PART 2

Amendment of Part 1 (General)

Definitions in relation to advanced therapy medicinal products

4. After regulation 2, insert—

“Definition of advanced therapy medicinal product etc.

2A.—(1) In these Regulations, [^{F1}in their application to products for sale or supply in Great Britain only,] “advanced therapy medicinal product” means any of the following products—

- (a) a gene therapy medicinal product;
- (b) a somatic cell therapy medicinal product; or
- (c) a tissue engineered product.

(2) A “gene therapy medicinal product” is a biological medicinal product which has the following characteristics—

- (a) it contains an active substance which contains or consists of a recombinant nucleic acid used in or administered to human beings with a view to regulating, repairing, replacing, adding or deleting a genetic sequence; and

- (b) its therapeutic, prophylactic or diagnostic effect relates directly to the recombinant nucleic acid sequence it contains, or to the product of genetic expression of this sequence.
- (3) A vaccine against infectious diseases is not to be treated as a gene therapy medicinal product.
- (4) A “somatic cell medicinal product” is a medicinal product which has the following characteristics—
 - (a) it contains or consists of cells or tissues that—
 - (i) have been subject to substantial manipulation so that biological characteristics, physiological functions or structural properties relevant for the intended clinical use have been altered, or
 - (ii) are not intended to be used for the same essential function in the recipient as in the donor; and
 - (b) it is presented as having properties for, or is used in or administered to human beings with a view to, treating, preventing or diagnosing a disease through the pharmacological, immunological or metabolic action of its cells or tissues.
- (5) A “tissue engineered product” is a medicinal product which—
 - (a) contains or consists of engineered cells or tissues; and
 - (b) is presented as having properties for, or is used in or administered to human beings with a view to, regenerating, repairing or replacing a human tissue.
- (6) A tissue engineered product may contain—
 - (a) cells or tissues of human or animal origin;
 - (b) viable or non-viable cells or tissues; and
 - (c) additional substances, including cellular products, bio-molecules, biomaterials, chemical substances, scaffolds or matrices.
- (7) A product is not a tissue engineered product if it—
 - (a) contains or consists exclusively of non-viable human or animal cells or tissues;
 - (b) does not contain any viable cells or tissues; and
 - (c) does not act principally by pharmacological, immunological or metabolic action.
- (8) Cells or tissues are engineered if they—
 - (a) have been subject to substantial manipulation, so that biological characteristics, physiological functions or structural properties relevant for the intended regeneration, repair or replacement are achieved; or
 - (b) are not intended to be used for the same essential function in the recipient as in the donor.
- (9) The following manipulations are not substantial manipulations for the purposes of paragraphs (4)(a) and (8)(a)—
 - (a) cutting;
 - (b) grinding;
 - (c) shaping;
 - (d) centrifugation;
 - (e) soaking in antibiotic or antimicrobial solutions;
 - (f) sterilisation;

- (g) irradiation;
- (h) cell separation, concentration or purification;
- (i) filtering;
- (j) lyophilisation;
- (k) freezing;
- (l) cryopreservation; and
- (m) vitrification.

(10) In these Regulations, [^{F1}in their application to products for sale or supply in Great Britain only,] “combined advanced therapy medicinal product” means an advanced therapy medicinal product—

- (a) which incorporates, as an integral part of the product, one or more medical devices or one or more active implantable medical devices; and
- (b) the cellular part of which—
 - (i) contains viable cells or tissues; or
 - (ii) contains non-viable cells or tissues which are liable to act upon the human body with action that can be considered as primary to that of the medical devices.

(11) Where an advanced therapy medicinal product contains viable cells or tissues, the pharmacological, immunological or metabolic action of those cells or tissues is to be treated as the principal mode of action of the product.

(12) An advanced therapy medicinal product containing both autologous and allogeneic cells or tissues is to be treated as being for allogeneic use.

(13) A product which falls within the definition of a tissue engineered product and within the definition of a somatic cell therapy medicinal product is to be treated as a tissue engineered product.

(14) A product which falls within the definition of—

- (a) a somatic cell therapy medicinal product or a tissue engineered product; and
- (b) a gene therapy medicinal product,

is to be treated as a gene therapy medicinal product.”.

PART 3

Amendment of Part 3 (manufacture and distribution of medicinal products and active substances)

New regulation B17 and C17 (good manufacturing practice and good distribution practice)

- 13.** After regulation A17^{M14} insert—

“Chapter 1A

Good manufacturing practice and good distribution practice

Regulations on good manufacturing practice

B17.—(1) The [^{F35}Secretary of State] may by regulations [^{F36}in respect of Great Britain] set out principles and guidelines of good manufacturing practice in respect of medicinal products and investigational medicinal products.

(2) Regulations under paragraph (1) may in particular make provisions as to—

- (a) inspections;
- (b) compliance with good manufacturing practice and, where relevant, the UK marketing authorisation [^{F37}or EU marketing authorisation];
- (c) quality assurance systems;
- (d) personnel;
- (e) premises and equipment;
- (f) documentation;
- (g) production;
- (h) quality control;
- (i) the contracting out of work;
- (j) complaints and product recall;
- (k) self-inspection.

(3) Subject to any provision made in regulations under paragraph (1), the principles and guidelines set out in the Good Manufacturing Practice Directive have effect [^{F38}in Great Britain] on and after [^{F39}IP completion day] as they had effect immediately before [^{F39}IP completion day], but subject to the modifications specified in Schedule 2A.

(4) The [^{F40}Secretary of State] may by regulations [^{F41}in respect of Great Britain] amend or revoke Schedule 2A.

Guidelines on good manufacturing practice and good distribution practice

C17.—(1) The licensing authority may publish [^{F42}in relation to the manufacture or assembly of a medicinal product in, or import to, Great Britain]—

- (a) detailed guidelines of good manufacturing practice in respect of medicinal products, and investigational medicinal products, referred to in Article 46(f) of the 2001 Directive, including guidelines as to the formalised risk assessment for ascertaining the appropriate good manufacturing practice for excipients;
- (b) principles and guidelines of good manufacturing practice for active substances, referred to in the first paragraph of point (f) of Article 46 and in Article 46b of that Directive;
- (c) principles and guidelines of good distribution practice referred to in the first paragraph of point (f) of Article 46, and Article 84, of that Directive.

(2) Guidelines or principles under paragraph (1) may replace, amend or otherwise modify any guidelines or principles published or adopted by the European Commission under the second, third, fourth or fifth paragraph of Article 47, or Article 84, of the 2001 Directive.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(3) Unless replaced by principles or guidelines published under paragraph (1), principles and guidelines published or adopted by the European Commission under the second, third, fourth or fifth paragraph of Article 47, or Article 84, of the 2001 Directive, as they applied immediately before [^{F43}IP completion day]^{M15}, continue to apply on and after [^{F43}IP completion day] (subject to any amendments or modifications published under paragraph (1)).

(4) Before exercising the power under paragraph (1), the licensing authority must consult such persons as it considers appropriate.

(5) The licensing authority may only exercise its power under paragraph (1) if it considers that it is necessary in order to take account of technical or scientific progress.

(6) If the licensing authority publishes principles and guidelines under paragraph (1), any reference in these Regulations to any principle or guideline adopted under the provisions of the 2001 Directive specified in those paragraphs is instead to be read as a reference to the principle or guideline published under paragraph (1), or that principle or guideline as amended or modified (as the case may be).”.

16. After regulation 18, insert—

“Approved country for import

18A.—(1) The licensing authority must—

- (a) publish a list of countries from which medicinal products may be imported under a wholesale dealing licence (“approved country for import list”); and
- (b) only include in that list a country which is included in the approved country for batch testing list.

(2) In order to determine whether a country should be included in the approved country for import list, the licensing authority may, in particular, take into account—

- (a) the country's system for ensuring that each batch of a medicinal product has been manufactured and checked in accordance with the requirements of its legislation and any authorisation in respect of that product;
- (b) the country's rules for good distribution practice;
- (c) the regularity of inspections to verify compliance with good distribution practice;
- (d) the effectiveness of enforcement of good distribution practice;
- (e) the regularity and rapidity of information provided by that country relating to non-compliant manufacturers and distributors of medicinal products;
- (f) any on-site review of that country's regulatory system undertaken by the licensing authority;
- (g) any on-site inspection of a manufacturing site in that country observed by the licensing authority; and
- (h) any other relevant documentation available to the licensing authority.

(3) The licensing authority must—

- (a) remove a country from the approved country for import list if that country is removed from the approved country for batch testing list;

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (b) in any event review the countries it has included in the approved country for import list to determine if it is still satisfied that the country should remain on that list, and if it is not so satisfied, remove that country from the list; and
- (c) undertake that review at least every three years beginning with the date on which that country is included in that list.”

 - (4) A country may be included in the approved country for batch testing list subject to any condition or restriction that the licensing authority considers appropriate, including as to categories of medicinal product, and any such condition or restriction must be included in the list.
 - (5) In order to satisfy itself of the matters specified in sub-paragraph (1)(b)(i) and (ii), the licensing authority may, in particular, take into account—
 - (a) the country's rules for good manufacturing practice;
 - (b) the regularity of inspections to verify compliance with good manufacturing practice;
 - (c) the effectiveness of enforcement of good manufacturing practice;
 - (d) the regularity and rapidity of information provided by that country relating to non-compliant manufacturers;
 - (e) any on-site review of that country's regulatory system undertaken by the licensing authority;
 - (f) any on-site inspection of a manufacturing site in that country observed by the licensing authority;
 - (g) any other relevant documentation available to the licensing authority.
 - (6) The licensing authority must—
 - (a) review any appropriate arrangements it has made under sub-paragraph (1)(b) to determine if that country still satisfies the requirements of sub-paragraph (1)(b)(i) and (ii), and whether any condition or restriction in those arrangements remains appropriate;
 - (b) if it is not so satisfied, remove that country from the approved country for batch testing list or, as the case may be, amend or remove that condition or restriction; and
 - (c) undertake such a review at least every three years beginning with the date on which the country is included in that list.”.

Insertion of new regulations 45AA and 45AB (responsible persons: import)

37. After regulation 45, insert—

“Requirement as to responsible persons where licence holder imports from an approved country for import

45AA.—(1) Subject to paragraph (2), this regulation applies [^{F117}to a licence holder in Great Britain] where the licence holder imports a medicinal product from an approved country for import under a wholesale dealer's licence.

(2) The requirements of this regulation do not apply where an unlicensed medicinal product falling under paragraph (1) is imported—

- (a) from an approved country for import for the sole purpose of distribution by way of wholesale dealing as a special medicinal product; or
- (b) for the sole purpose of wholesale distribution of that product to a person in a country other than an approved country for import.

(3) The licence holder must ensure that there is available at all times at least one person (referred to in this regulation as the “responsible person (import)”) whose name is included in the register established under regulation 45AB.

(4) A responsible person (import) must—

- (a) carry out the functions under regulation 45(2), unless a responsible person under regulation 45 is performing those functions in respect of the licence; ^{F118}...
- (b) ensure that there is appropriate evidence to confirm that each production batch of a medicine imported from an approved country for import under the licence has been certified as provided for in Article 51 of the 2001 Directive, or such equivalent certification procedure as applies in the approved country for import [^{F119}; and

- (c) ensure that each production batch of a medicinal product that is subject to the batch testing condition and that is imported into Great Britain from an approved country for import has been certified as being in conformity with the approved specifications in the UK marketing authorisation by—
 - (i) the appropriate authority, or
 - (ii) where the batch testing exemption applies, a laboratory in a country that has an agreement with the United Kingdom to the effect that the appropriate authority will recognise that certificate in place of the appropriate authority's own examination.]
- (5) The licensing authority must publish guidance on the documentation that it considers to be appropriate evidence for the purposes of paragraph (4)(b).
- (6) Guidance published under paragraph (5) may be taken into account by the licensing authority in determining whether it considers there has been a failure to comply with this regulation.
- (7) The licence holder must apply to vary the licence if a change is proposed to the responsible person (import).
- (8) The licence holder must not permit any person to act as a responsible person (import) other than the person named in the licence.
- (9) Paragraph (10) applies if—
 - (a) the person acting as responsible person (import) in respect of the licence is no longer included in the register under 45AB;
 - (b) the licensing authority thinks, after giving the licence holder and a person acting as a responsible person (import) the opportunity to make representations (orally or in writing), that the responsible person (import) is failing to carry out the functions referred to in paragraph (4) adequately or at all.
- (10) Where this paragraph applies the licensing authority—
 - (a) must notify the licence holder in writing that the person is not permitted to act as a responsible person (import) in respect of that licence; and
 - (b) may, subject to regulation 45AB(3)(b), remove that person's name from the register under regulation 45AB.
- (11) In this regulation, “unlicensed medicinal product” means a medicinal product in respect of which—
 - (a) there is no marketing authorisation, within the meaning of the 2001 Directive, in any EEA State in respect of that product, where the product is imported from an approved country for import that is an EEA State; or
 - (b) there is no licence or authorisation in respect of that product as regards its sale or supply in the approved country for import, where the product is imported from an approved country for import that is not an EEA State.

Register for responsible persons (import)

45AB.—(1) The licensing authority must maintain a register of persons (“the responsible person (import) register”) who may carry out the role of responsible person (import) under regulation 45AA.

(2) The licensing authority may only include a person's name in the responsible person (import) register if that person—

- (a) holds—

- (i) a diploma, certificate or other evidence of formal qualifications awarded on completion of a university or other higher education course of study in pharmacy, chemistry, medicine, biology or a related life science, or
 - (ii) such other qualification as the licensing authority is satisfied is equivalent;
 - (b) is a member of—
 - (i) the Royal Society of Biology,
 - (ii) the Royal Pharmaceutical Society,
 - (iii) the Pharmaceutical Society of Northern Ireland,
 - (iv) the Royal Society of Chemistry, or
 - (v) such other body as may be specified by the licensing authority for the purpose of this paragraph; and
 - (c) has a minimum of 2 years' experience in performing the functions of a responsible person under regulation 45, or in performing such other functions that appear to the licensing authority to be equivalent.
- (3) The licensing authority—
- (a) may remove a person's name from the responsible person (import) register if it no longer considers that the person satisfies the requirements of paragraph (2); but
 - (b) it may not exercise that power unless it has given that person the opportunity to make representations to it (orally or in writing).”.

- (c) in sub-paragraph (b)(i), after “competent authority of a member State” insert “or licensing authority (in the case of an import into Northern Ireland) or licensing authority or an appropriate authority responsible for the licensing of medicinal products in a country included in a list under paragraph (6) (in the case of an import into Great Britain)”.]

(6) At the end insert—

“(6) The licensing authority may publish a list of countries which it is satisfied have a regulatory framework applicable to active substances exported to [^{F131}Great Britain] that is equivalent to the regulatory framework in [^{F131}Great Britain], in that the respective control and enforcement activities in those countries ensures an equivalent level of protection of public health.

(7) Before including a country in the list under paragraph (6), the licensing authority must assess the equivalence referred to in that paragraph by—

- (a) reviewing relevant documentation; and
- (b) unless the country is included in the approved country for batch testing list, carrying out—
 - (i) an on-site review of the country's regulatory system, and
 - (ii) if the licensing authority considers it necessary, an inspection of one or more of that country's manufacturing sites for active substances.

(8) In carrying out an assessment under paragraph (7) the licensing authority must in particular take account of the—

- (a) country's rules for good manufacturing practice;
- (b) regularity of inspections to verify compliance with good manufacturing practice;
- (c) effectiveness of enforcement of good manufacturing practice; and
- (d) regularity and rapidity of information provided by that country relating to non-compliant producers of active substances.

- (9) The licensing authority must—
- (a) review the list under paragraph (6) to determine if a country included in it still satisfies the requirements for inclusion in the list, and if it is not so satisfied, remove that country; and
 - (b) undertake such a review at least every three years, beginning with the date on which a country is included in the list .”.

PART 5

Amendment of Part 5 (marketing authorisations)

Amendment of regulation 48 (application of Part 5)

47.—(1) Regulation 48 ^{M38} is amended as follows.

(2) In paragraph (2)—

(a) at the appropriate place insert—

[^{F136}“EU reference medicinal product” means a medicinal product which falls within paragraph (b)(ii) or (iii) of the definition of “reference medicinal product”];

[^{F137}“excluded reference product” means—

- (a) a medicinal product authorised on the basis that it was a generic medicinal product;
 - (b) a medicinal product authorised on the basis that one or more of the circumstances listed in Article 10(3) of the 2001 Directive or regulation 52(1)(b) applied; or
 - (c) a biological medicinal product authorised on the basis that it did not meet a condition for being a generic medicinal product for any of the reasons described in Article 10(4) of the 2001 Directive or regulation 53A(1);”];
- (b) for the definition of “generic medicinal product”, substitute—
- [^{F138}“generic medicinal product”, in relation to a reference medicinal product for an application for—
- (a) a UKMA(NI) or UKMA(UK), has the meaning given in Article 10(2)(b) of the 2001 Directive;
 - (b) a UKMA(GB), means a medicinal product—
 - (i) that has the same qualitative and quantitative composition in active substances as the reference medicinal product;
 - (ii) that has the same pharmaceutical form as the reference medicinal product; and
 - (iii) whose bioequivalence with the reference medicinal product has been demonstrated by appropriate bioavailability studies;”];
- (c) for the definition of “parallel import licence” substitute—
- ““parallel import licence” means a licence that is granted by the licensing authority under this Part authorising the holder to place on the market a medicinal product imported in to the United Kingdom from an EEA State where that product—
- (a) has been granted an EU marketing authorisation or a marketing authorisation in an EEA State under the 2001 Directive; and
 - (b) is essentially similar to a product that has been granted a UK marketing authorisation;”]; and
- (d) for the definition of “reference medicinal product”, substitute—
- [^{F139}“reference medicinal product” means—
- (a) in relation to an application for a UKMA(NI), a medicinal product—
 - (i) authorised for sale or supply in Northern Ireland under regulation 49(1)(a), in accordance with the provisions of regulation 50; or
 - (ii) in relation to which an EU marketing authorisation or a marketing authorisation granted by a member State pursuant to the 2001 Directive is or has been in force,but which is not an excluded reference product;
 - (b) in relation to an application for a UKMA(GB), a medicinal product—
 - (i) authorised under regulation 49(1)(a), in accordance with the provisions of regulation 50;
 - (ii) in relation to which an EU marketing authorisation was in force on IP completion day, but in relation to which no UK marketing authorisation is in force because the holder of the EU marketing authorisation notified the licensing authority in accordance with paragraph 6(3) of Schedule 33A that it did not wish to be the holder of a converted EU marketing authorisation; or

(iii) in relation to which an EU marketing authorisation had ceased to be in force before IP completion day for reasons not related to safety, quality or efficacy,

but which is not an excluded reference product;

(c) in relation to an application for a UKMA(UK), a medicinal product—

(i) authorised under regulation 49(1)(a) for sale or supply in the whole of the United Kingdom, whether by virtue of one or more UK marketing authorisations, in accordance with the provisions of regulation 50; or

(ii) in relation to which an EU marketing authorisation or a marketing authorisation granted by a member State pursuant to the 2001 Directive is or has been in force,

but which is not an excluded reference product;”].

(3) After paragraph (2) insert—

“(3) In this Part, references to a medicinal product to be imported that is “essentially similar to a product that has been granted a UK marketing authorisation” are to be read as references to a medicinal product to be imported that—

(a) has been manufactured to the same formulation as a product that has been granted a UK marketing authorisation (“the UK product”);

(b) contains the same active ingredients as the UK product;

(c) has the same therapeutic effect as the UK product,

and for the purposes of sub-paragraph (a), any differences in a product's formulation are to be ignored in so far as they are considered to be immaterial by the licensing authority.

(4) For the purposes of the definition of generic medicinal product—

(a) the different salts, esters, ethers, isomers, mixtures of isomers, complexes or derivatives of an active substance are considered to be the same active substance, unless they differ significantly in properties with regard to safety or efficacy; and

(b) the various immediate-release oral pharmaceutical forms are considered to be the same pharmaceutical form.

(5) When a medicinal product has been granted a UK marketing authorisation under regulation 49(1)(a) in accordance with the provisions of regulation 50 (“initial marketing authorisation”), any additional strengths, pharmaceutical forms, administration routes, presentations, variations and extensions in relation to which a UK marketing authorisation is granted under regulation 49(1)(a), or which are included in the initial UK marketing authorisation, belong to the same “global marketing authorisation”.

(6) Paragraph (7) applies if a medicinal product—

(a) belongs to a global marketing authorisation but is not the initial marketing authorisation; and

(b) is used as a reference medicinal product in accordance with [F140]regulations 51 to 53B].

(7) Where this paragraph applies, the medicinal product is treated for the purposes of the application of [F141]regulation 51A(1) and (6)] as if it had been authorised on the date of authorisation of the medicinal product to which the initial marketing authorisation relates.

(8) Paragraph (9) applies in relation to a medicinal product if—

(a) it is an EU reference medicinal product;

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (b) it is used as a reference medicinal product in accordance with [F142 regulations 51 to 53B]; and
 - (c) it belongs to a global marketing authorisation, as described in the second paragraph of Article 6(1) of the 2001 Directive; but
 - (d) it is not the initial marketing authorisation for the purposes of that global marketing authorisation.
- (9) Where this paragraph applies, the medicinal product is treated for the purposes of the application of [F143 regulation 51A(1) and (6)] as if it had been authorised on the date of authorisation of the initial marketing authorisation for the purposes of the global marketing authorisation to which the product belongs.”.

Amendment of regulation 49 (application for grant of UK marketing authorisation or parallel import licence)

- 48.**—(1) Regulation 49^{M39} is amended as follows.
- (2) In paragraph (1), after “regulation 58,” insert “ 58C, 58E, 58F and 58G, ”.
- (3) After paragraph (1) insert—

[^{F144}(1A) The licensing authority may accept an application meeting reduced or alternative requirements specified in this Part (“under the unfettered access route”) and grant a UKMA(GB) only where—

- (a) there is already in place, or will be at the time the UKMA(GB) is granted, a marketing authorisation in respect of the product authorising sale or supply in Northern Ireland,
- (b) the applicant complies with the requirements in regulation 50(1A), and
- (c) the medicinal product satisfies the definition of qualifying Northern Ireland goods.]

[^{F145}(1B)] The licensing authority may only grant a parallel import licence if it is able to obtain the information necessary, whether from a competent authority of an EEA State or otherwise, to satisfy itself that the medicinal product to be imported—

- (a) has been granted an EU marketing authorisation or a marketing authorisation under the 2001 Directive; and
- (b) is essentially similar to a product that has already been granted a UK marketing authorisation.

[^{F146}(1C) A marketing authorisation or parallel import licence must state whether it is in force in—

- (a) the whole United Kingdom;
- (b) Great Britain only; or
- (c) Northern Ireland only,

and in these Regulations the meaning of a reference to that authorisation or licence being “in force” is limited to that territory.”].

“(3) The applicant, where it is applying for—

- (a) a UKMA(NI)—
 - (i) in accordance with Chapter 4 of Title III of the 2001 Directive, must be established in the European Union;
 - (ii) on any other basis, must be established in the United Kingdom;
- (b) a UKMA(GB)—
 - (i) under the unfettered access route, must be established in Northern Ireland;
 - (ii) other than under the unfettered access route, must be established in the United Kingdom;
- (c) a UKMA(UK), must be established in the United Kingdom.”.]

(5) After paragraph (3) insert—

“(3A) An application for a parallel import licence may not be made by—

- (a) the holder of the marketing authorisation, within the meaning of the 2001 Directive, or the EU marketing authorisation, in respect of the relevant medicinal product to be imported; or
- (b) a company which is in the same group as the holder of that marketing authorisation.”.

(6) At the end insert—

[^{F148}(9) The application must include a statement indicating whether the authorisation or licence sought is for sale or supply of the product in—

- (a) the whole United Kingdom;
- (b) Great Britain only; or
- (c) Northern Ireland only.]

[^{F149}(10)] In this regulation “group” has the same meaning as in Part 15 of the Companies Act 2006 ^{M40} (see section 474(1) of that Act).”.

“(3A) Paragraph (4) does not apply in respect of an application under the unfettered access route.”]

[^{F151}(2) For paragraph (4) substitute—

“(4) If any of the medicinal products to which the application for a UK marketing authorisation relates—

(a) in the case of a UKMA(NI) or a UKMA(UK), is liable to be imported from a country other than an EEA State, or

(b) in the case of a UKMA(GB), is liable to be imported,

the material or information referred to in paragraph (3) may include an undertaking from the manufacturer of the product to comply with the matters set out in Schedule 9.”.]

(3) After paragraph (5) insert—

[^{F152}“(5A) The Secretary of State may by regulations in respect of Great Britain amend Schedule 8B (modifications of Annex I) in relation to a UKMA(GB) for the purpose of further modifying Annex I to the 2001 Directive in order to take account of scientific and technical progress.]

(5B) The licensing authority may publish, for the purposes of applications made pursuant to this regulation—

(a) guidance on the presentation and content of the material specified in Schedule 8;

(b) scientific guidelines relating to the quality, safety and efficacy of medicinal products; and

(c) guidelines describing the active substance manufacturing process and process controls.

(5C) Unless replaced by guidance or guidelines published under the power conferred by paragraph (5B), the following guidance and guidelines continue to apply as they applied immediately before [^{F153}IP completion day] (subject to any amendments or variations published under that paragraph)—

(a) the guidance published by the European Commission in the rules governing medicinal products in the European Community, Volume 2B, Notice to Applicants, Medicinal Products for human use, Presentation and content of the dossier, Common Technical Document ^{M42};

(b) the scientific guidelines relating to the quality, safety and efficacy of medicinal products as adopted by the Committee for Medicinal Products for Human Use and published by the EMA and the other pharmaceutical Community guidelines published by the European Commission in the different volumes of the rules governing medicinal products in the European Community ^{M43}; and

(c) guidelines published by the EMA for the purposes of paragraph 3.2.1.2 of Part I of Annex I to the 2001 Directive ^{M44}.”.

(4) In paragraph (6), before sub-paragraph (a), insert—

“(za) regulation 50A (requirement for certain applications to include results of paediatric investigation plan);

(zb) regulation 50E (application for paediatric use marketing authorisation);

(zc) regulation 50F (other applications including paediatric indications);

New regulation 50A to 50J (applications in relation to particular medicinal products)

53. After regulation 50, insert—

“Requirement for certain applications to include results of paediatric investigation plan

50A.—(1) This regulation applies in relation to an application—

- (a) under regulation 49 for a [^{F167}UKMA(GB) or UKMA(UK)] for a relevant medicinal product which is an initial marketing authorisation for the purposes of a global marketing authorisation, as described in regulation 48(5), or
- (b) under regulation 49 or 65C for a new indication (including a paediatric indication), a new pharmaceutical form or a new route of administration in relation to a relevant medicinal product which is already the subject of a [^{F167}UKMA(GB) or UKMA(UK)].

(2) Paragraph (1)(b) only applies if the medicinal product in relation to which the new indication, new pharmaceutical form or new route of administration is sought is protected in the United Kingdom by a supplementary protection certificate or a patent which qualifies for the granting in the United Kingdom of a supplementary protection certificate.

(3) An applicant making an application to which this regulation applies must, in addition to the material specified in regulation 50, or in Schedule 10A, provide to the licensing authority the results of all studies performed, and details of all information collected, in compliance with an agreed paediatric investigation plan.

(4) Where paragraph (1)(b) applies, the material provided pursuant to paragraph (3) must cover both the existing and new indication, pharmaceutical form or route of administration.

(5) Paragraph (3) does not apply—

- (a) to the extent that the licensing authority has, in relation to all or part of the paediatric population, granted—

- (i) a deferral under regulation 50C of the initiation or completion of some or all of the measures set out in a paediatric investigation plan, or
 - (ii) a waiver under regulation 50D of the obligation to produce the information referred to in paragraph (3); or
 - (b) if one of regulations 51 to 54 applies to the application.
- (6) The applicant making an application to which this regulation applies must include in the application details of the measures intended to ensure the follow up of efficacy and of possible adverse reactions to the paediatric use of the medicinal product.
- [^{F168}(7) In the case of an application for a UKMA(GB) under the unfettered access route, an agreed paediatric investigation plan in respect of the product's marketing authorisation in Northern Ireland applies also to that application as regards the UK marketing authorisation.
- (8) This regulation does not remove, in respect of an application for a UKMA(UK), the obligation also to comply with the requirements of the Paediatric Regulation in connection with the agreement of, and compliance with, an EU agreed paediatric investigation plan in relation to Northern Ireland.]

Agreement and modification of paediatric investigation plan

50B.—(1) Any person may prepare a paediatric investigation plan [^{F169}for the purposes of an application to which regulation 50A applies] and submit it to the licensing authority with a request for agreement.

- (2) A paediatric investigation plan must—
 - (a) specify the timing and measures proposed to assess the safety, quality and efficacy of a medicinal product in the paediatric population; and
 - (b) describe any measures to adapt the formulation of the medicinal product so as to make its use more acceptable, easier, safer or more effective for different subsets of the paediatric population.
- (3) A person who requests the agreement of a paediatric investigation plan must submit it to the licensing authority not later than upon completion of the human pharmacokinetic studies in adults in relation to the medicinal product to which the plan relates, as specified in section 5.2.3 of Part I of Annex I to the 2001 Directive, unless the licensing authority agrees to accept a later request.
- (4) The licensing authority may request the person applying for agreement of a paediatric investigation plan to supply further information in relation to the plan or to submit proposed modifications to it.
- (5) The licensing authority must decide whether or not—
 - (a) the proposed studies will ensure the generation of the necessary data determining the conditions in which the medicinal product may be used to treat the paediatric population or subsets of it; and
 - (b) the expected therapeutic benefits of the medicinal product justify the studies proposed; and
 in doing so must consider whether or not the measures proposed to adapt the formulation of the medicinal product for use in different subsets of the paediatric population are appropriate.
- (6) If, following a decision by the licensing authority to agree a paediatric investigation plan, the person carrying out the plan encounters such difficulties with its implementation as to render the plan unworkable or no longer appropriate, that person may propose changes or

request a deferral or a waiver, by submitting a request to the licensing authority, explaining the grounds for the request.

(7) Schedule 11 makes provision about advice and representations in relation to proposals to agree, or to refuse to agree, a paediatric investigation plan under paragraph (5) or to grant, or to refuse to grant, a deferral or waiver requested under paragraph (6).

Deferral of initiation or completion of measures in paediatric investigation plan

50C.—(1) At the same time as the paediatric investigation plan is submitted under regulation 50B(1), the person requesting agreement of it may request the agreement of the licensing authority to a deferral of the initiation or completion of some or all of the measures set out in the plan.

(2) If the licensing authority is satisfied that a deferral of the initiation or completion of some or all of the measures set out in a paediatric investigation plan can be justified on scientific and technical grounds, or on grounds related to public health, it may—

- (a) agree to a request by the applicant to grant a deferral; or
- (b) decide of its own motion to grant a deferral.

(3) If the licensing authority is satisfied as set out in paragraph (2), it must decide to grant a deferral where it is satisfied that—

- (a) it is appropriate to conduct studies in adults prior to initiating studies in the paediatric population; or
- (b) studies in the paediatric population will take longer to conduct than studies in adults.

(4) If the licensing authority grants an application to which regulation 50A applies, it must, if it also grants a deferral in accordance with this regulation—

- (a) record that fact in the product's summary of product characteristics, and, if it considers that it would be appropriate to do so, in the package leaflet; and
- (b) specify in the document notifying the applicant of the grant of the deferral the time limits for the initiation or completion of the measures to which the deferral relates.

(5) Schedule 11 makes provision about advice and representations in relation to proposals to grant, or to refuse to grant, a deferral under paragraph (2) or (3).

Waiver of production of information in a paediatric investigation plan

50D.—(1) The applicant making an application to which regulation 50A applies is exempt from the obligation to provide to the licensing authority the results of all studies performed, and details of all information collected, in compliance with an agreed paediatric investigation plan, if a waiver is granted in accordance with this regulation.

(2) The licensing authority may grant a waiver in accordance with this regulation if it is satisfied that there is evidence showing that—

- (a) the medicinal product or class of medicinal products is likely to be ineffective or unsafe in all or part of the paediatric population;
- (b) the disease or condition for which the medicinal product or class of medicinal products is intended occurs only in adult populations; or
- (c) the medicinal product does not represent a significant therapeutic benefit over existing treatments for patients in the paediatric population.

(3) The licensing authority may grant a waiver in accordance with this regulation—

- (a) in respect of the entire paediatric population, or a subset of it;
- (b) in respect of all of the therapeutic indications for the medicinal product concerned, or only some of them;
- (c) of its own motion, or at the request of the applicant; or
- (d) in respect of a specific product or a class of medicinal products.

(4) A person who requests a waiver in accordance with this regulation must submit the request to the licensing authority not later than upon completion of the human pharmacokinetic studies in adults in relation to the medicinal product concerned, as specified in section 5.2.3 of Part I of Annex I to the 2001 Directive, unless the licensing authority agrees to accept a later application.

(5) The licensing authority must maintain and publish a list of waivers which are granted under this regulation in respect of a class of medicinal products.

(6) The licensing authority may review a waiver which it has granted under this regulation and may revoke it if it considers it appropriate, having regard to the matters specified in paragraph (2).

(7) If the licensing authority revokes a waiver granted under this regulation, the holder of the UK marketing authorisation to which the waiver relates must, at the end of the period of 36 months beginning with the date of publication of the decision to revoke the waiver, submit the information referred to in regulation 50A(3) to the licensing authority.

(8) If the licensing authority grants an application to which regulation 50A applies, it must, if it also grants a waiver in accordance with this regulation, record that fact in the product's summary of product characteristics, and, if it considers that it would be appropriate to do so, in the package leaflet.

(9) Schedule 11 makes provision about advice and representations in relation to proposals to grant, or to refuse to grant, a waiver in response to a request made in accordance with paragraph (4) and to revoke a waiver under paragraph (6).

Application for paediatric use marketing authorisation

50E.—(1) This regulation applies in relation to an application for a [F170UKMA(GB) or UKMA(UK)]—

- (a) for a relevant medicinal product which is not protected in the United Kingdom by a supplementary protection certificate or by a patent which qualifies for the granting of a supplementary protection certificate; and
- (b) which covers exclusively therapeutic indications which are relevant for use in the paediatric population, or subsets of it, including the appropriate strength, pharmaceutical form or route of administration for that product.

