

SCHEDULE 14

Signs for traffic control by light signals, signs for crossings, and signs for lane control

PART 4

Requirements applying to signs in Parts 2 and 3

13.—(1) A globe must be internally illuminated by a flashing light except that, where sub-paragraph (2) applies, it may be a steady light.

(2) This sub-paragraph applies where—

- (a) in relation to a globe placed in England and Wales, the Secretary of State; or
- (b) in relation to a globe placed in Scotland, Scottish Ministers,

has or have given authorisation in writing for the light to be steady.

(3) Where a globe is mounted on or attached to or mounted on a post, whether or not specially provided for the purpose—

- (a) the post must be coloured in alternate black and white bands with the lowest band being coloured black;
- (b) the width of the bands must be not less than 275 mm, nor more than 335 mm, save that the lowest band may be of a width of not more than 1 metre; and
- (c) the post may be internally illuminated.

(4) A globe, or the post on which it is mounted, may be fitted with all or any of the following—

- (a) a backing board or other device designed to improve the conspicuousness of the globe;
- (b) a shield or other device designed to prevent or reduce light shining into adjacent premises;
or
- (c) a light to illuminate the crossing.
