
STATUTORY INSTRUMENTS

2007 No. 2785

FOOD, ENGLAND

The Natural Mineral Water, Spring Water and
Bottled Drinking Water (England) Regulations 2007

Made - - - - 19th September 2007
Laid before Parliament 27th September 2007
Coming into force 31st October 2007

THE NATURAL MINERAL WATER, SPRING WATER AND
BOTTLED DRINKING WATER (ENGLAND) REGULATIONS 2007

PART 1

Introductory

1. Title, application and commencement
2. Interpretation
3. Exemptions
- 3A Additional language

PART 2

Natural mineral water

4. Recognition as natural mineral water
5. Exploitation of natural mineral water springs
6. Treatments and additions for natural mineral water
7. Bottling of natural mineral water
8. Marking, labelling and advertising of natural mineral water
9. Sale of natural mineral water
- 9A Transitional provision: withdrawal from the EEA and the EU

PART 3

Spring water

10. Bottling of spring water and exploitation of spring water springs
11. Marking, labelling and advertising of spring water
12. Sale of spring water

Changes to legislation: There are currently no known outstanding effects for the The Natural Mineral Water, Spring Water and Bottled Drinking Water (England) Regulations 2007. (See end of Document for details)

PART 4

Bottled drinking water

13. Bottling of drinking water
14. Marking, labelling and advertising of bottled drinking water
15. Sale of bottled drinking water

PART 5

Miscellaneous and supplemental

16. Enforcement
 - 16A. Monitoring of water bottled and labelled as “spring water” and bottled drinking water
 17. Arrangements for samples taken for analysis
 18. Secondary analysis by the Government Chemist
 19. Methods of analysis
 20. Offences and penalties
 21. Defences
 22. Application of the Act
 23. Revocation
- Signature

SCHEDULE 1 — Conditions for treatment of natural mineral waters and spring waters with ozone-enriched air

1. Treatment of natural mineral waters and spring waters with ozone-enriched...
2. Treatment of natural mineral waters and spring waters with ozone-enriched...
3. A person seeking to have a treatment with ozone-enriched air...
4. The relevant authority shall assess the application and any information...
5. Where the relevant authority decides to authorise a treatment pursuant...
6. Where the relevant authority refuses to authorise a treatment pursuant...
7. Where a treatment has been authorised pursuant to paragraph 4,...
8. If the relevant authority is satisfied that the conditions specified...
9. Where the relevant authority has informed an operator under paragraph...
10. Upon receiving the application for review, the Secretary of State...

SCHEDULE 1A — CONDITIONS FOR TREATMENT OF NATURAL MINERAL WATER AND SPRING WATER WITH ACTIVATED ALUMINA TO REMOVE FLUORIDE

1. A person seeking to have authorised a treatment of natural...
2. The relevant authority shall assess the application and any information...
3. Where the relevant authority decides to authorise a treatment pursuant...
4. Where the relevant authority refuses to authorise a treatment pursuant...
5. Where a treatment has been authorised pursuant to paragraph 2,...
6. If the relevant authority is satisfied that the conditions specified...
7. Where the relevant authority has informed an applicant under paragraph...
8. Upon receiving the application for review, the Secretary of State...
9. In the case of such a direction, the relevant authority...

SCHEDULE 2 — Requirements for water bottled and labelled as “spring water” and bottled drinking water

PART 1 — Requirements for water bottled and labelled as “spring water” and bottled drinking water

PART 2 — Parametric values for microbiological parameters

PART 3 — Parametric concentrations for chemical parameters

PART 4 — Parametric activity concentrations for radon and tritium and parametric value for indicative dose

SCHEDULE 3 — Recognition of natural mineral waters

PART 1 — Natural mineral waters extracted from the ground in England

1. A person seeking to have water which is extracted from...
2. The particulars are— (a) those specified in paragraph 1 of...
3. In so far as particulars of any of the anions,...
4. Where such particulars have been so given, the relevant authority...
5. The relevant authority shall, on recognising a natural mineral water...

PART 2 — Natural mineral waters extracted from the ground in a Third Country

1. A person seeking to have a water which is extracted...
2. The particulars are— (a) those specified in paragraph 1 of...
3. In so far as particulars of any of the anions,...
4. The Secretary of State shall recognise such a water if...
5. Recognition of such water shall lapse after a period of...
6. The Secretary of State shall, on recognising water in accordance...

PART 3 — Requirements and criteria for recognition as a natural mineral water

1. Geological and hydrological surveys must include the following particulars
—
2. Physical, chemical and physico-chemical surveys must establish—
3. Microbiological analysis at source must show— (a) the absence of...
4. (1) Subject to sub-paragraph (2), clinical and pharmacological analyses must...

SCHEDULE 4 — Exploitation and bottling requirements for natural mineral water and spring water

1. Equipment for exploiting the water must be so installed as...
2. The spring or outlet must be protected against the risks...
3. The catchment, pipes and reservoirs must be of materials suitable...
4. The conditions of exploitation, particularly the washing and bottling equipment,...
5. (1) Subject to sub-paragraphs (2) and (3), water must not...
6. (1) The revivable total colony count of the water at...
7. (1) After bottling, the total colony count of the water...
8. Both at source and during its marketing, water shall be...