(2) The applicant for a UK marketing authorisation to which this regulation applies must, in addition to the material specified in regulation 50, provide to the licensing authority material necessary to establish the quality, safety and efficacy of the product in the paediatric population, including any specific data needed to support an appropriate strength, pharmaceutical form or route of administration for the product, in accordance with an agreed paediatric investigation plan.

(3) An application to which this regulation applies may, in accordance with regulations 51 to 55, refer to material supplied by the holder of a UK marketing authorisation.

(4) The applicant for a UK marketing authorisation to which this regulation applies must include in the application details of the measures intended to ensure the follow up of efficacy and of possible adverse reactions to the paediatric use of the medicinal product.

[^{F171}(5) This regulation does not remove, in respect of an application for a UKMA(UK), the obligation also to comply with the requirements of the Paediatric Regulation in connection with the agreement of, and compliance with, an EU agreed paediatric investigation plan in relation to Northern Ireland.]

Other applications including paediatric indications

50F.—(1) This regulation applies in relation to an application to which neither regulation 50A nor 50E applies and which is—

- (a) an application for a [^{F172}UKMA(GB)] for a relevant medicinal product which includes a paediatric indication; or
- (b) an application to include a paediatric indication in an existing [^{F172}UKMA(GB)].

(2) The applicant making an application to which this regulation applies must include in the application details of the measures intended to ensure the follow up of efficacy and of possible adverse reactions to the paediatric use of the medicinal product.

Applications relating to orphan medicinal products

50G.—[^{F173}(1) This regulation applies in relation to an application for a UK marketing authorisation for a relevant medicinal product—

- (a) in relation to which the applicant intends to demonstrate that the orphan criteria are met, and
- (b) which, in the case of an application for a UKMA(NI) or a UKMA(UK), is not a medicinal product designated as an orphan medicinal product in accordance with the Orphan Regulation.]

(2) The orphan criteria are that—

- (a) the medicinal product is intended for the diagnosis, prevention or treatment of a life-threatening or chronically debilitating condition;
- (b) either—
 - (i) the condition referred to in sub-paragraph (a) affects not more than five in 10,000 persons in [^{F174}Great Britain]; or
 - (ii) the medicinal product is unlikely, when marketed, to generate sufficient financial return to justify the necessary investment; and
- (c) there exists no satisfactory method of diagnosis, prevention or treatment of the condition in question that has been authorised in [^{F174}Great Britain], or if such method exists, the medicinal product will be of significant benefit to those affected by the condition.

(3) The applicant for a UK marketing authorisation to which this regulation applies must, in addition to the material specified in regulation 50, provide to the licensing authority material that demonstrates that the orphan criteria are met.

(4) Schedule 9A makes further provision about the orphan criteria and terms used in regulation 58D.

(5) The Ministers may by regulations amend Schedule 9A.

Applications relating to advanced therapy medicinal products

50H.—(1) This regulation applies in relation to an application for a [^{F175}UKMA(GB)] for a relevant medicinal product which is an advanced therapy medicinal product.

(2) The applicant for a UK marketing authorisation to which this regulation applies must, in addition to the material specified in regulation 50, provide to the licensing authority information about the measures the applicant envisages putting in place to ensure the follow up of the efficacy of the product and of any adverse reactions to it.

(3) In relation to an application for a [^{F175}UKMA(GB)] for a combined advanced therapy medicinal product, the applicant must, in addition to the material specified in regulation 50 and paragraph (2), provide to the licensing authority evidence of conformity with the requirements of the Medical Devices Regulations 2002 ^{M47}, including, where available, the results of the assessment of a notified body in accordance with those Regulations.

Applications relating to conditional marketing authorisations [^{F176}for sale or supply in Great Britain only]

50I.—(1) This regulation applies in relation to an application for a [^{F177}UKMA(GB)] for a relevant medicinal product which falls within paragraph (2).

(2) A relevant medicinal product falls within this paragraph if it is—

- (a) aimed at the treatment, prevention or diagnosis of seriously debilitating or life-threatening diseases; or
- (b) to be used in emergency situations, in response to public health threats.

(3) The applicant for a UK marketing authorisation to which this regulation applies may request that the licensing authority grant a conditional marketing authorisation if—

- (a) comprehensive clinical data referring to the safety and efficacy of the medicinal product have not been supplied; and
- (b) the applicant can demonstrate that—
 - (i) the positive therapeutic effects of the product outweigh the risks to the health of patients or of the public associated with the product,
 - (ii) it is likely that the applicant will be in a position to provide the comprehensive clinical data,
 - (iii) unmet medical needs will be fulfilled, and
 - (iv) the benefit to the public health of the immediate availability on the market of the medicinal product concerned outweighs the risk inherent in the fact that additional data are still required.

(4) In this regulation, “unmet medical needs” means medical needs in relation to a condition for which there exists no satisfactory method of diagnosis, prevention or treatment authorised in the United Kingdom, or, even if such method exists, in relation to which the medicinal product concerned will be of major therapeutic advantage to those affected.

(5) The applicant for a UK marketing authorisation to which this regulation applies must include in the application material which demonstrates that the criteria in paragraph (3)(b) are met.

Applications in relation to medicinal products containing or consisting of genetically modified organisms

50J.—(1) This regulation applies in relation to an application for a UK marketing authorisation for a relevant medicinal product which contains or consists of genetically modified organisms.

(2) The applicant for a UK marketing authorisation to which this regulation applies must, in addition to the material specified in regulation 50, provide to the licensing authority—

- (a) a copy of the consent to the deliberate release into the environment of the genetically modified organisms for research and development purposes given pursuant to—
 - (i) regulation 21 of the Genetically Modified Organisms (Deliberate Release) Regulations 2002 ^{M48},
 - (ii) regulation 22 of the Genetically Modified Organisms (Deliberate Release) (Wales) Regulations 2002 ^{M49},
 - (iii) regulation 21 of the Genetically Modified Organisms (Deliberate Release) (Scotland) Regulations 2002 ^{M50}, or
 - (iv) regulation 21 of the Genetically Modified Organisms (Deliberate Release) Regulations (Northern Ireland) 2003 ^{M51};
- (b) a complete technical dossier supplying the information specified in Annexes III and IV to Directive [2001/18/EC](#);
- (c) an environmental risk assessment in accordance with the principles set out in Annex II to Directive [2001/18/EC](#); and
- (d) the results of any investigations performed for the purposes of research or development.

(3) In this regulation, “genetically modified organism” has the meaning given in Article 2(2) of Directive [2001/18/EC](#).”.

^{F178} Substitution of regulation 51 (applications relating to generic medicinal products)

- 56.** For regulation 51 substitute—

“Application for UKMA(NI) relating to generic medicinal products

51.—(1) An applicant for a UKMA(NI) for a relevant medicinal product that is a generic medicinal product may provide information in relation to the application in accordance with Article 10(1), (5) and (6) of the 2001 Directive.

(2) If the licensing authority grants a UKMA(NI) for the generic medicinal product in accordance with paragraph (1), it is a term of the authorisation that the product must not be sold or supplied, or offered for sale or supply, in Northern Ireland before the time at which it may be placed on the market in accordance with Article 10(1) of the 2001 Directive as modified by paragraph (3).

(3) The second subparagraph of Article 10(1) of the 2001 Directive has effect with the exception described in paragraph (4).

(4) Where—

- (a) ten years have elapsed since a UK marketing authorisation was granted otherwise than under Chapter 4 of Title III to the 2001 Directive in relation to the reference medicinal product;
- (b) in relation to that product there is—
 - (i) an EU marketing authorisation, or
 - (ii) a UKMA(NI) which was granted under that Chapter; and
- (c) a period of ten years has not elapsed since the authorisation mentioned in subparagraph (b) for sale or supply of that product in the European Union,

the product may not be made available for sale or supply in Northern Ireland until the period mentioned in sub-paragraph (c) has elapsed.

Application for UKMA(GB) relating to generic medicinal products

51A.—(1) An applicant for a UKMA(GB) for a generic medicinal product may, by way of derogation from paragraph 10 of Schedule 8, omit from the application the results of pre-clinical tests and of clinical trials if the applicant can demonstrate that the medicinal product is a generic of a reference medicinal product authorised for sale or supply in Great Britain which is or has been authorised for not less than eight years—

- (a) under regulation 49(1)(a); or
- (b) if the product is an EU reference medicinal product, under Regulation [\(EC\) No 726/2004](#).

(2) In the case of an application under this regulation in relation to a salt, ester, ether, isomer, mixture of isomers, complex or derivative of an authorised active substance which differs significantly in properties with regard to safety or efficacy from the active substance in the reference medicinal product, the applicant must supply additional information providing proof of the safety or efficacy of the salt, ester, ether, isomer, mixture of isomers, complex or derivative.

(3) The applicant may omit bioavailability studies from an application under this regulation if the applicant can demonstrate that the generic medicinal product meets the relevant criteria as specified in the guidelines referred to in paragraph (4).

(4) The licensing authority may publish guidelines specifying the criteria to be met by generic medicinal products for the purpose of omitting bioavailability studies from an application in accordance with paragraph (3).

(5) Until replaced by guidelines published under paragraph (4), the guidelines published by the EMA under Article 10(2)(b) of the 2001 Directive continue to apply on and after IP completion day as they applied immediately before IP completion day (subject to any amendments or variations published under paragraph (4)).

(6) If the licensing authority grants a UKMA(GB) in relation to the generic medicinal product in accordance with paragraph (1), it is a term of the authorisation that the product must not be sold or supplied, or offered for sale or supply, in Great Britain before the expiry

of ten years beginning with the date on which the marketing authorisation for the reference medicinal product entered into force.

(7) Paragraph (8) applies where an EU reference medicinal product which falls within paragraph (b)(ii) of the definition of “reference medicinal product” is used as a reference medicinal product for the purposes of this regulation.

(8) Where this paragraph applies, the terms of the marketing authorisation of the EU reference medicinal product are treated as being the terms of the product’s EU marketing authorisation as they stood immediately before IP completion day.

(9) Paragraph (10) applies if—

- (a) during the first eight of the ten years referred to in paragraph (6) the marketing authorisation holder for the reference medicinal product obtained a UKMA(GB) or a UKMA(UK) for one or more new therapeutic indications; and
- (b) during the scientific evaluation prior to their authorisation, the licensing authority considers the new indications bring a significant clinical benefit in comparison with existing therapies.

(10) Where this paragraph applies, the period of ten years referred to in paragraph (6) is extended to eleven years.

(11) Paragraph (12) applies where—

- (a) an application for the grant or variation of a UKMA(GB) is made in relation to a new indication for a well-established substance; and
- (b) significant pre-clinical or clinical studies were carried out in relation to the new indication.

(12) Where this paragraph applies, the applicant for a UKMA(GB) under paragraph (1) or regulation 52A or 53A may not refer in its application to the studies mentioned in paragraph (11)(b) for the period of one year beginning on the date on which the licensing authority grants or varies a UKMA(GB) in relation to the new indication.

Application for UKMA(UK) relating to generic medicinal products

51B.—(1) This regulation applies in relation to an application for a UKMA(UK) for a generic medicinal product.

(2) Where the application relies on a reference medicinal product which is the subject of—

- (a) a UKMA(UK), the provisions of regulation 51(1) and (2) apply in respect of the application;
- (b) a separate UKMA(GB) and UKMA(NI), paragraphs (3) to (5) apply.

(3) The applicant may, by way of derogation from paragraph 10 of Schedule 8, omit from the application the results of pre-clinical tests and of clinical trials only after the expiry of both—

- (a) the period referenced in the applicable Article referred to in regulation 51(1), in relation to the UKMA(NI) for the reference medicinal product; and
- (b) the period specified in regulation 51A(1), in relation to the UKMA(GB) for the reference medicinal product.

(4) In the case of an application under paragraph (3) in relation to a salt, ester, ether, isomer, mixture of isomers, complex or derivative of an authorised active substance which differs significantly in properties with regard to safety or efficacy from the active substance in the reference medicinal product, the applicant must supply additional information

providing proof of the safety or efficacy of the salt, ester, ether, isomer, mixture of isomers, complex or derivative.

(5) If the licensing authority grants a UK marketing authorisation in relation to the generic medicinal product in accordance with paragraph (3), it is a term of the authorisation that the product must not be sold or supplied, or offered for sale or supply, in the United Kingdom before the expiry of both—

- (a) the period specified in regulation 51(2), in relation to the UKMA(NI) for the reference medicinal product; and
- (b) the period specified in regulation 51A(6) or (where applicable) 51A(10), in relation to the UKMA(GB) for the reference medicinal product.

(6) Paragraph (7) applies where—

- (a) an application for the grant or variation of a UKMA(UK) is made in relation to a new indication for a well-established substance; and
- (b) significant pre-clinical or clinical studies were carried out in relation to the new indication.

(7) Where this paragraph applies, the applicant for a UKMA(UK) under paragraph (1) or regulation 52B or 53B may not refer in its application to the studies mentioned in paragraph (6)(b) for the period of one year beginning on the date on which the licensing authority grants or varies a UKMA(UK) in relation to the new indication.”.]

[^{F179}**Substitution of regulation 52 (applications relating to certain medicinal products that do not qualify as generic etc)**

57. For regulation 52 substitute—

“Application for UKMA(NI) relating to certain medicinal products that do not qualify as generic etc

52.—(1) This regulation applies where—

- (a) an application is made for a UKMA(NI) by reference to another medicinal product as reference medicinal product; and
- (b) one or more of the circumstances listed in Article 10(3) of the 2001 Directive applies in respect of the application.

(2) The applicant must provide information in accordance with Article 10(3) and (6) of the 2001 Directive.

(3) Paragraphs (2) to (4) of regulation 51 apply to the application as they apply in relation to an application made in accordance with paragraph (1) of that regulation.

Application for UKMA(GB) relating to certain medicinal products that do not qualify as generic etc

52A.—(1) This regulation applies where—

- (a) an application is made for a UKMA(GB) in respect of a product by reference to another medicinal product as reference medicinal product which is or has been authorised for sale or supply in Great Britain for not less than eight years—
 - (i) under regulation 49(1)(a); or
 - (ii) if the product is an EU reference medicinal product, under Regulation (EC) No 726/2004; and
- (b) one or more of the following circumstances applies in respect of the application—
 - (i) the medicinal product to which the application relates does not fall within the definition of generic medicinal product,
 - (ii) bioequivalence with the reference medicinal product cannot be demonstrated through bioavailability studies, or
 - (iii) the medicinal product to which the application relates differs from the reference medicinal product in terms of changes in the active substance, therapeutic indications, strength, pharmaceutical form or route of administration.

(2) The applicant—

- (a) may, by way of derogation from paragraph 10 of Schedule 8, omit from the application the results of pre-clinical tests and of clinical trials relating to the reference medicinal product; but
- (b) must provide the results of the appropriate pre-clinical tests or clinical trials relating to the applicable circumstance in paragraph (1)(b).

(3) Paragraphs (2) to (10) of regulation 51A apply to the application as they apply in relation to an application made in accordance with paragraph (1) of that regulation.

Application for UKMA(UK) relating to certain medicinal products that do not qualify as generic etc

52B.—(1) This regulation applies in relation to an application for a UKMA(UK) in respect of a product by reference to another medicinal product as reference medicinal product.

(2) Where the application relies on a reference medicinal product which is the subject of—

- (a) a UKMA(UK), the provisions of regulation 52(1) and (2) apply in respect of the application;
- (b) a separate UKMA(GB) and UKMA(NI), paragraphs (3) to (5) apply.

(3) Subject to paragraph (4), the applicant may, by way of derogation from paragraph 10 of Schedule 8, omit from the application the results of pre-clinical tests and of clinical trials only after the expiry of both—

- (a) the period referenced in the applicable Article referred to regulation 52(1), in relation to the UKMA(NI) for the reference medicinal product; and
- (b) the period specified in regulation 52A(1), in relation to the UKMA(GB) for the reference medicinal product.

(4) Where one or more of the following circumstances applies in respect of the application—

- (a) the medicinal product to which the application relates does not fall within the definition of generic medicinal product,
- (b) bioequivalence with the reference medicinal product cannot be demonstrated through bioavailability studies, or
- (c) the medicinal product to which the application relates differs from the reference medicinal product in terms of changes in the active substance, therapeutic indications, strength, pharmaceutical form or route of administration,

the applicant must provide the results of the appropriate pre-clinical tests or clinical trials relating to the applicable circumstance.

(5) Paragraphs (4) and (5) of regulation 51B apply to the application as they apply in relation to an application made in accordance with paragraph (3) of that regulation.”.]

[^{F180}Substitution of regulation 53 (applications relating to similar biological medicinal products)]

58. For regulation 53 substitute—

“Application for UKMA(NI) relating to similar biological medicinal products

53.—(1) This regulation applies if an applicant for a UKMA(NI) for a biological medicinal product is not able to show that product meets a condition for its being a generic version of a similar medicinal product because of any of the reasons described in Article 10(4) of the 2001 Directive.

(2) The applicant must provide information in accordance with Article 10(4) and (6) of the 2001 Directive.

(3) Paragraphs (2) to (4) of regulation 51 apply to the application as they apply in relation to an application made in accordance with paragraph (1) of that regulation.

Application for UKMA(GB) relating to similar biological medicinal products

53A.—(1) This regulation applies if an applicant for a UKMA(GB) for a biological medicinal product is not able to show that product meets a condition for its being a generic version of a similar medicinal product because of differences relating to raw materials or differences in manufacturing processes of the biological medicinal product and the reference medicinal product.

(2) The applicant—

- (a) may, by way of derogation from paragraph 10 of Schedule 8, omit from the application the results of pre-clinical tests and of clinical trials relating to a

reference medicinal product which is or has been authorised for not less than eight years—

- (i) under regulation 49(1)(a), or
- (ii) if the reference medicinal product is an EU reference medicinal product, under Regulation (EC) No 726/2004; but
- (b) must provide the results of appropriate pre-clinical tests or clinical trials relating to the differences referred to in paragraph (1).
- (3) The type and quantity of supplementary data to be provided by the applicant under paragraph (2)(b) must comply with the relevant criteria in Annex I to the 2001 Directive and in the related detailed guidelines published by the licensing authority under paragraph (4), or (as the case may be) as mentioned in paragraph (5).
- (4) The licensing authority may publish guidelines concerning the type and quantity of supplementary data to be provided by an applicant under paragraph (2)(b).
- (5) Unless replaced by guidelines published under paragraph (4), the guidelines published by the EMA under Article 10(4) of the 2001 Directive continue to apply on and after IP completion day as they applied immediately before IP completion day (subject to any amendments or variations published under that paragraph).
- (6) Paragraphs (4) to (12) of regulation 51A apply to the application as they apply in relation to an application made in accordance with paragraph (1) of that regulation.

Application for UKMA(UK) relating to similar biological medicinal products

53B.—(1) This regulation applies in relation to an application for a UKMA(UK) for a biological medicinal product.

(2) Where the application relies on a reference medicinal product which is the subject of—

- (a) a UKMA(UK), the provisions of regulation 53 apply in respect of the application;
- (b) a separate UKMA(GB) and UKMA(NI), paragraphs (3) to (5) apply.

(3) Subject to paragraph (4), the applicant may, by way of derogation from paragraph 10 of Schedule 8, omit from the application the results of pre-clinical tests and of clinical trials only after the expiry of both—

- (a) the period referenced in the applicable Article referred to regulation 53(1), in relation to the UKMA(NI) for the reference medicinal product; and
- (b) the period specified in regulation 53A(1), in relation to the UKMA(GB) for the reference medicinal product.

(4) Where the applicant for a biological medicinal product is not able to show that product meets a condition for its being a generic version of a similar medicinal product because of differences relating to raw materials or differences in manufacturing processes of the biological medicinal product and the reference medicinal product, the applicant must provide the results of the appropriate pre-clinical tests or clinical trials relating to the differences.

(5) The type and quantity of supplementary data to be provided by the applicant under paragraph (4) must comply with the relevant criteria in Annex I to the 2001 Directive and in the related detailed guidelines published by the licensing authority under paragraph (6), or (as the case may be) as mentioned in paragraph (7).

(6) The licensing authority may publish guidelines concerning the type and quantity of supplementary data to be provided by an applicant under paragraph (4).

(7) Unless replaced by guidelines published under paragraph (6), the guidelines published by the EMA under Article 10(4) of the 2001 Directive continue to apply on and after IP completion day as they applied immediately before IP completion day (subject to any amendments or variations published under that paragraph).

(8) Paragraphs (4) and (5) of regulation 51B apply to the application as they apply in relation to an application made in accordance with paragraph (1) of that regulation.”.]

Amendment of regulation 58 (consideration of application)

62.—(1) Regulation 58 is amended as follows.

(2) After paragraph (4), insert—

[^{F182}“(4A) When considering an application for a UK marketing authorisation, the licensing authority may, if it considers it appropriate, have regard to—

- (a) an opinion of the Committee for Medicinal Products for Human Use; or
- (b) the results of an assessment of an application for a marketing authorisation by the appropriate authority for the licensing of medicinal products of a country other than the United Kingdom,

in respect of the medicinal product to which the application relates.

(4B) The licensing authority may under paragraph (4A)—

- (a) decide to have regard to the opinions and assessments described in that paragraph in relation to certain types of medicinal products only;
- (b) determine and publish a list of the countries other than the United Kingdom whose assessments of applications for a marketing authorisation are relevant for the purposes of paragraph (4A)(b); and

- (c) decide to have regard to the assessments described in paragraph (4A)(b) in relation to medicinal products that have been authorised by way of certain procedures only.

(4C) When considering an application for a UK marketing authorisation (other than an application under the unfettered access route), the licensing authority may, if it considers it appropriate and without undertaking further consideration, rely on a decision by the European Commission to authorise the medicinal product to which the application relates to establish that any or all of the conditions in paragraph (4)(a), (b) or (d) have been met.”].

- (b) in sub-paragraph (5), insert “ , licence ” after “ the authorisation ”; and
- (c) after sub-paragraph (4), insert—

“(4A) This paragraph also applies if, having been consulted under paragraph 2(2A), the appropriate committee has not given a provisional opinion in the terms described in paragraph 5(2A) and the licensing authority proposes to decide, against that committee's advice, that the orphan criteria are not met in relation to a medicinal product which is the subject of an application for the grant of a UK marketing authorisation.”.]

[^{F188}(3A) After Part 1 insert—

“PART 1A

Paediatric Decisions

Application of this Part

13A. This Part applies to a proposed decision by the licensing authority—

- (a) to refuse to agree a paediatric investigation plan (including a waiver or deferral proposed to be included in that plan), or to agree such a plan otherwise than in accordance with the request for agreement;
- (b) to refuse to agree a modification to a paediatric investigation plan (including a waiver or deferral which is, or is proposed to be, included in that plan), or to agree such a modification otherwise than in accordance with the request for the modification;
- (c) to impose, revoke or refuse to grant a waiver of the obligation under regulation 50A(3) to provide to the licensing authority the results of all studies performed, and details of all information collected, in compliance with an agreed paediatric investigation plan; or
- (d) to revoke a waiver which was agreed as part of an agreed paediatric investigation plan.

Opportunity to make representations

13B.—(1) If the licensing authority proposes to make a decision to which this Part applies, the licensing authority must notify the person to whom the proposed decision would be addressed (“the applicant”).

(2) The applicant may, by notice in writing to the licensing authority, request the opportunity to make written or oral representations to the appropriate committee.

(3) The applicant must make the request before the end of the period of 28 days beginning with the day on which the notification is given or such longer period as the licensing authority may allow.

(4) The licensing authority must inform the appropriate committee of the applicant's request.

Written representations

13C.—(1) If the applicant requests the opportunity to make written representations, the applicant must provide the appropriate committee with those representations and any documents on which the applicant wishes to rely in support of them—

- (a) before the end of the period of 28 days beginning with the date of the request; or
- (b) before the end of such shorter period as the licensing authority may specify in the notification under paragraph 13B.

(2) The appropriate committee may at the request of the applicant extend the period mentioned in sub-paragraph (1) up to a maximum of 56 days beginning with the date of the request under paragraph 13B.

(3) The applicant may submit additional representations or documents after the end of the period for doing so only with the permission of the appropriate committee.

- (4) The appropriate committee must—
 - (a) take the representations made under this paragraph into account; and
 - (b) report its findings and advice to the licensing authority together with the reasons for that advice.

Oral representations

13D.—(1) If the applicant requests the opportunity to make oral representations, the applicant must provide the appropriate committee with a written summary of those representations and any documents on which the applicant wishes to rely in support of them—

- (a) before the end of the period of 28 days beginning with the date of the request; or
- (b) before the end of such shorter period as the licensing authority may specify in the notification under paragraph 13B.

(2) The appropriate committee may, at the request of the applicant, extend the period mentioned in sub-paragraph (1) up to a maximum of 56 days beginning with the date of the request under paragraph 13B.

(3) The applicant may submit additional representations or documents after the end of the period for doing so only with the permission of the appropriate committee.

(4) After receiving the summary and any other documents provided under this paragraph, the appropriate committee must arrange for the applicant to make oral representations at a hearing before the committee.

- (5) The appropriate committee must—
 - (a) take the representations made under this paragraph into account; and
 - (b) report its findings and advice to the licensing authority together with the reasons for that advice.

Other decisions of the appropriate committee

13E.—(1) This paragraph applies if the applicant—

- (a) requests the opportunity to make written representations, but fails to make those representations within the period for doing so; or
- (b) requests the opportunity to make oral representations, but—
 - (i) fails to provide a summary of those representations or the documents in support of them within the period for doing so, or
 - (ii) fails to make oral representations at a hearing before the appropriate committee.

(2) The appropriate committee must notify the licensing authority of that fact.

Decision of licensing authority

13F.—(1) The licensing authority must decide whether to proceed with its proposed decision—

- (a) if the applicant requested the opportunity to make written or oral representations, after receiving the appropriate committee's report under paragraph 13C or 13D or notification under paragraph 13E; or
- (b) if the applicant did not request the opportunity to make written or oral representations, after the expiry of the period of time for notifying a request for that opportunity.

(2) If the appropriate committee gives a report under paragraph 13C or 13D, the licensing authority must take that into account in making its decision.

(3) The licensing authority must notify the applicant of—

(a) its decision; and

(b) any advice given to it by the appropriate committee and the reasons for that advice.

Right to review after paragraph 13F notification

13G.—(1) This paragraph applies if the licensing authority notifies the applicant of its decision under paragraph 13F.

(2) The applicant may notify the licensing authority in writing that the applicant wishes the licensing authority to submit the decision to review upon oral representations.

(3) The applicant must give the notification before the end of the period of 28 days beginning with the day on which the notification is given to the applicant under paragraph 13F or such longer period as the licensing authority may allow.

(4) The review must be conducted in accordance with Schedule 5.

(5) This paragraph does not apply if the applicant has not made any representations in accordance with paragraph 13C or 13D.”.]

[^{F189}(4) In paragraph 14(a) (application of Part 2), after “veterinary medicinal products” insert “or paragraph 1 of Schedule 10A”.]

(5) In paragraph 15(2) and (3)(b), insert “ UK ” before “marketing authorisation”.

(6) In paragraph 16—

(a) in sub-paragraph (2)(b), insert “ UK ” before “marketing authorisation”; and

(b) in sub-paragraph (5), omit the words from “or in any Directive” to the end.

[^{F190}(7) For paragraph 17 substitute—

“**17.** In relation to an application for a UKMA(NI) or THR(NI), this Part is subject to Part 4 of this Schedule.”.]

(8) In Part 3 (referral to the Committee for Herbal Medicinal Products)—

(a) in the heading to Part 3, for “Committee for Herbal Medicinal Products” substitute “appropriate committee for traditional herbal registrations”;

(b) in paragraph 24—

(i) in sub-paragraph (1), for the words from “Committee” to the end substitute “appropriate committee in accordance with regulation 130A(1)”; and

[^{F191}(ii) for sub-paragraph (2) substitute—

“(2) In relation to an application for a UKMA(NI) or THR(NI), this Part is subject to Part 4 of this Schedule.”; and]

(c) in paragraph 29(1), for “proceed with its proposal” substitute “ grant or refuse the application ”.

[^{F192}(9) In Part 4 (exceptions to Schedule) omit paragraphs 31, 34, 35, 37 and 38.]

Insertion of provisions concerning consideration of certain applications for UK marketing authorisations

64. After regulation 58, insert—

“Paediatric rewards

58A.—^{F193}(1) Paragraph (2) applies if—

- (a) an application—
 - (i) to which regulation 50A (requirement for certain applications to include the results of a paediatric investigation plan) applies, and in relation to which there is an agreed paediatric investigation plan; or
 - (ii) to which Article 7 or 8 of the Paediatric Regulation applies, and in relation to which there is an EU agreed paediatric investigation plan,
 is granted by the licensing authority; and
- (b) the licensing authority is satisfied that the material provided by the applicant pursuant to—
 - (i) regulation 50A(3), where paragraph (1)(a)(i) applies; or
 - (ii) Article 7 or 8 of the Paediatric Regulation, where paragraph (1)(a)(ii) applies,
 demonstrates compliance with the agreed paediatric investigation plan.]

(2) Where this paragraph applies, the licensing authority must—

- (a) include in the UK marketing authorisation a statement to the effect that it is satisfied as set out in paragraph (1)(b); and

- (b) ensure that the results of all studies referred to in the paediatric investigation plan are included in the summary of product characteristics and, if the licensing authority considers that the information would be useful to patients, in the package leaflet.

[^{F194}(3) Where—

- (a) paragraph (2) applies; or
- (b) an application to which Article 7 or 8 of the Paediatric Regulation applies—
 - (i) includes the results of all studies conducted in compliance with an EU agreed paediatric investigation plan; or
 - (ii) confirms completion of an EU agreed paediatric investigation plan which failed to lead to the authorisation of a paediatric indication, but the results of the studies conducted are reflected in the summary of product characteristics and, if appropriate, the package leaflet of the medicinal product,

the holder of a patent or supplementary protection certificate covering the medicinal product to which the application relates is entitled to a six month extension of the period referred to in Articles 13(1) and 13(3) of Regulation (EC) No 469/2009 of the European Parliament and of the Council of 6 May 2009 concerning the supplementary protection certificate for medicinal products (subject to paragraphs (4) to (5)).]

(4) Paragraph (3) does not apply if the grant of the application referred to in paragraph (1) (a)—

- (a) relates to a new paediatric indication; and

[^{F195}(b) the holder of the UK marketing authorisation is entitled to a one year extension of the ten year period referred to in regulation 51A(6), under regulation 51A(12).]

[^{F196}(4A) Paragraph (3) does not apply where—

- (a) the territorial protection conferred by the supplementary protection certificate referred to in paragraph (3) does not cover the whole of the United Kingdom; and
- (b) the UK marketing authorisation in which the statement of compliance is included is not in force in the same part of the United Kingdom as the supplementary protection certificate.

(4B) Where—

- (a) the territorial protection conferred by the supplementary protection certificate referred to in paragraph (3) does cover the whole of the United Kingdom; and
- (b) the UK marketing authorisation in which the statement of compliance is included is in force in Great Britain only or in Northern Ireland only,

the extension provided for in paragraph (3) only applies in relation to Great Britain only or Northern Ireland only (as appropriate).]

(5) If the UK marketing authorisation to which this regulation applies is an orphan marketing authorisation, paragraph (3) does not apply and regulation 58D(5) (orphan rewards) applies.

(6) Paragraphs (7) and (8) apply if the licensing authority grants a UK marketing authorisation in response to an application to which regulation 50E (paediatric use marketing authorisation) applies.

(7) Where this paragraph applies, the medicinal product to which the paediatric use marketing authorisation relates may retain the name of any medicinal product which contains the same active substance and in respect of which the holder of the paediatric use marketing authorisation has been granted a UK marketing authorisation for use in adults.

(8) Where this paragraph applies, the holder of the paediatric use marketing authorisation is entitled to benefit from the periods of data and marketing exclusivity referred to in [F197]regulation 51A(1) and (6)] in relation to the material supplied pursuant to regulation 50E(2).

Publication of information relating to paediatric marketing authorisations

58B.—(1) The licensing authority must publish a register of UK marketing authorisations—

- (a) which include a paediatric indication following completion of an [F198]agreed paediatric investigation plan]; and
- (b) in relation to which the medicinal product was placed on the market for other indications before the holder obtained that paediatric indication.

(2) The register referred to in paragraph (1) must include the date by which the product must be placed on the market taking account of the paediatric indication in accordance with regulation 78A(4) (post-authorisation requirements in relation to UK marketing authorisations to which paediatric specific provisions apply).

(3) The licensing authority must publish a list of the marketing authorisation holders which have—

- (a) benefitted from any of the rewards in regulation 58A; or
- (b) failed to comply with any of the obligations in regulation 78A.

(4) The licensing authority must publish decisions made under—

- (a) regulation 50B(5) or (7) (agreement and modification of paediatric investigation plan);
- (b) regulation 50C(2) (deferral of the initiation or completion of measures in a paediatric investigation plan); and
- (c) regulation 50D(2) (waiver of production of information in a paediatric investigation plan) in relation to a specific medicinal product.

(5) The decisions referred to in paragraph (4) must be published, with the omission of information of a commercially confidential nature, as soon as reasonably practicable after the decision has been made.

Consideration of applications relating to orphan medicinal products

58C.—(1) If the licensing authority is satisfied in relation to an application for a UK marketing authorisation [F199](including an application under the unfettered access route)]—

- (a) the orphan criteria are met in relation to all of the therapeutic indications to which the application relates; and
- (b) it is otherwise appropriate to grant a UK marketing authorisation in respect of the application under regulation 49(1)(a),

it may grant a UK marketing authorisation which is known as an orphan marketing authorisation.

(2) The licensing authority must publish and keep up to date a list of orphan marketing authorisations.

(3) Schedule 11 makes provision about advice and representations in relation to proposals to grant a UK marketing authorisation in respect of which the applicant intended

to demonstrate that the orphan criteria were met, in cases where the licensing authority considers that those criteria are not met.

