Notes

Any reference in this Schedule to a micro-organism includes—

- (a) intact micro-organisms;
- (b) micro-organisms which have been genetically modified by any means, but retain the ability to cause serious harm to animal health;
- (c) any nucleic acid derived from a micro-organism listed in this Schedule (synthetic or naturally derived, contiguous or fragmented, in host chromosomes or in expression vectors) that can encode infectious or replication competent forms of any of the listed micro-organisms;

(1) O.J. L10, 14.1.2006, p.16.

Status: *This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

- (d) any nucleic acid sequence derived from the micro-organism which when inserted into any other living organism alters or enhances that organism's ability to cause serious harm to animal health.”.
