
STATUTORY INSTRUMENTS

2018 No. 611

ENERGY

The Renewable Heat Incentive Scheme Regulations 2018

Made - - - - 21st May 2018

Coming into force in accordance with regulation 1

**THE RENEWABLE HEAT INCENTIVE
SCHEME REGULATIONS 2018**

PART 1

Introductory provisions

1. Citation and commencement
2. Interpretation
- 2A Approval of subsequent versions of standards
3. Renewable heat incentive scheme
- 3A Closure of the Scheme to applications
- 3B Extension applications
- 3C Budget allocation for extension applications

PART 2

Eligibility and matters relating to eligibility

CHAPTER 1

Eligible installations

4. Eligible installations

CHAPTER 2

Eligibility criteria for technologies

5. Eligible installations generating heat from solid biomass
6. RHI emission certificates
7. Eligible installations generating heat from solid biomass contained in waste
8. Eligible installations generating heat using solar collectors
9. Eligible installations generating heat using ground source heat pumps

10. Eligible installations generating heat using air source heat pumps
11. Eligible installations which are shared ground loop systems
12. Eligible installations which are CHP systems
13. Eligible installations which are new solid biomass CHP systems
14. Eligible installations generating heat using geothermal sources
15. Eligible installations generating heat using biogas
16. Other eligibility requirements for technologies
17. Planning permission
- 17A. Environmental permits and declaration of compliance
18. Certification for installation of microgeneration heating equipment
19. Plants comprising more than one plant
20. Excluded plants

CHAPTER 3

Eligibility criteria in relation to metering and steam measuring

21. Metering of plants in simple systems where application for accreditation of the plant was made before 24th September 2013
22. Metering of plants in complex systems where application for accreditation of the plant was made before 24th September 2013
23. Metering ...
24. Metering in respect of shared ground loop systems
25. Electricity metering in respect of ground source and air source heat pumps in respect of which the application for accreditation is made on or after 28th May 2014 and shared ground loop systems
26. Shared meters
27. Metering of CHP systems generating electricity only before commissioning as a CHP system
28. Matters relating to all heat meters and steam measuring equipment
29. Additional metering requirements for plants generating heat from biogas

PART 3

Accreditation, registration and tariff guarantees

30. Applications for accreditation
31. Treatment of grants from public funds
32. Producers of biomethane
- 32A. Interaction with the Renewable Transport Fuel Obligation
33. Preliminary accreditation
34. Preliminary registration of biomethane producers
35. Tariff guarantees

PART 4

Ongoing obligations for participants

CHAPTER 1

Ongoing obligations relating to the use of solid biomass to generate heat

36. Interpretation
37. Participants using solid biomass contained in waste

- 38. Participants using solid biomass in accredited RHI installations with an installation capacity of 1MWth or above
- 39. Participants using solid biomass in accredited RHI installations with an installation capacity of 45kWth and above but below 1MWth

CHAPTER 2

Ongoing obligations relating to the use of biogas to generate heat and the production of biomethane for injection

- 40. Biogas produced from gasification or pyrolysis
- 40A. Biogas produced from feedstock derived from fossil fuel
- 41. Participants generating heat from biogas
- 42. Biomethane producers

CHAPTER 3

Ongoing obligations relating to other matters

- 43. Ongoing obligations: general
- 44. Ongoing obligations: emissions from biomass
- 45. Ongoing obligations in relation to metering
- 46. Ongoing obligations in relation to the provision of information

PART 5

Sustainable solid biomass, biogas or biomethane

- 47. Interpretation
- 47A. Ongoing obligation in relation to boiler maintenance
- 47B. Approval of equivalent bodies, equivalent standards and equivalent certification schemes
- 48. Ongoing obligation to use sustainable solid biomass or biogas or to produce sustainable biomethane
- 49. Ongoing obligation to provide information to the Authority in relation to the use of sustainable solid biomass etc
- 50. Ongoing obligation to submit sustainability audit reports
- 51. Schemes for listing approved sustainable fuels

PART 6

Changes affecting accredited RHI installations and registered producers

- 51A. Interpretation
- 52. Review of accreditation or registration following notification of a change in circumstances
- 52A. Modification of installation capacity — shared ground loop systems
- 52B. Budget allocation for modification of installation capacity — shared ground loop systems
- 53. Change in circumstances for shared ground loop systems
- 54. Changes in ownership of accredited RHI installations
- 54A. Change of producer of biomethane for injection
- 55. Changes in location of accredited RHI installations
- 55A. Replacement plants

