(2) The powers conferred by this article must not be exercised within the boundaries of a street outside of the Order limits and the limits of deviation without the consent of the street authority, but such consent must not be unreasonably withheld.

(3) In this article—

- (a) “apparatus” has the same meaning as in Part 3 (street works in England and Wales) of the 1991 Act; and
- (b) the reference to any work, equipment, apparatus or other thing in a street includes a reference to any work, equipment, apparatus or other thing under, over, along or upon the street.

---

(36) S.I. 1999/1026 was amended by S.I. 2000/1511.

### **Power to execute street works**

**12.**—(1) The Authority may, for the purpose of exercising the powers conferred by article 11 (power to keep apparatus in streets) or any other provision of this Order, enter upon any street and may execute any works required for or incidental to the exercise of those powers including, without limitation on the scope of that power, breaking up or opening the street, or any sewer, drain or tunnel under it, or tunnelling or boring under the street.

(2) The powers conferred by this article must not be exercised within the boundaries of a street outside of the Order limits and the limits of deviation without the consent of the street authority, but such consent must not be unreasonably withheld.

### **Stopping up of streets**

**13.**—(1) Subject to the provisions of this article, the Authority may, in connection with the construction of the authorised works, stop up each of the streets specified in columns (1) and (2) of Parts 1 and 2 of Schedule 3 (streets to be stopped up) to the extent specified, by reference to the letters shown on the works and land plans, in column (3) of those Parts of that Schedule.

(2) No street specified in columns (1) and (2) of Part 1 of Schedule 3 (being a street to be stopped up for which a substitute is to be provided) is to be wholly or partly stopped up under this article unless—

- (a) the new street to be substituted for it, which is specified in column (4) of that Part of that Schedule, has been completed to the reasonable satisfaction of the street authority and is open for use; or
- (b) a temporary alternative route for the passage of such traffic as could have used the street to be stopped up is first provided and subsequently maintained by the Authority, to the reasonable satisfaction of the street authority, between the commencement and termination points for the stopping up of the street until the completion and opening of the new street in accordance with sub-paragraph (a).

(3) No street specified in columns (1) and (2) of Part 2 of Schedule 3 (being a street to be stopped up for which no substitute is to be provided) is to be wholly or partly stopped up under this article unless the condition specified in paragraph (4) is satisfied in relation to all the land which abuts on either side of the street to be stopped up.

(4) The condition referred to in paragraph (3) is that—

- (a) the Authority is in possession of the land; or
- (b) there is no right of access to the land from the street concerned; or
- (c) there is reasonably convenient access to the land otherwise than from the street concerned; or
- (d) the owners and occupiers of the land have agreed to the stopping up.

(5) Where a street has been stopped up under this article—

- (a) all rights of way over or along the street so stopped up are extinguished; and
- (b) the Authority may appropriate and use for the purposes of its tramway undertaking so much of the site of the street as is bounded on both sides by land owned by the Authority.

(6) Any person who suffers loss by the extinguishment of any private right of way under this article is entitled to compensation to be determined, in case of dispute, under Part 1 of the 1961 Act.

(7) This article is subject to paragraph 2 of Schedule 9 (provisions relating to statutory undertakers etc.).

### **Temporary stopping up of streets**

**14.**—(1) The Authority may, during and for the purposes of the construction of the authorised works, temporarily stop up, alter or divert any street and may for any reasonable time—

- (a) divert the traffic from the street; and
- (b) subject to paragraph (3), prevent all persons from passing along the street.

(2) Without limitation on the scope of paragraph (1), the Authority may use any street stopped up under the powers conferred by this article as a temporary working site.

(3) The Authority must provide reasonable access for pedestrians going to or from premises abutting a street affected by the exercise of the powers conferred by this article if there would otherwise be no such access.

(4) Without limitation on the scope of paragraph (1), the Authority may exercise the powers conferred by this article in relation to the streets specified in Schedule 4 (streets to be temporarily stopped up) to the extent specified in column (2) of that Schedule.

(5) The Authority must not exercise the powers conferred by this article—

- (a) in relation to any street specified as mentioned in paragraph (4), without first consulting the street authority; and
- (b) in relation to any other street, without the consent of the street authority which may attach reasonable conditions to any consent, but such consent must not be unreasonably withheld.

(6) Any person who suffers loss by the suspension of any private right of way under this article is entitled to compensation to be determined, in case of dispute, under Part 1 of the 1961 Act.

### **Access to works**

**15.** The Authority may, for the purposes of the construction, operation or maintenance of the authorised works, form and lay out such means of access, or improve such existing means of access, at such locations within the Order limits or the limits of deviation as the Authority reasonably requires for the purposes of the authorised works, as may be approved by the highway authority, but such approval must not be unreasonably withheld.

### **Construction and maintenance of new, altered or diverted highways**

**16.**—(1) Any highway to be constructed under this Order must be completed to the reasonable satisfaction of the highway authority and must, unless otherwise agreed by the highway authority and the Authority, be maintained by and at the expense of the Authority for a period of 12 months from its completion and at the expiry of that period by and at the expense of the highway authority.

(2) Where a highway is altered or diverted under this Order, the altered or diverted part of the highway must, when completed to the reasonable satisfaction of the highway authority, unless otherwise agreed, be maintained by and at the expense of the Authority for a period of 12 months from its completion and after the expiry of that period by and at the expense of the highway authority.

(3) Paragraphs (1) and (2) do not apply in relation to the structure of any bridge carrying a highway over a tramroad of the Authority or carrying a tramroad of the Authority over a highway and except as provided in those paragraphs the Authority is not liable to maintain the surface of any highway in, on, under or over which the scheduled works are constructed, or the immediate approaches to any such highway, unless otherwise agreed with the highway authority.

(4) In any action against the Authority in respect of loss or damage resulting from any failure by it to maintain a highway under this article, it is a defence (without affecting any other defence or the application of the law relating to contributory negligence) to prove that the Authority had taken such care as in all the circumstances was reasonably required to secure that the part of the highway to which the action relates was not dangerous to traffic.

(5) For the purposes of a defence under paragraph (4), the court must in particular have regard to the following matters—

- (a) the character of the highway including its use for a tramway, and the traffic which was reasonably to be expected to use it;
- (b) the standard of maintenance appropriate for a highway of that character and used by such traffic;
- (c) the state of repair in which a reasonable person would have expected to find the highway;
- (d) whether the Authority knew, or could reasonably have been expected to know, that the condition of the part of the highway to which the action relates was likely to cause danger to users of the highway; and
- (e) where the Authority could not reasonably have been expected to repair that part of the highway before the cause of action arose, what warning notices of its condition had been displayed,

but for the purposes of such a defence it is not relevant that the Authority had arranged for a competent person to carry out or supervise the maintenance of that part of the highway to which the action relates unless it is also proved that the Authority had given the competent person proper instructions with regard to the maintenance of the highway and that the competent person had carried out those instructions.