Orphan rewards

58D.—(1) Subject to the following provisions of this regulation, for the period of ten years beginning with the date on which the licensing authority grants an orphan marketing authorisation, the licensing authority must not—

- (a) grant an application for a UK marketing authorisation; or
- (b) grant an application to vary a UK marketing authorisation;

in relation to a medicinal product which is similar to the medicinal product to which the orphan marketing authorisation relates and in respect of the therapeutic indications which are covered by the orphan marketing authorisation.

^{F200}(2)

^{F200}(3)

(4) The period of ten years referred to in paragraph (1) may be reduced to six years if, at the end of the fifth year beginning on the date referred to in paragraph (1), the licensing authority is satisfied that the orphan criteria are no longer met in relation to the medicinal product.

(5) The period of ten years referred to in paragraph (1) is extended to twelve years if regulation 58A(2) (paediatric rewards) applies to the orphan marketing authorisation.

(6) Paragraph (1) does not apply if—

- (a) the holder of the orphan marketing authorisation consents to the grant or variation of a UK marketing authorisation in relation to a similar medicinal product;
- (b) the licensing authority is satisfied that the holder of the orphan marketing authorisation is unable to supply sufficient quantities of the medicinal product to which the orphan marketing authorisation relates; or
- (c) a subsequent applicant can establish to the satisfaction of the licensing authority that the medicinal product to which the application relates, although similar to the medicinal product to which the orphan marketing authorisation relates, is safer or more effective than, or clinically superior to, that product.

Consideration of applications relating to combined advanced therapy medicinal products

58E.—(1) When determining an application to which regulation 50H(3) (applications relating to combined advanced therapy medicinal products) applies, the licensing authority must—

- (a) assess the entire combined advanced therapy medicinal product in accordance with these Regulations; and
- (b) recognise the results of the assessment of the notified body, if supplied.

(2) The licensing authority may request the notified body, if relevant, to provide it with information related to the results of the assessment.

(3) Paragraph (4) applies if an application to which regulation 50H(3) applies does not include the results of the assessment of a notified body, or if the notified body fails to supply information related to the results of the assessment when requested by the licensing authority.

(4) Where this paragraph applies, the licensing authority must seek an opinion on the conformity of the device part in accordance with the Medical Devices Regulations 2002^{M52} from a notified body identified in conjunction with the applicant, unless the licensing authority decides that the involvement of a notified body is not required.

Consideration of applications relating to conditional marketing authorisations

58F.—(1) If the licensing authority is satisfied in relation to an application to which regulation 50I (applications relating to conditional marketing authorisations) applies that—

- (a) the criteria in regulation 50I(3)(b) are met; and
- (b) it is otherwise appropriate to grant a [^{F201}UKMA(GB)] in respect of the application in accordance with regulation 49(1)(a),

it may grant a UK marketing authorisation which is known as a conditional marketing authorisation.

(2) Where regulation 50I(2)(b) (applications relating to conditional marketing authorisations) applies, the licensing authority may grant a conditional marketing authorisation if, in addition to comprehensive clinical data, comprehensive pre-clinical or pharmaceutical data have not been supplied.

(3) The licensing authority may, of its own motion, propose that a conditional marketing authorisation be granted if, having consulted the applicant for a UK marketing authorisation, it considers that the criteria in regulation 50I(3)(b) are met.

(4) If the licensing authority grants a conditional marketing authorisation in relation to a medicinal product, it may at any time decide that it is appropriate to grant a UK marketing authorisation in relation to that product which is not a conditional marketing authorisation.

(5) If the licensing authority grants a conditional marketing authorisation, the product's summary of product characteristics and package leaflet must include a statement to that effect, and the summary of product characteristics must include the date on which the conditional marketing authorisation is due for renewal.

Consideration of applications in relation to medicinal products containing or consisting of genetically modified organisms

58G.—(1) When determining an application for a UK marketing authorisation in relation to which regulation 50J (applications relating to medicinal products containing or consisting of genetically modified organisms) applies, the licensing authority must be satisfied that the application respects the environmental safety requirements laid down by Directive [2001/18/EC](#).

(2) In reaching its view under paragraph (1), the licensing authority must consult the bodies responsible for the giving of consent pursuant to the legislation referred to in regulation 50J(2)(a).”.

Insertion of new regulations 60A (condition as to the submitting of samples and other information to the appropriate authority) [^{F207} and 60B (submitting of samples and other information: EU marketing authorisations)]

67. After regulation 60, insert—

“Condition as to the submitting of samples and other information to the appropriate authority

60A.—(1) In this regulation—

“the appropriate authority” is to be construed in accordance with section 57(7) of the Health and Social Care Act 2012 ^{M54};

“appropriate documentation”, in relation to a sample of a batch submitted to the appropriate authority in accordance with the batch testing condition or pursuant to a notification under paragraph (12), means—

- (a) any certificate issued by a laboratory in an approved country for batch testing and certification of biological medicinal products that relates to the sample of the batch submitted to the appropriate authority with that certificate; and

- (b) such other documentation as the appropriate authority notifies the holder of the UK marketing authorisation to which the sample relates that it requires;

“approved country list for batch testing and certification of biological medicinal products” means the list described in paragraph (5), and “approved country for batch testing and certification of biological medicinal products” means a country included in that list;

“the batch testing condition”, in respect of a UK marketing authorisation, is a condition to the effect that, unless the batch testing exemption applies, the holder of the UK marketing authorisation—

- (a) must submit a sample from each batch of the medicinal product that is the subject of that authorisation to the appropriate authority, together with appropriate documentation; and
- (b) must not sell or supply, or offer to sell or supply, a medicinal product that forms part of that batch in the United Kingdom until the appropriate authority has examined—
 - (i) the sample from that batch,
 - (ii) the appropriate documentation, or
 - (iii) both that sample and that documentation,

and confirmed that it is satisfied that the batch is in conformity with the approved specifications in the UK marketing authorisation; and

[^{F208}“the batch testing exemption” means that—

- (a) in the case of a medicinal product for sale or supply in Northern Ireland only—
 - (i) a certificate has been issued by a laboratory in an EEA State, and
 - (ii) in relation to a product of a kind listed in Article 114(1) of the 2001 Directive, the certificate was issued in the same EEA State as that in which the batch was manufactured, or
- (b) (i) a certificate has been issued by a laboratory in a country other than the United Kingdom,
- (ii) an agreement has been made between that country and the United Kingdom (whether or not the agreement is solely with that country, a group of countries or an organisation of which that country is a part), and
- (iii) that agreement is to the effect that the appropriate authority will recognise that certificate in respect of the batch of the medicinal product, in place of the appropriate authority’s own examination of a sample from the batch, the appropriate documentation or both.]

(2) The licensing authority may impose the batch testing condition in respect of a UK marketing authorisation for a medicinal product that is—

- (a) a live vaccine;
- (b) an immunological ^{F209}... product used in the primary immunisation of infants or other groups at risk;
- (c) an immunological product used in public health immunisation programmes;
- (d) subject to paragraph (3), a new immunological product manufactured using new or altered kinds of technology or new for a particular manufacturer; or
- (e) derived from human blood or human plasma.

(3) If the licensing authority imposes a condition in respect of a UK marketing authorisation for a medicinal product of a kind mentioned in paragraph (2)(d), it must, in imposing that condition, specify a period of time for the duration of the condition.

(4) The appropriate authority must complete its examination of the sample for testing, the appropriate documentation or both (as the case may be) within the period of 60 days, beginning with the date on which the appropriate authority is in receipt of both the sample for testing, and the appropriate documentation.

(5) The appropriate authority must publish a list, to be known as the approved country list for batch testing and certification of biological medicinal products, specifying the countries that are approved for the purposes of the appropriate authority's assessment under paragraph (6) [^{F210}and regulation 60B(5)].

(6) Where a holder of a UK marketing authorisation, in order to comply with the batch testing condition, submits appropriate documentation that includes a certificate issued by a laboratory in an approved country for batch testing and certification of biological medicinal products in respect of the batch, the appropriate authority must, in addition to any other factors it considers relevant, take that into account in determining whether the appropriate authority needs to undertake any further testing of the medicinal product submitted to it.

(7) In order to determine whether a country should be included in the approved country list for batch testing and certification of biological medicinal products, the appropriate authority may, in particular, take into account whether the relevant certification process in that country is based on testing performed under a quality assurance system that undergoes regular external assessment to ensure it meets an appropriate standard of competence for testing biological medicines.

(8) The appropriate authority must—

- (a) review the countries it has included in the approved country list for batch testing and certification of biological medicinal products to determine if it is still satisfied that the country should remain on that list, and if it is not so satisfied, remove that country from the list; and
- (b) undertake that review at least every three years beginning with the date on which that country is included in the list.

(9) The appropriate authority must—

- (a) publish a list of countries, or organisations, with whom the United Kingdom has an agreement for the purposes of the application of the batch testing exemption [^{F211}under this regulation or regulation 60B];
- (b) include in that list any conditions or restrictions in that agreement that affect the applicability of the batch testing exemption [^{F211}under this regulation or regulation 60B]; and
- (c) update that list as soon as reasonably practicable if—
 - (i) the United Kingdom no longer has an agreement with a country or organisation included in the list,
 - (ii) any such agreement is amended, or
 - (iii) the United Kingdom enters in to a new agreement with a country or organisation.

(10) Where a holder of a UK marketing authorisation relies on the batch testing exemption in relation to a batch of a medicinal product, that holder must submit the certificate in respect of that batch to the licensing authority and the appropriate authority, and such other documentation as those authorities may notify that holder they require, before

it sells or supplies, or offers to sell or supply, a medicinal product that forms part of that batch in the United Kingdom.

(11) Paragraph (12) applies where the appropriate authority considers that there are public health concerns in respect of a batch of a medicinal product (“the relevant batch”) in relation to which the batch testing exemption would otherwise apply.

(12) Where this paragraph applies, the appropriate authority must, subject to paragraph (13), notify the holder of the UK marketing authorisation in respect of the relevant batch that it nevertheless requires that holder—

- (a) to submit a sample from the relevant batch to the appropriate authority, together with appropriate documentation; and
- (b) not to sell or supply, or to offer to sell or supply, a medicinal product that forms part of that batch in the United Kingdom until the appropriate authority has examined—
 - (i) the sample from that batch,
 - (ii) the appropriate documentation, or
 - (iii) both that sample and that documentation,

and confirmed that it is satisfied that the relevant batch is in conformity with the approved specifications in the UK marketing authorisation.

(13) The appropriate authority may only exercise its powers under paragraph (12) if the agreement made between the country in which the certificate was issued, and the United Kingdom (whether the agreement is solely with that country, a group of countries or an organisation of which that country is a part) provides for the relevant batch to be re-examined by the appropriate authority in the circumstances described in paragraph (11).

[^{F212}(14) The appropriate authority may, in any particular case, apply this regulation to a medicinal product imported into the United Kingdom pursuant to a parallel import licence and accordingly any reference in this regulation to—

- (a) a UK marketing authorisation should be read as a reference to a parallel import licence for a medicinal product,
- (b) the holder of a UK marketing authorisation should be read as a reference to the holder of a parallel import licence, and
- (c) the approved specifications in a UK marketing authorisation should be read as a reference to the approved specifications in the UK reference product specified for the purposes of the parallel import licence in accordance with paragraph 4 of Schedule 8A.

(15) Where, pursuant to paragraph (14), this regulation is applied to a medicinal product imported into the United Kingdom pursuant to a parallel import licence, sub-paragraph (a) of the definition of “the batch testing exemption” does not apply.

(16) In the application of this regulation to a medicinal product for sale or supply in Northern Ireland only to which Article 114 of the 2001 Directive applies, a reference in this regulation to a laboratory is to an Official Medicines Control Laboratory or a laboratory referred to in that Article.]

[^{F213}**Submitting of samples and other information: EU marketing authorisations**

60B.—(1) In this regulation—

“the appropriate authority” is to be construed in accordance with section 57(7) of the Health and Social Care Act 2012;

“appropriate documentation”, in relation to a sample of a batch submitted to the appropriate authority in accordance with the batch testing requirement or pursuant to a notification under paragraph (8), means such documentation as the appropriate authority notifies the holder of the EU marketing authorisation to which the sample relates that it requires;

“approved country list for batch testing and certification of biological medicinal products” means the list described in regulation 60A(5), and “approved country for batch testing and certification of biological medicinal products” means a country included in that list;

“the batch testing exemption” means that—

- (a) (i) a certificate has been issued by a laboratory in an EEA State, and
- (ii) in relation to a product of a kind listed in Article 114(1) of the 2001 Directive, the certificate was issued in the same EEA State as that in which the batch was manufactured, or
- (b) (i) a certificate has been issued by a laboratory in a country other than the United Kingdom,
- (ii) an agreement has been made between that country and the United Kingdom (whether or not the agreement is solely with that country, a group of countries or an organisation of which that country is a part), and
- (iii) that agreement is to the effect that the appropriate authority will recognise that certificate in respect of the batch of the medicinal product, in place of the appropriate authority’s own examination of a sample from the batch, the appropriate documentation or both;

“the batch testing requirement”, in respect of an EU marketing authorisation, is a requirement that, unless the batch testing exemption applies, the holder of the EU marketing authorisation—

- (a) must submit a sample from each batch of the medicinal product that is the subject of that authorisation to the appropriate authority, together with appropriate documentation; and
- (b) must not sell or supply, or offer to sell or supply, a medicinal product that forms part of that batch in Northern Ireland until the appropriate authority has examined—
 - (i) the sample from that batch,
 - (ii) the appropriate documentation, or
 - (iii) both that sample and that documentation,

and confirmed that it is satisfied that the batch is in conformity with the approved specifications in the EU marketing authorisation.

(2) The licensing authority may impose the batch testing requirement on the holder of an EU marketing authorisation for a medicinal product—

- (a) that is—
 - (i) a live vaccine;
 - (ii) an immunological product used in the primary immunisation of infants or other groups at risk;
 - (iii) an immunological product used in public health immunisation programmes;
 - (iv) subject to paragraph (3), a new immunological product manufactured using new or altered kinds of technology or new for a particular manufacturer; or

- (v) derived from human blood or human plasma, and
 - (b) which is intended for sale or supply in Northern Ireland.
- (3) If the licensing authority imposes the batch testing requirement in respect of an EU marketing authorisation for a medicinal product of a kind mentioned in paragraph (2)(a) (iv), it must, in imposing that requirement, specify a period of time for the duration of the requirement.
- (4) The appropriate authority must complete its examination of the sample for testing, the appropriate documentation or both (as the case may be) within the period of 60 days, beginning with the date on which the appropriate authority is in receipt of both the sample for testing, and the appropriate documentation.
- (5) Where a holder of an EU marketing authorisation, in order to comply with the batch testing requirement, submits appropriate documentation that includes a certificate issued by a laboratory in an approved country for batch testing and certification of biological medicinal products in respect of the batch, the appropriate authority must, in addition to any other factors it considers relevant, take that into account in determining whether the appropriate authority needs to undertake any further testing of the medicinal product submitted to it.
- (6) Where a holder of an EU marketing authorisation relies on the batch testing exemption in relation to a batch of a medicinal product, that holder must submit the certificate in respect of that batch to the licensing authority and the appropriate authority, and such other documentation as those authorities may notify that holder they require, before it sells or supplies, or offers to sell or supply, a medicinal product that forms part of that batch in Northern Ireland.
- (7) Paragraph (8) applies where the appropriate authority considers that there are public health concerns in respect of a batch of a medicinal product (“the relevant batch”) in relation to which the batch testing exemption would otherwise apply.
- (8) Where this paragraph applies, the appropriate authority must, subject to paragraph (9), notify the holder of the EU marketing authorisation in respect of the relevant batch that it nevertheless requires that holder—
- (a) to submit a sample from the relevant batch to the appropriate authority, together with appropriate documentation; and
 - (b) not to sell or supply, or to offer to sell or supply, a medicinal product that forms part of that batch in Northern Ireland until the appropriate authority has examined—
 - (i) the sample from that batch,
 - (ii) the appropriate documentation, or
 - (iii) both that sample and that documentation,
- and confirmed that it is satisfied that the relevant batch is in conformity with the approved specifications in the EU marketing authorisation.
- (9) The appropriate authority may only exercise its powers under paragraph (8) if the agreement made between the country in which the certificate was issued, and the United Kingdom (whether the agreement is solely with that country, a group of countries or an organisation of which that country is a part) provides for the relevant batch to be re-examined by the appropriate authority in the circumstances described in paragraph (7).
- (10) A reference in this regulation to a laboratory (other than in paragraph (b) of the definition of “the batch testing exemption” in paragraph (1)) is to an Official Medicines Control Laboratory or a laboratory referred to in Article 114 of the 2001 Directive.”].

Post authorisation requirements in relation to UK marketing authorisations with paediatric aspects and advanced therapy medicinal products

87. After regulation 78, insert—

“Post authorisation requirements in relation to UK marketing authorisations to which paediatric specific provisions apply

78A.—(1) Paragraph (2) applies where—

- (a) a holder of a UK marketing authorisation intends to discontinue supply of the product to which that authorisation relates;
- (b) the holder of the authorisation benefited from a reward or incentive under regulation 58A(3) or (8) or 58D(5) in relation to the product; and
- (c) the period of protection provided pursuant to those regulations has expired.

(2) Where this paragraph applies, the holder of the UK marketing authorisation must—

- (a) either—
 - (i) transfer the UK marketing authorisation to another person who has declared an intention to continue to supply the product; or
 - (ii) allow such a person to use the pharmaceutical, pre-clinical and clinical documentation contained in the file on that product in accordance with regulation 56; and
- (b) notify the licensing authority of its intention to cease to supply the product before the beginning of the period of six months ending immediately before the day on which the holder does so.

(3) Paragraph (4) applies to the holder of a UK marketing authorisation if—

- (a) that authorisation includes a paediatric indication following completion of an agreed paediatric investigation plan; and
- (b) the product was placed on the market for other indications before that holder obtained that paediatric indication.

(4) Where this paragraph applies, the holder of the UK marketing authorisation must place the product on the market taking account of the paediatric indication before the end of the period of two years beginning immediately after the day on which the paediatric indication is authorised.

(5) Paragraph (6) applies if—

- (a) a decision by the licensing authority in respect of a paediatric investigation plan is addressed to a person (“PIP sponsor”); and
- (b) the plan refers to clinical trials carried out in a country other than the United Kingdom (“non-UK clinical trials”).

(6) Where this paragraph applies, the PIP sponsor must send to the licensing authority the details set out in Article 11 of the Clinical Trials Directive in relation to the non-UK clinical trials within whichever is the later of—

- (a) the period of one month beginning after the day on which the decision was received; or
- (b) the period of one month beginning after the day on which the necessary permission to conduct the clinical trial was received from the competent authorities in the country where the clinical trial is to take place.

(7) Where paragraph (6) applies, the PIP sponsor must submit the results of those clinical trials to the licensing authority within the period of twelve months beginning with the day on which the last of those trials ended, subject to paragraph (8).

(8) Paragraph (7) does not apply in the case of a clinical trial which forms part of a paediatric study to which paragraph (12) applies.

(9) Paragraph (10) applies in relation to the sponsor of a paediatric clinical trial in the United Kingdom in respect of a medicinal product if—

- (a) the product has a UK marketing authorisation but the sponsor is not the holder of the authorisation; or
- (b) the product does not have a UK marketing authorisation.

(10) Where this paragraph applies, the sponsor of the clinical trial must submit the results of the trial to the licensing authority within the period of twelve months beginning with the day on which the trial ended.

(11) Paragraph (12) applies in relation to the holder of a UK marketing authorisation who sponsors a paediatric clinical trial in respect of the medicinal product to which that authorisation relates.

(12) Where this paragraph applies, the holder of the UK marketing authorisation must submit the results of the trial to the licensing authority within the period of six months beginning with the day on which the trial ended.

(13) Paragraph (14) applies in relation to the holder of a UK marketing authorisation who sponsors a study which involves the use in the paediatric population of a medicinal product to which that UK marketing authorisation relates, irrespective of whether or not—

- (a) the studies are conducted in accordance with an agreed paediatric investigation plan; or
- (b) the marketing authorisation holder intends to apply for a marketing authorisation for a paediatric indication in relation to the product.

(14) Where this paragraph applies, the holder of the UK marketing authorisation must submit the results of the study to the licensing authority within the period of six months beginning with the day on which the study ended.

(15) Where the licensing authority has granted a deferral of the initiation or completion of some or all of the measures set out in a paediatric investigation plan, in accordance with regulation 50C, the person to whom that decision was addressed must submit to the licensing authority an annual report providing an update on progress with the paediatric studies to which the deferral relates.

(16) The first report referred to in paragraph (15) must be submitted within the period of twelve months beginning with the date on which the licensing authority granted the deferral.

Post authorisation requirements in relation to [F237UKMA(GB)] for advanced therapy medicinal products

78B.—(1) The holder of a [F238UKMA(GB)] in respect of an advanced therapy medicinal product must—

- (a) establish and maintain a system ensuring that the individual product and its starting raw materials, including all substances coming into contact with the cells or tissues it may contain, can be traced through the sourcing, manufacturing, packaging, storage, transport and delivery to the hospital, institution or private practice where the product is used;
- (b) where the product contains human tissues or cells, ensure that the traceability system is complementary to and compatible with requirements imposed pursuant to—
 - (i) as regards gametes and embryos, sections 12(3), and 33A to 33D of, and paragraph 1 of Schedule 3A to, the Human Fertilisation and Embryology Act 1990 ^{M63},

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (ii) as regards blood cells, regulations 8, 9(e) and 14 of the Blood Safety and Quality Regulations 2005 ^{M64}, and
 - (iii) as regards other cells and tissues, regulations 13 and 16 of, and paragraph 1 of Schedule 2 to, the Human Tissue (Quality and Safety for Human Application) Regulations 2007 ^{M65};
 - (c) keep the data referred to in paragraph (a) for a minimum of 30 years after the expiry of the date of the product, or longer if required by the licensing authority as a term of the [^{F238}UKMA(GB)]; and
 - (d) in the event of the [^{F238}UKMA(GB)] holder's bankruptcy or liquidation occurring within the period of time for which that holder is required to keep the data referred to in paragraph (a), transfer that data to another person or the licensing authority.
- (2) The holder of a [^{F238}UKMA(GB)] who is subject to the obligations in paragraph (1) remains subject to them even if the [^{F238}UKMA(GB)] is suspended or revoked.”.

[^{F339}(b) after “EMA” insert “or licensing authority (as the case may be)”]

(6) [^{F340}After paragraph (6) insert]—

[^{F341}“(6A)] Subject to paragraph [^{F342}(6B)], in this regulation, “UK reference date” means a date determined by the licensing authority under paragraph (2)(a) in respect of medicinal products containing the same active substance or the same combination of active substances.

[^{F341}(6B)] Until the licensing authority makes a decision under paragraph (2), any—

(a) Union reference date in respect of medicinal products containing the same active substance or the same combination of active substances; or

(b) date of submission and frequency of periodic safety reports in respect of such products,

published by the EMA under Article 107c(7) of the 2001 Directive, is deemed to be the UK reference date or, as the case may be, the required date or frequency of PSUR submission, in respect of those medicinal products.”.

(7) After paragraph [F343(6B)] insert—

“(7) The licensing authority must publish a list of—

- (a) UK reference dates it determines under paragraph (2); and
- (b) the required date of submission and frequency for PSURs in respect of medicinal products containing the same active substance or the same combination of active substances.

(8) Any change to the date of submission and frequency of PSURs as a result of the application of this regulation is to take effect after a 6 month period, such period beginning with the day after the licensing authority publishes that change under paragraph (7).”.

Major safety review by the licensing authority

- [^{F356} **196A**].—(1) The licensing authority may conduct a major safety review where—
- (a) on the basis of concerns resulting from the evaluation of data from pharmacovigilance activities it considers—
 - (i) suspending or revoking a UK marketing authorisation or traditional herbal registration of a medicinal product or in respect of a class of medicinal products,
 - (ii) prohibiting the supply of a medicinal product or a class of medicinal products,
 - (iii) refusing the renewal of a UK marketing authorisation or traditional herbal registration, or
 - (iv) action is necessary to vary a UK marketing authorisation or traditional herbal registration or a class of such authorisations or registrations, including to impose new conditions; or
 - (b) it is informed by a holder that, on the basis of safety concerns, the holder has—
 - (i) interrupted the sale or supply, or offer of sale or supply, of the product to which a UK marketing authorisation or traditional herbal registration relates,
 - (ii) taken action to have that product's authorisation or registration cancelled or intends to do so, or
 - (iii) not applied for the renewal of that product's authorisation or registration.
- (2) If the licensing authority conducts a review under paragraph (1), it must—
- (a) announce the initiation of that review on the UK web-portal as soon as reasonably practicable;
 - (b) include in that announcement—
 - (i) an outline of its reasons for conducting a major safety review, the medicinal products concerned and, where applicable, the active substances concerned, and
 - (ii) the proposed structure and time-scale of the review;
 - (c) notify a holder if the product to which that holder's authorisation or registration relates is within the scope of the review; and
 - (d) publish the outcome of that review, including any recommendations it is making, or action it is proposing to take, as soon as reasonably practicable after the conclusion of that review.
- (3) A holder who is notified under paragraph (2)(c)—
- (a) must provide to the licensing authority such information as the licensing authority notifies that holder it requires, within such time period as the licensing authority specifies; and

Status: This version of this Instrument contains provisions that are prospective.

- (b) may, where such information contains confidential data relevant to the subject matter of the review, because the data relates to a manufacturing process or trade secret, notify the licensing authority that that data is provided in confidence.
- (4) Where the licensing authority proposes that action should be taken in respect of any UK marketing authorisation or traditional herbal registration—
- (a) during the conduct of the major safety review, because urgent action is necessary to protect public health; or
- (b) upon the conclusion of such a review,
- it may exercise its powers under Part 5 or 7 (as the case may be) in relation to that authorisation or registration.”.

Insertion of new regulation 202A (medicinal products subject to additional monitoring)

163. After regulation 202 insert—
“Medicinal products subject to additional monitoring

Licensing authority power in relation to medicinal products subject to additional monitoring

202A.—(1) The licensing authority may establish a list of medicinal products that are subject to additional monitoring.

(2) The list referred to in paragraph (1) is to include the names and active substances of—

- (a) medicinal products authorised in the United Kingdom that contain a new active substance which, on 1st January 2011, was not contained in any medicinal product authorised in the United Kingdom;
- (b) any biological medicinal product not covered by sub-paragraph (a) that was authorised in the United Kingdom after 1st January 2011;
- (c) medicinal products that are authorised pursuant to these Regulations, subject to the conditions referred to in regulation 50I, 59(2)(b) or (c), 60 or 61(4).

(3) If the licensing authority considers it appropriate, medicinal products that are authorised pursuant to these Regulations, subject to the conditions referred to in regulation 59(2)(a), (d), (e) or (f), 61(5) or 183(2), may also be included in the list referred to in paragraph (1).

(4) For medicinal products included in the list referred to in paragraph (1)—

- (a) the summary of product characteristics and the package leaflet must include a symbol and statement as follows: “▼ This medicinal product is subject to additional monitoring”; and
- (b) that symbol must be proportional to the font of the subsequent standardised text, and each side of the triangle must have a minimum length of 5 millimetres.

(5) In the cases referred to in paragraph (2)(a) and (b), the licensing authority must, unless paragraph (6) applies, remove a medicinal product from the list after five years, beginning with the day after the UK reference date referred to in regulation 193.

(6) In the cases referred to in paragraph (2)(c) and (3), the licensing authority must remove a medicinal product from the list once the condition or obligation under a provision specified in those paragraphs has been fulfilled.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(7) Until the licensing authority publishes a list of medicinal products under paragraph (1), the reference to that list is instead to be read as a reference to the list referred to in Article 23 of Regulation (EC) No 726/2004, as that list may be amended from time to time.”.

PART 13

Omission of Part 12A (sale of medicines to the public at a distance)

^{F408} Amendment of Part 12A

197.—(1) Before regulation 256A (interpretation) insert—

“Application of Part

256ZA. This part applies to Northern Ireland only.”.

(2) In regulation 256A(1) (interpretation)—

- (a) in the definition of “the list”, for “competent authority of a member State in which the person named on the list is established” substitute “licensing authority”;
- (b) omit the definition of “relevant website of the member State”;
- (c) at the appropriate place in the alphabetical order insert—

““website of the licensing authority” means a website of the licensing authority providing information on—

- (a) the national legislation applicable to the offering of medicinal products for sale at a distance to the public by information society services;
- (b) the differences between Northern Ireland and EEA States regarding classification of medicinal products and the conditions for their supply;
- (c) the purpose of the common logo;
- (d) the list of persons offering medicinal products for sale at a distance by means of information society services as well as their website addresses;
- (e) background information about the risks related to medicinal products supplied illegally to the public by means of information society services;
- (f) a hyperlink to the website of the EMA;”;

(d) in the definition of “website of the EMA”—

(i) in paragraph (a)—

- (aa) for “relevant website of the member State” substitute “website of the licensing authority”;
- (bb) for “that member State” substitute “Northern Ireland”;

(ii) in paragraph (e), for “hyperlinks to the relevant website of the member State” substitute “a hyperlink to the website of the licensing authority”.

(3) In regulation 256B (person who may sell medicinal products by information society services)

—
(a) before paragraph (1) insert—

“(A1) This regulation applies to a person who is an established service provider (as defined in regulation 2(1) of the Electronic Commerce (EC Directive) Regulations 2002) in Northern Ireland.”;

(b) in paragraph (2), omit “of persons selling medicinal products at a distance that is published on the relevant website of the member State”;

(c) for paragraph (3) substitute—

“(3) Condition B is that the product to be sold by information society services is covered by a UK marketing authorisation or an authorisation granted—

- (a) under Regulation (EC) No 726/2004; or
 - (b) by a competent authority of the member State in which that product is destined to be sold.
- (3A) Condition B does not apply to—
- (a) a special medicinal product;
 - (b) a medicinal product where the product is the result of a process of manufacture to which regulation 17(1) does not apply by virtue of any provision of section 10 of the Medicines Act 1968; or
 - (c) a medicinal product where—
 - (i) the product is a result of a process of assembly of a medicinal product that is an authorised medicinal product within the meaning of regulation 3(15);
 - (ii) regulation 17(1) does not apply to the process of assembly by virtue of any provision of section 10 of the Medicines Act 1968;
 - (iii) the process of assembly results in a change in the presentation of the authorised medicinal product; and
 - (iv) by reason of the change in paragraph (iii) the product does not comply with condition B.”;
 - (d) in paragraph (4), omit “in the member State in which that person is established”;
 - (e) in paragraphs (6), for “the competent authority in a member State in which the person is established” substitute “the licensing authority”;
 - (f) in each of paragraphs (8)(b) and (c), for “the competent authority of a member State” substitute “the licensing authority”.
- (4) In regulations 256C (notification requirements for sellers of medicinal products at a distance) to 256M (offences: breach of regulations and false information), for “competent authority of a member State” in each place it occurs (including in the headings to regulations 256F and 256J) substitute “licensing authority”.
- (5) In regulation 256C (notification requirements for sellers of medicinal products at a distance), in paragraph (2)(b)(iv), for “informantion” substitute “information”.
- (6) In regulation 256D(3) (procedure for listing persons who may supply medicinal products at a distance), for “that competent authority” in both places substitute “the licensing authority”.
- (7) In regulation 256G (grant or refusal to list a person)—
- (a) in paragraph (2), for “that competent authority” substitute “the licensing authority”;
 - (b) in paragraph (3)—
 - (i) for “that competent authority” substitute “the licensing authority”;
 - (ii) for “relevant website of the member State” substitute “website of the licensing authority”.
- (8) In regulation 256H(3) (conditions to be met by a person entered on the list)—
- (a) in sub-paragraph (a), omit “which is responsible for maintaining the list on which the person selling products at a distance is included”;
 - (b) in sub-paragraph (b), for “relevant website of the Member State” substitute “website of the licensing authority”.
- (9) In regulation 256J (procedure where the licensing authority proposes to suspend, vary or remove a person’s entry on the list), omit sub-paragraph (6)(b) (and the “and” at the end of sub-paragraph (a)).

(10) In regulation 256K(1) (suspension of a person's entry on the list in cases of urgency), for "that competent authority" substitute "the licensing authority".

(11) In regulation 256L (variation of a person's entry on the list on the application of that person)

(a) in paragraph (3), for "that competent authority" substitute "the licensing authority";

(b) in paragraph (6)(b), for "that competent authority's" substitute "the licensing authority's".]

2. After regulation 19, insert—

“Fees for certification of plasma master files

19A.—(1) The fee payable by a person who submits a plasma master file to the licensing authority for scientific and technical evaluation in accordance with paragraph 1.1(c), second indent, of Part III of Annex I to the 2001 Directive, is £8,309.

(2) The fee payable by a person who submits a plasma master file to the licensing authority for re-certification in accordance with paragraph 1.1(c), third indent, of Part III of Annex I to the 2001 Directive is—

- (a) £277, where there are no changes to the plasma master file other than an update to epidemiological data; or
- (b) £734, in any other case.

Fee for certification of vaccine antigen master files

19B. The fee payable by a person who submits a vaccine antigen master file to the licensing authority for scientific and technical evaluation in accordance with paragraph 1.2(c), first indent, of Part III of Annex I to the 2001 Directive, is £8,309.

Fees for assessment of post-authorisation safety studies

19C.—(1) This regulation applies to post-authorisation safety studies initiated, managed or financed by the holder of a marketing authorisation in compliance with obligations imposed under regulation 59 or 61 of the Human Medicines Regulations.

[^{F474}(2) The fee payable by the holder of a marketing authorisation upon submission of the draft protocol for a post-authorisation safety study in accordance with regulation 199(2) of the Human Medicines Regulations—

- (a) where the authorisation for the medicinal product concerned is a UKMA(GB) granted under the unfettered access route or a UKMA(GB) granted where the medicinal product concerned has already been granted a European Union marketing authorisation under Regulation (EC) No 726/2004 (an automatic recognition application), and provided a corresponding draft protocol has been submitted in respect of the related European Union marketing authorisation or UKMA(NI) for the same product, is £734;
- (b) where sub-paragraph (a) does not apply and—
 - (i) the study is to be conducted in the United Kingdom only; or
 - (ii) the authorisation for the product which is the subject of the study authorises sale or supply in Great Britain only,is £8,309; and
- (c) in any other case, is £734.]

