must be appropriate to the circumstances and have been approved by the Secretary of State and the appropriate authority, taking into account—

- (a) the health status of livestock, other domestic animals and wildlife and the environmental situation in the third country, with particular regard to the general situation as regards animal health in the third country and any animal disease that is exotic, notifiable or reportable in the United Kingdom that may pose a risk to the health and environmental situation of the United Kingdom;
- (b) the legislation of the third country in relation to animal health and welfare;
- (c) the organization of the competent veterinary authority and its inspection services in the third country, the powers available to undertake those services, the supervision to which they are subject, and the means at their disposal, including staff and laboratory capacity, to apply the third country's legislation effectively;
- (d) the assurances which the competent veterinary authority of the third country can give regarding compliance with legislation in that country that is of relevance to protection of animal health in the United Kingdom;
- (e) whether the third country is a member of the OIE, and the regularity and rapidity of the information supplied by the third country relating to the existence of infectious or contagious animal diseases in its territory, in particular those diseases listed by the OIE;
- (f) the assurances given by the third country to inform the United Kingdom within 24 hours of the confirmation of the occurrence of any diseases of ungulates listed in Annex 2 to Council Directive 2004/68/EC and of any change in the vaccination policy concerning such diseases, or any proposed changes in the national health rules concerning live ungulate animals, in particular regarding importation;
- (g) any experience of previous imports of live animals from the third country and the results of any import controls carried out;
- (h) the animal health requirements applying to the production, manufacture, handling, storage and dispatch of products of animal origin intended for the United Kingdom;
- (i) the results of inspections or audits carried out in the third country, in particular the results of the assessment of the competent authorities of those inspections or audits;
- (j) the rules on the prevention and control of infectious or contagious animal diseases in force in the third country and their implementation, including rules on importation from other third countries.
- (3) Any assessment which is relied on for the purposes of paragraph (1) to amend Part 1 of Annex 2 to Commission Regulation (EU) No 206/2010 with regard to imports of fresh meat in accordance with Council Directive 2002/99/EC(9) must be appropriate to the circumstances and have been approved by the Secretary of State and the appropriate authority.
- (4) In the case of a third country which is not listed in the relevant list, or which is listed therein only as regards part of its territory, the assessment must demonstrate that the relevant competent authority of the third country is able to provide appropriate assurances regarding compliance with relevant animal and public health requirements in the United Kingdom.

Function of approval of third countries to be included in approved lists with regard to the importation of semen, ova and embryos of the ovine and caprine species

# Power to amend the third country lists in Commission Decision 2010/472/EU

- 10.—(1) The Secretary of State, with the consent of the appropriate authority, may by regulations amend Commission Decision 2010/472/EU on imports of semen, ova and embryos of animals of the ovine and caprine species into the Union(10), to add a third country to the list in Annex 1 (semen) or Annex 3 (ova and embryos) ("the relevant list"), or remove or amend an entry in the relevant list in respect of a third country, where the amendment is necessary or appropriate in the light of an assessment of the risks to animal and human health in the United Kingdom, taking into account the following matters—
  - (a) whether there are any diseases referred to in Annex A of Council Directive 92/65/EEC, or of other exotic animal diseases present in the third country, which might endanger animal health in the United Kingdom;
  - (b) whether the third country is capable of guaranteeing the implementation of its legislation, and whether the organization of its veterinary and inspection services enables the country effectively to undertake or supervise such services;
  - (c) whether the veterinary services of the third country are able to provide assurance that health requirements at least equivalent to those laid down in Chapter 2 of Council Directive 92/65/EC are being complied with;
  - (d) any on-the-spot inspections by experts from the United Kingdom undertaken to verify whether the assurances given by the third country regarding the conditions of production and placing on the market can be considered equivalent to those applied in the United Kingdom.
- (2) Any assessment which is relied on for the purposes of paragraph (1) must be appropriate to the circumstances and must have been approved by the Secretary of State and the appropriate authority.
- (3) In the case of a third country which is not listed in the relevant list, or which is listed therein only as regards part of its territory, the assessment must demonstrate that the relevant competent authority of the third country is able to provide appropriate assurances regarding compliance with relevant animal and public health requirements in the United Kingdom.

