

## SCHEDULES

### SCHEDULE 2

#### REQUIREMENTS

#### PART 1

#### REQUIREMENTS

##### **Interpretation**

**1.** In this Schedule—

“CEMP” means the construction environmental management plan;

“contaminated land” has the same meaning as that given in section 78A(1) of the Environmental Protection Act 1990;

“County Archaeologist” means the individual nominated or appointed as such by the relevant planning authority;

“Ecological Clerk of Works” means the individual appointed as such by the undertaker;

“European protected species” has the same meaning as in regulations 42 (European protected species of animals) and 46 (European protected species of plants) of the Conservation of Habitats and Species Regulations 2017(2);

“HEMP” means the handover environmental management plan, being the CEMP to be developed towards the end of the construction of the authorised development which is to contain—

- (a) the environmental information needed for the future maintenance and operation of the authorised development;
- (b) the long-term commitments to aftercare, monitoring and maintenance activities relating to the environmental features and mitigation measures that will be required to ensure the continued long-term effectiveness of the environmental mitigation measures and the prevention of unexpected environmental impacts during the operation of the authorised development; and
- (c) a record of the consents, commitments and permissions resulting from liaison with statutory bodies.

“protected species” means species which are subject to protection under the laws of England or which are European protected species.

##### **Time limits**

**2.** The authorised development must not commence later than the expiration of 5 years beginning with the date on which this Order comes into force.

---

(1) Section 78A was inserted by section 57 of the Environment Act 1995 (c. 25).

(2) S.I. 2017/1012.

*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

### **Construction Environmental Management Plan**

3.—(1) No part of the authorised development is to commence until a CEMP for that part has been prepared in consultation with the relevant planning authority, the local highway authority and (on matters related to its functions) the Defence Infrastructure Organisation and submitted to and approved in writing by the Secretary of State.

(2) The CEMP must—

- (a) be substantially in accordance with the outline construction environmental management plan certified under article 45 (certification of plans etc.);
- (b) contain a record of all the sensitive environmental features that have the potential to be affected by the construction of the proposed development;
- (c) incorporate the measures referred to in the environmental statement as being incorporated in the CEMP;
- (d) require adherence to working hours of 07:30 to 19:30 on Mondays to Saturdays from 1 March to 31 October, 07:30 to 18:00 on Mondays to Saturdays from 1 November to 28 February and 08:00 to 13:00 on Sundays, except for—
  - (i) traffic management activities;
  - (ii) bridge beam lifts;
  - (iii) demolition operations requiring the full or partial temporary closure of roads;
  - (iv) surfacing works at tie-in locations;
  - (v) importation of materials during peak holiday seasons;
  - (vi) the provision of services at compounds, including CCTV and vehicle recovery;
  - (vii) any emergency works; and
  - (viii) any works for which different working hours have been agreed with parties who will or may be affected by those works and recorded in the approved CEMP, in which case the CEMP must require adherence to those working hours.

(3) The authorised development must be constructed in accordance with the approved CEMP.

(4) Upon completion of construction of the authorised development the CEMP must be converted into the HEMP. The HEMP must be submitted to the Secretary of State for approval within 28 days of the opening of the authorised development for public use.

(5) The authorised development must be operated and maintained in accordance with the HEMP approved under paragraph (4).

### **Details of consultation**

4.—(1) With respect to any requirement which requires details to be submitted to the Secretary of State for approval under this Schedule following consultation with another party, the details submitted must be accompanied by a summary report setting out the consultation undertaken by the undertaker to inform the details submitted and the undertaker's response to that consultation.

(2) At the time of submission to the Secretary of State for approval, the undertaker must provide a copy of the summary report referred to under sub-paragraph (1) to the relevant consultees referred to in the requirement in relation to which approval is being sought from the Secretary of State.

(3) The undertaker must ensure that any consultation responses are reflected in the details submitted to the Secretary of State for approval under this Schedule, but only where it is appropriate, reasonable and feasible to do so, taking into account considerations including, but not limited to, cost and engineering practicality.

(4) Where the consultation responses are not reflected in the details submitted to the Secretary of State for approval, the undertaker must state in the summary report referred to under sub-paragraph (1) the reasons why the consultation responses have not been reflected in the submitted details.

## **Landscaping**

5.—(1) No part of the authorised development is to commence until a written landscaping scheme for that part has been submitted to and approved in writing by the Secretary of State following consultation with the relevant planning authority and the local highway authority.