#### **Restoration of streets if street tramway discontinued**

17. If the Authority abandons the construction of, or permanently ceases to operate any of, the authorised street tramway (“the discontinued tramway”), it must as soon as reasonably practicable and unless otherwise agreed with the street authority—

- (a) remove from any street in which the discontinued tramway is laid the rails and any other works, equipment and apparatus which have become redundant; and
- (b) restore, to the reasonable satisfaction of the street authority, the portion of the street along which the discontinued tramway was laid, or redundant works, equipment and apparatus were laid, regard being had to—
  - (i) the condition of the street before the tramway was laid; and
  - (ii) the nature of the traffic using the street at the time of the discontinuance.

#### **Agreements with street authorities**

18.—(1) A street authority and the Authority may enter into agreements with respect to—

- (a) the construction of any new street under the powers conferred by this Order;
  - (b) the strengthening, improvement, repair or reconstruction of any street under the powers conferred by this Order;
  - (c) the maintenance of any street along or across which the authorised tramway is laid, or of the structure of any bridge or tunnel carrying a street over or under the authorised tramway;
  - (d) any stopping up, alteration or diversion of a street under the powers conferred by this Order; or
  - (e) the execution in the street of any of the works referred to in article 12 (power to execute street works).
- (2) Such an agreement may, without limitation on the scope of paragraph (1)—
- (a) provide for the street authority to carry out any function under this Order which relates to the street in question; and

- (b) contain such terms as to payment and otherwise as the parties consider appropriate.

### **Level crossings**

**19.**—(1) The Authority may construct and maintain the authorised tramway so as to enable tramcars upon it to cross on the level any highway or other road for the time being crossing the route of the system.

(2) The Authority may provide, maintain and operate at or near any level crossing such protective equipment as it may determine.

(3) Any traffic sign placed under this article on or near a highway or other road to which the public has access is to be treated for the purposes of section 64(4)(37) (general provisions as to traffic signs) of the 1984 Act as having been placed as provided by that Act.

(4) Without limitation on the scope of article 10 (power to alter layout, etc., of streets), the Authority may in the exercise of the powers conferred by this article alter the level of any highway or road referred to in paragraph (1).

(5) The highway authority may enter into agreements with the Authority with respect to the construction and maintenance of any level crossing; and such an agreement may contain such terms as to payment or otherwise as the parties consider appropriate.

(6) In this article—

“level crossing” means the place at which the authorised tramroad crosses a highway or other road on the level under the powers conferred by this article; and

“protective equipment” includes lights, traffic signs (within the meaning of section 64(1) of the 1984 Act), manual, mechanical, automatic, electrical or telephonic equipment or other devices.

### *Supplemental powers*

#### **Attachment of equipment to buildings**

**20.** The Authority may affix to any building constructed at any time within the permanent limits—

- (a) any brackets, cables, wires, insulators and other apparatus required in connection with the construction, operation or maintenance of the authorised tramway; and
- (b) any lamps, cameras, brackets, pipes, electric lines and other apparatus required for the provision of additional or substitute street lighting or closed circuit television in consequence of the construction, operation or maintenance of the authorised tramway.

#### **Discharge of water**

**21.**—(1) The Authority may use any watercourse or any public sewer or drain for the drainage of water in connection with the construction, operation or maintenance of the authorised works and for that purpose may lay down, take up and alter pipes and may, on any land within the Order limits, or the limits of deviation in any street along which the authorised tramway is authorised to be laid, make openings into, and connections with, the watercourse, sewer or drain.

(2) Any dispute arising from the exercise of the power conferred by paragraph (1) to connect to or use a public sewer or drain is to be determined as if it were a dispute under section 106 (right to communicate with public sewers) of the Water Industry Act 1991(38).

(3) The Authority must not discharge any water into any watercourse, public sewer or drain except with the consent of the person to whom it belongs; and such consent may be given subject to such terms and conditions as that person may reasonably impose but must not be unreasonably withheld.

(4) The Authority must not make any opening into any public sewer or drain except—

(a) in accordance with plans approved by the person to whom the sewer or drain belongs, but such approval must not be unreasonably withheld; and

(b) where that person has been given the opportunity to supervise the making of the opening.

(5) The Authority must not, in the exercise of the powers conferred by this article, damage or interfere with the bed or banks of any watercourse forming part of a main river.

(6) The Authority must take such steps as are reasonably practicable to secure that any water discharged into a watercourse or public sewer or drain under the powers conferred by this article is as free as may be practicable from gravel, soil or other solid substance, oil or matter in suspension.

(7) Nothing in this article overrides the requirement for an environmental permit under regulation 12(1)(b) (requirement for environmental permit) of the Environmental Permitting (England and Wales) Regulations 2016(39).

(8) In this article—

(a) “public sewer or drain” means a sewer or drain which belongs to a sewerage undertaker, the Environment Agency, an internal drainage board, or a local authority; and

(b) other expressions, excluding watercourses, used both in this article and in the Water Resources Act 1991(40) have the same meaning as in that Act.

### **Works to safeguard buildings and the operation of the authorised tramway**

**22.**—(1) Subject to the following provisions of this article, the Authority may at its own expense and from time to time carry out such safeguarding works to any building lying within the Order limits or the limits of deviation as the Authority considers to be necessary or expedient.

(2) Safeguarding works may be carried out—

(a) at any time before or during the construction, in the vicinity of the building, of any part of the authorised works (other than works authorised by this article); or

(b) after the completion of the construction of that part of the authorised works (other than works authorised by this article), at any time up to the end of the period of 5 years beginning with the day on which that part of the authorised works is first opened for use.

(3) For the purpose of determining how the functions under this article are to be exercised the Authority may, subject to paragraph (5), enter and survey any building falling within paragraph (1) and any land within its curtilage.

(4) For the purpose of carrying out safeguarding works under this article to a building the Authority may (subject to paragraphs (5) and (6))—

(a) enter the building and any land within its curtilage; and

(38) 1991 c. 56. Section 106 was amended by sections 35(1), 35(8) and 43(2) of, and Schedule 2 to, the Competition and Service (Utilities) Act 1992 (c. 43), sections 36(2) and 99 of the Water Act 2003 (c. 37) and paragraph 16(1) of Schedule 3 to the Flood and Water Management Act 2010 (c. 29).

