each of those Regulations (decisions relating to certificates of equivalent experience in respect of persons exercising a Community right) shall apply (where applicable), and the period of three months specified in regulation 12A(4) shall begin with the date on which the JCPTGP or, as the case may be, the Board received the application together with full supporting documentation; and
(c) any appeal against a refusal of a certificate shall be made and determined in accordance with the relevant provisions of the Regulations specified in sub-paragraph (a) (including an appeal against a failure to notify the applicant of a decision within the time limit specified in regulation 12A),
save that nothing in this paragraph shall prevent such a person from withdrawing any such application and making a new application to the Board for a CCT pursuant to the provisions of this Order, or for a statement of eligibility for registration pursuant to article 11(3) (as the case may be).

6. Where an appeal is made against a decision of the JCPTGP pursuant to regulation 12A(3) or 13 of either the Vocational Training Regulations, the Vocational Training Regulations (Scotland) or the Vocational Training Regulations (Northern Ireland) (as appropriate) (which relate to decisions relating to certificates of equivalent experience in respect of persons exercising a Community right, and appeals against refusal of certificates)—

(a) before the relevant date but where the appeal has not been determined by that date; or

(b) on or after the relevant date within the time limit specified in regulation 13(1) of the Regulations specified above,

the appeal shall be dealt with in accordance with the relevant provisions of the Vocational Training Regulations, the Vocational Training Regulations (Scotland) or the Vocational Training Regulations (Northern Ireland) (as appropriate).

7. In determining any application to the Board made by a person to whom the JCPTGP has, before the relevant date, given written advice in relation to his training, the Board shall take that advice into account in determining that person’s application.

8. In paragraph 4, 5 and 6, if the relevant provisions have been repealed, they shall be treated for the purposes of those paragraphs as if they remained in force with such modifications as necessary, including as if references to the “Joint Committee” were to the Board.

Specialists

9.—(1) The Registrar of the GMC shall ensure that all specialists whose names are included in the old specialist register immediately before the relevant date are, on the relevant date, transferred to the Specialist Register.

(2) Any application made to the GMC for inclusion in the old specialist register that is made before, but is not finally dealt with by the relevant date shall be determined—

(a) in accordance with the relevant provisions of the ESMQO 1995, but if the application is successful, the applicant’s name shall be included in the Specialist Register instead of the old specialist register; and

(b) within the time limit specified in article 8(3A) or 8(A) of the ESMQO 1995 (which relate to decisions in respect of persons exercising a Community right and the specialist register), where applicable, the time period beginning with the date on which the GMC received the application for inclusion in the old specialist register together with full supporting documentation, and any appeal against the GMC’s decision to refuse such an application pursuant to article 8(3D) of the ESMQO 1995, shall be dealt with in accordance with that article, or, where applicable, article 8(3B) together with article 8(3D) (which relate to the specialist register), and if that appeal is successful, the applicant’s name shall be included in the Specialist Register.

(3) If, pursuant to paragraph 12, the Board or an appeal panel arranged in accordance with article 13 of the ESMQO 1995 (appeals) has determined that a person is an eligible specialist pursuant to article 9(2) or (3) of the ESMQO 1995 (eligible specialists), that person shall be treated as an eligible specialist pursuant to article 14(2) of this Order for the purposes of any subsequent application or request to be included in the Specialist Register.

10. Where the STA has approved specialist training under article 7 of the ESMQO 1995 (minimum requirements of specialist medical training), including any conditions under article 7(3) of the ESMQO 1995, the Board shall be deemed to have approved that training, or those conditions, under article 4 of this Order, and if such training is continuing immediately before the relevant date, the Board shall be deemed to approve that training until such time as the Board—
(a) gives approval under article 4(5);
(b) gives approval under article 4(5) subject to conditions under article 4(7); or
(c) withdraws approval under article 4(8) or 9(4).

11. Where a person has applied to the STA for a CCST before the relevant date, but the application has not been determined by that date—
   (a) the Board shall determine that application in accordance with article 6 of the ESMQO 1995 (certificates of completion of specialist training), and, where applicable, within the time limit specified in article 3(4)(b)(iiia) of that Order (the competent authorities); and
   (b) any appeal against a refusal to award a CCST shall be made and determined in accordance with article 13(1) of the ESMQO 1995 (appeals),

save that nothing in this paragraph shall prevent such a person from withdrawing such an application and making a new application to the Board for a CCT under the provisions in this Order.

