EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations amend the National Health Service (General Medical Services Contracts) Regulations 2015 (S.I. 2015/1862) (“the GMS Contracts Regulations”) and the National Health Service (Personal Medical Services Agreements) Regulations 2015 (S.I. 2015/1879) (“the PMS Agreements Regulations”) which make provision in respect of the services provided under a general medical services contract and a personal medical services agreement made pursuant to Part 4 of the National Health Service Act 2006 (c.41) (medical services). They apply to England only.

Part 2 of the Regulations amends the GMS Contracts Regulations.

Regulation 2 inserts a new definition of “paramedic independent prescriber” into regulation 3 and also makes consequential amendments to the definitions of “prescriber”, “relevant register” and “supplementary prescriber” so as to include references to a paramedic independent prescriber in those definitions.

Regulation 3 amends regulation 18 to include a reference to the new quality standards which apply in respect of the delivery of out of hours services by a contractor. The new quality standards are contained in the Integrated Urgent Care Key Performance Indicators which replace the National Quality Standards for the Delivery of Out of Hours Services.

Regulation 4 omits paragraph (7) of regulation 71 as this provision is now obsolete.

Regulation 5 inserts a new regulation 71A aimed at securing an increase in the percentage of patient access to online services. Contractors which have less than ten per cent of their registered patients registered with the contractor’s practice to use patient online services must agree a plan with the National Health Service Commissioning Board (“the Board”) aimed at increasing the percentage of patient access to those services.

Regulation 6 makes a minor amendment to paragraph 7A of Schedule 3 which makes clear that the requirement on contractors to take steps to identify patients aged 65 or over living with moderate to severe frailty is an annual one.

Regulation 7 inserts a new paragraph 11A into Schedule 3 which imposes a requirement on contractors to use the NHS e-Referral Service (“e-RS”) in respect of the referral of any registered patient to a first consultant-led out-patient appointment for medical services under the National Health Service Act 2006 in respect of which the ability to use that facility is available. Contractors must require the use of alternative means of making such referrals in their practice premises if they do not yet have e-RS in place in those premises or where they are experiencing technical or other practical difficulties in using e-RS effectively in those premises and have notified the Board of that fact.

Regulation 8 amends paragraph 25 of Schedule 3 to allow a contractor to remove a person from its list of patients where the contractor becomes aware, after accepting the person onto that list, that the person has committed an act of violence against specified persons and has previously been removed from the list of patients of another provider of primary medical services on that basis.

Part 3 of the Regulations makes amendments to the PMS Agreements Regulations which are similar in effect to the amendments made to the GMS Contracts Regulations by regulations 2 to 8 in Part 2.

Regulation 9 inserts a new definition of “paramedic independent prescriber” in regulation 3 and makes consequential amendments to certain other definitions in that regulation.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Regulation 10 amends regulation 22 to include a reference to the new quality standards which apply in respect of the delivery of out of hours services by a contractor.

Regulation 11 omits paragraph (7) of regulation 64 as this provision is now obsolete.

Regulation 12 inserts new regulation 64A, which makes similar provision, in respect of patient access to online services, to new regulation 71A of the GMS Contracts Regulations as inserted by regulation 5 in Part 2.

Regulation 13 makes a minor amendment to paragraph 14A of Schedule 2 which makes clear that contractors are required to conduct a frailty assessment of their registered patients aged 65 and over on an annual basis.

Regulation 14 inserts a new paragraph 16A into Schedule 2, which makes similar provision, in respect of the requirement on contractors to use e-RS, to new paragraph 11A of Schedule 3 to the GMS Contracts Regulations as inserted by regulation 7 in Part 2.

Regulation 15 makes amendments to paragraph 24 of Schedule 2, similar to those made to paragraph 25 of Schedule 3 to the GMS Contracts Regulations by regulation 8 in Part 2, to enable the removal from the contractor's list of patients, of patients who have previously been removed from the list of patients of another provider of primary medical services in specified circumstances.

A full impact assessment has not been produced for this instrument as no, or no significant, impact on the private, voluntary or public sector is foreseen.
