## EXPLANATORY NOTE

*(This note is not part of the Regulations)*

**1.** These Regulations further amend the Food Labelling Regulations 1996 in so far as they apply in relation to England. Those Regulations extend to the whole of Great Britain. These Regulations implement in England Commission Directive [2004/77/EC](#) amending Directive [94/54/EC](#) as regards the labelling of certain foods containing glycyrrhizinic acid and its ammonium salt (OJ No. L162, 30.4.2004, p.76).

**2.** Glycyrrhizinic acid occurs naturally in the liquorice plant, and its ammonium salt is manufactured from aqueous extracts of that plant. These Regulations require confectionery and drinks containing certain levels of that acid or salt to be labelled with the indication “contains liquorice” and for this to be coupled with a warning in certain cases (regulation 7). There are exemptions from these labelling requirements in the case of food which is not prepacked, food which is prepacked for direct sale, fancy confectionery products, small packages and certain indelibly marked glass bottles (regulations 4 to 6). These Regulations also contain a transitional provision (regulation 8) and update the definition of “Directive 94/54” (regulation 3).

**3.** A full regulatory impact assessment of the effect that these Regulations will have on the costs of business has been prepared and placed in the Library of each House of Parliament together with a Transposition Note setting out how the main elements of Directive [2004/77/EC](#) are transposed in these Regulations. Copies may be obtained from the Consumer Choice, Food Standards and Special Projects Division of the Food Standards Agency, Aviation House, 125 Kingsway, London WC2B 6NH.
