

SCHEDULE 6

Regulations 64, 75(3)(a)

DESCRIPTIONS OF APPARATUS FOR WHICH UNITED KINGDOM NOTIFIED BODIES ARE AUTHORISED

1. The CAA is authorised (as a United Kingdom notified body for radiocommunication transmission apparatus and as an enforcement authority for wireless telegraphy apparatus) in relation to aeronautical apparatus of the following descriptions—

- aeronautical mobile—
 - associated ground communications;
 - EPIRB/ELT (Emergency Position Indicating Radio Beacon/Emergency Locating Transmitter);
 - ground and airborne equipment for primary and secondary radar for—
 - the CAA;
 - the Ministry of Defence; and
 - private airfield operators;
 - general communications—
 - ground/air;
 - ground/ground; and
 - air/air; and
 - aeronautical earth station equipment;
- radio navigation—
 - radio altimeters;
 - ILS (Instrument Landing System); and
 - aeronautical radiobeacons;
- satellite aeronautical mobile radio—
 - EPIRB/ELT; and
 - voice, medium speed data and low speed data in each case via INMARSAT (satellite operated by the International Maritime Satellite Organisation);
- aeronautical radionavigation—
 - ILS/MLS (Microwave Landing System);
 - ATC (Air Traffic Control) marker beacons for aircraft;
 - radionavigation satellite equipment on board aircraft;
 - hyperbolic navigation aids;
 - NDB;
 - VOR (VHF Omnidirectional Range);
 - TACAN/DME (Tactical Air Navigation/Distance Measuring Equipment); and
 - satellite navigation systems—
 - ADS (Automatic Dependent Surveillance); and
 - CIS (Co-operative Independent Surveillance); and
- radiolocation and radiodetermination—
 - radar—

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- primary;
- OTHR (Over the Horizon Radar);
- secondary;
- ground; and
- airborne; and

any other apparatus not subject to Directive [1999/5/EC](#) on Radio Equipment and Telecommunications Terminal Equipment by virtue of Annex 1, paragraphs 5 and 6 of that Directive.

2. OFCOM is authorised (as a United Kingdom notified body) in relation to every description of radiocommunication transmission apparatus not provided for in paragraph 1 above.