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

[^{F475}(3) The fee payable by the holder of a marketing authorisation upon submission of the final study report for a post-authorisation safety study in accordance with regulation 201(2) of the Human Medicines Regulations—

- (a) where the authorisation for the medicinal product concerned is a UKMA(GB) granted under the unfettered access route or a UKMA(GB) granted where the medicinal product concerned has already been granted a European Union marketing authorisation under Regulation (EC) No 726/2004 (an automatic recognition application), and provided a corresponding final study report has been submitted in respect of the related European Union marketing authorisation or UKMA(NI) for the same product, is £734;

 - (ii) the authorisation for the product which is the subject of the study authorises sale or supply in Great Britain only,
 is £8,309; and
- (c) in any other case, is £734.]

Fee for carrying out a major safety review

19D.—(1) Where the licensing authority conducts a major safety review of a [^{F476}United Kingdom] marketing authorisation or traditional herbal registration, or a set of [^{F477}such] marketing authorisations or traditional herbal registrations, under regulation 196 of the Human Medicines Regulations, a fee is payable in accordance with Part 6A of Schedule 2.

(2) Unless paragraph (3) applies, the fee referred to in paragraph (1) is payable by the holder of the marketing authorisation or registration to which the review relates.

(3) Where the review relates to two or more authorisations or registrations the fee referred to in paragraph (1) is to be divided by the number of authorisations or registrations forming part of the review (“relevant authorisation or registration”) and each holder of a relevant authorisation or registration must pay that reduced fee in respect of each relevant authorisation or registration it holds.

Fee for assessment of periodic safety update reports

19E.—(1) This regulation applies where—

- (a) a periodic safety update report has been submitted to the licensing authority under regulation 191 or 192 of the Human Medicines Regulations; and
- (b) that periodic safety update report relates to a medicinal product which has a UK reference date within the meaning of regulation 193 of the Human Medicines Regulations.

(2) Where this regulation applies, the fee payable by the holder of a marketing authorisation or traditional herbal registration to which the periodic safety update report relates is—

- (a) £890, in the case where no other periodic safety update reports relating to medicinal products with the same UK reference date are submitted; and
- (b) £445, in any other case.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

Fee for testing of samples by the appropriate authority

19F.—(1) Where a sample from a batch of a medicinal product is submitted to the appropriate authority in accordance with a batch testing condition imposed under regulation 60A of the Human Medicines Regulations, the fee payable by the holder of the marketing authorisation to which the medicinal product relates is the fee prescribed in Part 6B of Schedule 2 in connection with that submission.

(2) The fee payable by an applicant for a certified copy of a certificate confirming that the appropriate authority is satisfied that the batch is in conformity with the approved specifications is £50.

(3) In this regulation, and in Part 6B of Schedule 2, “appropriate authority” and “batch testing condition” have the same meaning as in regulation 60A of the Human Medicines Regulations.

Time for payment of fees under regulations 19A to 19F

SCHEDULE 4

Regulation 54

Insertion of new Schedule 9A

1. After Schedule 9, insert—

“SCHEDULE 9A

Regulation 50G(4)

Meaning of terms used in the orphan criteria and in regulation 58D

Prevalence of a condition in [^{F504}Great Britain]

1.—(1) The following provisions apply for the purposes of establishing, pursuant to regulation 50G(2)(a) and (b)(i), that a medicinal product is intended for the diagnosis, prevention or treatment of a life-threatening or chronically debilitating condition affecting not more than five in 10,000 persons in [^{F504}Great Britain].

(2) The material provided pursuant to regulation 50G(3) must include—

- (a) material which demonstrates that the disease or condition for which the medicinal product would be authorised affects not more than five in 10,000 persons in [^{F504}Great Britain] at the time at which the application for an orphan marketing authorisation is submitted, where this is available;
- (b) details of the condition intended to be treated and a justification of the life-threatening or chronically debilitating nature of the condition, supported by scientific or medical references; and
- (c) copies of, or references to, relevant scientific literature, as well as copies of information from relevant databases in [^{F504}Great Britain], where available.

(3) If there are no databases as referred to in paragraph (2)(c), information from relevant databases in other countries may be supplied, provided appropriate extrapolations are made.

Potential for return on investment

2.—(1) The following provisions apply for the purposes of establishing, pursuant to regulation 50G(2)(a) and (b)(ii), that a medicinal product is intended for the diagnosis, prevention or treatment of a life-threatening or chronically debilitating condition in

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

[^{F504}Great Britain] and that the medicinal product is unlikely, when marketed, to generate sufficient financial return to justify the necessary investment.

(2) The material provided pursuant to regulation 50G(3) must include—

- (a) details of the condition intended to be treated and a justification of the life-threatening or chronically debilitating nature of the condition, supported by scientific or medical references;
- (b) details of the costs incurred in connection with the development of the medicinal product;
- (c) details of any grants, tax incentives or other cost recovery provisions received in [^{F504}Great Britain] or any other country in relation to the development of the medicinal product;
- (d) where the medicinal product is already authorised in [^{F504}Great Britain] for any indication, or where the product is under investigation for one or more other indications, an explanation of, and justification for, the method that is used to apportion the development costs among the various indications;
- (e) a statement of and justification for all development costs that the applicant expects to incur after the submission of the application for a UK marketing authorisation;
- (f) a statement of and justification for all production and marketing costs that the applicant has incurred in the past and expects to incur in the first ten years that the medicinal product is authorised;
- (g) an estimate of and justification for the expected revenues from sales of the medicinal product in [^{F504}Great Britain] and elsewhere during the first ten years that the medicinal product is authorised; and
- (h) information on the prevalence and incidence in [^{F504}Great Britain] of the condition for which the medicinal product would be authorised at the time at which the application for an orphan marketing authorisation application is submitted.

(3) The information concerning costs and revenue referred to in sub-paragraph (2) must be determined in accordance with generally accepted accounting principles and must be certified by a person who is a member of a body of accountants which is established in the United Kingdom and which is approved by the licensing authority for the purposes of this paragraph.

Existence of other methods of diagnosis, prevention or treatment

3.—(1) The following provisions apply for the purposes of establishing, pursuant to regulation 50G(2)(c), that there exists no satisfactory method of diagnosis, prevention or treatment of the condition in question that has been authorised in [^{F504}Great Britain], or if such method exists, that the medicinal product will be of significant benefit to those affected by the condition.

(2) The material provided pursuant to regulation 50G(3) must include—

- (a) details of any existing methods of diagnosis, prevention or treatment of the condition in question that have been authorised in [^{F504}Great Britain], making reference to scientific or medical literature or other relevant information, including information relating to authorised medicinal products, medical devices or other methods of diagnosis, prevention or treatment which are used in [^{F504}Great Britain]; and
- (b) a justification as to why either—

Status: This version of this Instrument contains provisions that are prospective.

Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (i) the methods referred to in paragraph (a) are not considered satisfactory; or
 - (ii) the medicinal product for which an orphan marketing authorisation is sought will be of significant benefit to those affected by the condition.
- (3) In this paragraph, “significant benefit” means a clinically relevant advantage or a major contribution to patient care.

Increased safety or effectiveness and clinical superiority

4.—(1) The following provisions apply for the purposes of establishing, pursuant to regulation 58D(6)(c), that a second medicinal product is similar to a medicinal product to which an orphan marketing authorisation relates or is safer or more effective than, or clinically superior to, that product.

(2) The following definitions apply for the purposes of this paragraph—

“clinically superior”, in relation to a medicinal product, means that it is shown to provide a significant therapeutic or diagnostic advantage over and above that provided by an authorised orphan medicinal product in one or more of the following ways—

- (a) greater efficacy;
- (b) greater safety in a substantial portion of the target population, as evidenced where appropriate through comparative clinical trials; or
- (c) in exceptional cases, where neither greater safety nor greater efficacy has been shown, a demonstration that the medicinal product otherwise makes a major contribution to diagnosis or to patient care;

“similar active substance” means an identical active substance, or an active substance with the same principal molecular structural features, but not necessarily all of the same molecular structural features, and which acts via the same mechanism, however, in the case of advanced therapy medicinal products, for which the principal molecular structural features cannot be fully defined, the similarity between two active substances is to be assessed on the basis of the biological and functional characteristics;

“similar medicinal product” means a medicinal product containing a similar active substance or substances as contained in a currently authorised orphan medicinal product, and which is intended for the same therapeutic indication.

(3) For the purposes of the definition of “clinically superior” in relation to a medicinal product which shows that superiority by means of greater efficacy, this is to be assessed by the effect on a clinically meaningful endpoint in adequate and well controlled clinical trials, representing the same kind of evidence needed to support a comparative efficacy claim for two different medicinal products.

(4) The clinical trials referred to in paragraph (3) should be direct comparative clinical trials, unless comparisons based on other endpoints, including surrogate endpoints, can be justified.

(5) Paragraphs 5 to 8 make further provision about the definition of “similar active substance” in relation to certain types of product.

5.—(1) This paragraph applies for the purposes of the definition of “similar active substance” in relation to chemical medicinal products.

(2) The principal molecular structural features are the relevant structural components of an active substance, which may be the whole or part of the molecule.

Status: This version of this Instrument contains provisions that are prospective.

Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(3) Whether the principal molecular structural features are the same between two or more molecules will be identified by comparison of their structures.

(4) Isomers, mixtures of isomers, complexes, esters, ethers, salts and derivatives of the original active substance, or an active substance that differs from the original active substance only with respect to minor changes in the molecular structure, such as a structural analogue, are to be considered similar.

(5) Synthetic polynucleotide substances, single or double stranded, consisting of two or more distinct nucleotides where—

- (a) the difference in the nucleotide sequence of the purine and pyrimidine bases or their derivatives is not major, are to be considered similar, therefore for antisense or interfering nucleotide substances, addition, substitution or deletion of a nucleotide not significantly affecting the kinetics of hybridisation to the target are usually to be considered similar; and
- (b) the difference in structure related to modifications of the ribose or deoxyribose backbone sugars or to the replacement of the backbone sugars by synthetic analogues usually result in substances being considered similar, and for antisense or interfering nucleotide substances, changes in the ribose or deoxyribose backbone sugars not significantly affecting the kinetics of hybridisation to the target are usually to be considered similar.

6.—(1) This paragraph applies for the purposes of the definition of “similar active substance” in relation to biological medicinal products other than advanced therapy medicinal products.

(2) The principal molecular structural features are the structural components of an active substance that are relevant for the functional characteristics of that substance.

(3) The principal molecular structural features may be composed of a therapeutic moiety or a therapeutic moiety in combination with an additional structural element significantly contributing to the functional characteristics of the active substance.

(4) An additional structural element as described in paragraph (3) may be conjugated, fused or linked by other means to the therapeutic moiety or may be an extension of the therapeutic moiety protein backbone by additional amino acids.

(5) Substances with structural elements for which similar methods of modification or conjugation technology are used usually result in similar substances.

(6) Biological active substances which differ from the original biological substance only with respect to minor changes in the molecular structure are to be considered similar.

(7) In relation to proteinaceous substances—

- (a) if the difference in structure between them is due to post-translational events, such as different glycosylation patterns, substances are usually to be considered similar; however, exceptionally some post-translational modifications may result in a non-similar substance if there is significant effect on the functional characteristics of the substance;
- (b) if the difference in the amino acid sequence is not major, substances are usually to be considered similar; therefore two pharmacologically related protein substances of the same group, for example, having differences related to N-terminal methionine, naturally extracted as opposed to recombinant nucleic acid-derived proteins or other minor variants, are usually to be considered similar; however, the addition of a structural element may result in substances not being considered similar if this significantly affects the functional characteristics of the substance;

Status: This version of this Instrument contains provisions that are prospective.

Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (c) monoclonal antibodies binding to the same target epitope are usually to be considered similar; however, two monoclonal antibody conjugates or fusion proteins may be considered not to be similar if either the Complementary Determining Region sequences of the antibody or the additional structural element of the conjugated monoclonal antibody is different.
- (8) In relation to polysaccharide substances—
 - (a) if the substances have identical saccharide repeating units, even if the number of units varies, the substances are usually to be considered similar; and
 - (b) a conjugated polysaccharide vaccine compared to a non-conjugated polysaccharide vaccine containing the same antigen is considered not to be similar.
- 7.—(1) This paragraph applies for the purposes of the definition of “similar active substance” in relation to advanced therapy medicinal products.
- (2) In relation to cell-based advanced therapy medicinal products, these are not to be considered similar if—
 - (a) there are differences in starting materials or the final composition of the product which have a significant impact on the biological characteristics or biological activity relevant for the intended therapeutic effect or safety attributes of the product, and the different source of the starting materials, such as in the case of autologous advanced therapy medicinal products, is not sufficient to support a claim that two products are not similar; or
 - (b) there are differences in the manufacturing technology having a significant impact on the biological characteristics or the biological activity relevant for the intended therapeutic effect or safety attributes of the product.
- (3) In relation to gene therapy medicinal products—
 - (a) two gene therapy medicinal products are not to be considered similar when there are differences in the therapeutic sequence, viral vector, transfer system, regulatory sequences or manufacturing technology which significantly affect the biological characteristics or biological activity relevant for the intended therapeutic effect or safety attributes of the product; and
 - (b) differences in the therapeutic sequence with a significant impact on the intended therapeutic effect are not sufficient to support a claim that two gene therapy medicinal products are not similar.
- (4) The considerations in paragraphs (2) and (3) also apply in relation to genetically modified cells.

8.—(1) This paragraph applies for the purposes of the definition of “similar active substance” in relation to radiopharmaceuticals.

(2) The same radiopharmaceutical active substance, or one differing from the original in radionuclide, ligand, site of labelling or molecule-radionuclide coupling mechanism linking the molecule and radionuclide which acts via the same mechanism, are to be considered similar substances.”.

SCHEDULE 5

Regulation 73

Insertion of new Schedule 10A (variations to a UK marketing authorisation)

1. After Schedule 10, insert—

“SCHEDULE 10A

Regulation 65C(2)

Variations to a UK marketing authorisation

Interpretation

1. In this Schedule—

“change of, or addition of a new, route of administration”, in relation to parenteral administration, includes any change or addition as between intra-arterial, intravenous, intramuscular, subcutaneous and any other route;

“extension of a UK marketing authorisation” or “extension” means a variation which consists of—

- (a) a change to one or more active substances that involves—
 - (i) replacement of a chemical active substance by a different salt, ester, complex or derivative, with the same therapeutic moiety, where the efficacy and safety characteristics are not significantly different,
 - (ii) replacement by a different isomer, a different mixture of isomers, of a mixture by an isolated isomer (for example, racemate by a single enantiomer), where the efficacy and safety characteristics are not significantly different,
 - (iii) replacement of a biological active substance with one of a slightly different molecular structure where the efficacy and safety characteristics are not significantly different, with the exception of changes to the active substance of a seasonal, pre-pandemic or pandemic vaccine against human influenza,
 - (iv) modification of the vector used to produce the antigen or the source material, including a new master cell bank from a different source, where the efficacy and safety characteristics are not significantly different,
 - (v) a new ligand or coupling mechanism for a radiopharmaceutical, where the efficacy and safety characteristics are not significantly different, or
 - (vi) change to the extraction solvent or the ratio of herbal drug to herbal drug preparation where the efficacy and safety characteristics are not significantly different; or
- (b) a change to strength, pharmaceutical form and route of administration that involves—
 - (i) change of bioavailability,

Status: This version of this Instrument contains provisions that are prospective.

Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (ii) change of pharmacokinetics, for example change in rate of release,
- (iii) change or addition of a new strength or potency,
- (iv) change or addition of a new pharmaceutical form, or
- (v) change or addition of a new route of administration;

“holder” means UK marketing authorisation holder;

“major variation of type II” means a variation which is not an extension and which may have a significant impact on the quality, safety or efficacy of the medicinal product concerned namely—

- (a) variations related to the addition of a new therapeutic indication or to the modification of an existing one;
- (b) variations related to significant modifications of the summary of product characteristics due in particular to new quality, pre-clinical, clinical or pharmacovigilance findings;
- (c) variations related to changes outside the range of approved specifications, limits or acceptance criteria;
- (d) variations related to substantial changes to the manufacturing process, formulation, specifications or impurity profile of the active substance or finished medicinal product which may have a significant impact on the quality, safety or efficacy of the medicinal product;
- (e) variations related to modifications in the manufacturing process or sites of the active substance for a biological medicinal product;
- (f) variations related to the introduction of a new design space or the extension of an approved one, where the design space has been developed in accordance with international scientific guidelines; or
- (g) variations related to changes to the active substance of a seasonal, pre-pandemic or pandemic vaccine against human influenza;

“minor variation of type IA” means a variation which has only a minimal impact, or no impact at all, on the quality, safety or efficacy of the medicinal product concerned namely—

- (a) variations of purely administrative nature that are related to the identity and contact details of—
 - (i) the holder,
 - (ii) the manufacturer or supplier of any starting material, reagent, intermediate, active substance used in the manufacturing process or finished product;
- (b) variations related to the identity, location and contact details of the qualified person for pharmacovigilance, or the location of the pharmacovigilance system master file;
- (c) variations related to the deletion of any manufacturing site, including for an active substance, intermediate or finished product, packaging site, manufacturer responsible for batch release, site where batch control takes place;
- (d) variations related to minor changes to an approved physico-chemical test procedure, where the updated procedure is demonstrated to be at least equivalent to the former test procedure, appropriate validation studies have been performed and the results show that the updated test procedure is at least equivalent to the former;

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (e) variations related to changes made to the specifications of the active substance or of an excipient in order to comply with an update of the relevant monograph of the European Pharmacopoeia or of the British Pharmacopoeia, where the change is made exclusively to comply with the pharmacopoeia and the specifications for product specific properties are unchanged;
- (f) variations related to changes in the packaging material not in contact with the finished product, which do not affect the delivery, use, safety or stability of the medicinal product;
- (g) variations related to the tightening of specification limits, where the change is not a consequence of any commitment from previous assessment to review specification limits and does not result from unexpected events arising during manufacture;

“minor variation of type IB” means a variation which is not a minor variation of type IA, a major variation of type II nor an extension; and

“urgent safety restriction” means an interim change in the terms of the UK marketing authorisation due to new information having a bearing on the safe use of the medicinal product.

Classification of variations

2.—(1) Except where sub-paragraph (2) applies, a variation which is not an extension, and whose classification is undetermined after—

- (a) application of the provisions in this Schedule; and
- (b) taking into account—
 - (i) the guidance referred to in regulation 65C(4) or (6) as the case may be), and
 - (ii) where relevant, any recommendations delivered pursuant to paragraph 3,

is to be treated by the licensing authority as a minor variation of type IB.

(2) The licensing authority must treat a variation that would otherwise fall within sub-paragraph (1) as a major variation of type II in the following cases—

- (a) upon request from the holder when submitting the variation; or
- (b) where the licensing authority concludes, following the assessment of validity of a notification in accordance with paragraph 7(1), and taking into account the recommendations given under paragraph 3, that the variation may have a significant impact on the quality, safety or efficacy of the medicinal product concerned.

Licensing authority recommendation on unclassified variations

3.—(1) Prior to the submission of a variation whose classification is not provided for in this Schedule—

- (a) the holder may request a recommendation on the classification of the variation from the licensing authority; and
- (b) the licensing authority must notify the holder of its recommendation within 45 days of that request, beginning with the date on which the request is received by the licensing authority.

(2) The 45-day period referred to in sub-paragraph (1)(b) may be extended by 25 days where the licensing authority deems it necessary.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

Variations leading to the revision of product information

4. Where a variation leads to the revision of the summary of product characteristics, labelling or the package leaflet, the revision must be considered by the licensing authority as part of that variation.

Grouping of variations

5.—(1) Except where sub-paragraph (2) applies, where several variations are notified or applied for, a separate notification or application in accordance with paragraph 6, 7, 8 or 11 of this Schedule is to be submitted in respect of each variation sought.

(2) This sub-paragraph applies—

- (a) where one or more of the same minor variations of type IA to the terms of one or more UK marketing authorisations owned by the same holder are notified at the same time to the licensing authority, in which case a single notification as referred to in paragraph 6 may cover all such variations;
- (b) where several variations to the terms of the same UK marketing authorisation are submitted at the same time, a single submission may cover all such variations provided that the variations concerned fall within one of the relevant circumstances specified in sub-paragraph (3);
- (c) where one or more of the same variation to the terms of one or more UK marketing authorisations held by the same holder are submitted at the same time and the variations do not fall within paragraph (a) or (b), a single submission may cover all such variations provided that the licensing authority agrees to such single submission.

(3) The relevant circumstances are—

- (a) one of the variations in the group is an extension of the UK marketing authorisation;
- (b) one of the variations in the group is a major variation of type II, but all other variations in the group are variations which are consequential to this major variation of type II;
- (c) one of the variations in the group is a minor variation of type IB, but all other variations in the group are minor variations which are consequential to this minor variation of type IB;
- (d) all variations in the group relate solely to changes of an administrative nature to the summary of product characteristics, labelling and package leaflet or insert;
- (e) all variations in the group are changes to an Active Substance Master File, Vaccine Antigen Master File or Plasma Master File;
- (f) all variations in the group relate to a project intended to improve the manufacturing process and the quality of the medicinal product concerned or one or more of its active substances;
- (g) all variations in the group are changes affecting the quality of a human pandemic influenza vaccine;
- (h) all variations in the group are changes to the pharmacovigilance system referred to in paragraph 12 of Schedule 8;
- (i) all variations in the group are consequential to a given urgent safety restriction and submitted in accordance with paragraph 14;
- (j) all variations in the group relate to the implementation of a given class labelling;

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (k) all variations in the group are consequential to the assessment of a given periodic safety update report;
 - (l) all variations in the group are consequential to a given post-authorisation study conducted under the supervision of the holder;
 - (m) all variations in the group are consequential to a condition imposed under regulation 59(4C) or (4D).
- (4) The submission referred to in sub-paragraph (2)(b) and (c) must be made by means of the following—
- (a) a single notification in accordance with paragraph 7 where at least one of the variations is a minor variation of type IB and the remaining variations are minor variations;
 - (b) a single application in accordance with paragraph 8 where at least one of the variations is a major variation of type II and none of the variations is an extension; or
 - (c) a single application in accordance with paragraph 11 where at least one of the variations is an extension.

Notification procedure for minor variations of type IA

6.—(1) Subject to sub-paragraph (2), where a minor variation of type IA is made, the holder must submit to the licensing authority a notification containing the elements listed in paragraph 9 within 12 months, beginning with the date on which the variation is implemented by the holder.

(2) The notification referred to in sub-paragraph (1) must be submitted immediately after the implementation of the variation in the case of minor variations requiring immediate notification for the continuous supervision of the medicinal product concerned.

(3) Within 30 days beginning with the date on which the licensing authority receives a notification under this paragraph, the measures provided for in paragraph 10 are to be taken.

Notification procedure for minor variations of type IB

7.—(1) The holder must for minor variations of type IB submit to the licensing authority a notification containing the elements listed in paragraph 9, and if the notification contains those elements, the licensing authority must acknowledge receipt of a valid notification.

(2) If within 30 days beginning with the date on which the licensing authority acknowledges receipt of a valid notification, the licensing authority has not sent the holder an unfavourable opinion, the notification is deemed to be accepted by the licensing authority.

(3) Where the notification is accepted by the licensing authority, the measures provided for in paragraph 10 are to be taken.

(4) Where the licensing authority is of the opinion that the notification cannot be accepted, it must inform the holder, stating the grounds on which its unfavourable opinion is based.

(5) Within 30 days beginning with the date on which the holder receives the unfavourable opinion, the holder may submit to the licensing authority an amended notification in order to take due account of the grounds laid down in that opinion.

(6) If the holder does not amend the notification in accordance with sub-paragraph (5), the notification is deemed to be rejected.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(7) Where an amended notification has been submitted, the licensing authority must assess it within 30 days beginning with the date on which it receives the amended notification, and the measures provided for in paragraph 10 are to be taken.

(8) This paragraph does not apply where—

- (a) a type IB variation request is submitted in a grouping that includes a variation type II and does not contain an extension: in such a case, the prior approval procedure in paragraph 8 applies; or
- (b) a type IB variation request is submitted in a grouping that includes an extension: in such a case, the procedure in paragraph 11 applies.

Prior approval procedure for major variations of type II

8.—(1) The holder must submit to the licensing authority an application containing the elements listed in paragraph 9, and if the application contains those elements, the licensing authority must acknowledge receipt of a valid application.

(2) Subject to sub-paragraph (3), within 60 days beginning with the date on which the licensing authority acknowledges receipt of a valid application under sub-paragraph (1), the licensing authority must conclude the assessment.

(3) The licensing authority may—

- (a) reduce the period referred to in sub-paragraph (2), having regard to the urgency of the matter; or
- (b) extend it to 90 days for—
 - (i) variations concerning a change to, or addition of, therapeutic indications, or
 - (ii) grouping of variations in accordance with paragraph 5(2)(c).

(4) Within the periods referred to in sub-paragraph (2) or (3), the licensing authority may request the holder to provide supplementary information within a time limit that it specifies, in which case—

- (a) the procedure is suspended from the date on which such a request is made until the date on which that supplementary information has been provided; and
- (b) the licensing authority may extend the period referred to in sub-paragraph (2) by the period for which the procedure is so suspended.

(5) Within 30 days beginning with the date on which the licensing authority concludes its assessment of the application, the measures provided for in paragraph 10 are to be taken.

(6) This paragraph does not apply where a type II variation request is submitted in a grouping that includes an extension: in such case, the procedure in paragraph 11 applies.

Elements to be submitted

9. An application or notification under this Schedule must include—

- (a) a list of all the UK marketing authorisations affected by the notification or application;
- (b) a description of all the variations submitted, including—
 - (i) in the case of minor variations of type IA, the date of implementation for each variation described,
 - (ii) in the case of minor variations of type IA which do not require immediate notification, a description of all minor variations of type IA made in the last 12 months to the terms of any affected UK marketing authorisation, such

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- period beginning with the day on which the application or notification is submitted, and which have not been already notified,
- (iii) any documents specified in guidance published under regulation 65C(4) or (6) (as the case may be), insofar as relevant to the type of variation notified or applied for,
- (iv) where a variation leads to or is the consequence of other variations to the terms of the same UK marketing authorisation, a description of the relationship between those variations, and
- (v) the relevant fee provided for in the Fees Regulations.

Measures to close the procedures specified in paragraphs 6 to 8

10. Where reference is made to this paragraph, the licensing authority must take the following measures—

- (a) inform the holder as to whether the variation is accepted or rejected;
- (b) where the variation is rejected, inform the holder of the grounds for the rejection; and
- (c) where necessary, amend the decision granting the UK marketing authorisation in accordance with the accepted variation within the time limit laid down in paragraph 15.

Extensions of marketing authorisations

11.—(1) An application for an extension of a UK marketing authorisation must be assessed by the licensing authority in accordance with the same or equivalent procedure that applied under Part 5 to the initial UK marketing authorisation to which it relates.

(2) An extension must either be granted a UK marketing authorisation in accordance with the same or equivalent procedure as for the granting of the initial UK marketing authorisation to which it relates, or be included in that initial UK marketing authorisation.

Human influenza vaccines

12.—(1) By way of exception from paragraph 8, the procedure laid down in sub-paragraphs (2) to (4) applies to the examination of variations concerning changes to the active substance for the purposes of the annual update of a human influenza vaccine.

(2) The holder must submit to the licensing authority an application containing the elements listed in paragraph 9, and if it does so, the licensing authority must acknowledge receipt of a valid application.

(3) The licensing authority must assess the application submitted, and where it deems it necessary, the licensing authority may request additional data from the holder in order to complete its assessment.

(4) The licensing authority must—

- (a) adopt a decision within 45 days, beginning with the date on which it receives a valid application; and
- (b) take the measures provided for in paragraph 10.

(5) The 45-day period referred to in sub-paragraph (4) is to be suspended from the date on which the additional data referred to in sub-paragraph (3) is requested until the date on which that data is received by the licensing authority.

*Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)*

Pandemic situation with respect to human influenza

13.—(1) By way of exception to the provisions of this Schedule, where a pandemic situation with respect to human influenza is duly recognised by the World Health Organisation, or the licensing authority, the licensing authority may exceptionally and temporarily accept a variation to the terms of a UK marketing authorisation for a human influenza vaccine, where certain non-clinical or clinical data are missing.

(2) Where a variation is accepted pursuant to sub-paragraph (1), the holder must submit the missing non-clinical and clinical data within a time limit set by the licensing authority.

Urgent safety restrictions

14.—(1) Where, in the event of a risk to public health, the holder takes urgent safety restrictions on its own initiative, it must forthwith notify the licensing authority.

(2) If the licensing authority has not raised objections within 24 hours following receipt of that information, the urgent safety restrictions are deemed to be accepted.

(3) In the event of a risk to public health in relation to a medicinal product, the licensing authority may impose urgent safety restrictions on the holder of the UK marketing authorisation in respect of that product.

(4) Where an urgent safety restriction is taken by the holder, or imposed by the licensing authority, the holder must submit the corresponding application for variation within 15 days beginning with the date on which that restriction is initiated.

Amendments to the decision granting the marketing authorisation

15.—(1) Amendments to the decision granting the UK marketing authorisation resulting from the procedures laid down in this Schedule must be made by the licensing authority—

- (a) in the case of major variations of type II, within two months, beginning with the date on which the information referred to in paragraph 10(a) is sent to the holder; or
- (b) in the other cases, within six months, beginning with the date on which the information referred to in paragraph 10(a) is sent to the holder,

and the licensing authority must notify the holder of the amended decision without delay.

(2) The statement indicating compliance with the agreed completed paediatric investigation plan provided for under regulation 58A(2)(a) must be included within the technical dossier of the UK marketing authorisation, and the licensing authority must confirm to the holder that it is so included when it notifies the holder under paragraph 10(a).

Implementation of variations

16.—(1) Minor variations of type IA may be implemented any time before completion of the procedures laid down in paragraph 6.

(2) Where a notification concerning one or several minor variations of type IA is rejected, the holder must cease to apply the rejected variation immediately after receipt of the information referred to in paragraph 10(a).

(3) Minor variations of type IB may only be implemented after the licensing authority has informed the holder that it has accepted the notification pursuant to paragraph 7, or after the notification is deemed accepted pursuant to paragraph 7(2).

(4) Major variations of type II may only be implemented after the licensing authority has informed the holder that it has accepted the variation pursuant to paragraph 10.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(5) An extension may only be implemented after the licensing authority has amended the decision granting the marketing authorisation and notified the holder accordingly.

(6) Urgent safety restrictions, and variations which are related to safety issues, must be implemented within a time frame agreed by the holder and the licensing authority.

Continuous monitoring

17. Where requested to do so by the licensing authority, the holder must supply to the licensing authority without delay any information related to the implementation of a given variation.”.

Commencement Information

I262 Sch. 5 para. 1 in force at 31.12.2020 on IP completion day (in accordance with 2020 c. 1, Sch. 5 para. 1(1)), see reg. 1

SCHEDULE 6

Regulation 168

Insertion of new Schedule 12A (further provision as to the performance of pharmacovigilance activities)

1. After Schedule 12 insert—

“SCHEDULE 12A

Regulation 205A

Further provision as to the performance of pharmacovigilance activities

PART 1

Pharmacovigilance system master file

Structure of the pharmacovigilance system master file

1.—(1) The information in the pharmacovigilance system master file must be accurate and reflect the pharmacovigilance system in place.

(2) The holder may, where appropriate, use separate pharmacovigilance systems for different categories of medicinal products and if it does so, each such system must be described in a separate pharmacovigilance system master file.

(3) All medicinal products for which the holder obtained a [F505UKMA(GB)] in accordance with these Regulations must be covered by a pharmacovigilance system master file.

Content of the pharmacovigilance system master file

2. The pharmacovigilance system master file must, as a minimum, contain—

(a) the following information relating to the qualified person responsible for pharmacovigilance—

Status: This version of this Instrument contains provisions that are prospective.

Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (i) a description of the responsibilities demonstrating that the qualified person for pharmacovigilance has sufficient authority over the pharmacovigilance system in order to promote, maintain and improve compliance with pharmacovigilance tasks and responsibilities,
 - (ii) a summary curriculum vitae of the qualified person responsible for pharmacovigilance,
 - (iii) contact details of the qualified person for pharmacovigilance, ^{F506}...
 - (iv) details of back-up arrangements to apply in the absence of the qualified person responsible for [^{F507}pharmacovigilance, and]
 - [^{F508}(v) responsibilities and contact details of the nominated person (where a person is nominated under regulation 182(2A));]
- (b) a description of the organisational structure of the holder, including the list of each site where one or more of the following pharmacovigilance activities are undertaken—
 - (i) individual case safety report collection and evaluation,
 - (ii) safety database case entry,
 - (iii) periodic safety update report production,
 - (iv) signal detection and analysis,
 - (v) risk management plan management,
 - (vi) pre and post-authorisation study management, and
 - (vii) management of safety variations to the terms of a UK marketing authorisation;
- (c) a description of the location of, functionality of and operational responsibility for computerised systems and databases used to receive, collate, record and report safety information, and an assessment of their fitness for purpose;
- (d) a description of data [^{F509}handling] and recording and of the process used for each of the following pharmacovigilance activities—
 - (i) the continuous monitoring of the risk-benefit balance of each medicinal product, the result of that monitoring and the decision-making process for taking appropriate measures,
 - (ii) operation of each risk management system and of the monitoring of the outcome of risk minimisation measures,
 - (iii) collection, assessment and reporting of individual case safety reports,
 - (iv) drafting and submission of periodic safety update reports, and
 - (v) procedures for communicating safety concerns and safety variations to the summary of product characteristics and package leaflet to healthcare professionals and the general public;
- (e) a description of the quality system for the performance of pharmacovigilance activities, including—
 - (i) a description of—
 - (aa) the organisational structure for the performance of pharmacovigilance activities,

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (bb) a summary description of the training concept, including a reference to the location of training files and qualifications records, and
- (cc) instructions on critical processes,
- (ii) a description of the record management system referred to in paragraph 12, including the location of the documents used for pharmacovigilance activities,
- (iii) a description of the system for monitoring the performance of the pharmacovigilance system; and
- (f) where applicable, a description of the activities or services subcontracted by the holder.