(39) S.I. 2016/1154, as amended by S.I. 2017/1012, S.I. 2017/1075, S.I. 2018/110, S.I. 2018/428 and S.I. 2018/575.

(40) 1991 c. 57.

- (b) where the works cannot be carried out reasonably conveniently without entering land which is adjacent to the building but outside its curtilage, enter the adjacent land (but not any building erected on it).

(5) Before exercising—

- (a) a right under paragraph (1) to carry out safeguarding works to a building;
- (b) a right under paragraph (3) to enter a building and any land within its curtilage;
- (c) a right under paragraph (4)(a) to enter a building and land within its curtilage; or
- (d) a right under paragraph (4)(b) to enter land,

the Authority must, except in the case of emergency, serve on the owners and occupiers of the building or land not less than 14 days' notice of its intention to exercise that right and, in a case falling within sub-paragraph (a) or (c), specifying the safeguarding works proposed to be carried out.

(6) Where notice is served under paragraph (5)(a), (5)(c) or (5)(d), the owner or occupier of the building or land concerned may, by serving a counter-notice within the period of 10 days beginning with the day on which the notice was served, require the question of whether it is necessary or expedient to carry out the safeguarding works or to enter the building or land to be referred to arbitration under article 53 (arbitration).

(7) The Authority must compensate the owners and occupiers of any building or land in relation to which the powers conferred by this article have been exercised for any loss or damage arising to them by reason of the exercise of those powers.

(8) Where—

- (a) safeguarding works are carried out under this article to a building; and
- (b) within the period of 5 years beginning with the day on which the part of the authorised works constructed within the vicinity of the building is first opened for use, it appears that the safeguarding works are inadequate to protect the building against damage caused by the construction or operation of that part of the works,

the Authority must compensate the owners and occupiers of the building for any damage sustained by them.

(9) Without affecting article 38 (no double recovery), nothing in this article relieves the Authority from any liability to pay compensation under section 10(2)(41) (further provision as to injurious affection) of the 1965 Act.

(10) Any compensation payable under paragraph (7) or (8) is to be determined, in case of dispute, under Part 1 (determination of questions of disputed compensation) of the 1961 Act.

(11) In this article “safeguarding works”, in relation to a building, means—

- (a) underpinning, strengthening and any other works the purpose of which is to prevent damage which may be caused to the building by the construction, maintenance or operation of the authorised works;
- (b) any works the purpose of which is to remedy any damage which has been caused to the building by the construction, maintenance or operation of the authorised works; and
- (c) any works the purpose of which is to secure the safe operation of the authorised tramway or to prevent or minimise the risk of such operation being disrupted.

### **Power to survey and investigate land, etc.**

**23.—**(1) The Authority may for the purposes of this Order—

---

(41) Section 10 was amended by section 4 of, and paragraph 13(2) of Schedule 2 to, the Planning (Consequential Provisions) Act 1990 (c. 11) and S.I. 2009/1307.

- (a) survey or investigate any land within the Order limits, the limits of deviation, any street along which the authorised street tramway is authorised to be laid and any street having a junction with such a street;
  - (b) without limitation on the scope of sub-paragraph (a), make trial holes in such positions as the Authority thinks fit on the land to investigate the nature of the surface layer and subsoil and remove soil samples;
  - (c) without limitation on the scope of sub-paragraph (a), carry out archaeological investigations on any such land;
  - (d) take steps to protect or remove any flora or fauna on the land where the flora or fauna may be affected by the carrying out of the authorised works;
  - (e) place on, leave on and remove from the land apparatus for use in connection with the exercise of any of the powers conferred by sub-paragraphs (a) to (d); and
  - (f) enter on the land for the purpose of exercising the powers conferred by sub-paragraphs (a) to (e).
- (2) No land may be entered, or equipment placed or left on or removed from the land, under paragraph (1), unless at least 7 days' notice has been served on every owner and occupier of the land.
- (3) Notice given in accordance with paragraph (2) must include a statement of the recipient's rights under paragraph (9).
- (4) If the Authority proposes to do any of the following, the notice must include details of what is proposed—
- (a) searching, boring or excavating;
  - (b) leaving apparatus on the land;
  - (c) taking samples;
  - (d) an aerial survey;
  - (e) carrying out any other activities that may be required to facilitate compliance with the instruments mentioned in paragraph (5).
- (5) The instruments referred to in paragraph (4)(e) are—
- (a) [Directive 2011/92/EU](#) of the European Parliament and of the Council of 13 December 2011 on the assessment of the effects of certain public and private projects on the environment<sup>(42)</sup>; or
  - (b) Council [Directive 92/42/EEC](#) of 21 May 1992 on the conservation of natural habitats and of flora and fauna<sup>(43)</sup>.
- (6) Any person entering land under this article on behalf of the Authority—
- (a) must, if so required, before or after entering the land produce written evidence of that person's authority to do so;
  - (b) may take onto the land such vehicles and equipment as are necessary to carry out the survey or investigation or to make the trial holes;
  - (c) may only enter and survey land at a reasonable time; and
  - (d) must, if the land is unoccupied or the occupier is absent from the land when the person enters it, leave it as secure against trespassers as when the person entered it.
- (7) No trial holes are to be made under this article—
- (a) in a carriageway or footway without the consent of the highway authority; or

<sup>(43)</sup> OJ No. L 206, 22.7.1992, p. 7.

(b) in a private street without the consent of the street authority, but such consent must not be unreasonably withheld.

(8) If either a highway authority or a street authority which receives an application for consent fails to notify the Authority of its decision within 28 days of receiving the application for consent—

- (a) under paragraph (7)(a) in the case of a highway authority; or
- (b) under paragraph (7)(b) in the case of a street authority,

that authority is deemed to have granted consent.

(9) The Authority must pay compensation for any damage occasioned, by the exercise of the powers conferred by this article, to the owners and occupiers of the land, such compensation to be determined, in case of dispute, under Part 1 (determination of questions of disputed compensation) of the 1961 Act.

(10) Paragraphs (1) to (9) apply in relation to Crown land, however a person may only exercise the power conferred under paragraph (1) in relation to Crown land if the person has permission of the appropriate authority.

(11) In this article, “Crown land” and “the appropriate authority” have the meaning given in section 293(44) (preliminary definitions) of the 1990 Act.

(12) Nothing in this article overrides the requirement to obtain scheduled monument consent under the Ancient Monuments and Archaeological Areas Act 1979(45).

