determine the particular size, composition and quorum of the Committee required for each hearing and any related meetings.

(3) Case management meetings of the statutory committees are to be conducted by the chair of the statutory committee which is holding the case management meeting.

(4) Where the chair of the Fitness to Practise Committee determines that only specified members of the Committee are required for a particular hearing and any related meetings, the chair must ensure that—

- (a) the chair or a deputy chair of the Committee is one of the specified members;
- (b) the quorum is not less than three; and
- (c) the number of registrant members who are members of that formation of the Committee does not exceed the number of lay members by more than one.

(5) The chair of the Fitness to Practise Committee must ensure that a member of the Committee who has sat in a formation of the Committee that has made an interim suspension order or an order for interim conditional entry in a particular case must not sit in subsequent proceedings in that case.

(6) Paragraph (5) does not apply where the subsequent proceedings relate solely to measures under article 56 of the Order.

(7) For the purposes of paragraph (5), where an interim suspension order or an order for interim conditional entry is made in the course of the proceedings to determine a case substantively, the rest of the proceedings to determine the case substantively are not “subsequent proceedings” even if the case is adjourned (for whatever reason).

(8) At any meeting or hearing of a statutory committee, the number of registrant members considering a case must not exceed the number of lay members by more than one.

Provisions against bias

19.—(1) No member of a statutory committee (or a formation of a statutory committee) may sit as a member considering a particular case, at any stage of the proceedings relating to that case, if that member has an actual, or potential, conflict of interest in relation to that case.

(2) The Registrar must establish, maintain and publish a register of the private interests of all members, including chairs and deputy chairs, of the statutory committees.

(3) Each member of the statutory committees must notify the Registrar immediately of any private interest that the member has not previously notified to the Registrar but which may need to be recorded in the register maintained under paragraph (2).

Voting

20.—(1) Decisions of a statutory committee must be taken by a simple majority of the members, with the chair not having a casting vote.

(2) If a member of a statutory committee abstains from a vote at a meeting or hearing of a statutory committee, the member's abstention must be treated as a vote against the motion that has been put to the vote.

(3) Where the Fitness to Practise Committee is considering pursuant to article 54(1) of the Order whether or not a person's fitness to practise is impaired, a tied vote is to be treated as a determination that the person's fitness to practise is not impaired.

EXPLANATORY NOTE

(This note is not part of the Order)

This Order approves The General Pharmaceutical Council (Statutory Committees and their Advisers) Rules 2010 (“the Rules”) made by the General Pharmaceutical Council (“the Council”) under the Pharmacy Order 2010 (S.I. 2010/231). The Rules set out various matters relating to the constitution and composition of the three statutory committees of the Council (the Investigating Committee, the Fitness to Practise Committee and the Appeals Committee), and to the functions of advisers to the statutory committees and other committees of the Council.

Part 1 deals with preliminary matters, including commencement and interpretation and Part 2 sets out the composition of the statutory committees.

Part 3 confers additional functions on the Investigating Committee and the Fitness to Practise Committee. The additional functions of the Investigating Committee include the provision of an annual report to the Council, and the consideration and determination of various matters relating to allegations that have been referred to it. The additional functions of the Fitness to Practise Committee include the provision of advice to the Registrar, Appeals Committee and Investigating Committee on various matters.

Part 4 deals with matters relating to the appointment and removal of statutory committee members, and sets out a number of categories of person who will not be eligible for appointment as a statutory committee member. It provides that an Appointments Committee set up by the Council under its powers in article 4(7) of the Pharmacy Order 2010 is to be responsible for selecting and appointing, suspending and removing from office, and overseeing training, development and appraisal for chairs, deputy chairs and other members of statutory committees. Provision is made in respect of statutory committee members about their required competencies; the standards and attendance at meetings, hearings and training expected of them; their term of office; the procedure for resignation from office; and the circumstances in which the Appointments Committee may suspend or remove them from office. Provision is also made about how vacancies on a statutory committee are to

be filled (including provision requiring the Appointments Committee to maintain a reserve list of statutory committee members) and providing a power for the chair of a statutory committee to co-opt members.

Part 5 contains provisions relating to meetings and hearings of the statutory committees, including a requirement for each statutory committee to have a secretary. Provision is made about the quorum of the statutory committees, and there is a requirement that at meetings or hearings of the statutory committees, the professional members should not be in a majority of more than one. There are also special arrangements relating to the composition of the Fitness to Practise Committee in certain circumstances. Additionally, there are provisions against bias and which set out that voting will be by simple majority.

Part 6 deals with the functions of legal, clinical and other specialist advisers to both statutory committees and other committees of the Council. There are requirements relating to the manner in which advice is to be tendered and recorded, and to the announcing and recording of decisions not to accept advice from professional advisers. Professional advisers are also given the power, with the permission of the chair of the relevant committee, to question witnesses.
