

SCHEDULE

PART 3

Indirect effects of exposure

Action levels – non-thermal effects

Notes

3. The ALs represent the maximum steady state current created during a continuous contact with an object in an electromagnetic field.

Table AL6 – ALs for static magnetic fields

<i>Potential indirect effect</i>	<i>Magnetic flux density ALs (B_0) [mT]</i>
Interference with active implanted medical devices	0.5
Attraction and projectile risk in the fringe field of high field strength sources (> 100 mT)	3