### **Mode of construction and operation of tramway**

**24.**—(1) The authorised tramway must be operated by electricity or, in an emergency or for the purposes of maintenance, by diesel power or other means.

(2) The authorised tramway must be constructed on a nominal gauge of 1,435 millimetres.

(3) Where the authorised tramway is constructed along a street or in any place to which the public has access (including any place to which the public has access only on making a payment), the Authority must take such care as in all the circumstances is reasonable to ensure that the authorised tramway is constructed and maintained so that the street or other place is safe for other users.

(4) When considering what measures are required under paragraph (3) the Authority must have particular regard to the character and usage of the street or other place and to those who could reasonably be expected to use it.

(5) Where the authorised street tramway has been constructed in a street, works by any person which affect or are likely to affect the Authority’s obligations under paragraph (3), including works to any street surfaces and works affecting any equipment or apparatus placed in the street under article 11 (power to keep apparatus in streets) must not be carried out without the consent of the Authority, which may be given subject to such reasonable terms and conditions as the Authority may require but must not be unreasonably withheld.

### **Obstruction of construction of authorised works**

**25.** Any person who, without reasonable excuse—

- (a) obstructs another person acting under the authority of the Authority in setting out the lines of the scheduled works, or in constructing any of the authorised works; or

---

(44) As amended by paragraph 6 of Schedule 3 to the Planning and Compulsory Purchase Act 2004 (c. 5), paragraph 7(1) and (4) of Schedule 7 to the Planning (Wales) Act 2015 (anaw 4) and paragraphs 1 and 33 of Schedule 12 to the Housing and Planning Act 2016 (c. 22).

(45) 1979 c. 46.

- (b) interferes with, moves or removes any apparatus belonging to any person acting under the authority of the Authority,

### **Power to construct temporary tramways**

**26.**—(1) The Authority may, if it considers it necessary or expedient in consequence of any street works executed or proposed to be executed in a street along which an authorised street tramway is constructed—

- (a) remove or discontinue the operation of the authorised street tramway; and
- (b) lay, maintain and operate in that street or in a street near to that street a temporary tramway in place of the authorised street tramway.

(2) The powers conferred by this article may only be exercised with the consent of the street authority but such consent may not be unreasonably withheld.

(3) The provisions of articles 10(2) (power to alter layout, etc., of streets), 11 (power to keep apparatus in streets), 12 (power to execute street works) and 43 (traffic signs) apply in relation to temporary tramways laid under the powers conferred by this article as they apply in relation to authorised street tramways.

### **Removal of human remains**

**27.**—(1) In this article, “the specified land” means the land within the Order limits or the limits of deviation.

(2) Before the Authority carries out any development or works that will or may disturb any human remains in the specified land, it must remove those human remains from the specified land, or cause them to be removed, in accordance with the following provisions of this article.

(3) Before any such remains are removed from the specified land, the Authority must give notice of the intended removal, describing the specified land and stating the general effect of the following provisions of this article, by—

- (a) publishing a notice once in each of 2 successive weeks in a newspaper circulating in the area of the authorised works; and
- (b) displaying a notice in a conspicuous place on or near to the specified land.

(4) As soon as reasonably practicable after the first publication of a notice under paragraph (3), the Authority must send a copy of the notice to Birmingham City Council.

(5) At any time within 56 days after the first publication of a notice under paragraph (3), any person who is a personal representative or relative of any deceased person whose remains are interred in the specified land may give notice in writing to the Authority of that person’s intention to undertake the removal of the remains.

(6) Where a person has given notice under paragraph (5), and the remains in question can be identified, that person may cause such remains to be—

- (a) removed and re-interred in any burial ground or cemetery in which burials may legally take place; or
- (b) removed to, and cremated in, any crematorium,

and that person must, as soon as reasonably practicable after such re-interment or cremation, provide to the Authority a certificate for the purpose of enabling compliance with paragraph (11).

(7) If the Authority is not satisfied that any person giving notice under paragraph (5) is the personal representative or relative as that person claims to be, or that the remains in question can be

identified, the question must be determined on the application of either party in a summary manner by the county court, and the court may make an order specifying who must remove the remains and as to the payment of the costs of the application.

(8) The Authority must pay the reasonable expenses of removing and re-interring or cremating the remains of any deceased person under this article.

(9) If—

- (a) within the period of 56 days referred to in paragraph (5) no notice under that paragraph is given to the Authority in respect of any remains in the specified land;
- (b) notice under paragraph (5) is given within the period of 56 days and no application is made under paragraph (7) within 56 days after the giving of the notice, but the person who gave the notice fails to remove the remains within a further period of 56 days;
- (c) within 56 days after any order is made by the county court under paragraph (7) any person, other than the Authority, specified in the order fails to remove the remains; or
- (d) it is determined that the remains to which a notice under paragraph (5) relates cannot be identified,

subject to paragraph (10), the Authority must remove the remains and cause them to be re-interred in such burial ground or cemetery in which burials may legally take place as the Authority thinks suitable for the purpose; and, so far as possible, remains from individual graves must be re-interred in individual containers which must be identifiable by a record prepared with reference to the original position of burial of the remains that they contain.

(10) If the Authority is satisfied that any person giving notice under paragraph (5) is the personal representative or relative as that person claims to be and that the remains in question can be identified, but that person does not remove the remains, the Authority must comply with any reasonable request that person may make in relation to the removal and re-interment or cremation of the remains.

(11) On the re-interment or cremation of any remains under this article—

- (a) a certificate of re-interment or cremation must be sent by the Authority to the Registrar-General giving the date of re-interment or cremation and identifying the place from which the remains were removed and the place in which they were re-interred or cremated; and
- (b) a copy of the certificate of re-interment or cremation and the record mentioned in paragraph (9) must be sent by the Authority to Birmingham City Council.

(12) The removal of the remains of any deceased person under this article must be carried out in accordance with any directions that may be given by the Secretary of State.

(13) Any jurisdiction or function conferred on the county court by this article may be exercised by the district judge of the court.

(14) Section 25 of the Burial Act 1857<sup>(46)</sup> (offence of removal of body from burial ground) does not apply to a removal carried out in accordance with this article.

(15) The Town and Country Planning (Churches, Places of Religious Worship and Burial Ground) Regulations 1950<sup>(47)</sup> does not apply to the authorised works.

<sup>(46)</sup> 1857 c. 81. Section 25 was substituted by section 2 of Church of England (Miscellaneous Provisions) Measure 2014 (2014 No. 1).

