4.—(1) Except in accordance with any exception or exemption set out in the relevant Community provisions and subject to paragraphs 2, 4 and 5 of Schedule 1—

- (a) no traditional herbal medicinal product shall be placed on the market; and

(2) Schedule 1 shall have effect for the purpose of making certain exceptions or exemptions from paragraph (1), and for imposing certain obligations in connection with such exceptions and exemptions.

### **Applications for the grant or renewal of a traditional herbal registration**

5.—(1) Every application for the grant or renewal of a traditional herbal registration shall be made in writing in accordance with the relevant Community provisions, subject to the rules of Community law relating to parallel imports, and the applicant shall comply with so much of the relevant Community provisions as contain requirements for applications as are applicable to the application or the consideration of it.

(2) Every application shall be made in writing, shall be signed by or on behalf of the applicant and shall, unless the licensing authority otherwise direct, be accompanied by any fee which may be payable in connection with that application.

(3) One copy of the application and of any accompanying material shall be supplied to the licensing authority in the English language and where the application or any accompanying material has been translated from another language, one copy of the application or the accompanying material, as the case may be, shall also be supplied in the original language.

- (a) whether the herbal medicinal product is one that should be available—

  - (ii) on general sale; and

(5) The applicant for the grant or renewal of a traditional herbal registration must be established in the Community.

(6) An application for the renewal of a traditional herbal registration shall be made not later than 6 months before the date on which the existing traditional herbal registration expires.

- (b) it has been so renewed, but the licensing authority considers on justified grounds relating to pharmacovigilance that it should be subject to one additional renewal five years after the date of the first renewal, and it has not yet been subject to that additional renewal.

(5) Subject to paragraph (6), where, by reason of paragraph (4), a traditional herbal registration is not valid for an unlimited period, it shall, unless previously revoked, be valid for a period of five years beginning with the date on which it is granted or was renewed, whichever is the later, but where an application for its renewal is made in accordance with Article 24 of the 2001 Directive the traditional herbal registration shall remain in force pending the decision of the licensing authority on that application.

(3) In any case where the relevant Community provisions permit or require the suspension of the use, supply or marketing of a product until some decision or similar action is taken by the Community, the licensing authority may, instead of specifying a period in the notice, provide that the suspension is to apply until further notice.

(4) Where the licensing authority, in accordance with paragraph (3), include a provision that the suspension is to apply until further notice, they shall, where the effect of the Community decision or action is that the product may continue to be used or, as the case may be, marketed, in the United Kingdom, promptly give the holder of the registration written notice revoking the suspension forthwith or from such date specified in the notice as to comply with that decision or action.

(5) Where, under the preceding provisions of this regulation the licensing authority revoke or suspend a traditional herbal registration, or where the licensing authority suspend the use, supply or marketing of a product, or where the relevant Community provisions so permit or require, the licensing authority may and, where appropriate, shall give written notice to the person who is or, immediately before its revocation or suspension, was the holder of the registration, requiring him to take all reasonably practicable steps to—

- (b) withdraw from the market in the United Kingdom and recover possession of such products within the time and for the period specified in the notice.

(6) The licensing authority may require the holder of the traditional herbal registration to withdraw from the market in the United Kingdom specified batches only of a product to which a notice under paragraph (5) applies.

(2) The holder of a traditional herbal registration shall maintain a record of reports of which he is aware of suspected adverse reactions in accordance with the relevant Community provisions which shall be open to inspection by a person authorised by the licensing authority, who may take copies of the record and, if the licensing authority so directs, the registration holder shall furnish the licensing authority with a copy of any such reports of which he has a record or of which he is or subsequently becomes aware.
