THE RADIATION (EMERGENCY PREPAREDNESS AND PUBLIC INFORMATION) REGULATIONS 2019

1. Citation, commencement and extent
2. Interpretation
3. Application
4. Hazard evaluation
5. Consequence assessment
6. Review of hazard evaluation and consequence assessment
7. Consequences report
8. Detailed emergency planning zone
9. Outline planning zone
10. Operator’s emergency plan
11. Local authority’s off-site emergency plan
12. Reviewing and testing of emergency plans
13. Co-operation: operator and local authority
14. Co-operation between local authorities
15. Consultation and co-operation: employers
16. Charge for preparation, review and testing of emergency plans
17. Implementation of emergency plans
18. Emergency exposures: employees
19. Disapplication of dose limits
20. Reference levels
21. Prior information to the public
22. Duty of local authority to supply information to the public in the event of an emergency
23. Retention of information
24. Radiation protection adviser
25. Modifications relating to the Ministry of Defence etc
26. Disclosure of information
27. Revocation
28. Transitional and savings provisions
29. Consequential amendments
30. Review

Signature

SCHEDULE 1 —
PART 1 — Table of radionuclides
PART 2 — Quantity ratios for more than one radionuclide

SCHEDULE 2 —

SCHEDULE 3 —
1. The following requirements must be complied with in the assessment...
2. The assessment must be based on a suitable and sufficient...
3. The calculations undertaken in support of the assessment must consider...
4. The assessment must consider the consequences of the potential radiation...
5. The assessment must consider what would be an effective and,...
6. The assessment must include all relevant pathways by which members...
7. The assessment must identify any protective action that may need...
8. The assessment must assess the consequences of suitable and sufficient...
9. In this Schedule “source term” means the radioactivity which could...

SCHEDULE 4 — Particulars to be included in a consequences report
PART 1 — Factual Information
1. The following factual information must be provided in the operator’s...
PART 2 — Recommendations
2. The operator must include the following recommendations in the consequences...
3. In relation to a minimum geographical extent recommended under paragraph...
   PART 3 — Rationale
4. The operator must set out the rationale supporting each recommendation...
5. In particular, the operator must set out—

SCHEDULE 5 —
1. The following table applies for the purpose of setting the...
2. In the Table at paragraph 1 “High Level Waste” means...

SCHEDULE 6 — Information to be included in emergency plans
PART 1 — Information to be included in an operator’s emergency plan
1. The information referred to in regulation 10(3) is as follows—...
PART 2 — Information to be included in the off-site emergency plan

CHAPTER 1

Information about detailed emergency planning zones

2. The information referred to in regulation 11(3)(a) is as follows—...
CHAPTER 2

Information about outline planning zones

3. The information referred to in regulation 11(3)(b) is as follows—...
4. In paragraph 3(b)(ii), an area of detailed planning within the...

CHAPTER 3

Information which an off-site emergency plan must contain

5. In order to comply with regulation 11(3)(c) an off-site emergency...

SCHEDULE 7 — Principles and purposes of emergency plans
PART 1 — Principles to which emergency plans must have regard
1. Any person with responsibility for preparing an emergency plan under...
   PART 2 — Purposes of emergency plans
2. Any person with responsibility for preparing an emergency plan under...

SCHEDULE 8 — Prior information for members of the public
PART 1 — Information in relation to detailed emergency planning zones
1. Basic facts about ionising radiation and its effects on persons...
2. The various types of radiation emergency identified and their consequences...
3. Protective action envisaged to alert, protect and assist the general...
4. Appropriate information on protective action to be taken by the...
5. The authority or authorities responsible for implementing the protective action...
6. The extent of the detailed emergency planning zone.
   PART 2 — Information in relation to outline planning zones
7. Where the information set out at paragraphs 1 to 5...
8. The extent of the outline planning zone.
9. The factors which would cause the plan in respect of...

SCHEDULE 9 — Information to be supplied in the event of a radiation emergency
1. Information on the type of emergency which has occurred, and...
2. Advice on protective action which may include, depending on the...
3. Details concerning any announcements recommending cooperation with instructions or requests...
4. Where an incident which is likely to give rise to...
5. If time permits, information setting out the basic facts about...
6. In paragraph 4(b), “establishments with particular collective responsibilities” means hospitals,...

SCHEDULE 10 — Consequential amendments
1. Road Vehicles (Construction and Use) Regulations 1986
2. Road Vehicles Lighting Regulations 1989
3. Health and Safety (Enforcing Authority) Regulations 1998
4. Civil Contingencies Act 2004 (Contingency Planning) (Scotland) Regulations 2005
5. Civil Contingencies Act 2004 (Contingency Planning) Regulations 2005
7. Radioactive Contaminated Land (Modification of Enactments) (Wales) Regulations 2006
8. Radioactive Contaminated Land (Scotland) Regulations 2007
9. Local Government (Structural Changes) (Transitional Arrangements) (No. 2) Regulations 2008
12. Health and Safety and Nuclear (Fees) Regulations 2016
13. Ionising Radiations Regulations 2017

Explanatory Note