12. Where a person has applied to the STA under article 9(2) or (3) of the ESMQO 1995 (eligibility for entry to the specialist register) before the relevant date but the application has not been determined by that date—
   (a) the Board shall determine that application in accordance with those provisions, and in accordance with the requirements of article 8A of the ESMQO 1995 (decisions in respect of persons exercising a community right) where applicable; and
   (b) any appeal against a decision of the Board shall be made and determined in accordance with article 13(1) of the ESMQO 1995 (appeals),

save that nothing in this paragraph shall prevent such a person from withdrawing any application he has made to the STA and making a new application to the Board under articles 14(4) or (5) of this Order (as appropriate).

13. Where the STA has received a request in relation to its competent authority functions under article 3(4)(b)(i), (ii), (iii), (iv) or (v), or (c)(i) or (ii) of the ESMQO 1995 (the competent authorities) that was received before, but not finally dealt with by, the relevant date, the Board shall deal with the request in accordance with the relevant provisions of the ESMQO 1995.

14. Where an appeal is made pursuant to article 13(1) of the ESMQO 1995 (appeals) against a decision of the STA before the relevant date but it has not been determined by that date, the appeal shall be determined in accordance with that article.

15. Where—
   (a) a person’s name has, before the relevant date, been removed from the old specialist register pursuant to article 14(1) of the ESMQO 1995 (removal and suspension from specialist register); and
   (b) on or after the relevant date, it comes to the notice of the Registrar of the GMC that a person removed from the old specialist register pursuant to article 14(1) of the ESMQO 1995, is a registered medical practitioner, or in the case of an oral and maxillo-facial surgeon, a registered medical practitioner and a registered dentist,

the Registrar shall, if requested to do so by that person, include that person’s name in the Specialist Register and shall send him notice of having done so.

16. Where—
   (a) a person’s name has been removed from the old specialist register pursuant to article 14(3) of the ESMQO 1995 (removal and suspension from specialist register) before the relevant date and notice has been served on that person pursuant to paragraph 2 of Schedule 6 to the ESMQO 1995; and
   (b) that person, on or after the relevant date, appeals against that removal within any relevant time limits,

that appeal shall be determined in accordance with article 18(6) and (7) of this Order as if the decision to remove that person’s name had been taken under article 18(5), and if that appeal is successful, that person’s name shall be included in the Specialist Register.
17. Where—
   (a) a person’s name has, before the relevant date, been removed from the old specialist register pursuant to article 14(4) of the ESMQO 1995 (removal and suspension from specialist register); and
   (b) on or after the relevant date, it comes to the notice of the Registrar of the GMC that a person removed from the old specialist register pursuant to article 14(4) of the ESMQO 1995, is no longer subject to suspension,
the Registrar shall, if he is satisfied that that person is a registered medical practitioner, or in the case of an oral and maxillo-facial surgeon, a registered medical practitioner and a registered dentist include that person’s name in the Specialist Register and shall send him notice of having done so.

18. In any case falling within paragraphs 15 to 17, paragraph 8 of Schedule 4 to the Medical Act (service of notifications of decisions) shall apply to notices required by those paragraphs to be sent to any person by the Registrar of the GMC as it applies to the notifications referred to in that paragraph.

19. In determining any application made to the Board by a person to whom the STA has, before the relevant date, given written advice in relation to his training, the Board shall take that advice into account in determining that person’s application.

20. In paragraphs 9, 11, 12, 13 or 14, if the relevant provisions of the ESMQO 1995 have been repealed, they shall be treated for the purposes of those paragraphs as if they remained in force with such modifications as necessary, including as if references to the STA were to the Board.

(5) This paragraph does not prejudice any right of an employee to terminate his contract of employment if a substantial change is made to his working conditions but no such right arises by reason only that, by virtue of this paragraph, the identity of his employer changes unless the employee shows that, in all the circumstances, the change is a significant change and is to his detriment.

(6) In this paragraph, “the date of transfer” means, in relation to an eligible employee, the date of the transfer determined under a direction made under paragraph 24(1).

EXPLANATORY NOTE

(This note is not part of the Order)

This Order provides for the regulation of postgraduate medical education and training for specialist medical practice and general medical practice: the Order implements obligations under Directive 93/16/EEC of 5th April 1993 to facilitate the free movement of doctors and the mutual recognition of their diplomas, certificates and other evidence of formal qualifications.

This Order is made under sections 60 and 62(4) of the Health Act 1999. Under paragraph 9(1) and (3) of Schedule 3 to the Health Act 1999, the Secretary of State and the Scottish Ministers jointly published a draft of the Order and invited representations to be made on it. A copy of the report about the consultation is available from the Department of Health’s website (www.doh.gov.uk/medicaltrainingintheuk/pmetbreform.htm).

Part 1 of the Order makes provision for commencement and interpretation of the Order (articles 1 and 2 and Schedule 1).

