

SCHEDULE 3

Labelling: required information

Labelling

1. The labelling of a pyrotechnic article must include—
 - (a) the name, registered trade name or registered trade mark of the manufacturer;
 - (b) a single postal address at which the manufacturer can be contacted;
 - (c) the name, type and category of the pyrotechnic article;
 - (d) the registration number of the pyrotechnic article;
 - (e) the product, batch or serial number of the pyrotechnic article; and
 - (f) instructions for use and safety information, which must include—
 - (i) the minimum age limit for persons to whom the pyrotechnic article can be made available on the market;
 - (ii) the net explosive content of the pyrotechnic article; and
 - (iii) the information required by paragraphs 2 to 5.