(2) No part of the authorised development, including vegetation clearance, is to commence until an arboricultural walkover survey and tree survey for that part, taking due regard to the guidance in British Standard 5837:2012, have been undertaken to identify any significant constraints posed by trees.

(3) The landscaping scheme prepared under sub-paragraph (1) must be based on the environmental masterplan, the trees and hedgerows to be removed or managed plans and the results of the surveys undertaken under sub-paragraph (2).

(4) The landscaping scheme prepared under sub-paragraph (1) must include details of hard and soft landscaping works, including—

- (a) location, number, species, size and planting density of any proposed planting;
- (b) cultivation, importing of materials and other operations to ensure plant establishment;
- (c) proposed finished ground levels;
- (d) hard surfacing materials;
- (e) details of existing trees to be retained, with measures for their protection during the construction period; and
- (f) implementation timetables for all landscaping works.

(5) In paragraph (3) “the environmental masterplan” means the plan certified by the Secretary of State as the environmental masterplan for the purposes of this Order.

## **Implementation and maintenance of landscaping**

6.—(1) All landscaping works must be carried out in accordance with the landscaping scheme approved under Requirement 5.

(2) All landscaping works must be carried out to a reasonable standard in accordance with the relevant recommendations of appropriate British Standards or other recognised codes of good practice.

(3) Any tree or shrub planted as part of the landscaping scheme that, within a period of 5 years after planting, is removed, dies or becomes, in the opinion of the relevant planning authority, seriously damaged or diseased, must be replaced in the first available planting season with a specimen of the same species and size as that originally planted.

## **Fencing**

7. Any permanent and temporary fencing and other means of enclosure for the authorised development must be constructed and installed in accordance with the Manual of Contract Documents for Highway Works except where any departures from that manual are agreed in writing by the Secretary of State in connection with the authorised development.

## **Land and groundwater contamination**

**8.—(1)** No part of the authorised development is to commence until a contamination risk assessment in respect of controlled waters has been produced for that part which is to include details of—

- (a) any existing sources of contamination within the Order limits that may be affected by the carrying out of the authorised development;
- (b) any reasonably required protective measures to ensure that the carrying out of the authorised development does not make worse any adverse conditions or risks associated with such existing sources of contamination; and
- (c) appropriate remediation strategies and mitigation measures to address any historic contamination which is shown to be having significant, unacceptable effects on the environment within the context of the proposed works,

and the assessment has been submitted to and approved by the Secretary of State.

(2) The steps and measures that are identified as necessary for the purposes of carrying out the authorised development in the assessment referred to in sub-paragraph (1) must be implemented as part of the authorised development.

(3) In the event that contaminated material, including impacted groundwater, is found at any time when carrying out the authorised development, which was not previously identified in the environmental statement, the undertaker must cease construction of the authorised development in the vicinity of that contamination and must report it immediately in writing to the Secretary of State and the relevant planning authority, and in agreement with the relevant planning authority undertake a risk assessment of the contamination, and sub-paragraphs (4) and (5) will apply.

(4) Where the undertaker determines that remediation is necessary, a written scheme and programme for the remedial measures to be taken to render the land fit for its intended purpose must be prepared submitted to and approved in writing by the Secretary of State following consultation with the relevant planning authority.

(5) Remedial measures must be carried out in accordance with the approved scheme.

## **Archaeology**

**9.—(1)** No part of the authorised development is to commence until for that part a scheme for the investigation and mitigation of areas of archaeological interest, reflecting the mitigation measures included in chapter 6 of the environmental statement, with provision for sub-written schemes of investigation for each area and each phase (evaluation or detailed excavation or watching brief), has been prepared in consultation with the relevant planning authority and the local highway authority, agreed with the County Archaeologist and submitted to and approved in writing by the Secretary of State.

(2) The authorised development must be carried out in accordance with the archaeological framework strategy and sub-written schemes of investigation referred to in sub-paragraph (1) unless otherwise agreed in writing by the Secretary of State.

(3) A programme of archaeological reporting, post excavation and publication required as part of the archaeological framework strategy and sub-written schemes of investigation referred to in sub-paragraph (1) must be agreed with the County Archaeologist and implemented within a timescale agreed with the County Archaeologist and deposited with the Historic Environment Record of the relevant planning authority within two years of the date of completion of the authorised development or such other period as may be agreed in writing by the relevant planning authority.