Content of the Annex to the pharmacovigilance system master file

3. The pharmacovigilance system master file must have an Annex containing the following documents—

- (a) a list of medicinal products covered by the pharmacovigilance system master file, including the name of each medicinal product, the international non-proprietary name (INN) of each active substance and the countries other than the United Kingdom in which the products covered are authorised to be marketed;
- (b) a list of written policies and procedures for the purpose of complying with Part 11 of these Regulations;
- (c) the list of any sub-contracts falling within paragraph 6(1);
- (d) a list of the tasks that have been delegated by the qualified person for pharmacovigilance;
- (e) a list of all scheduled and completed audits;
- (f) where applicable, a list of the performance indicators that support the quality system for pharmacovigilance specified in paragraph 2(e);
- (g) where applicable, a list of other pharmacovigilance system master files held by the same holder; and
- (h) a logbook containing a record of any alteration of the content of the pharmacovigilance system master file made within the preceding 5 year period, except any alteration of the content that is specified in of paragraph 2(a)(ii) to (iv) or this paragraph.

Maintenance of the pharmacovigilance system master file

4.—(1) The holder must keep the pharmacovigilance system master file up to date and, where necessary, revise it to take account of experience gained, and of technical and scientific progress.

(2) The pharmacovigilance system master file and its Annex must be subject to version control and, in particular, must indicate the date when it was last updated by the holder.

(3) Any deviations from the pharmacovigilance procedures, their impact and their management must be documented in the pharmacovigilance system master file until resolved.

^{F510}(4)

Form of the documents contained in the pharmacovigilance system master file

5.—(1) The pharmacovigilance system master file documents must be complete and legible.

(2) Subject to sub-paragraph (1), in the pharmacovigilance system master file—

- (a) where appropriate, information may be provided in the form of charts or flow diagrams;
- (b) all documents must be indexed and archived so as to ensure their accurate and ready retrieval throughout the period for record-keeping; and
- (c) the particulars and documents may be presented in modules in accordance with the system delineated in detail in the guidance on good pharmacovigilance practices which applies by virtue of regulation 205B.

(3) The pharmacovigilance system master file may be stored in electronic form provided that the media used for storage remain readable over time, and a clearly arranged printed copy can be made available for audits and inspections.

Subcontracting

6.—(1) The holder may subcontract certain activities of the pharmacovigilance system to third parties, but if it does so it must nevertheless retain full responsibility for the completeness and accuracy of the pharmacovigilance system master file.

(2) The holder must draw up a list of the existing subcontracts between it and the third parties referred to in sub-paragraph (1), specifying each product and each country concerned.

Availability and location of the pharmacovigilance system master file

7.—^{F511}(1)

(2) The holder must ensure that the qualified person [^{F512}and nominated person (where a person is nominated under regulation 182(2A))] for pharmacovigilance [^{F513}have] permanent access to the pharmacovigilance system master file.

(3) For the purposes of regulation 182(2)(b), the licensing authority may limit its request to specific parts or modules of the pharmacovigilance system master file and the holder is to bear the costs of submitting the copy of the pharmacovigilance system master file.

(4) The licensing authority may request the holder to submit a copy of the logbook referred to in paragraph 3(h) at regular intervals.

PART 2

Minimum requirements for the quality systems for the performance of pharmacovigilance activities by the licensing authority and holders

Quality system

8.—(1) Any holder, and the licensing authority, must establish and use a quality system that is adequate and effective for the performance of their pharmacovigilance activities.

(2) The quality system must cover organisational structure, responsibilities, procedures, processes and resources, appropriate resource management, compliance management and record management.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (3) The quality system must be based on all of the following activities—
- (a) quality planning: establishing structures and planning integrated and consistent processes;
 - (b) quality adherence, namely carrying out tasks and responsibilities in accordance with quality requirements;
 - (c) quality control and assurance, namely monitoring and evaluating how effectively the structures and processes have been established and how effectively the processes are being carried out; and
 - (d) quality improvements, namely correcting and improving the structures and processes where necessary.
- (4) All elements, requirements and provisions adopted for the quality system must be documented in a systematic and orderly manner in the form of written policies and procedures, such as quality plans, quality manuals and quality records.
- (5) All persons involved in the procedures and processes of the quality systems established by the licensing authority for the performance of pharmacovigilance activities shall be responsible for the good functioning of those quality systems, and must ensure a systematic approach towards quality and towards the implementation and maintenance of the quality system.

Performance indicators

- 9.—(1) The holder and the licensing authority may use performance indicators to continuously monitor the good performance of pharmacovigilance activities.
- (2) The licensing authority may publish a list of performance indicators.

PART 3

Minimum requirements for the quality systems for the performance of pharmacovigilance activities by holders

Management of human resources

- 10.—(1) The holder must have sufficient competent and appropriately qualified and trained personnel available for the performance of pharmacovigilance activities.
- (2) For the purposes of sub-paragraph (1), the holder must—
- (a) ensure that the qualified person responsible for pharmacovigilance has acquired adequate theoretical and practical knowledge for the performance of pharmacovigilance activities; and
 - (b) where the qualified person has not completed basic medical training in accordance with Article 24 of Directive [2005/36/EC](#) of the European Parliament and of the Council of 7 September 2005 on the recognition of professional qualifications, ensure that the qualified person responsible for pharmacovigilance is assisted by a medically trained person, with such assistance being duly documented.
- (3) The duties of the managerial and supervisory staff, including the qualified person responsible for pharmacovigilance, must be defined in job descriptions and their hierarchical relationships must be defined in an organisational chart.

Status: This version of this Instrument contains provisions that are prospective.

Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(4) The holder must ensure that the qualified person responsible for pharmacovigilance has sufficient authority to influence the performance of the quality system and the pharmacovigilance activities of the holder.

(5) All personnel involved in the performance of pharmacovigilance activities must receive initial and continued training in relation to their role and responsibilities, and the holder must keep training plans and records for documenting, maintaining and developing the competences of personnel and make them available for audit or inspection.

(6) The holder must provide appropriate instructions on the processes to be used in case of urgency, including business continuity.

Compliance management

11.—(1) Specific quality system procedures and processes must be in place in order to ensure the following—

- (a) the continuous monitoring of pharmacovigilance data, the examination of options for risk minimisation and prevention and that appropriate measures are taken by the holder;
- (b) the scientific evaluation by the holder of all information on the risks of medicinal products, as referred to in regulation 182(4)(a);
- (c) the submission of accurate and verifiable data on serious and non-serious adverse reactions to the licensing authority within the time limits provided for in regulation 188(1)(a) or (b);
- (d) the quality, integrity and completeness of the information submitted on the risks of medicinal products, including processes to avoid duplicate submissions;
- (e) effective communication by the holder with the licensing authority, including communication on—
 - (i) new risks or changed risks,
 - (ii) the pharmacovigilance system master file,
 - (iii) risk management systems,
 - (iv) risk minimisation measures,
 - (v) periodic safety update reports,
 - (vi) corrective and preventive actions, and
 - (vii) post-authorisation studies;
- (f) the update of product information by the holder in the light of scientific knowledge, including the assessments and recommendations made public via the UK web-portal, and on the basis of a continuous monitoring by the holder of information published on that web-portal; and
- (g) appropriate communication by the holder of relevant safety information to healthcare professionals and patients.

(2) Where a holder has subcontracted some of its pharmacovigilance tasks, it must retain responsibility for ensuring that an effective quality system is applied in relation to those tasks.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

Record management and data retention

12.—(1) A holder must record all pharmacovigilance information and ensure that it is handled and stored so as to allow for accurate reporting, interpretation and verification of that information.

(2) A holder must put in place a record management system for all documents used for pharmacovigilance activities that ensures—

- (a) the retrievability of those documents; and
- (b) the traceability of the measures taken to investigate safety concerns, of the timelines for those investigations and of decisions on safety concerns, including their date and the decision-making process.

(3) A holder must establish mechanisms enabling the traceability and follow-up of adverse reaction reports.

(4) A holder must arrange for the elements referred to in sub-paragraph (2) to be kept for at least five years, beginning with the day after the system as described in the pharmacovigilance system master file has been formally terminated by the holder.

(5) Pharmacovigilance data and documents relating to individual authorised medicinal products must be retained as long as the product is authorised and for at least 10 years, beginning with the date on which the [F505UKMA(GB)] ceased to exist.

Audit

13.—(1) Risk-based audits of the quality system must be performed at regular intervals to ensure that the quality system complies with the quality system requirements set out in paragraphs 8, 10, 11 and 12, and to determine its effectiveness.

(2) The audits referred to in sub-paragraph (1) must be conducted by individuals who have no direct involvement in or responsibility for the matters or processes being audited.

(3) Following a risk-based audit—

- (a) any corrective action, including a follow-up audit of deficiencies, must be taken where necessary;
- (b) a report on the results of the audit must be drawn up for each audit and follow-up audit;
- (c) the audit report must be sent to the management responsible for the matters audited; and
- (d) the dates and results of audits and follow-up audits must be documented in accordance with regulation 184(1)(b).

PART 4

Minimum requirements for the quality systems for the performance of pharmacovigilance activities by the licensing authority

Management of human resources

14.—(1) The licensing authority must have sufficient competent and appropriately qualified and trained personnel available for the performance of pharmacovigilance activities: the organisational structures and the distribution of tasks and responsibilities must be clear and, to the extent necessary, accessible.

Status: This version of this Instrument contains provisions that are prospective.

Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(2) Named contact points in the licensing authority for pharmacovigilance activities must be established.

(3) The licensing authority must ensure that—

- (a) all of its personnel involved in the performance of pharmacovigilance activities receive initial and continued training;
- (b) it keeps training plans and records for documenting, maintaining and developing the competences of personnel; and
- (c) such plans and records are available for audit.

(4) The licensing authority must ensure that it provides to its personnel performing pharmacovigilance activities appropriate instructions on the processes to be used in case of urgency, including business continuity.

Compliance management

15. The licensing authority must establish specific procedures and processes in order to achieve the following objectives—

- (a) ensuring the evaluation of the quality, including completeness, of pharmacovigilance data submitted;
- (b) ensuring the assessment of pharmacovigilance data and its processing within the timelines provided for in Part 11 of these Regulations;
- (c) ensuring independence in the performance of pharmacovigilance activities;
- (d) ensuring effective communication among regulatory bodies in countries other than the United Kingdom who have the same or similar functions as the licensing authority, as well as with patients, healthcare professionals, marketing authorisation holders and the general public; and
- (e) conducting inspections, including pre-authorisation inspections.

Record management and data retention

16.—(1) The licensing authority must—

- (a) record all pharmacovigilance information, and ensure that it is handled and stored so as to allow for accurate reporting, interpretation and verification of that information; and
- (b) put in place a record management system for all documents used for pharmacovigilance activities that ensures—
 - (i) the retrievability of those documents, and
 - (ii) the traceability of the measures taken to investigate safety concerns, of the timelines for those investigations and of decisions on safety concerns, including their date and the decision-making process.

(2) The licensing authority must arrange for the essential documents describing their pharmacovigilance system to be kept for at least five years, such period beginning with the day after the system has been formally terminated.

(3) Pharmacovigilance data and documents relating to individual authorised medicinal products must be retained by the licensing authority for as long as the product is authorised and for at least 10 years, such period beginning with the day after the [F505UKMA(GB)] has expired.

*Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)*

Audit

17.—(1) Risk-based audits of the quality system must be performed by the licensing authority at regular intervals to ensure that the quality system complies with the requirements set out in paragraphs 8, 14, 15 and 16, and to ensure its effectiveness.

(2) Following a risk-based audit—

- (a) any corrective action, including a follow-up audit of deficiencies, must be taken where necessary;
- (b) a report on the results of the audit must be drawn up for each audit and follow-up audit;
- (c) the audit report must be sent to the management responsible for the matters audited; and
- (d) the dates and results of audits and follow-up audits must be documented.

PART 5

Use of terminology, formats and standards

Use of internationally agreed terminology, formats and standards

18. The licensing authority may publish a list of which of the internationally agreed—

- (a) terminology; and
- (b) formats and standards,

are to be used for the description, classification, retrieval, presentation, risk-benefit evaluation and assessment, electronic exchange and communication of pharmacovigilance and medicinal product information.

PART 6

Transmission of reports of suspected adverse reactions

Individual case safety reports

19. Individual case safety reports must be used for reporting to the licensing authority suspected adverse reactions to a medicinal product that occur in a single patient at a specific point in time.

Content of the individual case safety report

20.—(1) Holders must—

- (a) ensure that individual case safety reports are as complete as possible; and
- (b) communicate the updates of those reports to the licensing authority in an accurate and reliable manner.

(2) In the case of expedited reporting, the individual case safety report must include at least an identifiable reporter, an identifiable patient, one suspected adverse reaction and any medicinal product concerned.

Status: This version of this Instrument contains provisions that are prospective.

Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(3) Holders and the licensing authority must record the details necessary for obtaining follow-up information on individual case safety reports and such reports must be adequately documented.

(4) When reporting suspected adverse reactions, holders must provide all available information on each individual case, including—

- (a) administrative information, namely—
 - (i) report type, date and a worldwide unique case identification number as well as unique sender identification and sender type,
 - (ii) the date on which the report was first received from the source and the date of receipt of the most recent information, using a precise date, and
 - (iii) other case identifiers and their sources, as well as references to additional available documents held by the sender of the individual case safety report, where applicable;
- (b) literature reference in accordance with the ‘Vancouver style’ as developed by the International Committee of Medical Journal Editors ^{M110} for adverse reactions reported in the worldwide literature, including a comprehensive English summary of the article;
- (c) study type, study name and the sponsor's study number or study registration number for reports from studies not covered by the Clinical Trials Regulations;
- (d) information on any primary source, namely information identifying the reporter, including country of residence and professional qualifications;
- (e) information identifying the patient (and parent in the case of a parent-child report), including age at the time of the onset of the first reaction, age group, gestation period when reaction or event was observed in the foetus, weight, height or gender, last menstrual date and, where relevant, gestation period at time of exposure;
- (f) relevant medical history and concurrent conditions;
- (g) the name of any medicinal product suspected to be related to the occurrence of the adverse reaction, including interacting medicinal products or, where the name is not known, any active substance and any other characteristics that allow for the identification of a medicinal product, including—
 - (i) the name of the holder, UK marketing authorisation number, pharmaceutical form and each (parent) route of administration,
 - (ii) any indication for use in the case, dose administered, start date and end date of administration,
 - (iii) actions taken with any medicinal product, and
 - (iv) effect of the dechallenge and rechallenge for suspect medicinal products;
- (h) for a biological medicinal product, the batch number;
- (i) concomitant medicinal products, identified in accordance with paragraph (g), which are not suspected to be related to the occurrence of the adverse reaction and past-medical drug therapy for the patient (and for the parent), where applicable;
- (j) information on any suspected adverse reaction, including—
 - (i) start date and end date of any suspected adverse reaction or duration,
 - (ii) seriousness,
 - (iii) outcome of any suspected adverse reaction at the time of last observation,

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (iv) time intervals between suspect medicinal product administration and start of any adverse reaction,
 - (v) the original reporter's words or short phrases used to describe any reaction, and
 - (vi) country of occurrence of the suspected adverse reaction;
 - (k) results of tests and procedures relevant to the investigation of the patient;
 - (l) in the event of death of the patient, date and reported cause of death, including autopsy-determined causes;
 - (m) a case narrative, where possible, providing all relevant information for individual cases with the exception of non-serious adverse reactions; and
 - (n) reasons for nullifying or amending an individual case safety report.
- (5) For the purposes of—
- (a) sub-paragraph (4)(b), upon request of the licensing authority, the holder that transmitted the initial report must provide a copy of the relevant article taking into account copyright restrictions, and a full translation of that article into English;
 - (b) sub-paragraph (4)(h), a follow-up procedure must be in place to obtain the batch number where it is not indicated in the initial report;
 - (c) sub-paragraph (4)(m), the information must be presented in a logical time sequence, in the chronology of the patient's experience including clinical course, therapeutic measures, outcome and follow-up information obtained: any relevant autopsy or post-mortem findings must also be summarised in the narrative.
- (6) Suspected adverse reactions must be reported in English.

Format of electronic transmission of suspected adverse reactions

21. Holders must use the formats and terminology specified in the list published under paragraph 18 for the electronic transmission of suspected adverse reactions, if the licensing authority has published a list under that paragraph.

PART 7

Risk management plans

Content of the risk management plan

22.—(1) The risk management plan established by the holder must contain the following elements—

- (a) an identification or characterisation of the safety profile of the medicinal product concerned;
- (b) an indication of how to characterise further the safety profile of the medicinal product(s) concerned;
- (c) a documentation of measures to prevent or minimise the risks associated with the medicinal product, including an assessment of the effectiveness of those measures; and
- (d) a documentation of post-authorisation obligations that have been imposed as a condition of the [^{F505}UKMA(GB)].

Status: This version of this Instrument contains provisions that are prospective.

Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(2) Medicinal products may, where appropriate be subject to the same risk management plan if they—

- (a) contain the same active substance; and
- (b) belong to the same holder.

(3) Where a risk management plan refers to post-authorisation studies—

- (a) it must indicate whether those studies are initiated, managed or financed by the holder voluntarily, or pursuant to obligations imposed by the licensing authority or an equivalent authority to the licensing authority in another country; and
- (b) all post-authorisation obligations must be listed in the summary of the risk management plan referred to in paragraph 23, together with a timeframe for meeting those obligations.

Summary of the risk management plan

23.—(1) The summary of the risk management plan to be made publicly available in accordance with regulation 203(2)(d) (obligations on licensing authority in relation to national medicines web-portal) must include key elements of the risk management plan with a specific focus on risk minimisation activities and, with regard to the safety specification of the medicinal product concerned, important information on potential and identified risks as well as missing information.

(2) Where a risk management plan concerns more than one medicinal product, a separate summary of the risk management plan must be provided by holders for each medicinal product.

Updates of the risk management plan

24.—(1) Subject to sub-paragraph (2), where the holder updates a risk management plan, it must submit the updated risk management plan to the licensing authority.

(2) If the licensing authority agrees, the holder may submit only the modules concerned by the update.

(3) If necessary, the holder must provide the licensing authority with an updated summary of the risk management plan.

(4) Each submission of the risk management plan must—

- (a) have a distinct version number; and
- (b) be dated.

Format of the risk management plan

25. The risk management plan must be in the following format—

- (a) Part I: product overview;
- (b) Part II: safety specification consisting of—
 - (i) Module SI: epidemiology of each indication and each target population,
 - (ii) Module SII: non-clinical part of the safety specification,
 - (iii) Module SIII: clinical trial exposure,
 - (iv) Module SIV: populations not studied in clinical trials,
 - (v) Module SV: post-authorisation experience,
 - (vi) Module SVI: additional EU requirements for the safety specification,

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (vii) Module SVII: identified and potential risks, and
- (viii) Module SVIII: summary of the safety concerns;
- (c) Part III: pharmacovigilance plan, including post-authorisation safety studies;
- (d) Part IV: plans for post-authorisation efficacy studies;
- (e) Part V: risk minimisation measures, including evaluation of the effectiveness of risk minimisation activities;
- (f) Part VI: summary of the risk management plan; and
- (g) Part VII: annexes.

PART 8

Periodic safety update reports

Content of periodic safety update reports

- 26.—**(1) The periodic safety update report (“PSUR”) must—
- (a) be based on all available data; and
 - (b) focus on new information which has emerged since the data lock point of the last PSUR.
- (2) The PSUR must provide an accurate estimate of the population exposed to the medicinal product, including all data relating to the volume of sales and volume of prescriptions.
- (3) The estimate of exposure referred to in sub-paragraph (2) must be accompanied by a qualitative and quantitative analysis of actual use, which must indicate, where appropriate, how actual use differs from the indicated use based on all data available to the holder, including the results of observational or drug utilisation studies.
- (4) The PSUR must contain the results of assessments of the effectiveness of risk minimisation activities relevant to the risk–benefit assessment.
- (5) Where any conditions are imposed under regulation 59(4A) (conditions in relation to UK marketing authorisations to which paediatric specific provisions apply) or 59(4D) (conditions in relation to UK marketing authorisations for advanced therapy medicinal products), the PSUR must also include an assessment of the effectiveness of any risk management system, and the results of any studies performed, in order to comply with those conditions.
- (6) Subject to sub-paragraph (7), holders are not required to include systematically detailed listings of individual cases, including case narratives, in the PSUR.
- (7) Holders must provide case narratives in the relevant risk evaluation section of the PSUR where integral to the scientific analysis of a signal or safety concern in the relevant risk evaluation section.
- (8) Based on the evaluation of the cumulative safety data and the risk-benefit analysis, the holder must draw conclusions in the PSUR as to the need for changes or actions, including implications for the approved summary of product characteristics for each product for which the PSUR is submitted.
- (9) Unless otherwise agreed with the licensing authority, a single PSUR must be prepared for all medicinal products which—
- (a) contain the same active substance; and

Status: This version of this Instrument contains provisions that are prospective.

Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (b) are authorised for the same holder,
- and sub-paragraph (10) applies to that single PSUR.
- (10) Where this sub-paragraph applies—
 - (a) the PSUR must cover all indications, routes of administration, dosage forms and dosing regimens, irrespective of whether authorised under different names and through separate procedures; and
 - (b) where relevant, data relating to a particular indication, dosage form, route of administration or dosing regimen must be presented in a separate section of the PSUR, with any safety concerns addressed accordingly.
 - (11) Unless otherwise agreed with the licensing authority, if the substance that is the subject of the PSUR is also authorised as a component of a fixed combination medicinal product, the holder must either—
 - (a) submit a separate PSUR for the combination of active substances authorised for the same holder, with cross-references to each relevant single-substance PSUR; or
 - (b) provide the combination data within one of the single-substance PSURs.

Format of periodic safety update reports

- 27.—^[F514] (1) Electronic PSURs must be submitted in the following format—
- (a) Part I: title page including signature;
 - (b) Part II: executive summary; and
 - (c) Part III: table of contents which contains—
 - (i) introduction,
 - (ii) worldwide marketing authorisation status,
 - (iii) actions taken in the reporting interval for safety reasons,
 - (iv) changes to reference safety information,
 - (v) estimated exposure and use patterns—
 - (aa) cumulative subject exposure in clinical trials,
 - (bb) cumulative and interval patient exposure from marketing experience,
 - (vi) data in summary tabulations—
 - (aa) reference information,
 - (bb) cumulative summary tabulations of serious adverse events in clinical trials,
 - (cc) cumulative and interval summary tabulations from post-marketing data sources,
 - (vii) summaries of significant findings from clinical trials during the reporting interval—
 - (aa) completed clinical trials,
 - (bb) ongoing clinical trials,
 - (cc) long-term follow-up,
 - (dd) other therapeutic use of medicinal product,
 - (ee) new safety data related to fixed combination therapies,
 - (viii) findings from non-interventional studies,

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (ix) information from other clinical trials and sources,
- (x) non-clinical data,
- (xi) literature,
- (xii) other periodic reports,
- (xiii) lack of efficacy in controlled clinical trials,
- (xiv) late-breaking information,
- (xv) overview on signals: new, ongoing or closed,
- (xvi) signal and risk evaluation—
 - (aa) summaries of safety concerns,
 - (bb) signal evaluation,
 - (cc) evaluation of risks and new information,
 - (dd) characterisation of risks, and
 - (ee) effectiveness of risk minimisation (if applicable),
- (xvii) benefit evaluation—
 - (aa) important baseline efficacy and effectiveness information,
 - (bb) newly identified information on efficacy and effectiveness, and
 - (cc) characterisation of benefits,
- (xviii) integrated benefit-risk analysis for authorised indications—
 - (aa) benefit-risk context: medical need and important alternatives, and
 - (bb) benefit-risk analysis evaluation,
- (xix) conclusions and actions, and
- (xx) appendices to the PSUR.

[^{F515}(2) In this paragraph, “signal evaluation” means the process of further evaluating a validated signal taking into account all available evidence, to determine whether there are new risks causally associated with the active substance or medicinal product, or whether known risks have changed, and that process—

- (a) may include non-clinical and clinical data; and
- (b) must be as comprehensive as possible regarding the sources of information used for that process.]

PART 9

Post-authorisation safety studies

Scope and interpretation

28.—(1) This Part applies to non-interventional post-authorisation safety studies initiated, managed or financed by a holder under obligations imposed under regulation 59 or 61 (conditions of UK marketing authorisation).

(2) In this Part—

“start of data collection” means the date on which information on the first study subject is first recorded in the study dataset or, in the case of the secondary use of data, the date on which the data extraction starts; and

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

“end of data collection” means the date on which the analytical dataset is completely available.

Obligations as to post-authorisation safety studies

29.—(1) The holder must submit in English—

- (a) the study protocol; and
- (b) the abstract of the final study report and the final study report.

(2) The holder must ensure that—

- (a) all study information is handled and stored so as to allow for accurate reporting, interpretation and verification of that information;
- (b) the confidentiality of the records of the study subjects remains protected; and
- (c) the analytical dataset and statistical programmes used for generating the data included in the final study report are kept in electronic format and are available for auditing and inspection.

(3) The licensing authority may publish appropriate templates for the protocol, abstract and final study report.

Format of the study protocol

30. The study protocol for a non-interventional post-authorisation safety studies must be submitted in the following format—

- (a) title: informative title including a commonly used term indicating the study design and the medicinal product, substance or drug class concerned, and a sub-title with a version identifier and the date of the last version;
- (b) name of holder;
- (c) responsible parties including a list of all collaborating institutions and other relevant study sites.
- (d) abstract, which must consist of a stand-alone summary of the study protocol, including the following subsections—
 - (i) title with subtitles including version and date of the protocol and name and affiliation of the main author,
 - (ii) rationale and background,
 - (iii) research question and objectives,
 - (iv) study design,
 - (v) population,
 - (vi) variables,
 - (vii) data sources,
 - (viii) study size,
 - (ix) data analysis, and
 - (x) milestones;
- (e) amendments and updates, namely any substantial amendment and update to the study protocol after the start of data collection, including a justification for the amendment or update, the date of the change, and a reference to the section of the protocol where the change has been made.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (f) milestones, namely a table with planned dates for the following milestones—
 - (i) start of data collection,
 - (ii) end of data collection,
 - (iii) any study progress report as referred to in regulation 198(2),
 - (iv) any interim report of study results, if applicable, and
 - (v) final report of study results;
- (g) rationale and background, namely a description of any safety hazard, the safety profile or the risk management measures that led to the study being imposed as an obligation for a [F505UKMA(GB)];
- (h) research question and objectives in accordance with the decision of the licensing authority in imposing the study as an obligation;
- (i) research methods, namely a description of the research methods, including—
 - (i) study design,
 - (ii) setting, namely the study population defined in terms of persons, place, time period, and selection criteria, including the rationale for any inclusion and exclusion criteria: where any sampling from a source population is undertaken, a description of the source population and details of sampling methods must be provided and where the study design is a systematic review or a meta-analysis, the criteria for the selection and eligibility of studies must be explained,
 - (iii) variables,
 - (iv) data sources, namely strategies and data sources for determining exposures, outcomes and all other variables relevant to the study objectives: where the study will use an existing data source, such as electronic health records, any information on the validity of the recording and coding of the data must be reported and in the case of a systematic review or meta-analysis, the search strategy and processes and any methods for confirming data from investigators must be described,
 - (v) study size, namely any projected study size, precision sought for study estimates and any calculation of the study size that can minimally detect a pre-specified risk with a pre-specified interpretative power,
 - (vi) data management,
 - (vii) data analysis,
 - (viii) quality control, and
 - (ix) limitations of the research methods;
- (j) protection of human subjects, namely safeguards in order to comply with national requirements for ensuring the well-being and rights of participants in non-interventional post-authorisation safety studies;
- (k) management and reporting of adverse events or adverse reactions and other medically important events while the study is being conducted;
- (l) plans for disseminating and communicating study results; and
- (m) references.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

Format of the abstract of the final study report

31. The abstract of the final study report for a non-interventional post-authorisation safety studies must be submitted in the following format—

- (a) title, with subtitles including date of the abstract and name and affiliation of main author;
- (b) keywords (not more than five keywords indicating the main study characteristics);
- (c) rationale and background;
- (d) research question and objectives;
- (e) study design;
- (f) setting;
- (g) subjects and study size, including dropouts;
- (h) variables and data sources;
- (i) results;
- (j) discussion (including, where relevant, an evaluation of the impact of study results on the risk–benefit balance of the product);
- (k) name of holder; and
- (l) names and affiliations of principal investigators.

Format of the final study report

32. The final study report for a non-interventional post-authorisation safety studies must be submitted in the following format—

- (a) title, including a commonly used term indicating the study design; sub-titles with date of final report and name and affiliation of the main author;
- (b) abstract, namely a stand-alone summary referred to in paragraph 31;
- (c) name and address of the holder;
- (d) investigators, namely the names, titles, degrees, addresses and affiliations of the principal investigator and all co-investigators, and list of all collaborating primary institutions and other relevant study sites;
- (e) milestones, namely the dates for the following milestones—
 - (i) start of data collection (planned and actual dates),
 - (ii) end of data collection (planned and actual dates),
 - (iii) study progress reports,
 - (iv) interim reports of study results, where applicable,
 - (v) final report of study results (planned and actual date), and
 - (vi) any other important milestone applicable to the study, including date of study registration in the electronic study register
- (f) rationale and background, namely a description of the safety concerns that led to the study being initiated, and critical review of relevant published and unpublished data evaluating pertinent information and gaps in knowledge that the study is intended to fill;
- (g) research question and objectives;

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (h) amendments and updates to the protocol, namely a list of any substantial amendments and updates to the initial study protocol after the start of data collection, including a justification for each amendment or update;
- (i) research methods, namely—
 - (i) study design: key elements of the study design and rationale for this choice,
 - (ii) setting: setting, locations, and relevant dates for the study, including periods of recruitment, follow-up, and data collection: in the case of a systematic review or meta-analysis, study characteristics used as criteria for eligibility, with rationale,
 - (iii) subjects: any source population and eligibility criteria for study subjects. Sources and methods for selection of participants shall be provided, including, where relevant, methods for case ascertainment, as well as number of and reasons for dropouts,
 - (iv) variables: all outcomes, exposures, predictors, potential confounders, and effect modifiers, including operational definitions: diagnostic criteria shall be provided, where applicable,
 - (v) data sources and measurement: for each variable of interest, sources of data and details of methods of assessment and measurement; if the study has used an existing data source, such as electronic health records, any information on the validity of the recording and coding of the data must be reported and in the case of a systematic review or meta-analysis, description of all information sources, search strategy, methods for selecting studies, methods of data extraction and any processes for obtaining or confirming data from investigators,
 - (vi) bias,
 - (vii) study size: study size, rationale for any study size calculation and any method for attaining projected study size,
 - (viii) data transformation: transformations, calculations or operations on the data, including how quantitative data were handled in the analyses and which groupings were chosen and why,
 - (ix) statistical methods: description of the following items—
 - (aa) main summary measures,
 - (bb) all statistical methods applied to the study,
 - (cc) any methods used to examine subgroups and interactions,
 - (dd) how missing data were addressed,
 - (ee) any sensitivity analyses, and
 - (ff) any amendment to the plan of data analysis included in the study protocol, with rationale for the change, and
 - (x) quality control: mechanisms to ensure data quality and integrity;
- (j) results: comprising the following subsections—
 - (i) participants, namely numbers of study subjects at each stage of study: in the case of a systematic review or meta-analysis, number of studies screened, assessed for eligibility and included in the review with reasons for exclusion at each stage,
 - (ii) descriptive data: characteristics of study participants, information on exposures and potential confounders and number of participants with

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- missing data. In the case of a systematic review or meta-analysis, characteristics of each study from which data were extracted,
- (iii) outcome data: numbers of study subjects across categories of main outcomes,
 - (iv) main result: unadjusted estimates and, if applicable, confounder-adjusted estimates and their precision and where relevant, estimates of relative risk must be translated into absolute risk for a meaningful time period,
 - (v) other analyses, and
 - (vi) adverse events and adverse reactions;
- (k) discussion which must include—
- (i) key results with reference to the study objectives, prior research in support of and conflicting with the findings of the completed post-authorisation safety study, and, where relevant, the impact of the results on the risk–benefit balance of the product,
 - (ii) limitations of the study taking into account circumstances that may have affected the quality or integrity of the data, limitations of the study approach and methods used to address them, sources of potential bias and imprecision, and validation of the events; both the direction and magnitude of potential biases must be discussed,
 - (iii) interpretation of results, considering objectives, limitations, multiplicity of analyses, results from similar studies and other relevant evidence, and
 - (iv) generalisability; and
- (l) references.”.

SCHEDULE 7

Regulation 228(2)

Insertion of new Schedule 33A (transitional provision)

1. After Schedule 33 insert—

“SCHEDULE 33A

Regulation 347A

Transitional provision in relation to EU Exit

PART 1

Interpretation

1. In this Schedule—

“the COMP” means the Committee for Orphan Medicinal Products of the EMA, established under Article 4 of the Orphan Regulation;

“converted EU marketing authorisation” has the meaning given in paragraph 6(1) and (2);

“the Paediatric Regulation” means Regulation [\(EC\) No 1901/2006](#) of the European Parliament and of the Council of 12 December 2006 on medicinal products for paediatric use and amending Regulation [\(EEC\) No 1768/92](#), Directive [2001/20/EC](#), Directive [2001/83/EC](#) and Regulation [\(EC\) No 726/2004](#), as it has effect in EU law^{M111},

“the Paediatric Committee” means the committee of the EMA established under Article 3 of the Paediatric Regulation;

“the Pharmacovigilance Risk Assessment Committee” means the Committee of the EMA established by Article 56(1)(aa) of Regulation [\(EC\) No 726/2004](#); and

“Regulation [\(EC\) No 507/2006](#)” means Commission Regulation [\(EC\) No 507/2006](#) on the conditional marketing authorisation for medicinal products for human use falling within the scope of Regulation [\(EC\) No 726/2004](#) of the European Parliament and of the Council, as it has effect in EU law^{M112}.