SCHEDULE 5 — Particulars of anions, cations, non-ionised compounds and trace elements

SCHEDULE 6 — Maximum limits for constituents of natural mineral waters

SCHEDULE 7 — Performance characteristics for analysing the constituents in Schedule 6

SCHEDULE 8 — Labelling indications for natural mineral water and criteria for use

Changes to legislation: There are currently no known outstanding effects for the The Natural Mineral Water, Spring Water and Bottled Drinking Water (England) Regulations 2007. (See end of Document for details)

SCHEDULE 9 — PROPERTIES, ELEMENTS, SUBSTANCES AND ORGANISMS, NOT BEING PARAMETERS, WHOSE CONCENTRATION OR VALUE IN BOTTLED DRINKING WATER AND SPRING WATER MUST BE DETERMINED BY AUDIT MONITORING

SCHEDULE 10 — PARAMETERS, PROPERTIES, ELEMENTS, SUBSTANCES AND ORGANISMS IN RELATION TO WHICH CHECK MONITORING MUST BE CARRIED OUT

SCHEDULE 11 — MINIMUM FREQUENCIES FOR SAMPLING AND ANALYSIS OF SPRING WATER AND BOTTLED DRINKING WATER

SCHEDULE 12 — Monitoring of water bottled and labelled as “spring water” and bottled drinking water

PART 1 — Interpretation

1. General
2. Delegated tasks
- PART 2 — General
3. Application
4. Sampling: general
5. Sampling: non-radioactive substances
6. Monitoring: radioactive substances
7. Microbiological parameters
8. Chemical parameters
9. Radon
10. Tritium
11. Indicative dose
12. Indicator parameters
13. Other parameters
14. Delegation of tasks
15. Quality management practices
16. Validation and documentation

PART 3 — Minimum sampling and analyses frequencies for monitoring radioactive substances

PART 4 — Methods of analyses relating to specified microbiological parameters

PART 5 — Methods of analysis relating to chemical parameters

SECTION 1

Methods of analysis

17. Method of analysis
18. Minimum performance characteristics
19. Minimum performance characteristics: individual pesticides
20. Alternative minimum performance characteristics
21. Uncertainty of measurement

SECTION 2

Minimum performance characteristics for a method of analysis

SECTION 3

Alternative minimum performance characteristics for a method of analysis that may be used until the end of 31st December 2019

PART 6 — Monitoring obligations relating to radon

22. Representative surveys
23. Monitoring obligation
24. Exemption
25. Analysis of sample
26. Action following the result of analysis
27. Taking of samples: reduced frequency
28. Treated bottled drinking water

PART 7 — Monitoring obligations relating to tritium

29. Monitoring obligation
30. Exemption
31. Analysis of sample
32. Action following the results of analysis
33. Taking of samples: reduced frequency
34. Treated bottled drinking water

PART 8 — Monitoring obligations relating to indicative dose

SECTION 1

General

35. Monitoring obligation
36. Exemption
37. Screening
38. Screening by determining gross alpha activity
39. Screening by determining gross beta activity
40. Screening based on analysis relating to one radionuclide
41. Screening based on analysis relating to more than one radionuclide
42. Stopping or reducing the frequency of sampling: screening for indicative dose
43. Analysis of sample
44. Obligation to make an indicative dose determination
45. Determination relating to indicative dose
46. Action following the result of a paragraph 45 determination
47. Stopping or reducing the frequency of sampling: indicative dose
48. Treated bottled drinking water

Changes to legislation: There are currently no known outstanding effects for the The Natural Mineral Water, Spring Water and Bottled Drinking Water (England) Regulations 2007. (See end of Document for details)

SECTION 2

Minimum levels of detection

SECTION 3

Interpretation

49. Derived concentration
PART 9 — Monitoring obligations relating to indicator parameters

SECTION 1

Parametric concentrations and values for indicator parameters

SECTION 2

Monitoring obligations

50. Analysis of sample
51. Clostridium perfringens
52. Uncertainty of measurement

SECTION 3

Method of analysis

53. Method of analysis
54. Minimum performance characteristics
55. Alternative minimum performance characteristics

SECTION 4

Minimum performance characteristics for a method of analysis

SECTION 5

Alternative minimum performance characteristics for a method of analysis that may be used until the end of 31st December 2019

- PART 10 — Delegation of tasks by a food authority

SECTION 1

Delegation of tasks

56. Delegation

SECTION 2

Tasks that may be delegated

- PART 11 — Remedial action
57. Remedial action

SCHEDULE 13 — Application and modification of provisions of the Act

Document Generated: 2024-04-17

Changes to legislation: *There are currently no known outstanding effects for the The Natural Mineral Water, Spring Water and Bottled Drinking Water (England) Regulations 2007. (See end of Document for details)*

Explanatory Note

Changes to legislation:

There are currently no known outstanding effects for the The Natural Mineral Water, Spring Water and Bottled Drinking Water (England) Regulations 2007.