#### **CHAPTER 9**

Function of approval of third countries to be included in approved lists with regard to the importation of raw milk, dairy products etc. intended for human consumption

# Power to amend the third country lists in Commission Regulation (EU) 605/2010

11.—(1) The Secretary of State, with the consent of the appropriate authority, may by regulations amend Commission Regulation (EU) 605/2010 laying down animal and public health and veterinary certification conditions for the introduction into the European Union of raw milk, dairy products, colostrum and colostrum-based products intended for human consumption(11), to add a third country to the list in Annex 1 ("the list"), or remove or amend an entry in the list in respect of a third country, where the amendment is necessary or appropriate in the light of an assessment of the risks to animal and human health in the United Kingdom, taking into account the animal health criteria and the public health criteria.

<sup>(10)</sup> Commission Decision 2010/472/EC is amended by S.I. 2019/795.

<sup>(11)</sup> Commission Regulation (EU) 605/2010 is amended by S.I. 2019/795.

- (2) Any assessment which is relied on for the purposes of paragraph (1) must be appropriate to the circumstances and must have been approved by the Secretary of State and the appropriate authority.
- (3) In the case of a third country which is not listed in the list, or which is listed therein only as regards part of its territory, the assessment must demonstrate that the relevant competent authority of the third country is able to provide appropriate assurances regarding compliance with relevant animal and public health requirements in the United Kingdom.

Function of approval of third countries to be included in approved lists that comply with veterinary residues

# Power to amend the third country lists of approved residue control plans in Commission Decision 2011/163/EU

- 12.—(1) The Secretary of State, with the consent of the appropriate authority, may by regulations amend Commission Decision 2011/163/EU on the approval of plans submitted by third countries(12) (which sets out the assurances which a third country offers as regards the monitoring of the groups of residues and substances), to add a third country to the list in the Annex ("the list"), or remove or amend an entry in the list in respect of a third country, where the amendment is necessary or appropriate in the light of an assessment of the risks to public health in the United Kingdom, taking into account matters specified in this regulation.
- (2) For the purposes of submission for approval under paragraph (6), an assessment of a residue control plan submitted by the central competent authority of the third country must take into account the extent to which it complies with the regulatory requirements in the United Kingdom and must set out the following information—
  - (a) legislation on the use of the substances listed in Annex 1 to Directive 96/23/EEC(13) and, in particular, provisions on their prohibition or authorization, distribution and placing on the market and the rules governing their administration, in so far as such legislation is different from that in force in the United Kingdom;
  - (b) the infrastructure of the relevant competent authorities in the third country (with, in particular, details of the type and size of the bodies involved in implementing the plans);
  - (c) a list of approved laboratories, with details of their capacity for processing samples;
  - (d) national tolerances for authorized substances in cases where no maximum United Kingdom residue levels have been set under Regulation (EC) No 470/2009;
  - (e) a list of the substances to be detected, methods of analysis, standards for interpreting the findings and, in the case of the substances listed in Annex 1 to Directive 96/23/EEC, the number of samples to be taken, and the reasons for this number;
  - (f) the number of official samples to be taken in relation to the number of animals of the species concerned slaughtered in preceding years in accordance with the frequencies laid down in Annex 4 to Directive 96/23/EEC;
  - (g) details of the rules governing the collection of official samples, and in particular the rules concerning the particulars to appear on such official samples;
  - (h) the type of measures laid down by the competent authorities in the third country with regard to animals or products in which residues have been detected;

<sup>(12)</sup> Commission Decision 2011/163/EC is amended by S.I. 2019/795.

<sup>(13)</sup> OJ No. L 125, 23.5.1996, p.10, as last amended by Council Directive 2013/20/EU (OJ No. L 158, 10.6.2013, p.234).

