### **Discharge of water**

5.—(1) The Council may use any watercourse or any public sewer or drain for the drainage of water in connection with the construction or maintenance of the authorised works and for that purpose may lay down, take up and alter pipes and may, on any land shown on the works plan within the limits of deviation, make openings into, and connections with, the watercourse, sewer or drain.

- (a) safeguarding works are carried out under this article to the stone pier; and
- (b) within the period of 5 years beginning with the day on which the part of the authorised works constructed within the vicinity of the stone pier is first opened for use, it appears that the safeguarding works are inadequate to protect the stone pier against damage caused by the construction or operation of that part of the works,

the Council shall compensate the owners and occupiers of the stone pier for any damage sustained by them.

(9) Without prejudice to article 20, nothing in this article shall relieve the Council from any liability to pay compensation under section 10(2) of the Act of 1965.

(10) Any compensation payable under paragraph (7) or (8) shall be determined, in case of dispute, under Part I of the Act of 1961.

- (a) shall, if so required, before or after entering the land produce written evidence of his authority to do so; and