## PART 3

### ACQUISITION AND POSSESSION OF LAND

#### *Powers of acquisition*

#### **Power to acquire land**

**28.**—(1) The Authority may acquire compulsorily so much of the land shown on the works and land plans as lying within the permanent limits and described in the book of reference as may be required for or in connection with the authorised works and may use any land so acquired for those purposes or for any other purposes that are ancillary to its tramway undertaking.

(2) This article is subject to article 32 (new rights only to be acquired in certain lands).

(3) This article does not apply to the vaults beneath Corporation Street forming part of the land numbered 4 on the works and land plans.

#### **Application of Part 1 of the 1965 Act**

**29.**—(1) Part 1 (compulsory purchase under the Acquisition of Land Act 1946) of the 1965 Act, in so far as not modified by or inconsistent with the provisions of this Order, applies to the acquisition of land under this Order—

- (a) any increase in the value of the land over which the new rights are acquired; and
- (b) any increase in value of any contiguous or adjacent land belonging to that person in the same capacity,

which will accrue to that person by reason of the construction of the authorised works.

*Compensation enactments*

1. The enactments for the time being in force with respect to compensation for the compulsory purchase of land apply, with the necessary modifications as respects compensation, in the case of a compulsory acquisition under this Order of a right by the creation of a new right as they apply as respects compensation on the compulsory purchase of land and interests in land.

2.—(1) Without limitation on the scope of paragraph 1, the 1961 Act has effect subject to the modification set out in sub-paragraph (2).

(2) For section 5A(5A) (relevant valuation date) of the 1961 Act, substitute—

- (b) the acquiring authority is subsequently required by a determination under paragraph 12 of Schedule 2A to the 1965 Act (as substituted by paragraph 5(8) of Schedule 5 to the 2020 Order) to acquire an interest in the land, and

### *Application of Part 1 of the 1965 Act*

4. Part 1 of the 1965 Act, as applied by article 29 (application of Part 1 of the 1965 Act) to the acquisition of land under article 28 (power to acquire land), applies to the compulsory acquisition of a right by the creation of a new right under article 31(1) (power to acquire new rights)—

- (a) with the modification specified in paragraph 5; and
- (b) with such other modifications as may be necessary.

5.—(1) The modifications referred to in paragraph 4(a) are as follows.

(3) For section 7 (measure of compensation in case of severance) of the 1965 Act substitute—

“7. In assessing the compensation to be paid by the acquiring authority under this Act regard must be had not only to the extent (if any) to which the value of the land over which the right is to be acquired is depreciated by the acquisition of the right but also to the damage (if any) to be sustained by the owner of the land by reason of its severance from other land of the owner, or injuriously affecting that other land by the exercise of the powers conferred by this or the special Act.”.

(4) The following provisions of the 1965 Act (which state the effect of a deed poll executed in various circumstances where there is no conveyance by persons with interests in the land), that is to say—

“public utility undertakers” has the same meaning as in the 1980 Act <sup>(83)</sup>.

*Apparatus of statutory undertakers, etc, in stopped up streets*

2.—(1) Where a street is stopped up under article 13 (stopping up of streets) any statutory utility whose apparatus is under, in, upon, over, along or across the street has the same powers and rights in respect of that apparatus, subject to the provision of this paragraph, as if this Order had not been made.

(2) Where a street is stopped up under article 13 any statutory utility whose apparatus is under, in, upon, over, along or across the street may where reasonably necessary for the efficient operation of the undertaking of the statutory utility or, if reasonably requested to do so by the Authority, must—

(a) remove the apparatus and place it or other apparatus provided in substitution for it in such other position as the utility may reasonably determine and have power to place it; or

(b) provide other apparatus in substitution for the existing apparatus and place it in that other position.

(3) Subject to the following provisions of this paragraph, the Authority must pay to any statutory utility an amount equal to the cost reasonably incurred by the statutory utility in or in connection with—

(a) the execution of relocation works required in consequence of the stopping up of the street; and

(b) the doing of any other work or thing rendered necessary by the execution of relocation works.

(4) If in the course of the execution of relocation works under sub-paragraph (2)—

(a) apparatus of better type, of greater capacity or of greater dimension is placed in substitution for existing apparatus of worse type, of smaller capacity or of smaller dimensions; or

(b) apparatus (whether existing apparatus or apparatus substituted for existing apparatus) is placed at a depth greater than the depth at which the existing apparatus was,

and the placing of apparatus of that type or capacity or of those dimensions or the placing of apparatus at that depth, as the case may be, is not agreed by the Authority, or, in default of agreement, is not determined by arbitration to be necessary, then, if it involves cost in the execution of the relocation works exceeding that which would have been involved if the apparatus placed had been of the

existing type, capacity or dimensions, or at the existing depth, as the case may be, the amount which apart from this paragraph would be payable to the statutory utility by virtue of sub-paragraph (3) will be reduced by the amount of that excess.

(5) For the purposes of sub-paragraph (4)—

- (a) an extension of apparatus to a length greater than the length of existing apparatus is not to be treated as a placing of apparatus of greater dimensions than those of the existing apparatus; and
- (b) where the provision of a joint in a cable is agreed, or is determined to be necessary, the consequential provision of a jointing chamber or of a manhole is to be treated as if it also had been agreed or had been so determined.

(6) An amount which apart from this sub-paragraph would be payable to a statutory utility in respect of works by virtue of sub-paragraph (3) (and having regard, where relevant, to sub-paragraph (4)) must, if the works include the placing of apparatus provided in substitution for apparatus placed more than 7 years and 6 months earlier so as to confer on the statutory utility any financial benefit by deferment of the time for renewal of the apparatus in the ordinary course, be reduced by the amount which represents that benefit.

(7) Sub-paragraph (6) does not apply to apparatus being substituted which comprises cathode protected steel mains and any other apparatus which is agreed between the Authority and the statutory utility as not being required to be replaced imminently.

(8) Sub-paragraphs (3) to (6) do not apply where—

- (a) the authorised works constitute major transport works or major highway works for the purposes of Part 3 (street works in England and Wales) of the 1991 Act (including that Part as applied by article 5 (application of the 1991 Act)); and
- (b) any relocation works carried out under paragraph (2) include replacement apparatus being placed in a street,

but instead—

- (i) the allowable costs of the relocation works are to be determined in accordance with section 85 (sharing of costs of necessary measures) of that Act and any regulations for the time being having effect under that section; and
- (ii) the allowable costs are to be borne by the Authority and the statutory utility in such proportions as may be prescribed by any such regulations.

(9) In this paragraph—

“apparatus” has the same meaning as in Part 3 of the 1991 Act;

“relocation works” means works executed, or apparatus provided, under sub-paragraph (2); and

“statutory utility” means a statutory undertaker for the purposes of the 1980 Act or an operator of an electronic communications code network as defined in paragraph 1(6).