PART 2

Manufacturing, wholesale dealing and brokering

Wholesale dealer's licence used to distribute a medicinal product imported from an EEA State before [F⁵¹⁶IP completion day]

2.—(1) Subject to sub-paragraphs (2) and (3), a person (“P”) who is the holder of a wholesale dealer's licence which—

- (a) was granted before [F⁵¹⁶IP completion day] by the licensing authority;
- (b) was in force immediately before [F⁵¹⁶IP completion day] and remains in force on [F⁵¹⁶IP completion day] (whether or not it is suspended); and
- (c) was used by P to distribute a medicinal product, which was imported from an EEA State, by way of wholesale dealing, or to possess a medicinal product imported from an EEA State for such a purpose,

is deemed on and after [F⁵¹⁶IP completion day] to hold a wholesale dealing licence granted under Part 3 (manufacture and distribution of medicinal products and active substances) that permits the operation of importing medicinal products from an approved country for import for the purposes specified in paragraph (c).

(2) After the end of the period of 6 months beginning with [F⁵¹⁶IP completion day], P is deemed to continue hold a wholesale dealer's licence that permits the operation of importing medicinal products from an approved country for import by virtue of sub-paragraph (1) only if, before the end of that period, P has notified the licensing authority in writing of—

- (a) P's intention to continue to import medicinal products from an approved country for import; and
- (b) either—
 - (i) P's intention to appoint a responsible person (import) who will carry out the functions under regulation 45AA(4) (requirement as to responsible persons where licence holder imports from an approved country for import) in respect of the licence, or
 - (ii) that P will only import medicinal products from an approved country for import to which an exemption in regulation 45AA(2) applies.

(3) Unless P has notified the licensing authority as provided for in sub-paragraph (2)(b) (ii), after the end of the period of 2 years beginning with [F⁵¹⁶IP completion day], P is deemed to continue to hold a wholesale dealer's licence that permits the operation of importing medicinal products from an approved country for import by virtue of sub-paragraph (1) only if, before the end of that period, P has notified the licensing authority in writing of the name, address and qualifications of a person who—

- (a) is included in the register under regulation 45AB(1); and
- (b) will carry out the functions under regulation 45AA(4) in respect of the licence.

(4) From [F⁵¹⁶IP completion day], until the date on which P notifies the licensing authority of the information specified in sub-paragraph (3), the responsible person in respect of that licence under regulation 45 must carry out the functions under regulation 45AA(4).

(5) As soon as reasonably practicable after receipt of the information specified in paragraph (3), the licensing authority must provide P with written notice that the responsible person (import) is named on the licence.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(6) Where P has notified the licensing authority as provided for in sub-paragraph (2)(b)(ii), the licensing authority must, as soon as reasonably practicable, notify P in writing that the wholesale dealer's licence includes import of a medicinal product from an approved country for import limited to medicinal products to which an exemption in regulation 45AA(2) applies.

Approved country for import list on [^{F516}IP completion day] (regulation 18A)

3.—(1) For the purposes of regulation 18A(1) (approved country for import), during the transitional period, the licensing authority must publish an approved country for import list that includes each EEA State in it.

(2) The licensing authority must not, before the end of the transitional period, exercise its power under regulation 18A(3) to remove an EEA State from the approved country for import list.

(3) In this paragraph, “the transitional period” is the period of two years beginning with [^{F516}IP completion day].

Qualified persons and approved country for batch testing list on [^{F516}IP completion day] (Schedule 7)

4.—(1) Sub-paragraph (2) applies to a person who—

- (a) is acting as a qualified person immediately before [^{F516}IP completion day]; and
- (b) satisfies the requirements of Part 1 of Schedule 7 (qualification requirements for qualified persons) immediately before [^{F516}IP completion day] as they had effect at that time.

(2) The person is to be treated on and after [^{F516}IP completion day] as continuing to satisfy the requirements of Part 1 of Schedule 7 if the person would otherwise fail to do so as a result of amendments made to that Part by the EU Exit Regulations.

(3) For the purposes of paragraph 14(1)(b) of Schedule 7 (obligations of qualified person), for the transitional period, the licensing authority is deemed to have made appropriate arrangements with—

- (a) each EEA State;
- (b) Australia;
- (c) Canada;
- (d) Israel;
- (e) Japan;
- (f) New Zealand;
- (g) Switzerland; and
- (h) the United States of America,

and the licensing authority must, on [^{F516}IP completion day], publish a list that includes those countries under paragraph 14(3) of Schedule 7.

(4) The licensing authority may, in respect of any country specified in sub-paragraph (3)(b) to (h), include that country in the list subject to a condition or restriction as provided for in paragraph 14(4) of Schedule 7, insofar as that condition or restriction was reflected in the appropriate arrangements that existed immediately before [^{F516}IP completion day] under Article 51(2) of the 2001 Directive.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(5) The licensing authority must not, before the end of the transitional period, exercise its powers under paragraph 14(6) of Schedule 7 to remove an EEA State from the list it publishes.

(6) In this regulation, “the transitional period” is the period of two years beginning with [^{F516}IP completion day].

List of countries with equivalent regulatory standards as to the manufacturing of active substances on [^{F516}IP completion day] (regulation 45O(6) to (9))

5.—(1) For the purposes of regulation 45O(6) (requirements for registration as an importer, manufacturer or distributor of active substances), for the transitional period, the licensing authority must publish a list that includes the following countries—

- (a) each EEA State;
- (b) Australia;
- (c) Brazil;
- (d) Israel;
- (e) Japan;
- [^{F517}(ea) Republic of Korea;
- (f) Switzerland; and
- (g) the United States of America.

(2) The licensing authority must not, before the end of the transitional period, exercise its power under regulation 45O(9) to remove an EEA State from the list it publishes.

(3) In this paragraph, “the transitional period” is the period of two years beginning with [^{F516}IP completion day].

PART 3

Transitional provision in respect of conversion of EU marketing authorisations in force immediately before [^{F516}IP completion day]

Conversion of EU marketing authorisations in force before [^{F516}IP completion day]

6.—(1) This paragraph applies in relation to an EU marketing authorisation which was in force immediately before [^{F516}IP completion day].

(2) An EU marketing authorisation to which this paragraph applies—

- [^{F518}(a) insofar as it authorises sale or supply of a medicinal product in Great Britain, has effect on and after IP completion day as a UKMA(GB) granted under regulation 49(1) of these Regulations (but, insofar as it authorises sale or supply of a medicinal product in Northern Ireland, continues to operate in Northern Ireland as an EU marketing authorisation); and]
- (b) is referred to in this Part as a “converted EU marketing authorisation”.

(3) If the holder of an EU marketing authorisation to which this paragraph applies notifies the licensing authority in writing before the end of the period of 21 days beginning with [^{F516}IP completion day] that it does not wish to be the holder of a converted EU marketing authorisation, the licensing authority must revoke the converted EU marketing authorisation with effect from the date of receipt of the notification.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (4) A converted EU marketing authorisation—
- (a) is treated as if it had been granted by the licensing authority under regulation 49(1) on the same terms as those on which the EU marketing authorisation was granted, including any conditions or restrictions subject to which the EU marketing authorisation was granted and which remain in force immediately before [F⁵¹⁶IP completion day];
 - (b) is treated, for the purposes of regulations 65 or 65B (validity of UK marketing authorisation), as if it had been granted by the licensing authority on the date that the EU marketing authorisation took effect;
 - (c) is treated for the purposes of regulation 67(1) (failure to place on the market) as if it had been granted on [F⁵¹⁶IP completion day], and the period of three years referred to in regulation 67(2) is treated as having started on [F⁵¹⁶IP completion day];
 - (d) is treated for the purposes of determining the relevant fee period for the purposes of Schedule 4 to the Fees Regulations (periodic fees for marketing authorisations) as if it had been granted by the licensing authority on the date that the EU marketing authorisation took effect;
 - (e) is treated, for the purposes of the reference to the date of grant in regulation 27A(a) of the Fees Regulations (fees for renewals of a marketing authorisation) as if it had been granted on the date that the EU marketing authorisation took effect;
 - (f) retains, for the purposes of [F⁵¹⁹regulation 51A(1) and (6)], the benefit of any remaining periods of data or marketing exclusivity (if any) from which the holder benefitted immediately before [F⁵¹⁶IP completion day];
 - (g) retains the benefit of any decision by the EMA to exempt the holder from Articles 14(4) or (5) of Regulation (EC) No 726/2004 (failure to place on the market), and that decision is treated as if it had been made by the licensing authority under regulation 67(3); and
 - (h) remains subject to—
 - (i) any suspension of the EU marketing authorisation that is in force immediately before [F⁵¹⁶IP completion day],
 - (ii) any post-authorisation obligations imposed after it was granted, and which remain in force immediately before [F⁵¹⁶IP completion day], and
 - (iii) any variation to its terms which were granted or accepted before [F⁵¹⁶IP completion day].
- (5) For the purposes of this paragraph, an EU marketing authorisation is in force, even if that authorisation is suspended immediately before [F⁵¹⁶IP completion day].
- (6) A converted EU marketing authorisation to which this paragraph applies which—
- (a) was granted as a conditional marketing authorisation within the meaning of Article 1 of Regulation (EC) No 507/2006; and
 - (b) remains such a conditional marketing authorisation immediately before [F⁵¹⁶IP completion day],
- has effect on and after [F⁵¹⁶IP completion day] as a UK marketing authorisation granted under regulation 58F.
- (7) A converted EU marketing authorisation to which this paragraph applies which relates to a medicinal product which—

Status: This version of this Instrument contains provisions that are prospective.

Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (a) was designated as an orphan medicinal product by the European Commission pursuant to Article 5 of the Orphan Regulation; and
- (b) remains in the Community register of Orphan Medicinal Products as referred to in that Article immediately before [F⁵¹⁶IP completion day],

has effect on and after [F⁵¹⁶IP completion day] as a UK marketing authorisation granted under regulation 58C and retains, for the purposes of regulation 58D, the benefit of any period of marketing exclusivity from which the holder benefitted immediately before [F⁵¹⁶IP completion day] under Article 8 of the Orphan Regulation.

Classification of converted EU marketing authorisations

7. For the purposes of regulation 62 (classification of UK marketing authorisation), it is a term of a converted EU marketing authorisation that the product to which the authorisation relates is to be available—

- (a) in a case where the product was classified in its EU marketing authorisation immediately before [F⁵¹⁶IP completion day] as a prescription only medicine, the product is to be available only on prescription;
- (b) in a case where the product was not so classified and the licensing authority has determined that the product should be available on general sale, the product is to be available on general sale; or
- (c) in any other case, the product is to be available only from a pharmacy.

Obligations of licensing authority in connection with converted EU marketing authorisations

8.—(1) The licensing authority must, before the end of the period of 7 days beginning with [F⁵¹⁶IP completion day], notify the holders of converted EU marketing authorisations—

- (a) that the EU marketing authorisation is converted to a UK marketing authorisation; and
- (b) that the holder may notify the licensing authority in accordance with paragraph 6(3) that it does not wish to be the holder of a UK marketing authorisation.

(2) The licensing authority must, as soon as reasonably practicable after the end of the period referred to in paragraph 6(3), publish a list of converted EU marketing authorisations.

(3) The list mentioned in sub-paragraph (2) must specify which converted EU marketing authorisations have been revoked in accordance with paragraph 6(3).

Obligations of holders of converted EU marketing authorisations

9.—(1) A holder of a converted EU marketing authorisation must submit to the licensing authority, before the end of the period of one year beginning with [F⁵¹⁶IP completion day], the information described in sub-paragraph (3).

(2) The obligation in sub-paragraph (1) is subject to any requirement imposed by the licensing authority to provide that information before the end of a shorter period specified by the licensing authority under paragraph 10(1).

(3) The information which must be submitted in accordance with sub-paragraph (1) (referred to in this paragraph as the “baseline data”) is—

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (a) such information concerning the product to which the converted EU marketing authorisation relates as may be specified in writing for this purpose and published by the licensing authority on or before [F516IP completion day];
- (b) notification of whether or not the product to which the converted EU marketing authorisation relates—
 - (i) is on the market in the United Kingdom at the time the notification is given, or
 - (ii) if not, whether the product has been on the market in the United Kingdom at any time on or after [F516IP completion day] and if so, the date on which it was withdrawn from the United Kingdom market.

(4) In this Part, the date on which the holder of a converted EU marketing authorisation complies with the obligation in sub-paragraph (1), or with any requirement imposed by the licensing authority under paragraph 10(1) to provide all of the baseline data before the end of a period shorter than the period of one year beginning with [F516IP completion day], is referred to as “the data submission date”.

Powers of licensing authority in connection with provision of information

10.—(1) If the licensing authority requests a holder of a converted EU marketing authorisation to submit all or part of the baseline data at any time before the expiry of the period of one year beginning with [F516IP completion day], the holder must supply the information within the time period specified by the licensing authority in its request.

(2) If the licensing authority requests a holder of a converted EU marketing authorisation to provide any other information relating to the EU marketing authorisation, the holder must supply the information within the time period specified by the licensing authority in its request.

Variations of converted EU marketing authorisations notified or applied for before [F516IP completion day]

11.—(1) This paragraph applies where, before [F516IP completion day]—

- (a) a holder of a converted EU marketing authorisation has notified the EMA of, or made an application to the EMA for, a variation of the EU marketing authorisation to which the converted EU marketing authorisation applies under Chapter III of Regulation (EC) No 1234/2008, or has made an application to the EMA for an extension of that EU marketing authorisation in accordance with Article 19 of that Regulation;
- (b) the procedures specified in Article 17 of that Regulation (measures to close the procedures of Articles 14 to 16) have not concluded, or, in the case of an extension, no final decision has been made by the European Commission in relation to the application; and
- (c) the holder of the converted EU marketing authorisation wishes the variation to be made to the converted EU marketing authorisation.

(2) Where the variation is a minor variation of Type IA—

- (a) the variation may be implemented in relation to the converted EU marketing authorisation at any time on or after the time at which it may be implemented in relation to the EU marketing authorisation to which the converted EU marketing authorisation relates;

Status: This version of this Instrument contains provisions that are prospective.

Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (b) the holder of the converted EU marketing authorisation must (subject to paragraph 13), include in the baseline data—
 - (i) a summary of the variation, and
 - (ii) if the notification has been rejected by the EMA, an indication of that fact; and
 - (c) the variation to the converted EU marketing authorisation is deemed to be accepted unless the licensing authority notifies the holder in writing before the end of the period of 30 days beginning with the data submission date that the variation is rejected, in which case the holder must cease to apply the rejected variation immediately after receipt of the notification.
- (3) Where the variation is a minor variation of Type IB—
- (a) the variation may be implemented in relation to the converted EU marketing authorisation at any time on or after the time at which it may be implemented in relation to the EU marketing authorisation to which the converted EU marketing authorisation relates;
 - (b) if the variation has not been rejected by the EMA, the holder of the converted EU marketing authorisation must (subject to paragraph 13) include a copy of the notification in the baseline data; and
 - (c) the variation to the converted EU marketing authorisation is deemed to be accepted unless the licensing authority notifies the holder in writing before the end of the period of 30 days beginning with the data submission date that the variation is rejected, in which case the holder must cease to apply the rejected variation immediately after receipt of the notification.
- (4) Sub-paragraph (5) applies where—
- (a) the variation is a major variation of Type II or an extension; and
 - (b) before [F⁵¹⁶IP completion day] the Committee for Medicinal Products for Human Use gave a positive final opinion in relation to the application with which the United Kingdom concurred.
- (5) Where this sub-paragraph applies—
- (a) the variation may be implemented in relation to the converted EU marketing authorisation at any time on or after the time at which it may be implemented in relation to the EU marketing authorisation to which the converted EU marketing authorisation relates;
 - (b) the holder of the converted EU marketing authorisation must (subject to paragraph 13) include a copy of the application in the baseline data; and
 - (c) the licensing authority must either—
 - (i) treat the variation as accepted, and, if the variation affects the terms of the converted EU marketing authorisation, amend those terms accordingly; or
 - (ii) notify the holder of the converted EU marketing authorisation before the end of the period of 30 days beginning with the data submission date that the variation is rejected, in which case the holder must cease to apply the rejected variation immediately after receipt of the notification.
- (6) Sub-paragraph (7) applies where—
- (a) the variation is a major variation of Type II or an extension; and
 - (b) before [F⁵¹⁶IP completion day] the Committee for Medicinal Products for Human Use had not given any opinion in relation to the application, or had given a

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

negative final opinion in relation to it, or had given a positive final opinion but the United Kingdom recorded a divergent opinion.

(7) Where this paragraph applies—

- (a) the holder of the converted EU marketing authorisation must submit to the licensing authority—
 - (i) the application for the variation; and
 - (ii) (subject to paragraph 13) the baseline data; and
- (b) the licensing authority must consider the application in accordance with Schedule 10A.

(8) In this paragraph and paragraph 12, “minor variation of Type IA”, “minor variation of Type IB”, “major variation of Type II” and “extension” have the meanings given in paragraph 1 of Schedule 10A.

Variations of converted EU marketing authorisations submitted to EMA after [^{F516}IP completion day] but before the data submission date

12.—(1) This paragraph applies where a holder of a converted EU marketing authorisation—

- (a) notifies the EMA of, or applies to the EMA for, a variation of the EU marketing authorisation to which the converted EU marketing authorisation relates during the period beginning with [^{F516}IP completion day] and ending on the day before the data submission date; and
- (b) wishes the variation to be made in relation to the converted EU marketing authorisation.

(2) Where the variation is a minor variation of Type IA—

- (a) the variation may be implemented in relation to the converted EU marketing authorisation at the same time as it may be implemented in relation to the EU marketing authorisation to which the converted EU marketing authorisation relates;
- (b) the holder of the converted EU marketing authorisation must (subject to paragraph 13), include in the baseline data—
 - (i) a summary of the variation, and
 - (ii) if the notification has been rejected by the EMA, an indication of that fact; and
- (c) the variation to the converted EU marketing authorisation is deemed to be accepted unless the licensing authority notifies the holder in writing within the period of 30 days beginning with the data submission date that the variation is rejected, in which case the holder must cease to apply the rejected variation immediately after receipt of the notification.

(3) Where the variation is a minor variation of Type IB, a major variation of Type II or an extension which has not been rejected by the EMA—

- (a) the holder of the converted EU marketing authorisation must submit to the licensing authority—
 - (i) the notification of, or application for, the variation, and
 - (ii) (subject to paragraph 13) the baseline data; and

*Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)*

- (b) the licensing authority must consider the application in accordance with Schedule 10A.

Variations of converted EU marketing authorisations sought in advance of the data submission date

13.—(1) If a holder of a converted EU marketing authorisation wishes the licensing authority to consider a notification of, or an application for, a variation to the authorisation before the data submission date, the holder must—

- (a) submit the notification or application to the licensing authority; and
- (b) unless sub-paragraph (2) applies, provide to the licensing authority at the same time such information concerning the product to which the converted EU marketing authorisation relates as may be specified in writing by the licensing authority for this purpose and published on or before [F516IP completion day].

(2) If a holder of a converted EU marketing authorisation wishes the licensing authority to consider a notification of, or an application for, a variation to the authorisation before the data submission date but does not provide the information described in sub-paragraph (1) (b) with the notification or application, the licensing authority may agree to consider the notification or application if it is satisfied that—

- (a) the variation may be necessary on urgent safety grounds;
- (b) the variation may be necessary in order to maintain supplies of a particular medicinal product to patients in the United Kingdom; or
- (c) there are other good reasons for considering the variation in advance of the submission of the information described in sub-paragraph (1).

(3) Where the licensing authority considers a notification of, or an application for, a variation in advance of the data submission date in accordance with this paragraph, the references in paragraphs 11(2)(c), (3)(c) and (5)(c)(ii) and 12(2)(c) to the data submission date are to be read as references to the date on which—

- (a) the notification of, or the application for, the variation is submitted to the licensing authority in accordance with sub-paragraph (1); or
- (b) the licensing authority notifies the holder that it will consider the notification or application, in accordance with sub-paragraph (2), without the information referred to in sub-paragraph (2)(b).

Applications for renewals of converted EU marketing authorisations made before [F516IP completion day]

14.—(1) This paragraph applies where a holder of a converted EU marketing authorisation has, before [F516IP completion day], made an application to the EMA for renewal of the EU marketing authorisation in accordance with Article 14 of Regulation (EC) No 726/2004 but no final decision has been made in relation to that application by the European Commission before [F516IP completion day].

(2) Where this paragraph applies—

- (a) the holder of the converted EU marketing authorisation must (subject to paragraph 18) submit the application for renewal to the licensing authority with the baseline data; and
- (b) the licensing authority must—

Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (i) where before [^{F516}IP completion day] the Committee for Medicinal Products for Human Use has given a positive final opinion in relation to the application with which the United Kingdom concurred, treat the renewal application as accepted for the purposes of regulation 66 (application for renewal of authorisation), or
- (ii) where before [^{F516}IP completion day] the Committee for Medicinal Products for Human Use has not given any opinion or has given a negative final opinion in relation to the application, or where a positive final opinion has been given but the United Kingdom recorded a divergent opinion, treat the application as an application made in relation to the converted EU marketing authorisation under regulation 66 and consider the application in accordance with that regulation.

Applications for renewals of conditional marketing authorisations made before [^{F516}IP completion day]

- 15.—(1) This paragraph applies where before [^{F516}IP completion day]—
- (a) a holder of a converted EU marketing authorisation which was granted as a conditional marketing authorisation within the meaning of Article 1 of Regulation (EC) No 507/2006 has made an application to the EMA for renewal of the authorisation in accordance with Article 6 of that Regulation; but
 - (b) no final decision has been made in relation to that application by the European Commission.
- (2) Where this paragraph applies—
- (a) the holder of the converted EU marketing authorisation must (subject to paragraph 18) submit the application for renewal to the licensing authority with the baseline data; and
 - (b) the licensing authority must—
 - (i) where before [^{F516}IP completion day] the Committee for Medicinal Products for Human use has given a positive final opinion in relation to the application with which the United Kingdom concurred, treat the renewal application as accepted for the purposes of regulation 66B, or
 - (ii) where before [^{F516}IP completion day] the Committee for Medicinal Products for Human Use has not given any opinion or has given a negative final opinion in relation to the application, or where a positive final opinion has been given but the United Kingdom recorded a divergent opinion, treat the application as an application made in relation to the converted EU marketing authorisation under regulation 66B (renewal of conditional marketing authorisation) and consider the application in accordance with that regulation.

Applications for renewals of converted EU marketing authorisations made after [^{F516}IP completion day]

16.—(1) This paragraph applies where a holder of a converted EU marketing authorisation is due to make an application for renewal of the authorisation in accordance with regulation 66 (application for renewal of authorisation) during the period of one year beginning with [^{F516}IP completion day].

- (2) Where this paragraph applies—

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (a) the holder of the converted EU marketing authorisation must (subject to paragraph 18) submit the baseline data so that it is received by the licensing authority at the same time as the application for renewal is made;
- (b) the licensing authority must consider the renewal application in accordance with regulation 66; and
- (c) the converted EU marketing authorisation remains in force until the licensing authority notifies the holder of its decision on the renewal application.

Applications for renewals of conditional marketing authorisations made after [F⁵¹⁶IP completion day]

17.—(1) This paragraph applies where the holder of a converted EU marketing authorisation which was granted as a conditional marketing authorisation within the meaning of Article 1 of Regulation (EC) No 507/2006 is due to make an application for renewal of the authorisation in accordance with regulation 66B during the period beginning with [F⁵¹⁶IP completion day] and ending on the data submission date.

(2) Where this paragraph applies—

- (a) the holder of the converted EU marketing authorisation must (subject to paragraph 18) submit the baseline data so that it is received by the licensing authority at the same time as the application for renewal is made;
- (b) the licensing authority must consider the renewal application in accordance with regulation 66B (renewal of conditional marketing authorisation); and
- (c) the authorisation remains in force until the licensing authority notifies the holder of its decision on the renewal application.

Renewals of converted EU marketing authorisations sought in advance of the data submission date

18.—(1) If a holder of a converted EU marketing authorisation submits an application for renewal in accordance with regulation 66 or 66B before the data submission date, it must, unless sub-paragraph (2) applies, provide to the licensing authority with the application such information concerning the product to which the converted EU marketing authorisation relates as may be specified in writing by the licensing authority for this purpose and published on or before [F⁵¹⁶IP completion day].

(2) If a holder of a converted EU marketing authorisation wishes the licensing authority to consider a renewal application before the data submission date but does not provide the information described in sub-paragraph (1) with the application, the licensing authority may agree to consider the application if it is satisfied that—

- (a) the renewal may be necessary on urgent safety grounds;
- (b) the renewal may be necessary in order to maintain supplies of a particular medicinal product to patients in the United Kingdom; or
- (c) there are other good reasons for considering the renewal in advance of the data submission date.

Article 61(3) notifications made before [F⁵¹⁶IP completion day] in relation to converted EU marketing authorisations

19.—(1) This paragraph applies where, before [F⁵¹⁶IP completion day]—

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (a) a holder of a converted EU marketing authorisation has, in accordance with Article 61(3) of the 2001 Directive, notified the EMA of a proposed change to an aspect of the labelling or the package leaflet of the EU marketing authorisation to which the converted EU marketing authorisation relates; but
 - (b) the period of 90 days referred to in Article 61(3) has not elapsed and the EMA has not objected to the proposed change.
- (2) Where this paragraph applies, and where the holder wishes the proposed change to apply in relation to the converted EU marketing authorisation—
- (a) the holder may put the change into effect in relation to the converted EU marketing authorisation at the same time as it may be put into effect in relation to the EU marketing authorisation;
 - (b) the holder must (subject to paragraph 21) include with the baseline data—
 - (i) a copy of the notification, and
 - (ii) an indication of whether the EMA has opposed the proposed change; and
 - (c) the proposed change to the labelling or the package leaflet of the converted EU marketing authorisation is deemed to be accepted unless the licensing authority notifies the holder in writing within the period of 30 days beginning with the data submission date that the proposed change is opposed, in which case the holder must cease to apply the opposed change immediately after receipt of the notification.

Article 61(3) notifications made in relation to converted EU marketing authorisations after [^{F516}IP completion day] but before the data submission date

20.—(1) This paragraph applies where, during the period beginning with [^{F516}IP completion day] and ending on the day before the data submission date, a holder of a converted EU marketing authorisation notifies the EMA in accordance with Article 61(3) of the 2001 Directive of a proposed change to an aspect of the labelling or the package leaflet of the EU marketing authorisation to which the converted EU marketing authorisation relates.

(2) Where this paragraph applies, and where the holder wishes the proposed change to apply in relation to the converted EU marketing authorisation—

- (a) the holder of the converted EU marketing authorisation may put the change into effect at the same time as it may be put into effect in relation to the EU marketing authorisation;
- (b) the holder must (subject to paragraph 21) include with the baseline data—
 - (i) a copy of the notification, and
 - (ii) an indication of whether the EMA has opposed the proposed change; and
- (c) the proposed change to the labelling or the package leaflet of the converted EU marketing authorisation is deemed to be accepted unless the licensing authority notifies the holder in writing within the period of 30 days beginning with the data submission date that the proposed change is opposed, in which case the holder must cease to apply the opposed change immediately after receipt of the notification.

Article 61(3) notifications sought in advance of the data submission date

21.—(1) If a holder of a converted EU marketing authorisation wishes to notify the licensing authority of a proposed change to an aspect of the labelling or the package leaflet of

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

the EU marketing authorisation to which the converted EU marketing authorisation relates in advance of the data submission date, the holder must—

- (a) submit the notification of the proposed change to the licensing authority; and
- (b) unless sub-paragraph (2) applies, at the same time provide the licensing authority with such information concerning the product to which the converted EU marketing authorisation relates as may be specified in writing by the licensing authority for this purpose and published on or before [F⁵¹⁶IP completion day].

(2) If a holder of a converted EU marketing authorisation wishes the licensing authority to consider a proposed change before the data submission date but does not provide the information described in sub-paragraph (1)(b) with the notification, the licensing authority may agree to consider the notification if it is satisfied that—

- (a) the proposed change may be necessary on urgent safety grounds;
- (b) the proposed change may be necessary in order to maintain supplies of a particular medicinal product to patients in the United Kingdom; or
- (c) there are other good reasons for considering the proposed change in advance of the data submission date.

(3) Where the licensing authority considers a proposed change in accordance with this paragraph, the references in paragraph 19(2)(c) and 20(2)(c) to the data submission date are to be read as references to the date on which—

- (a) the proposed change is notified to the licensing authority in accordance with sub-paragraph (1); or
- (b) the licensing authority notifies the holder that it will consider the notification, in accordance with sub-paragraph (2), without the information referred to in sub-paragraph (1)(b).

Place of establishment for converted EU marketing authorisation holder established in EEA state before [F⁵¹⁶IP completion day]

22.—(1) Subject to sub-paragraph (2), a person who—

- (a) holds a converted EU marketing authorisation on [F⁵¹⁶IP completion day](whether or not it is suspended); and
- (b) was, immediately before [F⁵¹⁶IP completion day], established in an EEA State, and remains established there on and after [F⁵¹⁶IP completion day],

is to be treated, for the transitional period, as satisfying the requirements of regulation 49(3) or 66(2) (as the case may be), notwithstanding the amendments made to those provisions by the EU Exit Regulations.

(2) But sub-paragraph (1) continues to apply to a person after the end of the specified period only if the person has, before the end of that period, notified the licensing authority in writing of—

- (a) a named individual who resides and operates in the United Kingdom who the licensing authority may contact in respect of any matter relating to the converted EU marketing authorisation during the transitional period; and
- (b) that individual's address, telephone number and email address.

(3) In this paragraph—

“the specified period” means 4 weeks beginning with [F⁵¹⁶IP completion day]; and

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

“the transitional period” means the period of [^{F520}24 months] beginning with [^{F516}IP completion day].

Temporary exemption as to packaging requirements for converted EU marketing authorisations

23.—(1) A holder of a converted EU marketing authorisation does not commit an offence under regulation 268 during the period of [^{F521}36 months] beginning with [^{F516}IP completion day] day to the extent that—

- (a) the packaging and package leaflet do not comply with the requirements of Part 13 by reason only of the fact that the outer or immediate packaging, or the package leaflet, do not include the correct information as to—
 - (i) the name and address of the holder of the UK marketing authorisation, or, where applicable, the name of the holder's representative,
 - (ii) the number of the UK marketing authorisation, or
 - (iii) the name and address of the manufacturer of the product; and
- (b) the outer and immediate packaging, or the package leaflet, do not include the correct information specified in paragraph (a)(i) to (iii) solely because—
 - (i) the number of the marketing authorisation is the number of the EU marketing authorisation to which the converted EU marketing authorisation relates, or
 - (ii) the UK marketing authorisation holder has established itself in the United Kingdom before the end of the period of [^{F520}24 months] beginning with [^{F516}IP completion day] in order to comply with regulation 49(3), and the information specified in paragraph (a)(i) or (iii) is no longer correct as a consequence of that establishment in the United Kingdom.

(2) Sub-paragraph (1) only applies if—

- (a) the packaging and package leaflet met the requirements of Part 13 as to the matters specified in sub-paragraph (1)(a)(i) to (iii) immediately before [^{F516}IP completion day]; and
- (b) the holder of the converted EU marketing authorisation, having been notified of the number of the UK marketing authorisation and having established itself in the United Kingdom, does not otherwise need to make any changes to the outer or immediate packaging, or the package leaflet, during the period referred to in sub-paragraph (1).

Referrals made under Article 20 of Regulation (EC) No 726/2004 that have not concluded or been implemented before [^{F516}IP completion day]

24.—(1) Sub-paragraph (2) applies where—

- (a) the European Commission has requested the opinion of the EMA in accordance with Article 20(2) of Regulation (EC) No 726/2004 in relation to a specified matter; but
- (b) no final decision has been adopted by the European Commission in accordance with Article 20(3) of that Regulation immediately before [^{F516}IP completion day].

(2) Where this sub-paragraph applies, the licensing authority must make a decision in respect of the specified matter in accordance with regulation 68 (revocation, variation and suspension of UK marketing authorisation) as soon as reasonably practicable.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(3) In making a decision under regulation 68 in accordance with sub-paragraph (2), the licensing authority must have regard to—

- (a) any relevant information obtained by it before [F⁵¹⁶IP completion day] in relation to the specified matter as a consequence of its involvement in the procedure under Article 20 of Regulation (EC) No 726/2004;
- (b) any relevant decision made, or agreement reached, before [F⁵¹⁶IP completion day], where the United Kingdom participated as a member State in the making of that decision or agreement, under any procedure provided for in the Council Decision of 28 June 1999 laying down the procedure for the exercise of implementing powers conferred on the Commission; and
- (c) any advice it receives from the appropriate committee pursuant to the procedures in Schedule 11.

(4) Sub-paragraph (5) applies if the licensing authority is making a decision under regulation 68 in accordance with sub-paragraph (2) in a case where the Committee for Medicinal Products for Human Use has given a final opinion in relation to the specified matter.

(5) Where this sub-paragraph applies, the licensing authority may treat the opinion as if it were the opinion of the appropriate committee for the purposes of paragraph 5 of Schedule 11.

(6) Sub-paragraph (7) applies where—

- (a) the European Commission has requested the opinion of the EMA in accordance with Article 20(2) of Regulation (EC) No 726/2004 in relation to a specified matter;
- (b) a final decision has been adopted by the European Commission in accordance with Article 20(3) of that Regulation immediately before [F⁵¹⁶IP completion day]; but
- (c) the necessary steps to give effect to the decision referred to in paragraph (b) have not been taken before [F⁵¹⁶IP completion day].

(7) Where this sub-paragraph applies, the licensing authority must, where a Commission decision or opinion requires steps to be taken in respect of an EU marketing authorisation that is a converted EU marketing authorisation, take the steps necessary as a result of the decision or opinion to suspend, revoke or vary a converted EU marketing authorisation as soon as reasonably practicable.

(8) In this paragraph, “specified matter” means a matter in relation to which the opinion of the EMA has been requested by the European Commission under Article 20(2) of Regulation (EC) No 726/2004 before [F⁵¹⁶IP completion day] that might result in the suspension, revocation or variation of an EU marketing authorisation which is a converted EU marketing authorisation.