- (i) confirmation that the relevant competent authority of the third country coordinates the activities of the central and regional departments responsible for monitoring the various residues to prevent the fraudulent or unlawful use of substances or products on stock farms;
- (j) confirmation that the relevant competent authority of the third country collects residue monitoring data needed to evaluate the means used and the results, and will supply a report of such data to the Secretary of State and the appropriate authority annually by 31st March each year.
- (3) The plan must provide for the detection of groups of residues or substances according to type of animal, in accordance with Annex 2 to Directive 96/23/EEC, and in accordance with the sampling rules and levels set down in Annex 3 and Annex 4 to that Directive, and must specify in particular the measures for the detection of—
  - (a) the relevant substances in animals in accordance with Annex 2 to that Directive, or in the drinking water, and in all places where animals are bred or kept;
  - (b) residues of such substances found in live animals, their excrement and body fluids or in animal tissues, meat, milk, eggs or honey.
- (4) Compliance with the requirements of, and adherence to the assurances offered by, the plans submitted by third countries must be verified by means of checks carried out by the relevant competent authority in the third country, and, where such checks reveal the use of unauthorized products or substances for the treatment of the animals in a given batch, or the presence of such products or substances in all or part of a batch originating in the same establishment, the Secretary of State and the appropriate authority may—
  - (a) impose remedial measures, after making enquiries of the competent authorities of the third country and concluding that the third country has failed to fulfil its obligations and the assurances in the residue control plan;
  - (b) send United Kingdom experts to visit the third country, at that country's expense, in order to verify that remedial measures have been taken.
- (5) Third countries using raw material imported from other third countries approved for production of food of animal origin in accordance with Commission Decision 2011/163/EU, and which are unable to provide a residue monitoring plan, must provide an assurance that animal products for human consumption exported to the United Kingdom must only come from establishments approved by the competent authority of the third country as having reliable procedures in place.
- (6) Any assessment which is relied on for the purposes of this regulation must be appropriate to the circumstances and must have been approved by the Secretary of State and the appropriate authority.
- (7) In the case of a third country which is not listed in the list, or which is listed therein only as regards part of its territory, the assessment must demonstrate that the relevant competent authority of the third country is able to provide appropriate assurances regarding compliance with relevant residue requirements in the United Kingdom.

Function of approval of third countries to be included in approved lists for the importation of bovine semen

# Power to amend the third country lists in Commission Implementing Decision 2011/630/EU

13.—(1) The Secretary of State, with the consent of the appropriate authority, may by regulations amend Commission Implementing Decision 2011/630/EU on imports into the Union of semen of

domestic animals of the bovine species(14), to add a third country to the list in Annex 1 ("the list"), or remove or amend an entry in the list in respect of a third country, where the amendment is necessary or appropriate in the light of an assessment of the risks to animal and public health in the United Kingdom in accordance with paragraph (2).

- (2) Any assessment which is relied upon for the purposes of paragraph (1) must be appropriate to the circumstances and must have been approved by the Secretary of State and the appropriate authority, taking into account—
  - (a) the state of health of the livestock, other domestic animals and wildlife and the environmental situation in the third country, with particular reference to animal diseases that are exotic, notifiable or reportable in the United Kingdom and which might endanger the health and environmental status of the United Kingdom;
  - (b) the regularity and rapidity of the provision of information by the third country concerning the existence of the contagious animal diseases in its territory listed by the OIE;
  - (c) the relevant legislation on animal disease prevention and control;
  - (d) the structures, skills, independence and qualifications of the competent authority's veterinary inspection services in the third country;
  - (e) the organization and implementation of measures to prevent and control contagious animal diseases;
  - (f) the assurances which the third country can give with regard to compliance with the animal health requirements related to imports of bovine semen.
- (3) In the case of a third country which is not listed in the list, or which is listed therein only as regards part of its territory, the assessment must demonstrate that the relevant competent authority of the third country is able to provide appropriate assurances regarding compliance with relevant animal health requirements in the United Kingdom.