#### *Application of electronic communications code*

**3.—(1)** Part 6 of the electronic communications code does not apply for the purposes of the authorised works to the extent that such works are regulated by Part 11 of the 1990 Act, sections 84 and 85 of the 1991 Act (or regulations made under section 85 of that Act), paragraph 2 or sub-paragraph (3).

(2) Part 10 of the electronic communications code applies for the purposes of the authorised works, except—

- (a) in so far as such works are regulated by the 1991 Act or any regulation made under that Act; or
  - (b) where the Authority exercises a right under subsection (4)(b) of section 272 of the 1990 Act or under an order made under that section to remove apparatus.
- (3) The temporary stopping up, alteration or diversion of any highway under article 14 (temporary stopping up of streets) does not affect any the code rights of an operator of an electronic communications code network in respect of any apparatus which at the time of the stopping up or diversion is in the highway.
- (4) In this paragraph—
- “apparatus” has the same meaning as in Part 3 of the 1991 Act;
  - “code rights” means those rights set out in paragraph 3 of the electronic communications code; and
  - “electronic communications code” and “electronic communications code network” have the same meaning as in paragraph 1(6).

Section 8 was amended by paragraph 4 of Schedule 17 and Part 4 of Schedule 31 to the Transport Act 2000 (c. 38), paragraphs 3 and 5 of Schedule 2 to the Railways and Transport Safety Act 2003 (c. 20), paragraph 3 of Schedule 1 and Part 1 of Schedule 13 to the Railways Act 2005 (c. 14) and S.I. 2015/1682.

(85) 2006 c. 46.

*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

“railway operational procedures” means procedures specified under any access agreement (as defined in the Railways Act 1993) or station lease;

“railway property” means any railway belonging to Network Rail and—

- (a) any station, land, works, apparatus and equipment belonging to Network Rail or connected with any such railway; and
- (b) any easement or other property interest held by or used for the benefit of Network Rail for the purposes of such railway or works, apparatus or equipment; and

“specified work” means so much of any of the authorised works as is situated upon, across, under, over or within 15 metres of, or may in any way adversely affect, railway property.

**3.—(1)** Where under this Schedule Network Rail is required to give its consent or approval in respect of any matter, that consent or approval is subject to the condition that Network Rail complies with any relevant railway operational procedures and any obligations under its network licence or under statute.

(2) Insofar as any specified work or the acquisition or use of railway property is or may be subject to railway operational procedures, Network Rail must—

- (a) co-operate with the Authority with a view to avoiding undue delay and securing conformity as between any plans approved by the engineer and requirements arising from those procedures; and
- (b) use its reasonable endeavours to avoid any conflict arising between the application of those procedures and the proper implementation of the authorised development under this Order.

**4.—(1)** The Authority must not exercise the powers conferred by article 23 (power to survey and investigate land, etc.) and article 28 (power to acquire land) in respect of any railway property unless the exercise of such powers is with the consent of Network Rail.

(2) The Authority must not in exercise of the powers conferred by this Order prevent pedestrian or vehicular access to any railway property, unless preventing such access is with the consent of Network Rail.

(3) The Authority must not exercise the powers conferred by sections 271 (extinguishment of rights of statutory undertakers: preliminary notices) or 272 (extinguishment of rights of electronic code communications operators: preliminary notices)<sup>(86)</sup> of the 1990 Act as applied by Schedule 9 (provisions relating to statutory undertakers) in relation to any right of access of Network Rail to railway property, but such right of access may be diverted with the consent of Network Rail.

(4) The Authority must not under the powers conferred by this Order acquire or use, or acquire new rights over, any railway property except with the consent of Network Rail.

(5) Where Network Rail is asked to give its consent pursuant to this paragraph, such consent must not be unreasonably withheld but may be given subject to reasonable conditions.

**5.—(1)** The Authority must before commencing construction of any specified work supply to Network Rail proper and sufficient plans of that work for the reasonable approval of the engineer and the specified work must not be commenced except in accordance with such plans as have been approved in writing by the engineer or settled by arbitration.

(2) The approval of the engineer under sub-paragraph (1) must not be unreasonably withheld, and if by the end of the period of 28 days beginning with the date on which such plans have been supplied to Network Rail the engineer has not intimated disapproval of those plans and the grounds of disapproval the Authority may serve upon the engineer written notice requiring the engineer to intimate approval or disapproval within a further period of 28 days beginning with the date upon

---

<sup>(86)</sup> Section 272 was amended by paragraph 103 of Schedule 17 to the Communications Act 2003 (c. 21).

which the engineer receives written notice from the Authority. If by the expiry of the further 28 days the engineer has not intimated approval or disapproval, the engineer is to be deemed to have approved the plans as submitted.

(3) If by the end of the period of 28 days beginning with the date on which written notice was served upon the engineer under sub-paragraph (2), Network Rail gives notice to the Authority that Network Rail desires itself to construct any part of a specified work which in the opinion of the engineer will or may affect the stability of railway property or the safe operation of traffic on the railways of Network Rail then, if the Authority desires such part of the specified work to be constructed, Network Rail must construct it without unnecessary delay on behalf of and to the reasonable satisfaction of the Authority in accordance with the plans approved or deemed to be approved or settled under this paragraph, and under the supervision (where appropriate and if given) of the Authority for an agreed cost.

(4) When signifying approval of the plans the engineer may specify any protective works (whether temporary or permanent) which in the engineer's opinion should be carried out before the commencement of the construction of a specified work to ensure the safety or stability of railway property or the continuation of safe and efficient operation of the railways of Network Rail or the services of operators using the same (including any relocation, de-commissioning and removal of works, apparatus and equipment necessitated by a specified work and the comfort and safety of passengers who may be affected by the specified works), and such protective works as may be reasonably necessary for those purposes must be constructed by Network Rail or by the Authority, if Network Rail so desires, and such protective works are to be carried out at the expense of the Authority in either case without unnecessary delay and the Authority must not commence the construction of the specified works until the engineer has notified the Authority that the protective works have been completed to the engineer's reasonable satisfaction.

**6.—(1)** Any specified work and any protective works to be constructed by virtue of paragraph 5(4) must, when commenced, be constructed—

- (a) without unnecessary delay in accordance with the plans approved or deemed to have been approved or settled under paragraph 5;
- (b) under the supervision (where appropriate and if given) and to the reasonable satisfaction of the engineer;
- (c) in such manner as to cause as little damage as is possible to railway property; and
- (d) so far as is reasonably practicable, so as not to interfere with or obstruct the free, uninterrupted and safe use of any railway of Network Rail or the traffic on it and the use by passengers of railway property.