(4) Any archaeological remains not previously identified which are revealed when carrying out the authorised development must be—

- (a) retained in situ and reported to the County Archaeologist as soon as reasonably practicable; and
- (b) subject to appropriate mitigation as set out in the archaeological framework strategy and mitigation agreed with the County Archaeologist.

(5) No construction operations are to take place within 10 metres of the remains referred to in sub-paragraph (4) for a period of 14 days from the date the remains are reported to the County Archaeologist under sub-paragraph (4) unless otherwise agreed in writing by the Secretary of State.

(6) On completion of the authorised development, suitable resources and provisions for long term storage of the archaeological archive will be agreed with the County Archaeologist.

### **Protected species**

**10.—**(1) In the event that any protected species which were not previously identified in the environmental statement or nesting birds are found at any time when carrying out the authorised development the undertaker must cease construction works near their location and report it immediately to the Ecological Clerk of Works.

(2) The undertaker must prepare a written scheme for the protection and mitigation measures for any protected species that were not previously identified in the environmental statement or nesting birds found when carrying out the authorised development. Where nesting birds are identified works should cease within 10 metres of the nest until birds have fledged and the nest is no longer in use.

(3) The undertaker must implement the written scheme prepared under sub-paragraph (2) immediately and construction in the area specified in the written scheme must not recommence until any necessary licences are obtained to enable mitigation measures to be implemented.

### **Traffic management**

**11.—**(1) No part of the authorised development is to commence until a traffic management plan for the construction of that part of the authorised development, substantially in accordance with the draft traffic management plan at appendix 2.1 to the environmental statement, has been submitted to and approved in writing by the Secretary of State following consultation with the local highway authority.

(2) The authorised development must be constructed in accordance with the approved traffic management plan.

### **Detailed design**

**12.—**(1) The authorised development must be designed in detail and carried out so that it is compatible with the preliminary scheme design shown on the works plans and the general arrangement and section plans, unless otherwise agreed in writing by the Secretary of State following consultation with the relevant planning authority, the local highway authority and the Defence Infrastructure Organisation on matters related to their functions and provided that the Secretary of State is satisfied that any amendments to the works plans and the general arrangement and section plans showing departures from the preliminary design would not give rise to any materially new or materially different environmental effects in comparison with those reported in the environmental statement.

(2) Where amended details are approved by the Secretary of State under sub-paragraph (1), those details are deemed to be substituted for the corresponding works plans or general arrangement and section plans and the undertaker must make those amended details available in electronic form for inspection by members of the public.

*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

### **Surface and foul water drainage**

**13.**—(1) No part of the authorised development is to commence until written details of the surface and foul water drainage system for that part, reflecting the mitigation measures in chapter 13 of the environmental statement and including means of pollution control, have been submitted to and approved in writing by the Secretary of State following consultation with the relevant planning authority and the local highway authority.

(2) The drainage system must be constructed in accordance with the approved details referred to in sub-paragraph (1) unless otherwise agreed in writing by the Secretary of State following consultation with the relevant planning authority and the local highway authority.

### **Highway lighting**

**14.**—(1) No part of the authorised development is to commence until a written scheme of the proposed highway lighting to be provided for that part of the authorised development has been submitted to and approved in writing by the Secretary of State, following consultation with the relevant planning authority and (in the case of proposed lighting for any highway for which the undertaker is not, or will not be following implementation of article 14(2), the highway authority) the local highway authority.

(2) The standard of the highway lighting to be provided by the scheme referred to in sub-paragraph (1) must either reflect the standard of the highway lighting included in the environmental statement or, where the standard of the highway lighting proposed materially differs from the standard of the highway lighting identified in the environmental statement, the undertaker must provide evidence with the written scheme submitted for approval that the standard of the highway lighting proposed would not give rise to any materially new or materially different environmental effects in comparison with those reported in the environmental statement taking into account the lighting identified in it. The standard of the highway lighting must encompass the specification, level of provision, light spillage, intensity and brightness of the highway lighting.

(3) The authorised development must be carried out in accordance with the scheme approved under sub-paragraph (1).

(4) Nothing in this requirement restricts the lighting of the authorised development during its construction or where temporarily required for maintenance.

### **Approvals and amendments to approved details**

**15.** With respect to any requirement which requires the authorised development to be carried out in accordance with the details approved under this Schedule, the approved details are taken to include any amendments that may subsequently be approved or agreed in writing by the Secretary of State.
