Client duties in relation to managing projects

4.—(1) A client must make suitable arrangements for managing a project, including the allocation of sufficient time and other resources.

(4) A client must provide pre-construction information as soon as is practicable to every designer and contractor appointed, or being considered for appointment, to the project.

(5) A client must ensure that—

(7) If a client disposes of the client’s interest in the structure, the client complies with the duty in paragraph (5)(b)(iii) by providing the health and safety file to the person who acquires the client’s interest in the structure and ensuring that that person is aware of the nature and purpose of the file.

(8) Where there is more than one client in relation to a project—

(a) one or more of the clients may agree in writing to be treated for the purposes of these Regulations as the only client or clients; and

(2) Where a project is notifiable, the client must give notice in writing to the Executive as soon as is practicable before the construction phase begins.