Enforcement

25. If a holder of a converted EU marketing authorisation fails to comply with an obligation imposed on the holder by or under this Part, the licensing authority may suspend the authorisation until the holder complies with the obligation.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

PART 4

Transitional provision in respect of UK marketing authorisations, parallel import licences and parallel distribution notices

[^{F522}Status of certain UK marketing authorisations granted before IP completion day

26ZA.—(1) This paragraph applies in relation to a UK marketing authorisation granted by the licensing authority under Chapter 4 of Title III to the 2001 Directive that was in force immediately before IP completion day.

- (2) A UK marketing authorisation to which this paragraph applies—
- (a) has effect on and after IP completion day as a UKMA(UK) granted under regulation 49(1) of these Regulations; and
 - (b) is treated as including a statement that it is in force in the whole United Kingdom for the purposes of regulation 49(1C).]

Place of establishment for UK marketing authorisation holder or parallel import licence holder established in an EEA State before [^{F516}IP completion day]

26.—(1) Subject to sub-paragraphs (2) and (3), any person—

- (a) who—
 - (i) holds a UK marketing authorisation immediately before [^{F516}IP completion day] which remains in force on [^{F516}IP completion day] (whether or not it is suspended),
 - (ii) holds a parallel import licence immediately before [^{F516}IP completion day] which remains in force on [^{F516}IP completion day] (whether or not it is suspended),
 - (iii) has made an application for, or to renew, a UK marketing authorisation or parallel import licence before [^{F516}IP completion day], which has not been determined before that date, ^{F523}...
 - (iv) makes such an application on or after [^{F516}IP completion day] but before the end of the transitional period; [^{F524}or
 - (v) is deemed to hold a parallel import licence under paragraph 28(2); and]
- (b) who was, immediately before [^{F516}IP completion day], established in an EEA State and remains established there on and after [^{F516}IP completion day],

is to be treated, for the transitional period, as satisfying the requirements of regulation 49(3), 66(2) or 66A(2) (as the case may be), notwithstanding the amendments made to those provisions by the EU Exit Regulations.

(2) But sub-paragraph (1) continues to apply to a person [^{F525}where the UK marketing authorisation or parallel import licence authorises sale or supply of the medicinal product in Great Britain] only if the person has notified the licensing authority in writing of—

- (a) a named individual who resides and operates in the United Kingdom who the licensing authority may contact in respect of any matter relating to the UK marketing authorisation or parallel import licence, or application for a UK marketing authorisation or parallel import licence (as the case may be), during the transitional period; and

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (b) that individual's address, telephone number and email address.
- (3) A person must notify the licensing authority under sub-paragraph (2)—
 - (a) where sub-paragraph (1)(a)(i) to (iii) applies, within the period of 4 weeks beginning with [F516IP completion day]; or
 - (b) where sub-paragraph (1)(a)(iv) applies, at the time of making the application.
- (4) This paragraph does not apply to a UK marketing authorisation that is a converted EU marketing authorisation within the meaning of paragraph 6.
- (5) In this paragraph “the transitional period” means the period of [F52024 months] beginning with [F516IP completion day].

Temporary exemption as to packaging requirements: change of place of establishment

27.—(1) Subject to sub-paragraph (2), a person to whom paragraph 26 applies does not commit an offence under regulation 268 (offence relating to packaging and package leaflets [F526in Great Britain]: holder of authorisation etc) during the transitional period to the extent that—

- (a) the packaging and package leaflet do not comply with the requirements of Part 13 (packaging and leaflets) by reason only of the fact that the outer or immediate packaging, or the package leaflet (as the case may be), do not include the correct information as to—
 - (i) the name and address of the holder of the UK marketing authorisation, or, where applicable, the name of that holder's representative,
 - (ii) the number of the UK marketing authorisation, or
 - (iii) the name and address of the manufacturer of the product; and
 - (b) the outer and immediate packaging, or the package leaflet, do not include the correct information specified in paragraph (a)(i) to (iii) solely because—
 - (i) the UK marketing authorisation holder has established itself in the United Kingdom before the end of the period of [F52024 months] beginning with [F516IP completion day] in order to comply with regulation 49(3), and
 - (ii) the information specified in paragraph (a)(i) to (iii) is no longer correct as a consequence of that establishment in the United Kingdom.
- (2) Sub-paragraph (1) only applies if—
- (a) the packaging and package leaflet met the requirements of Part 13 as to the matters specified in paragraph (1)(a)(i) to (iii) immediately before [F516IP completion day]; and
 - (b) the UK marketing authorisation holder, having established itself in the United Kingdom, does not otherwise need to make any changes to the outer or immediate packaging, or the package leaflet, as the case may be, during the transitional period.
- (3) In this paragraph “the transitional period” means the period of [F52136 months] beginning with [F516IP completion day].

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

[^{F527}Status of parallel import licences granted before IP completion day]

27A.—(1) This paragraph applies in relation to a parallel import licence granted by the licensing authority that was in force immediately before IP completion day.

(2) A parallel import licence to which this paragraph applies—

- (a) has effect on and after IP completion day as a parallel import licence in force in the whole United Kingdom granted under regulation 49(1) of these Regulations; and
- (b) is treated as including a statement that it is in force in the whole United Kingdom for the purposes of regulation 49(1C).]

Conversion of parallel distribution notices in to parallel import licences

28.—(1) Sub-paragraph (2) applies where—

- (a) a person holds a parallel distribution notice, issued by the EMA, for a medicinal product in respect of which there is an EU marketing authorisation;
- (b) that distribution notice, and that EU marketing authorisation, are in force immediately before [^{F516}IP completion day]; and
- (c) that parallel distribution notice specifies the United Kingdom as a member state of destination in respect of that medicinal product.

(2) Subject to sub-paragraph (3), a person who falls within sub-paragraph (1) is deemed, on and after [^{F516}IP completion day], to have a parallel import licence granted under Part 5 [^{F528}, in force in Great Britain only,] in respect of the medicinal product specified in the parallel distribution notice.

(3) A person who falls within sub-paragraph (1) continues to hold a parallel import licence pursuant to sub-paragraph (2) only if that person notifies the licensing authority—

- (a) before the end of the period of 21 days beginning with [^{F516}IP completion day], of each medicinal product, and each country from which it is intended to import that product on or after [^{F516}IP completion day]; and
- (b) of any other information that the licensing authority requests, within such time period as the licensing authority may specify.

(4) The licensing authority must as soon as reasonably practicable after receipt of the information specified in sub-paragraph (3), issue a parallel import licence to the holder of the parallel distribution notice.

Inclusion of the batch testing condition in relevant UK marketing authorisations, and batch testing of biological medicinal products in the EEA before [^{F516}IP completion day] (regulation 60A)

29.—(1) Sub-paragraph (2) applies where—

- (a) a marketing authorisation was in force before [^{F516}IP completion day],
- (b) that authorisation is in force as a UK marketing authorisation on [^{F516}IP completion day] (whether or not it is suspended); and
- (c) that authorisation is for a medicinal product of a type that is specified in regulation 60A(2)(a) to (e) (condition as to the submitting of samples and other information to the appropriate authority).

(2) Where this sub-paragraph applies, the UK marketing authorisation is deemed to include the batch testing condition on and after [^{F516}IP completion day].

Status: This version of this Instrument contains provisions that are prospective.

Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(3) Sub-paragraph (4) applies where a holder of a UK marketing authorisation has, before [^{F516}IP completion day], submitted to a competent authority of an EEA State samples for testing from a batch of a medicinal product (“the relevant batch”) that—

- (a) is the subject of that authorisation; and
- (b) is of a type specified in regulation 60A(2)(a) to (e).

(4) Where this sub-paragraph applies, the holder of the UK marketing authorisation is deemed to have satisfied the batch testing condition in respect of the relevant batch if, before [^{F516}IP completion day]—

- (a) the competent authority of that EEA State examines the sample from the relevant batch; and
- (b) that authority declared it to be in conformity with the approved specifications (within the meaning of Article 114 of the 2001 Directive) before [^{F516}IP completion day].

(5) The appropriate authority—

- (a) must include each EEA State on the list it publishes under regulation 60A(5) on [^{F516}IP completion day]; and
- (b) must not, before the end of the transitional period, exercise its powers under regulation 60A(8) to remove an EEA State from the list it publishes under regulation 60A(5).

(6) For the purposes of regulation 60A(9), the appropriate authority must, on [^{F516}IP completion day]—

- (a) include Switzerland and Israel in the list it publishes under that paragraph; and
- (b) include in respect of those countries any conditions or restrictions in the arrangement with those countries that affect the applicability of the batch testing exemption.

(7) In this paragraph—

- (a) “the transitional period” means the period of [^{F520}24 months] beginning with [^{F516}IP completion day]; and
- (b) “the batch testing condition” and “the batch testing exemption” have the same meaning as in regulation 60A.

[^{F529}(8) This paragraph, with the exception of sub-paragraphs (3) and (4), applies equally to a medicinal product imported into the United Kingdom pursuant to a parallel import licence and accordingly any reference in this paragraph (other than in this sub-paragraph) to—

- (a) a marketing authorisation or a UK marketing authorisation is to be read as a reference to a parallel import licence for a medicinal product, and
- (b) the holder of a UK marketing authorisation is to be read as a reference to the holder of a parallel import licence.]

[^{F530}Application of the batch testing requirement to relevant EU marketing authorisations, and batch testing of biological medicinal products in the EEA before IP completion day (regulation 60B)

29A.—(1) Sub-paragraph (2) applies where—

- (a) an EU marketing authorisation was in force before IP completion day,

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (b) that authorisation is in force on IP completion day (whether or not it is suspended); and
 - (c) that authorisation is for a medicinal product of a type that is specified in regulation 60B(2) (requirement to submit samples and other information to the appropriate authority).
- (2) Where this sub-paragraph applies, the EU marketing authorisation is deemed to be subject to the batch testing requirement in regulation 60B on and after IP completion day.
- (3) Sub-paragraph (4) applies where a holder of an EU marketing authorisation has, before IP completion day, submitted to a competent authority of an EEA State samples for testing from a batch of a medicinal product (“the relevant batch”) that—
- (a) is the subject of that authorisation; and
 - (b) is of a type specified in regulation 60B(2).
- (4) Where this sub-paragraph applies, the holder of the EU marketing authorisation is deemed to have satisfied the batch testing requirement in regulation 60B in respect of the relevant batch if, before IP completion day—
- (a) the competent authority of that EEA State examines the sample from the relevant batch; and
 - (b) that authority declared it to be in conformity with the approved specifications (within the meaning of Article 114 of the 2001 Directive) before IP completion day.
- (5) Sub-paragraphs (5) and (6) of paragraph 29 apply in relation to the appropriate authority’s management of the list published under regulation 60A(5) for the purposes of this paragraph and regulation 60B.]

Existing data and marketing exclusivity and global marketing authorisations

30.—(1) Sub-paragraph (2) applies in relation to a UK marketing authorisation which, immediately before [^{F516}IP completion day], is part of a global marketing authorisation with one or more EU marketing authorisations or marketing authorisations granted by the competent authority of an EEA state.

(2) Where this sub-paragraph applies, the provisions of regulation 48(5) (definitions for Part 5), in so far as they describe a global marketing authorisation by reference to UK marketing authorisations only, do not affect the periods of data and marketing exclusivity to which the holder of a UK marketing authorisation to which this paragraph applies is entitled immediately before [^{F516}IP completion day].

Applications for EU marketing authorisations made before [^{F516}IP completion day]

- 31.**—(1) Sub-paragraph (2) applies where, before [^{F516}IP completion day]—
- (a) an application has been made to the EMA for an EU marketing authorisation; but
 - (b) no final decision has been made by the European Commission in relation to the grant of an EU marketing authorisation under Article 10 of Regulation (EC) No 726/2004.
- (2) Where this sub-paragraph applies, the applicant may apply to the licensing authority for the grant of a UK marketing authorisation by submitting to the licensing authority—
- (a) a copy of the application for the EU marketing authorisation; and

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(b) if requested by the licensing authority, such material or information that the licensing authority reasonably considers necessary for dealing with the application.

(3) Sub-paragraph (4) applies where, before [^{F516}IP completion day] and in relation to an application to which sub-paragraph (2) applies, a final opinion favourable to the granting of an EU marketing authorisation has been given by the Committee for Medicinal Products for Human Use and the United Kingdom concurred with that opinion.

(4) Where this sub-paragraph applies, the licensing authority must grant a UK marketing authorisation in response to an application as described in sub-paragraph (2) as soon as reasonably practicable after it is received.

(5) Sub-paragraph (6) applies where before [^{F516}IP completion day], in relation to an application to which sub-paragraph (2) applies—

- (a) no final opinion favourable to the granting of an EU marketing authorisation has been given by the Committee for Medicinal Products for Human Use; or
- (b) such an opinion has been given but the United Kingdom recorded a divergent opinion.

(6) Where this sub-paragraph applies, the licensing authority must consider an application made under sub-paragraph (2) in accordance with Part 5 of these Regulations (marketing authorisations).

Place of establishment for UK marketing authorisation holder established in EEA state before [^{F516}IP completion day] (pre-exit EU marketing authorisation applications)

32.—(1) Subject to sub-paragraph (2), a person—

- (a) who applied to the EMA for an EU marketing authorisation before [^{F516}IP completion day];
- (b) to whom the licensing authority grants a UK marketing authorisation on or after [^{F516}IP completion day] in response to that application in accordance with paragraph 31; and
- (c) who was, immediately before [^{F516}IP completion day], established in an EEA State, and remains established there on and after [^{F516}IP completion day],

is to be treated, for the transitional period, as satisfying the requirements of regulation 49(3), notwithstanding the amendments made to those provisions by the EU Exit Regulations.

(2) Sub-paragraph (1) applies to a person only if, when submitting a copy of the application for the EU marketing authorisation to the licensing authority in accordance with paragraph 31, the person notifies the licensing authority in writing of—

- (a) a named individual who resides and operates in the United Kingdom whom the licensing authority may contact in respect of any matter relating to the UK marketing authorisation during the transitional period; and
- (b) that individual's address, telephone number and email address.

(3) In this paragraph, “the transitional period” means the period which beginning with the date on which the licensing authority grants a UK marketing authorisation as described in paragraph 31(4) and ending [^{F520}24 months] after [^{F516}IP completion day].

Packaging in relation to UK marketing authorisations granted in response to application for EU marketing authorisation made before [F⁵¹⁶IP completion day]

33.—(1) Subject to sub-paragraph (2), a person to whom paragraph 32(1) applies does not commit an offence under regulation 268 (offence relating to packaging and package leaflets[F⁵²⁶in Great Britain]: holder of authorisation etc) during the transitional period to the extent that—

- (a) the packaging and package leaflet do not comply with the requirements of Part 13 (packaging and leaflets) by reason only of the fact that the outer or immediate packaging, or the package leaflet, do not include the correct information as to—
 - (i) the name and address of the holder of the marketing authorisation, or, where applicable, the name of the holder's representative,
 - (ii) the number of the marketing authorisation, or
 - (iii) the name and address of the manufacturer of the product; and
- (b) the outer and immediate packaging, or the package leaflet, do not include the correct information specified in paragraph (a)(i) to (iii) solely because—
 - (i) the number of the marketing authorisation is the number of the EU marketing authorisation to which the application for the EU marketing authorisation related, or
 - (ii) the UK marketing authorisation holder has established itself in the United Kingdom before the end of the period of [F⁵²⁰24 months] beginning with [F⁵¹⁶IP completion day] in order to comply with regulation 49(3), and the information specified in paragraph (a)(i) or (iii) is no longer correct as a consequence of that establishment in the United Kingdom.

(2) Sub-paragraph (1) only applies if—

- (a) the packaging and package leaflet met the requirements of Part 13 as to the matters specified in sub-paragraph (1)(a)(i) to (iii) immediately before [F⁵¹⁶IP completion day]; and
- (b) the UK marketing authorisation holder, being aware of the number of the UK marketing authorisation and having established in the United Kingdom, does not otherwise need to make any changes to the outer or immediate packaging, or the package leaflet, as the case may be, during the transitional period.

(3) In this paragraph, “the transitional period” means the period beginning with the date on which the licensing authority grants a UK marketing authorisation as described in paragraph 31(4) and ending [F⁵²¹36 months] after [F⁵¹⁶IP completion day].

Applications made for a UK marketing authorisation before [F⁵¹⁶IP completion day] to which Chapter 4 of Title III of the 2001 Directive applied

34.—(1) Sub-paragraph (2) applies where an application for a UK marketing authorisation has been made before [F⁵¹⁶IP completion day] and—

- (a) regulation 58(6) and (7) of the 2012 Regulations (applications to be determined under Chapter 4 of Title III of the 2001 Directive) applied to that application before [F⁵¹⁶IP completion day]; but
- (b) a decision as specified in Article 28(5) of the 2001 Directive has not been adopted by the licensing authority before [F⁵¹⁶IP completion day].

(2) Where this sub-paragraph applies, the licensing authority must—

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (a) where the procedure specified in Article 28(4) of the 2001 Directive has concluded before [F⁵¹⁶IP completion day] in relation to that application, grant a UK marketing authorisation in respect of that application as soon as reasonably practicable, and in any event before the end of the period of 30 days, beginning with [F⁵¹⁶IP completion day]; or
 - (b) where the procedure specified in Article 28(4) of the 2001 Directive has not concluded before [F⁵¹⁶IP completion day], determine that application in accordance with Part 5 of these Regulations (marketing authorisations) as soon as reasonably practicable, unless the applicant notifies the licensing authority in writing that they no longer want the application to proceed.
- (3) In making a determination under sub-paragraph (2)(b), the licensing authority must have regard to—
- (a) any relevant information obtained by it before [F⁵¹⁶IP completion day] in relation to the application as a consequence of its involvement in any procedure provided for in Chapter 4 of Title III of the 2001 Directive;
 - (b) any relevant decision made, or agreement reached, before [F⁵¹⁶IP completion day], where the United Kingdom participated as a reference member state or concerned member state in the making of that decision or agreement, under any procedure provided for in Chapter 4 of Title III of the 2001 Directive; and
 - (c) any advice it receives from the appropriate committee pursuant to the procedures in Schedule 11 (advice and representations).
- (4) In making a determination under sub-paragraph (2)(b), the licensing authority must take all reasonable steps to ensure that it makes a decision to grant or refuse a UK marketing authorisation in the time period specified in regulation 58(1) (consideration of application) as if it had applied to that application on the date on which the application was submitted.

Transitional provision in respect of Plasma Master Files

35.—(1) This paragraph applies in relation to a UK marketing authorisation or EU marketing authorisation—

- (a) which was granted before [F⁵¹⁶IP completion day];
 - (b) the application for which made reference to a Plasma Master File within the meaning of paragraph 1.1(a), first indent, of Part III of Annex I to the 2001 Directive which was certified by the EMA in accordance with paragraph 1.1(c) of that Part of the Annex; and
 - (c) which remains in force as a UK marketing authorisation on and after [F⁵¹⁶IP completion day].
- (2) A holder of the UK marketing authorisation to which this paragraph applies may, subject to complying with the obligations in sub-paragraph (3), continue to refer to the Plasma Master File as certified by the EMA, notwithstanding the modifications to paragraph 1.1(c) of Part III of Annex I to the 2001 Directive in Schedule 8B, subject which that paragraph is to be read on and after [F⁵¹⁶IP completion day].
- (3) The holder of a UK marketing authorisation to which this paragraph applies must notify the licensing authority of—
- (a) the outcome of the annual update and recertification of the Plasma Master File by the EMA within 4 weeks beginning with the completion of that update and recertification;

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (b) any application for changes to the terms of the Plasma Master File which the holder seeks from the EMA, within 4 weeks beginning with the date of the application; and
 - (c) the outcome of any application referred to in paragraph (b), within 4 weeks beginning with the date on which the holder is notified of that outcome.
- (4) The licensing authority may at any time review the terms of a Plasma Master File to which reference is made in accordance with sub-paragraph (2), with a view to exercising its powers under these Regulations in relation to the UK marketing authorisation.

Suspensions of UK marketing authorisations that have effect immediately before [F⁵¹⁶IP completion day] that were imposed under Chapter 4 of Title III of the 2001 Directive or Regulation (EC) No 726/2004

36. Where, immediately before [F⁵¹⁶IP completion day], a marketing authorisation, which is a UK marketing authorisation on [F⁵¹⁶IP completion day], has been suspended pursuant to the procedures in Chapter IV of Title III of 2001 Directive or Regulation (EC) No 726/2004, the suspension—

- (a) continues to have effect on and after [F⁵¹⁶IP completion day] in accordance with the terms on which it was imposed; and
- (b) is to be treated as if it had been imposed by the licensing authority under Part 5 (marketing authorisations).

Referrals made under Article 31 of the 2001 Directive concerning the suspension, variation or revocation of an EU marketing authorisation or a UK marketing authorisation that have not concluded before [F⁵¹⁶IP completion day]

37.—(1) Sub-paragraph (2) applies where—

- (a) a specified matter has been referred under Article 31 of the 2001 Directive before [F⁵¹⁶IP completion day]; but
- (b) that procedure has not concluded before [F⁵¹⁶IP completion day].

(2) Where this sub-paragraph applies, the licensing authority must make a decision in respect of the specified matter in accordance with regulation 68 (revocation, variation and suspension of UK marketing authorisation) as soon as reasonably practicable.

(3) In making a decision under regulation 68 in accordance with sub-paragraph (2), the licensing authority must have regard to—

- (a) any relevant information obtained by it before [F⁵¹⁶IP completion day] in relation to the specified matter as a consequence of its involvement in any procedure provided for in Chapter 4 of Title III of the 2001 Directive;
- (b) any relevant decision made, or agreement reached, before [F⁵¹⁶IP completion day], where the United Kingdom participated as a member state in the making of that decision or agreement, under any procedure provided for in Chapter 4 of Title III of the 2001 Directive; and
- (c) any advice it receives from the appropriate committee pursuant to the procedures in Schedule 11.

(4) Sub-paragraph (5) applies if the licensing authority is making a decision under regulation 68 in accordance with sub-paragraph (2) in a case where the Committee for Medicinal Products for Human Use or the Co-ordination Group for Mutual Recognition and

Decentralised Procedures (as the case may be) has given a final opinion in relation to the matter referred under Article 31 of the 2001 Directive.

(5) Where this sub-paragraph applies, the licensing authority may treat the opinion as if it were the opinion of the appropriate committee for the purposes of paragraph 5 of Schedule 11 (advice and representations).

(6) Sub-paragraph (7) applies where—

- (a) a specified matter has been referred under Article 31 of the 2001 Directive before [F516IP completion day];
- (b) that referral has concluded before [F516IP completion day]; but
- (c) the licensing authority has not, before [F516IP completion day], taken the steps necessary to give effect to that decision or that opinion (as the case may be).

(7) Where this sub-paragraph applies, the licensing authority must take the steps necessary as a result of the decision or opinion to suspend, revoke or vary the UK marketing authorisation—

- (a) as soon as reasonably practicable; and
- (b) in the case of a UK marketing authorisation that is not a converted EU marketing authorisation, within the period specified in Article 34(3) of the 2001 Directive (if relevant).

(8) In this paragraph—

“concluded before [F516IP completion day]”, in relation to an Article 31 referral, means—

- (a) a Commission decision as provided for in Article 34(3) of the 2001 Directive has been taken before [F516IP completion day]; or
- (b) an opinion of the Co-ordination Group for Mutual Recognition and Decentralised Procedures, which constituted the end of the Article 31 referral procedure, has been given before [F516IP completion day]; and

“specified matter” means—

- (a) a matter referred under Article 31 of the 2001 Directive before [F516IP completion day] that concerns a proposal to suspend, revoke or otherwise vary a UK marketing authorisation or an EU marketing authorisation; but
- (b) does not include a referral made under Article 107i of the 2001 Directive.

PART 5

Transitional provision in relation to variations of marketing authorisations other than converted EU marketing authorisations

Application or notification made before [F516IP completion day] in respect of a variation under Chapter IIa of Regulation (EC) No 1234/2008 (variations to purely national marketing authorisations)

38.—(1) Sub-paragraph (2) applies where—

- (a) an application or notification in respect of a variation to a UK marketing authorisation has been submitted to the licensing authority under Chapter IIa of Regulation (EC) No 1234/2008 before [F516IP completion day]; but

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (b) the procedures specified in Article 13e of that Regulation (measures to close the variation procedures in Chapter IIa of that Regulation) have not concluded before [F⁵¹⁶IP completion day].
- (2) Where this sub-paragraph applies, the licensing authority must—
 - (a) determine which of the provisions specified in Schedule 10A that are relevant to that application or notification need to be taken on or after [F⁵¹⁶IP completion day], having regard to the steps that have already been undertaken under Chapter IIa of Regulation (EC) No 1234/2008 before [F⁵¹⁶IP completion day];
 - (b) assess the application or notification in accordance with the provisions of that Schedule the authority has determined are relevant to the application, as if the application or notification had been made under them; and
 - (c) take all reasonable steps to ensure that it assesses the notification or application in accordance with any relevant time period specified in that Schedule, as if the application had been made under the provisions in that Schedule before [F⁵¹⁶IP completion day].
- (3) Paragraphs 15 and 16 of Schedule 10A apply to any variation that falls under sub-paragraph (1)(a) or (b).

Application or notification made before [F⁵¹⁶IP completion day] in respect of a variation under Chapter II of Regulation (EC) No 1234/2008 (variations to marketing authorisations granted in accordance with Chapter 4 of the 2001 Directive)

39.—(1) This paragraph applies where an application or notification in respect of a variation to a marketing authorisation has been submitted to the licensing authority, as a relevant authority, under Chapter II of Regulation (EC) No 1234/2008 before [F⁵¹⁶IP completion day].

(2) If the procedures specified in Article 11(1) of Regulation (EC) No 1234/2008 have not concluded before [F⁵¹⁶IP completion day], the licensing authority must—

- (a) assess the application or notification in accordance with regulation 65C and Schedule 10A to these Regulations, as if the application or notification had been made under those provisions; and
- (b) make such an assessment having regard to the matters specified in sub-paragraph (5).

(3) If the procedures specified in Article 11(1) of Regulation (EC) No 1234/2008 have concluded before [F⁵¹⁶IP completion day]—

- (a) the licensing authority must take the steps specified in Article 11(2) of Regulation (EC) No 1234/2008 within the time limit specified in Article 23(1) of that Regulation; and
- (b) paragraphs 15 and 16 of Schedule 10A apply to the variation.

(4) In making a determination under sub-paragraph (2), the licensing authority must—

- (a) determine which steps of the procedures specified in Schedule 10A that are relevant to that application or notification need to be taken on or after [F⁵¹⁶IP completion day], having regard to the matters specified in sub-paragraph (5); and
- (b) take all reasonable steps to ensure that it assesses the notification or application in accordance with any time period specified in that Schedule, as if the application

had been made under the provisions in that Schedule before [F⁵¹⁶IP completion day].

(5) In making a determination under sub-paragraph (2), the licensing authority must have regard to—

- (a) any recommendation in relation to that application or notification given before [F⁵¹⁶IP completion day] pursuant to Article 5 of Regulation (EC) No 1234/2008;
- (b) any relevant information obtained by it before [F⁵¹⁶IP completion day], as a relevant authority, in relation to the application or notification by virtue of any procedure provided for in Chapter II of that Regulation; and
- (c) any relevant decision made, or agreement reached, before [F⁵¹⁶IP completion day], where the United Kingdom participated as a relevant authority, including any matter referred under the procedure specified in Article 13 of that Regulation.

Application or notification in respect of a variations made before [F⁵¹⁶IP completion day] under Article 20 of Regulation (EC) No 1234/2008 (work-sharing procedure)

40.—(1) Sub-paragraph (2) applies where—

- (a) an application or notification in respect of a variation to a UK marketing authorisation has been submitted to the licensing authority, as a relevant authority or the reference authority, under Article 20 of Regulation (EC) No 1234/2008;
- (b) the marketing authorisation is one to which Chapter II or IIa of that Regulation applied; and
- (c) the procedure in Article 20(8) has not been completed before [F⁵¹⁶IP completion day].

(2) Where this sub-paragraph applies, the licensing authority must—

- (a) determine which of the provisions specified in Schedule 10A that are relevant to that application or notification need to be taken on or after [F⁵¹⁶IP completion day], having regard to the steps that have already been undertaken under Article 20 of Regulation (EC) No 1234/2008 before [F⁵¹⁶IP completion day];
- (b) assess the application or notification in accordance with the relevant provisions in that Schedule, as if the application or notification had been made under them; and
- (c) take all reasonable steps to ensure that it assesses the notification or application in accordance with any relevant time period specified in that Schedule, as if the application had been made under the provisions in that Schedule before [F⁵¹⁶IP completion day].

(3) In making a determination or assessment under sub-paragraph (2), the licensing authority must have regard to—

- (a) any opinion given by the reference authority before [F⁵¹⁶IP completion day] in relation to that application;
- (b) any relevant information obtained by it before [F⁵¹⁶IP completion day], as a reference authority or relevant authority, in relation to the application or notification by virtue of any procedure provided for in regulation 20 of Regulation (EC) No 1234/2008; and
- (c) any relevant decision made, or agreement reached, before [F⁵¹⁶IP completion day], where the United Kingdom participated as a relevant authority.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(4) Paragraphs 15 and 16 of Schedule 10A apply to any variation that falls under sub-paragraph (1).

PART 6

Transitional provision in relation to the Paediatric Regulation

Transitional provision in relation to applications made to EMA before [F⁵¹⁶IP completion day] under the Paediatric Regulation

41.—(1) Where a paediatric investigation plan has been agreed by the EMA in accordance with the Paediatric Regulation before [F⁵¹⁶IP completion day], that plan, including any modifications agreed by the EMA before [F⁵¹⁶IP completion day], has effect on and after [F⁵¹⁶IP completion day] as an agreed paediatric investigation plan.

(2) Sub-paragraph (3) applies where—

- (a) a paediatric investigation plan has been submitted to the EMA with a request for agreement before [F⁵¹⁶IP completion day];
- (b) the proposed paediatric plan is valid in accordance with the provisions of Article 15(2) of the Paediatric Regulation; but
- (c) the EMA has not adopted a decision to agree the plan before [F⁵¹⁶IP completion day].

(3) Where this sub-paragraph applies, the licensing authority must—

- (a) where an opinion favourable to agreeing the paediatric investigation plan ^{F⁵³¹}... has been given by the Paediatric Committee before [F⁵¹⁶IP completion day], treat the plan as an agreed paediatric investigation plan;
- (b) where an opinion against agreeing the paediatric investigation plan ^{F⁵³¹}... has been given by the Paediatric Committee before [F⁵¹⁶IP completion day], decide that it cannot agree the plan under regulation 50B(5) (agreement and modification of paediatric investigation plan); or
- (c) where before [F⁵¹⁶IP completion day] no opinion in relation to the paediatric investigation plan has been given by the Paediatric Committee ^{F⁵³²}... treat it as a request for agreement under regulation 50B(1) and determine that request as soon as reasonably practicable, unless the applicant notifies the licensing authority in writing that they do not want the application to proceed as a request for agreement of a paediatric investigation plan under these Regulations.

(4) Sub-paragraph (5) applies where—

- (a) a paediatric investigation plan has been agreed by the EMA in accordance with the Paediatric Regulation before [F⁵¹⁶IP completion day];
- (b) the person to whom the EMA's decision to agree the plan was addressed has, before [F⁵¹⁶IP completion day], made a proposal under Article 22 of the Paediatric Regulation to modify the plan, or to request a waiver; but
- (c) the EMA has not adopted a decision to agree to the modification or waiver before [F⁵¹⁶IP completion day].

(5) Where this sub-paragraph applies, the licensing authority must—

Status: This version of this Instrument contains provisions that are prospective.

Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (a) where an opinion favourable to agreeing the modification or waiver ^{F531}... has been given by the Paediatric Committee before [^{F516}IP completion day], agree to the modification or waiver as if it had been requested under regulation 50B(6);
 - (b) where an opinion against agreeing the modification or waiver ^{F531}... has been given by the Paediatric Committee before [^{F516}IP completion day], decide that it cannot agree to the modification or waiver as if it had been requested under regulation 50B(6); or
 - (c) where before [^{F516}IP completion day] no opinion in relation to the modification or waiver has been given by the Paediatric Committee ^{F532}... treat the proposal as one made under regulation 50B(6) and consider it accordingly, unless the applicant notifies the licensing authority in writing that they do not want the proposal to proceed as a proposal under regulation 50B(6).
- (6) Where the EMA has adopted a decision to grant, and has not revoked, a waiver of the obligation to produce the information in Article 7(1)(a) of the Paediatric Regulation before [^{F516}IP completion day], that waiver has effect on and after [^{F516}IP completion day] as a waiver granted by the licensing authority under regulation 50D (waiver of production of information in a paediatric investigation plan).
- (7) Sub-paragraph (8) applies where—
- (a) an application has been made to the EMA for a waiver of the obligation to produce the information in Article 7(1)(a) of the Paediatric Regulation before [^{F516}IP completion day];
 - (b) the application has been accepted as valid by the EMA; but
 - (c) the EMA has not adopted a decision to grant the waiver before [^{F516}IP completion day].
- (8) Where this sub-paragraph applies, the licensing authority must—
- (a) where an opinion favourable to agreeing the waiver ^{F531}... has been given by the Paediatric Committee before [^{F516}IP completion day], grant the waiver under regulation 50D(2);
 - (b) where an opinion against agreeing the waiver ^{F531}... has been given by the Paediatric Committee before [^{F516}IP completion day], decide that it cannot grant the waiver under regulation 50D(2); or
 - (c) where before [^{F516}IP completion day] no opinion in relation to the waiver has been given by the Paediatric Committee ^{F532}... treat the proposal as one made under regulation 50D and consider it accordingly, unless the applicant notifies the licensing authority in writing that they do not want the proposal to proceed as a proposal under regulation 50D.

^{F533}**Transitional provision in relation to global marketing authorisations under the 2001 Directive**

41A. Where a relevant medicinal product is subject to a global marketing authorisation as described in Article 6 of the 2001 Directive before IP completion day, a paediatric investigation plan does not need to be carried out in relation to that product.]

PART 7

Transitional provision in relation to orphan medicinal products

F534 ...