(2) If any damage to railway property or any such interference or obstruction is caused by the carrying out of, or in consequence of the construction of, a specified work, the Authority must, regardless of any such approval, make good such damage and must pay to Network Rail all reasonable expenses to which Network Rail may be put and compensation for any loss which it may sustain by reason of any such damage, interference or obstruction.

(3) Nothing in this Schedule imposes any liability on the Authority with respect to any damage, costs, expenses or loss attributable to the negligence of Network Rail or its servants, contractors or agents or any liability on Network Rail with respect of any damage, costs, expenses or loss attributable to the negligence of the Authority or its servants, contractors or agents.

**7. The Authority must—**

- (a) at all times afford reasonable facilities to the engineer for access to a specified work during its construction; and
- (b) supply the engineer with all such information as the engineer may reasonably require with regard to a specified work or the method of constructing it.

*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

**8.** Network Rail must at all times afford reasonable facilities to the Authority and its agents for access to any works carried out by Network Rail under this Schedule during their construction and must supply the Authority with such information as it may reasonably require with regard to such works or the method of constructing them.

**9.—(1)** If any permanent or temporary alterations or additions to railway property are reasonably necessary in consequence of the construction of a specified work, or during a period of 24 months after the completion of that work in order to ensure the safety of railway property or the continued safe operation of the railway of Network Rail, such alterations and additions may be carried out by Network Rail and if Network Rail gives to the Authority reasonable notice of its intention to carry out such alterations or additions (which must be specified in the notice), the Authority must pay to Network Rail the reasonable cost of those alterations or additions including, in respect of any such alterations and additions as are to be permanent, a capitalised sum representing the increase of the costs which may be expected to be reasonably incurred by Network Rail in maintaining, working and, when necessary, renewing any such alterations or additions.

(2) If during the construction of a specified work by the Authority, Network Rail gives notice to the Authority that Network Rail desires itself to construct that part of the specified work which in the opinion of the engineer is endangering the stability of railway property or the safe operation of traffic on the railways of Network Rail then, if the Authority decides that part of the specified work is to be constructed, Network Rail must assume construction of that part of the specified work and the Authority must, regardless of any such approval of a specified work under paragraph 5(3), pay to Network Rail all reasonable expenses to which Network Rail may be put and compensation for any loss which it may suffer by reason of the execution by Network Rail of that specified work.

(3) The engineer must, in respect of the capitalised sums referred to in this paragraph and paragraph 10(a), provide such details of the formula by which those sums have been calculated as the Authority may reasonably require.

(4) If the cost of maintaining, working or renewing railway property is reduced in consequence of any such alterations or additions a capitalised sum representing such saving is to be set off against any sum payable by the Authority to Network Rail under this paragraph.

**10.** The Authority must repay to Network Rail all reasonable fees, costs, charges and expenses reasonably incurred by Network Rail—

- (a) in constructing any part of a specified work on behalf of the Authority as provided by paragraph 5(3) or in constructing any protective works under the provisions of paragraph 5(4) including, in respect of any permanent protective works, a capitalised sum representing the cost of maintaining and renewing those works;
- (b) in respect of the approval by the engineer of plans submitted by the Authority and the supervision by the engineer of the construction of a specified work;
- (c) in respect of the employment or procurement of the services of any inspectors, signallers, watchkeepers and other persons whom it is reasonably necessary to appoint for inspecting, signalling, watching and lighting railway property and for preventing, so far as may be reasonably practicable, interference, obstruction, danger or accident arising from the construction or failure of a specified work;
- (d) in respect of any special traffic working resulting from any speed restrictions which may in the opinion of the engineer, require to be imposed by reason or in consequence of the construction or failure of a specified work or from the substitution or diversion of services which may be reasonably necessary for the same reason; and
- (e) in respect of any additional temporary lighting of railway property in the vicinity of the specified works, being lighting made reasonably necessary by reason or in consequence of the construction or failure of a specified work.

**11.—(1)** In this paragraph—

“EMI” means, subject to sub-paragraph (2), electromagnetic interference with Network Rail apparatus generated by the operation of the authorised development where such interference is of a level which adversely affects the safe operation of Network Rail’s apparatus; and

“Network Rail’s apparatus” means any lines, circuits, wires, apparatus or equipment (whether or not modified or installed as part of the authorised works) which are owned or used by Network Rail for the purpose of transmitting or receiving electrical energy or of radio, telegraphic, telephonic, electric, electronic or other like means of signalling or other communications.

(2) This paragraph applies to EMI only to the extent that such EMI is not attributable to any change to Network Rail’s apparatus carried out after approval of plans under paragraph 5(1) for the relevant part of the authorised works giving rise to EMI (unless the Authority has been given notice in writing before the approval of those plans of the intention to make such change).

(3) Subject to sub-paragraph (5), the Authority must in the design and construction of the authorised works take all measures necessary to prevent EMI and must establish with Network Rail (both parties acting reasonably) appropriate arrangements to verify their effectiveness.

(4) In order to facilitate the Authority’s compliance with sub-paragraph (3)—

- (a) the Authority must consult with Network Rail as early as reasonably practicable to identify all Network Rail’s apparatus which may be at risk of EMI, and must continue to consult with Network Rail (both before and after formal submission of plans under paragraph 5(1)) in order to identify all potential causes of EMI and the measures required to eliminate them;
- (b) Network Rail must make available to the Authority all information in the possession of Network Rail reasonably requested by the Authority in respect of Network Rail’s apparatus identified under sub-paragraph (a); and
- (c) Network Rail must allow the Authority reasonable facilities for the inspection of Network Rail’s apparatus identified under sub-paragraph (a).

(5) In any case where it is established that EMI can only reasonably be prevented by modifications to Network Rail’s apparatus, Network Rail must not withhold its consent unreasonably to modifications of Network Rail’s apparatus, but the means of prevention and the method of their execution must be selected in the reasonable discretion of Network Rail, and in relation to such modifications paragraph 5(1) has effect subject to this sub-paragraph.

(6) If at any time prior to the completion of the authorised development and regardless of any measures adopted under sub-paragraph (3), the testing or commissioning of the authorised works causes EMI then the Authority must immediately upon receipt of notification by Network Rail of such EMI either in writing or communicated orally (such oral communication to be confirmed in writing as soon as reasonably practicable after it has been issued) cease to use (or procure the cessation of use of) the Authority’s apparatus causing such EMI until all measures necessary have been taken to remedy such EMI by way of modification to the source of such EMI or (in the circumstances, and subject to the consent, specified in sub-paragraph (5)) to Network Rail’s apparatus.