PART 7

Periodic support payments

56. Interpretation
57. Publication of tariffs
58. Expenditure forecast statement and tariff change notice
59. Calculation and payment of periodic support payments to participants
60. Calculation of initial tariffs
61. Calculation of A
62. Calculation of subsequent tariffs
63. Tiered tariffs
64. Periodic support payments for accredited RHI installations in simple systems in respect of which an application for accreditation was made before 24th September 2013
65. Periodic support payments accredited RHI installations for complex systems in respect of which an application for accreditation was made before 24th September 2013
66. Periodic support payments for accredited RHI installations ...
67. Periodic support payments for CHP systems using biomass or biogas in combination with other sources of energy
68. Periodic support payments for new solid biomass CHP systems
69. CHP systems accredited in relation to the Renewables Obligation
70. Periodic support payments for shared ground loop systems
71. Fossil fuel contamination of solid biomass and fossil fuel used for permitted ancillary purposes
72. Fossil fuel contamination adjustment to periodic support payments for producers and combusters of biogas produced from gasification and pyrolysis
- 72A. Adjustment to periodic support payments for use of feedstock derived from fossil fuel in the production of biogas by anaerobic digestion and the production of biomethane
73. Periodic support payments to producers of biomethane
74. Reconciliation payments for biogas and biomethane produced by anaerobic digestion on or after the date on which these Regulations come into force
75. Calculation of heat loss in certain circumstances

PART 8

Additional RHI capacity and additional capacity for biomethane production

76. Additional RHI capacity
77. Additional capacity for biomethane production

PART 9

Enforcement

78. Power to temporarily withhold periodic support payments to investigate alleged non-compliance
79. Power to withhold periodic support payments: further provisions
80. Power to reduce a participant's periodic support payments
81. Revocation of accreditation or registration
82. Power to correct the level of tariff being paid to a participant
83. Overpayment notices and offsetting

84. Revocation of sanctions
85. Power to inspect accredited RHI installations and equipment used to produce biomethane

PART 10

Administrative functions of the Authority

86. Right of review
87. Publication of guidance and tariffs
88. Provision of information to the Authority etc
89. Reporting obligations
90. Additional information
91. Notices

PART 11

Revocation and savings

92. Revocation, savings and transitional provisions
Signature

SCHEDULE 1 — Content of RHI emission certificates

1. The name and address of the testing laboratory by which...
2. The name and signature of the person authorised by the...
3. The date of issue of the certificate together with a...
4. Where the testing laboratory is accredited to BS EN ISO/IEC...
5. The name, model, manufacturer and installation capacity of the plant...
6. The date of the testing.
7. Confirmation that emissions of NO_x and PM have been tested...
8. The requirements of this paragraph are that testing is carried...
9. The requirements of this paragraph are that—
10. Confirmation that the test was carried out at no less...
11. Confirmation that when tested as specified in paragraphs 7 to...
12. The actual emissions of PM and NO_x measured when the...
13. A list of— (a) the types of fuel used during...
14. The moisture content of the fuel used during testing and...
15. A statement indicating whether or not the plant tested was...
16. A list of plants, other than the plant tested, in...

SCHEDULE 2 — Information required for modification of installation capacity, extension applications accreditation or registration

1. (1) This Schedule specifies the information that may be required...

Schedule 2A — Evidence to support extension application

1. Evidence requirements
2. Primary evidence
3. Secondary evidence (Category A)
4. Secondary evidence (Category B)
5. Estimated cost of works

SCHEDULE 3 — Greenhouse gas criteria

1. Solid biomass, biogas or biomethane meets the greenhouse gas criteria...

2. Lifecycle greenhouse gas emissions are to be calculated as follows—...
3. For the purposes of paragraph 2— (a) η h
4. In this Schedule— “actual value method” means the method set...

SCHEDULE 4 — Land criteria

PART 1 — Interpretation

1. In this Schedule, material is added to solid biomass for...
2. In this Schedule— “continuously forested area” means land of an...
3. For the purposes of this Schedule— (a) solid biomass was...
PART 2 — Land criteria for solid biomass which is wood or wholly derived from wood, excluding energy crops
4. Solid biomass which is wood or wholly derived from wood...
5. (1) For the purposes of paragraph 4, solid biomass which...
6. Material added to solid biomass for an exempt purpose shall...
7. For the purposes of paragraph 5, “Forest Europe Sustainable Forest...
PART 3 — Land criteria for other solid biomass including energy crops
8. Solid biomass which is not wood or derived wholly from...
9. Material added to solid biomass for an exempt purpose shall...
10. Solid biomass is obtained from a protected source if it...
11. This paragraph applies if the production of the solid biomass...
12. This paragraph applies if the cultivation and harvesting of the...

SCHEDULE 4A — Solid biomass which is wood: Criteria for woodfuel quality

1. This Schedule applies to solid biomass (excluding solid biomass contained...
2. Subject to paragraph 2A, all wood pellets must meet the...
- 2A The requirement in paragraph 2 is disapplied—
- 2B (1) If the Secretary of State considers that there is...
3. All other woodfuel must meet— (a) fuel quality standard EN...
4. All woodfuel must be certified by the Woodsure Certification Scheme...
- 4A Paragraph 4(a) does not apply for any period for which...
5. The certification scheme must provide assurance of the supply chain...
6. In this Schedule, “woodfuel” means— (a) woodchip;

SCHEDULE 5 — Information to be provided to the Authority where solid biomass is used for combustion or production of biomethane

1. This Schedule specifies the information that a participant is required...
2. The information is information identifying— (a) the material from which...
3. The information specified in paragraph 2 must be collated by...

SCHEDULE 6 — Tariffs

SCHEDULE 7 — Degression

1. Calculation of B
2. Calculation of C

Explanatory Note

Changes to legislation:

There are currently no known outstanding effects for the The Renewable Heat Incentive Scheme Regulations 2018.