Part 2 of the Order creates a body, the Postgraduate Medical Education and Training Board (“the Board”), which is required to set standards of postgraduate medical education and training and to put in place arrangements to ensure that they are met (article 3 and Part 1 of Schedule 2). The Order creates two statutory committees of the Board: the Training Committee and the Assessment Committee (article 3(7) and Part 2 of Schedule 2).

Part 3 of the Order provides for the Board to set standards and requirements that have to be satisfied before a doctor can be awarded a Certificate of Completion of Training (“CCT”) as a general practitioner or a specialist (article 4). Any such standards or requirements established by the Board must comply with prescribed minimum requirements, which includes the requirements for general practice and specialist training set out in Directive 93/16/EEC (articles 5 and 6, and Schedules 3, 4 and 5). The Board may award CCTs (article 8). The Board may appoint visiting panels to visit persons or institutions who are involved in the provision of postgraduate medical education and training (article 7). The Order also makes provision as to the information that such persons or institutions must provide to the Board (article 9).

Part 4 makes provision for the General Medical Council (“GMC”) to maintain a General Practitioner Register (article 10) and a Specialist Register (article 13). The Order sets out the categories of doctors who are eligible for entry in each of the Registers (articles 11, 12 and 14 and Schedules 6 and 7). The Specialist Register replaces the register of specialists maintained by the GMC under the European Specialist Medical Qualifications Order 1995.

Provision is made for certain time limits to apply to the GMC when dealing with applications to it to be included in the Registers (article 16). Provision is also made for the GMC to publish the Registers and to provide certain information to persons making inquiries as to whether a doctor’s name is included in the Registers (article 17). Provision is also made for the removal and suspension of doctors from the Registers in prescribed circumstances (article 18). In particular, provision is made for a doctor’s name to be removed from either of the Registers if that doctor is no longer a registered medical practitioner. The Order provides that a doctor cannot work as a general practitioner or a consultant in the National Health Service in the United Kingdom unless his name is included in the appropriate register (articles 10(4) and 13(6)).

Part 5 designates the Board and the GMC as competent authorities for certain purposes required by Directive 93/16/EEC, and it confers specific functions on the GMC and the Board. The GMC is designated as the competent authority for the purposes of the recognition and registration of specialist qualifications (article 20(1)(a)) and provision is made for the recognition of vocational training certificates and certificates of acquired rights (article 19(b)) issued in EEA States other than the United Kingdom.

Part 6 provides for appeals to an Appeal Panel against decisions of the Board (article 21(1)). An appeal from any decision of an Appeal Panel can be made to a county court or, in Scotland, a sheriff (article 22). A separate provision provides for a right of appeal under the Medical Act 1983 against a decision by the GMC not to include a person’s name in the General Practitioner Register or the Specialist Register (article 23).

Part 7 contains provision on miscellaneous matters. Provision is made for the Board and the GMC to charge fees for services they provide when performing functions under the Order (article 24). Provision is also made for approval by the Secretary of State of certain rules made
by the Board (in relation to fees and removal of members from the Board) and the procedure which applies (article 25). The Secretary of State is given default powers if he considers that the Board has failed to perform its functions (article 26). It is a requirement that the Secretary of State arranges a full review of the Board’s exercise of its functions once every five years (article 28). The Board is required to produce annual reports (article 27) and to keep proper accounts (article 29).

Minor amendments are made to the Medical Act 1983 (article 30). The amendment in article 30(1) is made to ensure that section 40(9) of the Medical Act 1983 (which relates to costs arising in fitness to practise appeals), as amended by the Medical Act 1983 (Amendment) Order 2002, reflects the amendments made to that section by the National Health Service Reform and Health Care Professions Act 2002. Article 30(2) provides for amendments to paragraph 11(1) and (2) of Schedule 5 to the Medical Act 1983 to alter the definition of registered medical practitioner and similar expression in pre 1st January 1979 legislation as a result of the introduction of the licence to practise by virtue of the Medical Act 1983 (Amendment) Order 2002: as a result of this amendment it is no longer necessary to amend the Prison Act 1952 in paragraph 1 of Schedule 1 to the Medical Act 1983 (Amendment) Order 2002, and paragraph 1 is therefore omitted.

Transitional, transitory and saving provisions are made (article 31 and Schedule 8) and consequential amendments and revocations are made to primary and secondary legislation (article 31 and Schedules 9 and 10). Provision is made for the Order to extend to the whole of the United Kingdom (article 31) except in relation to certain consequential amendments to primary and secondary legislation provided for in Schedules 9 and 10 respectively.

A transposition note in relation to the implementation of Directive 93/16/EEC has been placed in the libraries of both Houses of Parliament, and copies can be obtained from Department of Health, Room 2N35a, Quarry House, Quarry Hill, Leeds, West Yorkshire LS2 7UE.