•

PART 8

Transitional provision in respect of homoeopathic medicinal products

List of countries for the purposes of the definition of “homoeopathic medicinal product” on [F516IP completion day]

43.—(1) For the purposes of the definition of “homoeopathic medicinal product” in regulation 8 (general interpretation: accepted Pharmacopoeias for homoeopathic manufacturing procedures), during the transitional period, the licensing authority must publish a list of countries that includes each EEA State in it.

(2) The licensing authority must not, before the end of the transitional period, remove an EEA State from the list described in sub-paragraph (1).

(3) In this paragraph, “the transitional period” is the period of two years beginning with [F516IP completion day].

Place of establishment for holders of certificates of registration established in EEA before [F516IP completion day]

44.—(1) Subject to sub-paragraph (2), any person—

(a) who—

- (i) holds a certificate of registration immediately before [F516IP completion day] which remains in force on [F516IP completion day] (whether or not it is suspended),
- (ii) has made an application for, or to renew, a certificate of registration before [F516IP completion day], which has not been determined by the licensing authority before that date, or
- (iii) makes such an application on or after [F516IP completion day] but before the end of the transitional period; and

(b) who was, immediately before [F516IP completion day], established in an EEA State and who remains there on and after that day,

is to be treated, for the transitional period, as satisfying the requirements of regulation 103(4) or 108(2) (as the case may be), notwithstanding the amendments made to those provisions by the EU Exit Regulations.

(2) But sub-paragraph (1) continues to apply to a person [F535], in relation to a certificate of registration in force in Great Britain, only if the person has notified the licensing authority in writing of—

- (a) a named individual who resides and operates in the United Kingdom who the licensing authority may contact in respect of any matter relating to the

certificate of registration, or application for a certificate of registration, during the transitional period; and

(b) that individual's address, telephone number and email address.

(3) A person must notify the licensing authority under sub-paragraph (2)—

(a) where sub-paragraph (1)(a)(i) or (ii) applies, within the period of 4 weeks beginning with [^{F516}IP completion day]; or

(b) where sub-paragraph (1)(a)(iii) applies, at the time of making the application.

(4) In this paragraph “the transitional period” means the period of [^{F520}24 months] beginning with [^{F516}IP completion day].

Temporary exemption as to packaging requirements: change of place of establishment

45.—(1) Subject to sub-paragraph (2), a person to whom paragraph 44 applies does not commit an offence under regulation 268 (offence relating to packaging and package leaflets [^{F526}in Great Britain]) during the transitional period in relation to a product to the extent that—

(a) the packaging and package leaflet do not comply with the requirements of Part 13 (packaging and leaflets) by reason only of the fact that the outer or immediate packaging, or the package leaflet (as the case may be), do not include the correct information as to—

(i) the name and address of the holder of the certificate of registration,

(ii) the number of the certificate of registration, or

(iii) the name and address of the manufacturer of the product if different from the holder of the certificate of registration; and

(b) the outer and immediate packaging, or the package leaflet, do not include the correct information specified in paragraph (a)(i) to (iii) solely because—

(i) the holder of the certificate of registration has established itself in the United Kingdom before the end of the period of [^{F520}24 months] beginning with [^{F516}IP completion day] in order to comply with regulation 103(4) or 108(2), and

(ii) the information specified in paragraph (a)(i) to (iii) is no longer correct as a consequence of that establishment in the United Kingdom.

(2) Sub-paragraph (1) only applies if—

(a) the packaging and package leaflet met the requirements of Part 13 as to the matters specified in sub-paragraph (1)(a)(i) to (iii) immediately before [^{F516}IP completion day]; and

(b) the certificate of registration holder, having established itself in the United Kingdom, does not otherwise need to make any changes to the outer or immediate packaging, or the package leaflet, as the case may be, during the transitional period.

(3) In this paragraph “the transitional period” means the period of [^{F521}36 months] beginning with [^{F516}IP completion day].

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

Applications made for a certificate of registration for a registrable homoeopathic product before [F⁵¹⁶IP completion day] to which Chapter 4 of Title III of the 2001 Directive applied

46.—(1) Sub-paragraph (2) applies where an application for a certificate of registration has been made before [F⁵¹⁶IP completion day] and—

- (a) regulation 104(5) and (6) (applications to be determined under Chapter 4 of Title III of the 2001 Directive) applied to that application before [F⁵¹⁶IP completion day]; but
- (b) a decision as specified in Article 28(5) of the 2001 Directive has not been adopted by the licensing authority before [F⁵¹⁶IP completion day].

(2) Where this sub-paragraph applies, the licensing authority must—

- (a) where the procedure specified in Article 28(4) of the 2001 Directive has concluded before [F⁵¹⁶IP completion day] in relation to that application, grant a certificate of registration in respect of that application as soon as reasonably practicable, and in any event before the end of the period of 30 days, beginning with [F⁵¹⁶IP completion day]; or
- (b) where the procedure specified in Article 28(4) of the 2001 Directive has not concluded before [F⁵¹⁶IP completion day], determine that application in accordance with Part 6 of these Regulations as soon as reasonably practicable, unless the applicant notifies the licensing authority in writing that they no longer want the application to proceed.

(3) In making a determination under sub-paragraph (2)(b), the licensing authority must have regard to—

- (a) any relevant information obtained by it before [F⁵¹⁶IP completion day] in relation to the application as a consequence of its involvement in any procedure provided for in Chapter 4 of Title III of the 2001 Directive; and
- (b) any relevant decision made, or agreement reached, before [F⁵¹⁶IP completion day], where the United Kingdom participated as a reference member state or concerned member state in the making of that decision or agreement, under any procedure provided for in Chapter 4 of Title III of the 2001 Directive.

(4) In making a determination under sub-paragraph (2)(b), the licensing authority must take all reasonable steps to ensure that it makes a decision to grant or refuse a certificate of registration in the time period specified in regulation 104(1) as if it had applied to that application on the date on which the application was submitted.

Suspensions of certificates of registration that have effect immediately before [F⁵¹⁶IP completion day] that were imposed under Chapter 4 of Title III of the 2001 Directive

47. Where, immediately before [F⁵¹⁶IP completion day], a certificate of registration has been suspended pursuant to the procedures in Chapter IV of Title III of 2001 Directive, the suspension—

- (a) continues to have effect on and after [F⁵¹⁶IP completion day] in accordance with the terms on which it was imposed; and
- (b) is to be treated as if it had been imposed by the licensing authority under Part 6 of these Regulations (certification of homoeopathic medicinal products).

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

Referrals made under Article 31 of the 2001 Directive concerning the suspension, variation or revocation of a certificate of registration that have not concluded before [F⁵¹⁶IP completion day]

48.—(1) Sub-paragraph (2) applies where—

- (a) a specified matter has been referred under Article 31 of the 2001 Directive before [F⁵¹⁶IP completion day]; but
- (b) the procedure has not concluded before [F⁵¹⁶IP completion day].

(2) Where this sub-paragraph applies, the licensing authority must make a decision in respect of the specified matter in accordance with regulation 110 (revocation, variation and suspension of certificate of registration) as soon as reasonably practicable.

(3) In making a decision under regulation 110 in accordance with sub-paragraph (2), the licensing authority must have regard to—

- (a) any relevant information obtained by it before [F⁵¹⁶IP completion day] in relation to the specified matter as a consequence of its involvement in any procedure provided for in Chapter 4 of Title III of the 2001 Directive;
- (b) any relevant decision made, or agreement reached, before [F⁵¹⁶IP completion day], where the United Kingdom participated as a member state in the making of that decision or agreement, under any procedure provided for in Chapter 4 of Title III of the 2001 Directive;
- (c) any advice it receives from the appropriate committee pursuant to the procedures in Schedule 11 (advice and representations).

(4) Sub-paragraph (5) applies if the licensing authority is making a decision under regulation 110 in accordance with sub-paragraph (2) in a case where the Co-ordination Group for Mutual Recognition and Decentralised procedures has given an opinion in relation to the matter under Article 31 of the Directive.

(5) Where this sub-paragraph applies, the licensing authority may treat the opinion as if it were the opinion of the appropriate committee for the purposes of paragraph 5 of Schedule 11.

(6) Sub-paragraph (7) applies where—

- (a) a specified matter has been referred under Article 31 of the 2001 Directive before [F⁵¹⁶IP completion day];
- (b) the referral has concluded before [F⁵¹⁶IP completion day]; but
- (c) the licensing authority has not, before [F⁵¹⁶IP completion day], taken the steps necessary to give effect to that decision or that opinion (as the case may be).

(7) The licensing authority must take the steps necessary as a result of the decision or opinion to suspend, revoke or vary the certificate of registration within the time period specified in Article 34(3) of the 2001 Directive where the decision or opinion requires steps to be taken in relation to a certificate of registration.

(8) In this paragraph—

“concluded before [F⁵¹⁶IP completion day]”, in relation to an Article 31 referral, means—

- (a) a Commission decision as provided for in Article 34(3) of the 2001 Directive has been taken before [F⁵¹⁶IP completion day]; or

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (b) an opinion of the Co-ordination Group for Mutual Recognition and Decentralised Procedures, which constituted the end of the Article 31 referral procedure, has been given before [F516IP completion day];

“specified matter” means—

- (a) a matter referred under Article 31 of the 2001 Directive before [F516IP completion day] that concerns a proposal to suspend, revoke or otherwise vary a certificate of registration; but
- (b) does not include a referral made under Article 107i of the 2001 Directive.

PART 9

Transitional provision in respect of traditional herbal registrations

Place of establishment for holders of traditional herbal registrations established in EEA before [F516IP completion day]

49.—(1) Subject to sub-paragraph (2), any person—

- (a) who—
 - (i) holds a traditional herbal registration immediately before [F516IP completion day] which remains in force on [F516IP completion day] (whether or not it is suspended),
 - (ii) has made an application for, or to renew, a traditional herbal registration before [F516IP completion day], which has not been determined by the licensing authority before that date, or
 - (iii) makes such an application on or after [F516IP completion day] but before the end of the transitional period; and
- (b) who was, immediately before [F516IP completion day], established in an EEA State and who remains there on and after that day,

is to be treated, for the transitional period, as satisfying the requirements of regulation 127(3) or 133(2) (as the case may be), notwithstanding the amendments made to those provisions by the EU Exit Regulations.

(2) But sub-paragraph (1) continues to apply to a person [F536], only in relation to a registration in force in Great Britain, and] only if the person notifies the licensing authority in writing of—

- (a) a named individual who resides and operates in the United Kingdom who the licensing authority may contact in respect of any matter relating to the traditional herbal registration, or application for a traditional herbal registration, during the transitional period; and
 - (b) that individual's address, telephone number and email address.
- (3) A person must notify the licensing authority under sub-paragraph (2)—
- (a) where sub-paragraph (1)(a)(i) or (ii) applies, within the period of 4 weeks beginning with [F516IP completion day]; or
 - (b) where sub-paragraph (1)(a)(iii) applies, at the time of making the application.

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(4) In this paragraph “the transitional period” means the period of [^{F520}24 months] beginning with [^{F516}IP completion day].

Temporary exemption as to packaging requirements: change of place of establishment

50.—(1) Subject to sub-paragraph (2), a person to whom paragraph 49 applies does not commit an offence under regulation 268 (offence relating to packaging and package leaflets [^{F526}in Great Britain]) during the transitional period in relation to a product to the extent that—

- (a) the packaging and package leaflet do not comply with the requirements of Part 13 (packaging and leaflets) by reason only of the fact that the outer or immediate packaging, or the package leaflet (as the case may be), do not include the correct information as to—
 - (i) the name and address of the holder of the traditional herbal registration, or, if applicable, the holder's representative,
 - (ii) the number of the traditional herbal registration, or
 - (iii) the name and address of the manufacturer of the product; and
 - (b) the outer and immediate packaging, or the package leaflet, do not include the correct information specified in paragraph (a)(i) to (iii) solely because—
 - (i) the holder of the traditional herbal registration has established itself in the United Kingdom before the end of the period of [^{F520}24 months] beginning with [^{F516}IP completion day] in order to comply with regulation 127(3) or 133(2), and
 - (ii) the information specified in paragraph (a)(i) to (iii) is no longer correct as a consequence of that establishment in the United Kingdom.
- (2) Sub-paragraph (1) only applies if—
- (a) the packaging and package leaflet met the requirements of Part 13 as to the matters specified in sub-paragraph (1)(a)(i) to (iii) immediately before [^{F516}IP completion day]; and
 - (b) the holder of the traditional herbal registration, having established itself in the United Kingdom, does not otherwise need to make any changes to the outer or immediate packaging, or the package leaflet, as the case may be, during the transitional period.

(3) In this paragraph “the transitional period” means the period of [^{F521}36 months] beginning with [^{F516}IP completion day].

List of approved countries for traditional use of a herbal medicinal product on [^{F516}IP completion day]

51.—(1) For the purpose of regulation 125A (list of approved countries for traditional use of a herbal medicinal product), the licensing authority must, for the transitional period, include each EEA State in the list it publishes under regulation 125A(1).

(2) The licensing authority must not, before the end of the transitional period, exercise its power under regulation 125A(3) to remove an EEA State from the list.

(3) In this paragraph, the transitional period is two years beginning with [^{F516}IP completion day].

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

Applications made for a traditional herbal registration before [F⁵¹⁶IP completion day] to which Chapter 4 of Title III of the 2001 Directive applied

52.—(1) Sub-paragraph (2) applies where an application for a traditional herbal registration [F⁵³⁷to be in force in Great Britain only] has been made before [F⁵¹⁶IP completion day] and—

- (a) regulation 130(12) and (13) (applications to be determined under Chapter 4 of Title III of the 2001 Directive) applied to that application before [F⁵¹⁶IP completion day]; but
 - (b) a decision as specified in Article 28(5) of the 2001 Directive has not been adopted by the licensing authority before [F⁵¹⁶IP completion day].
- (2) Where this sub-paragraph applies, the licensing authority must—
- (a) where the procedure specified in Article 28(4) of the 2001 Directive has concluded before [F⁵¹⁶IP completion day] in relation to that application, grant a traditional herbal registration in respect of that application as soon as reasonably practicable, and in any event before the end of the period of 30 days, beginning with [F⁵¹⁶IP completion day]; or
 - (b) where the procedure specified in Article 28(4) of the 2001 Directive has not concluded before [F⁵¹⁶IP completion day], determine that application in accordance with Part 7 of these Regulations as soon as reasonably practicable, unless the applicant notifies the licensing authority in writing that they no longer want the application to proceed.
- (3) In making a determination under sub-paragraph (2)(b), the licensing authority must have regard to—
- (a) any relevant information obtained by it before [F⁵¹⁶IP completion day] in relation to the application as a consequence of its involvement in any procedure provided for in Chapter 4 of Title III of the 2001 Directive;
 - (b) any relevant decision made, or agreement reached, before [F⁵¹⁶IP completion day], where the United Kingdom participated as a reference member state or concerned member state in the making of that decision or agreement, under any procedure provided for in Chapter 4 of Title III of the 2001 Directive;
 - (c) any advice it receives from the appropriate committee pursuant to the procedures in Schedule 11 (advice and representations).
- (4) In making a determination under sub-paragraph (2)(b), the licensing authority must take all reasonable steps to ensure that it makes a decision to grant or refuse a traditional herbal registration in the time period specified in regulation 130(1) as if it had applied to that application on the date on which the application was submitted.

Suspensions of traditional herbal registrations that have effect immediately before [F⁵¹⁶IP completion day] that were imposed under Chapter 4 of Title III of the 2001 Directive

53. Where, immediately before [F⁵¹⁶IP completion day], a traditional herbal registration [F⁵³⁸in force in Great Britain only] has been suspended pursuant to the procedures in Chapter IV of Title III of 2001 Directive, the suspension—

- (a) continues to have effect on and after [F⁵¹⁶IP completion day] in accordance with the terms on which it was imposed; and

*Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)*

- (b) is to be treated as if it had been imposed by the licensing authority under Part 7 of these Regulations (traditional herbal registrations).

Referrals made under Article 31 of the 2001 Directive concerning the suspension, variation or revocation of a traditional herbal registration that have not concluded before [F⁵¹⁶IP completion day]

54.—(1) Sub-paragraph (2) applies where—

- (a) a specified matter has been referred under Article 31 of the 2001 Directive before [F⁵¹⁶IP completion day]; but
- (b) the procedure has not concluded before [F⁵¹⁶IP completion day].

(2) Where this sub-paragraph applies, the licensing authority must make a decision in respect of the specified matter in accordance with regulation 135 (revocation, variation and suspension of traditional herbal registration) as soon as reasonably practicable.

(3) In making a decision under regulation 135 in accordance with sub-paragraph (2), the licensing authority must have regard to—

- (a) any relevant information obtained by it before [F⁵¹⁶IP completion day] in relation to the specified matter as a consequence of its involvement in any procedure provided for in Chapter 4 of Title III of the 2001 Directive;
- (b) any relevant decision made, or agreement reached, before [F⁵¹⁶IP completion day], where the United Kingdom participated as a member state in the making of that decision or agreement, under any procedure provided for in Chapter 4 of Title III of the 2001 Directive;
- (c) any advice it receives from the appropriate committee pursuant to the procedures in Schedule 11 (advice and representations).

(4) Sub-paragraph (5) applies if the licensing authority is making a decision under regulation 135 of these Regulations in accordance with sub-paragraph (2) in a case where the Co-ordination Group for Mutual Recognition and Decentralised procedures has given an opinion in relation to the matter under Article 31 of the Directive.

(5) Where this sub-paragraph applies, the licensing authority may treat the opinion as if it were the opinion of the appropriate committee for the purposes of paragraph 5 of Schedule 11.

(6) Sub-paragraph (7) applies where—

- (a) a specified matter has been referred under Article 31 of the 2001 Directive before [F⁵¹⁶IP completion day];
- (b) the referral has concluded before [F⁵¹⁶IP completion day]; but
- (c) the licensing authority has not, before [F⁵¹⁶IP completion day], taken the steps necessary to give effect to that decision or that opinion (as the case may be).

(7) Where this sub-paragraph applies, the licensing authority must take the steps necessary as a result of the decision or opinion to suspend, revoke or vary the traditional herbal registration within the time period specified in Article 34(3) of the 2001 Directive where the decision or opinion requires steps to be taken in relation to a traditional herbal registration.

(8) In this paragraph—

“concluded before [F⁵¹⁶IP completion day]”, in relation to an Article 31 referral, means—

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (a) a Commission decision as provided for in Article 34(3) of the 2001 Directive has been taken before [F516IP completion day]; or
 - (b) an opinion of the Co-ordination Group for Mutual Recognition and Decentralised Procedures, which constituted the end of the Article 31 referral procedure, has been given before [F516IP completion day]; and
- “specified matter” means—
- (a) a matter referred under Article 31 of the 2001 Directive before [F516IP completion day] that concerns a proposal to suspend, revoke or otherwise vary a traditional herbal registration; but
 - (b) does not include a referral made under Article 107i of the 2001 Directive.

Proposals to refer an application for a traditional herbal registration to the Committee for Herbal Medicinal Products and the procedure in Part 3 of Schedule 11 that were on-going at [F516IP completion day]

55.—(1) This paragraph applies where—

- (a) the licensing authority has proposed to refer an application for a traditional herbal registration [F539to be in force in Great Britain only] to the Committee on Herbal Medicinal Products in accordance with Article 16c(4) of the 2001 Directive before [F516IP completion day]; but
- (b) that application has not been determined in accordance with Part 7 of these Regulations before [F516IP completion day].

(2) Where the licensing authority has received an opinion of the Committee for Herbal Medicinal Products before [F516IP completion day] in relation to the application, it must take that decision into account and determine that application.

(3) Where the licensing authority has not received an opinion of the Committee for Herbal Medicinal Products before [F516IP completion day], notwithstanding the amendments made to Part 3 of Schedule 11 by the EU Exit Regulations, it may—

- (a) proceed to determine the application, taking into account any proceedings that took place before [F516IP completion day] under Part 3 of Schedule 11 (prior to its amendment by the EU Exit Regulations), or any opinion of the Committee on Herbal Medicinal Products in relation to the application that is given on or after [F516IP completion day]; or
- (b) it may refer the matter under regulation 130A in order to obtain the findings and advice of the appropriate committee before determining the application.

PART 10

Transitional provision in respect of pharmacovigilance

Interpretation of Part

^{F540}**56.**

*Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)*

Temporary exemption as to the location of an appropriately qualified person for pharmacovigilance

^{F541}57.

Referrals made under Article 107i of the 2001 Directive concerning the evaluation of data from pharmacovigilance activities which are not concluded before [^{F516}IP completion day]

58.—(1) Sub-paragraph (2) applies where—

- (a) a specified matter [^{F542}in relation to a UKMA(GB) or a THR(GB)] has been referred under Article 107i of the 2001 Directive (urgent Union procedure) before [^{F516}IP completion day]; but
- (b) that procedure has not concluded before [^{F516}IP completion day].

(2) Where this sub-paragraph applies, the licensing authority must make a decision in respect of the specified matter in accordance with regulation 68 or 135 (revocation, variation and suspension of [^{F543}UKMA(GB) or THR(GB)]) as soon as reasonably practicable.

(3) In making a decision under regulation 68 or 135 in accordance with sub-paragraph (2), the licensing authority must have regard to—

- (a) any relevant information obtained by it before [^{F516}IP completion day] in relation to the specified matter as a consequence of its involvement in any procedure provided for by, or referred to in, Section 4 of Chapter 3 of the 2001 Directive;
- (b) any relevant decision made, or agreement reached, before [^{F516}IP completion day], where the United Kingdom participated as a member state in the making of that decision or agreement, under any procedure provided for by, or referred to in, Section 4 of Chapter 3 of the 2001 Directive; and
- (c) any advice it receives from the appropriate committee pursuant to the procedures in Schedule 11 (advice and representations).

(4) Sub-paragraph (5) applies if the licensing authority is making a decision under regulation 68 or 135 in accordance with sub-paragraph (2) in a case where the Committee for Medicinal Products for Human Use or the Co-ordination Group for Mutual Recognition and Decentralised Procedures (as the case may be) has given a final opinion in relation to the matter.

(5) Where this sub-paragraph applies, the licensing authority may treat the opinion as if it were the opinion of the appropriate committee for the purposes of paragraph 5 of Schedule 11 (advice and representations).

(6) In making a determination under regulation 68 or 135 in accordance with sub-paragraph (2), the licensing authority may adopt or have regard to any decision made, or agreement reached, in relation to the specified matter under Section 4 of Chapter 3 of the 2001 Directive on or after [^{F516}IP completion day], notwithstanding that the United Kingdom did not participate in the making of that decision or agreement.

(7) Sub-paragraph (8) applies where—

- (a) a specified matter [^{F544}in relation to a UKMA(GB) or a THR(GB)] has been referred under Article 107i of the 2001 Directive before [^{F516}IP completion day]; and
- (b) that referral has concluded before [^{F516}IP completion day]; but

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (c) the licensing authority has not, before [F516IP completion day], taken the steps necessary to give effect to that decision or that opinion (as the case may be).
- (8) Where this sub-paragraph applies, the licensing authority must take the steps necessary as a result of the decision or opinion to suspend, revoke or vary the UK marketing authorisation or traditional herbal registration—
 - (a) as soon as reasonably practicable, and, where relevant, within the time period specified in Article 34(3) of the 2001 Directive where a Commission decision requires steps to be taken in relation to a UK marketing authorisation that is not a converted EU marketing authorisation, or traditional herbal registration; or
 - (b) as soon as reasonably practicable, where a Commission decision or opinion requires steps to be taken in respect of a UK marketing authorisation that is a converted EU marketing authorisation.
- (9) In this paragraph—
 - “concluded before [F516IP completion day]”, in relation to an Article 107i referral, means—
 - (a) a Commission decision as provided for in Article 107k of the 2001 Directive has been taken before [F516IP completion day]; or
 - (b) an opinion of the Co-ordination Group for Mutual Recognition and Decentralised Procedures, which constituted the end of the Article 107i referral procedure in accordance with Article 107k(2), has been given before [F516IP completion day];
 - “specified matter” means a referral made under Article 107i of the 2001 Directive on the basis of concerns resulting from the evaluation of data from pharmacovigilance activities.

Matters on-going at [F516IP completion day] in respect of periodic safety update reports

- 59.**—(1) Sub-paragraph (2) applies where—
- (a) a holder [F545of a UKMA(GB) or a THR(GB)] has submitted a periodic safety update report under regulation 191 before [F516IP completion day];
 - (b) that periodic safety report is, immediately before [F516IP completion day], to be assessed in accordance with the single assessment procedure in Article 107e of the 2001 Directive;
 - (c) the procedure described in Article 107e(3) of the 2001 Directive has been completed before [F516IP completion day]; but
 - (d) the licensing authority has not yet taken the steps described in regulation 194 before [F516IP completion day].
- (2) Where this sub-paragraph applies, notwithstanding the [F546amendment] of regulation 194 (responding to a single assessment of PSUR under Article 107e of the 2001 Directive) by the EU Exit Regulations, the licensing authority must take the steps specified in regulation 194 in respect of the [F547UKMA(GB) or THR(GB)] as soon as reasonably practicable.
- (3) Sub-paragraph (4) applies where—
- (a) a holder [F548of a UKMA(GB) or a THR(GB)] has submitted a periodic safety update report under regulation 191 before [F516IP completion day];

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (b) that periodic safety report is, immediately before [F516IP completion day], to be assessed in accordance with the single assessment procedure in Article 107e of the 2001 Directive; and
 - (c) the procedure described in Article 107e(3) of the 2001 Directive has not been completed before [F516IP completion day].
- (4) Where this sub-paragraph applies, the licensing authority—
- (a) may notify a holder falling within sub-paragraph (3)(a) of the need to provide to it such further information that the licensing authority specifies; and
 - (b) must, subject to sub-paragraph (5), assess the periodic safety update report in accordance with regulation 195 (obligations on licensing authority to assess PSURs) (as amended by the EU Exit Regulations) as soon as reasonably practicable.
- (5) Information required under sub-paragraph (4)(a) must be provided before the end of whatever period the licensing authority may specify.
- (6) In making a determination under regulation 195, where sub-paragraph (4) applies, the licensing authority may adopt or have regard to—
- (a) any relevant information obtained by it before [F516IP completion day] in relation to the periodic safety report and the assessment of that report as a consequence of its involvement in any procedure provided for in Section 2 of Chapter III of the 2001 Directive;
 - (b) any relevant decision made, or agreement reached, in relation to the periodic safety update report or its assessment before [F516IP completion day], where the United Kingdom participated as a member state in the making of that decision or agreement, under any procedure provided for in Section 2 of Chapter III of the 2001 Directive;
 - (c) any decision made, or agreement reached, in relation to that marketing authorisation or certificate of registration under Section 2 of Chapter III of the 2001 Directive on or after [F516IP completion day], notwithstanding that the United Kingdom did not participate in the making of that decision or agreement.

Matters on-going at [F516IP completion day] in relation to draft study protocols under Article 107n and 107o of the 2001 Directive (submission of, and amendment to, draft study protocols for required studies)

60.—(1) Where the Pharmacovigilance Risk Assessment Committee has, before [F516IP completion day]—

- (a) issued a letter endorsing a draft study protocol under Article 107n(2)(a) of the 2001 Directive;
- (b) informed a holder [F549 of a UKMA(GB) or a THR(GB)] that the study is a clinical trial under Article 107n(2)(c) of the 2001 Directive; or
- (c) informed a holder of its endorsement of a substantial amendment to that protocol under Article 107o of the 2001 Directive,

the licensing authority is deemed to have accepted the draft study protocol, or the amended draft study protocol, or made that decision (as the case may be) under regulation 199(5) (submission of draft study protocols for required studies) or 200(5)(b) (amendment to study protocols for required studies).

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(2) Where sub-paragraph (1) applies, the licensing authority may request the holder [F550 of a UKMA(GB) or a THR(GB)] to provide to it any information in relation to the procedures under Article 107n or 107o of the 2001 Directive within a specified time period, and that holder must provide that information within that time period.

(3) Sub-paragraph (4) applies where, before [F516IP completion day]—

- (a) a holder [F551 of a UKMA(GB) or a THR(GB)] is proposing to, or, pursuant to Article 21a or 22a of the 2001 Directive, is under a duty to, undertake a non-interventional post-authorisation safety study; and
- (b) the procedure specified in Article 107n or 107o of the 2001 Directive has not concluded before [F516IP completion day].

(4) Where this sub-paragraph applies, on and after [F516IP completion day], the holder must—

- (a) submit any further information that has been required of it by the Pharmacovigilance Risk Assessment Committee to the licensing authority; and
- (b) submit to the licensing authority such further information that it may request in relation to the procedures under Article 107n or 107o of the 2001 Directive within a time period specified by the licensing authority, whether or not that information has already been submitted to, or received from, that Committee before [F516IP completion day],

and the licensing authority must assess that information in accordance with regulation 199 or 200 (as the case may be).

(5) In this paragraph, “not concluded before [F516IP completion day]” means that—

- (a) a holder [F552 of a UKMA(GB) or a THR(GB)] is proposing to, or, pursuant to Article 21a or 22a of the 2001 Directive, is under a duty to, undertake a non-interventional post-authorisation safety study;
- (b) the Pharmacovigilance Risk Assessment Committee has not taken any of the steps specified in sub-paragraph (1)(a) to (c).

Matters on-going at [F516IP completion day] in respect of the follow up of final study reports

61.—(1) Sub-paragraph (2) applies where—

- (a) a final study report has been submitted to the Pharmacovigilance Risk Assessment Committee under Article 107p of the 2001 Directive; but
- (b) that committee has not, before [F516IP completion day], made recommendations under Article 107q(1) of the 2001 Directive.

(2) Where this sub-paragraph applies—

- (a) the licensing authority may, on or after [F516IP completion day], request the holder [F553 of a UKMA(GB) or a THR(GB)] to submit to it the information specified in regulation 201(2) (submission and evaluation of final study reports for required studies), and such further information relating to the final study report, or the procedure provided for in Chapter 4 of Title IX of the 2001 Directive, as the licensing authority may require; and
- (b) that holder [F553 of a UKMA(GB) or a THR(GB)] must, in any event, undertake the steps specified in regulation 201(5) in respect of that final study report.

(3) Sub-paragraph (4) applies where—

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

- (a) regulation 202(1) (follow-up of final study reports) applied before [^{F516}IP completion day] in respect of a final study report; but
 - (b) the licensing authority has not, before [^{F516}IP completion day], taken the steps specified in regulation 202(2).
- (4) Where this paragraph applies, notwithstanding the [^{F554}amendment] of regulation 202 by the EU Exit Regulations, the licensing authority must take the steps specified in regulation 202(2) in accordance with the time period specified in that paragraph.
- (5) Sub-paragraph (6) applies where—
- (a) regulation 202(3) applied before [^{F516}IP completion day]; but
 - (b) the holder [^{F555}of a UKMA(GB) or a THR(GB)] has not taken the steps specified in regulation 202(4) before [^{F516}IP completion day].
- (6) Where this sub-paragraph applies, notwithstanding the [^{F556}amendment] of regulation 202—
- (a) the holder [^{F557}of a UKMA(GB) or a THR(GB)] must take the steps specified in regulation 202(4); and
 - (b) the licensing authority must determine that application for a variation in accordance with Part 5 (marketing authorisations) or 7 (traditional herbal registrations).

PART 11

Transitional provision in respect of Part 12

Approved country health professional list on [^{F516}IP completion day] (regulation 214(6A))

62.—(1) For the purposes of regulation 214(6A), for the transitional period, the licensing authority must include on the list published under that paragraph, professions of equivalent professional status to an appropriate practitioner under regulation 214(3) to (5D) in each EEA State.

(2) In this paragraph, “transitional period” is the period of one year beginning with [^{F516}IP completion day].

PART 12

General provision in relation to transitional provisions

Licensing authority power to require information

63.—(1) Notwithstanding any other power to require information under this Schedule, the licensing authority may require in writing that a holder of, or an applicant for, a UK marketing authorisation, parallel import licence, manufacturing licence, wholesale dealing licence, certificate of registration or traditional herbal registration provides it with any information which—

- (a) is relevant to the exercise of the licensing authority's functions under this Schedule; and

Status: This version of this Instrument contains provisions that are prospective.
Changes to legislation: There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019. (See end of Document for details)

(b) is either in the holder's or applicant's possession or is information which the holder or applicant may reasonably access,

within such time period as the licensing authority specifies in that written request.

(2) If the holder of an authorisation, licence, certificate or registration mentioned in sub-paragraph (1) fails to comply with a request made pursuant to that sub-paragraph, the licensing authority may suspend the authorisation, licence, certificate or registration until the holder complies with the obligation.

(3) Nothing in this Schedule requires a person to supply information in contravention of requirements imposed under the data protection legislation (within the meaning of Part 1 of the Data Protection Act 2018^{M113}).”.

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations are made in exercise of the powers conferred by section 8(1) of the European Union (Withdrawal) Act 2018 (c. 16) in order to address failures of retained EU law to operate effectively and other deficiencies (in particular under section 8(2)(a), (b), (c), (d), (f) and (g) and (6)) arising from the withdrawal of the United Kingdom from the European Union. They are also made under paragraphs 1(1) and 7(2) of Schedule 4 to the European Union (Withdrawal) Act 2018, insofar as they make provision in relation to fees.

These Regulations make amendments to legislation in the field of the regulation of medicinal products for human use. The main body of the Regulations amends the Human Medicines Regulations 2012 (S.I. 2012/1916) and Schedule 1 amends the Medicines (Products for Human Use) (Fees) Regulations 2016 (S.I. 2016/190). Transitional provision is made in new Schedule 33A to the Human Medicines Regulations 2012. Consequential amendments are made in Schedule 8 and revocations of retained EU law are made in Schedule 9.

An impact assessment of the effect that this instrument will have on the costs of business, the voluntary sector and the public sector is available from the Medicines and Healthcare products Regulatory Agency, 10 South Colonnade, Canary Wharf, London, E14 4PU and is published alongside this instrument at .

Status:

This version of this Instrument contains provisions that are prospective.

Changes to legislation:

There are currently no known outstanding effects for the The Human Medicines (Amendment etc.) (EU Exit) Regulations 2019.