(7) In the event of EMI having occurred—

- (a) the Authority must afford reasonable facilities to Network Rail for access to the Authority’s apparatus in the investigation of such EMI;
- (b) Network Rail must afford reasonable facilities to the Authority for access to Network Rail’s apparatus in the investigation of such EMI; and
- (c) Network Rail must make available to the Authority any additional material information in its possession reasonably requested by the Authority in respect of Network Rail’s apparatus or such EMI.

*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

(8) Where Network Rail approves modifications to Network Rail's apparatus under subparagraphs (5) or (6)—

- (a) Network Rail must allow the Authority reasonable facilities for the inspection of the relevant part of Network Rail's apparatus; and
- (b) any modifications to Network Rail's apparatus approved under those sub-paragraphs must be carried out and completed by the Authority in accordance with paragraph 6.

(9) To the extent that it would not otherwise do so, the indemnity referred to in paragraph 15(1) applies to the costs and expenses reasonably incurred or losses suffered by Network Rail through the implementation of the provisions of this paragraph (including costs incurred in connection with the consideration of proposals, approval of plans, supervision and inspection of works and facilitating access to Network Rail's apparatus) or in consequence of any EMI to which subparagraph (6) applies.

(10) For the purpose of paragraph 10(a) any modifications to Network Rail's apparatus under this paragraph is to be deemed to be protective works referred to in that paragraph.

(11) In relation to any dispute arising under this paragraph the reference in article 53 (arbitration) to the Institution of Civil Engineers is to be read as a reference to the Institution of Electrical Engineers.

**12.—**(1) If at any time after the completion of a specified work, not being a work vested in Network Rail, Network Rail gives notice to the Authority informing it that the state of maintenance of any part of the specified work appears to be such as adversely affects the operation of railway property, the Authority must, on receipt of such notice, take such steps as may be reasonably necessary to put that specified work in such state of maintenance as not adversely to affect railway property.

(2) If at any time after the completion of a specified work, being a work vested in Network Rail, the Authority gives notice to Network Rail informing it that the state of maintenance of the specified work appears to be such as adversely affects the operation of the authorised tramway Network Rail must, on receipt of such notice, take such steps as may be reasonably necessary to put that specified work in such state of maintenance as not adversely to affect the authorised tramway.

**13.** The Authority must not provide any illumination or illuminated sign or signal on or in connection with a specified work in the vicinity of any railway belonging to Network Rail unless it has first consulted Network Rail and it must comply with Network Rail's reasonable requirements for preventing confusion between such illumination or illuminated sign or signal and any railway signal or other light used for controlling, directing or securing the safety of traffic on the railway.

**14.** Any additional expenses which Network Rail may reasonably incur in altering, reconstructing or maintaining railway property under any powers existing at the making of this Order by reason of the existence of a specified work must, provided that 56 days' previous notice of the commencement of such alteration, reconstruction or maintenance has been given to the Authority, be repaid by the Authority to Network Rail.

**15.—**(1) The Authority must pay to Network Rail all reasonable costs, charges, damages and expenses not otherwise provided for in this Schedule which may be occasioned to or reasonably incurred by Network Rail—

- (a) by reason of the construction or maintenance of a specified work or the failure of such a work; or
- (b) by reason of any act or omission of the Authority or of any person in its employ or of its contractors or others whilst engaged upon a specified work,

and the Authority must indemnify and keep indemnified Network Rail from and against all claims and demands arising out of or in connection with a specified work or any such failure, act or omission: and the fact that any act or thing may have been done by Network Rail on behalf of the Authority

or in accordance with plans approved by the engineer or in accordance with any requirement of the engineer or under his supervision does not (if it was done without negligence on the part of Network Rail or of any person in its employ or of its contractors or agents) excuse the Authority from any liability under the provisions of this sub-paragraph.

(2) Network Rail must give the Authority reasonable notice of any such claim or demand and no settlement or compromise of such a claim or demand is to be made without the prior consent of the Authority.

(3) The sums payable by the Authority under sub-paragraph (1) include a sum equivalent to the relevant costs.

(4) Subject to the terms of any agreement between Network Rail and a train operator regarding the timing or method of payment of the relevant costs in respect of that train operator, Network Rail must promptly pay to each train operator the amount of any sums which Network Rail receives under sub-paragraph (3) which relates to the relevant costs of that train operator.

(5) The obligation under sub-paragraph (3) to pay Network Rail the relevant costs is, in the event of default, enforceable directly by any train operator concerned to the extent that such sums are payable to that operator under sub-paragraph (4).

(6) In this paragraph—

“the relevant costs” means the costs, direct losses and expenses (including loss of revenue) reasonably incurred by each train operator as a consequence of any restriction of the use of Network Rail’s railway network as a result of the construction, maintenance or failure of a specified work or any such act or omission as mentioned in subparagraph (1); and

“train operator” means any person who is authorised to act as the operator of a train by a licence under section 8 (licences) of the Railways Act 1993.

**16.** Network Rail must, on receipt of a request from the Authority, from time to time provide the Authority free of charge with written estimates of the costs, charges, expenses and other liabilities for which the Authority is or will become liable under this Schedule (including the amount of the relevant costs mentioned in paragraph 15) and with such information as may reasonably enable the Authority to assess the reasonableness of any such estimate or claim made or to be made under this Schedule (including any claim relating to those relevant costs).

**17.** In the assessment of any sums payable to Network Rail under this Schedule no account is to be taken of any increase in the sums claimed that is attributable to any action taken by or any agreement entered into by Network Rail if that action or agreement was not reasonably necessary and was taken or entered into with a view to obtaining the payment of those sums by the Authority under this Schedule or increasing the sums so payable.

**18.** The Authority and Network Rail may, subject in the case of Network Rail to compliance with the terms of its network licence, enter into, and carry into effect, agreements for the transfer to the Authority of—

- (a) any railway property shown on the works and land plans and described in the book of reference;
- (b) any lands, works or other property held in connection with any such railway property; and
- (c) any rights and obligations (whether or not statutory) of Network Rail relating to any railway property or any lands, works or other property referred to in this paragraph.

**19.** Nothing in this Order, or in any enactment incorporated with or applied by this Order, prejudices or affects the operation of Part 1 of the Railways Act 1993.

**20.** The Authority must no later than 28 days from the date that the plans submitted to and certified by the Secretary of State in accordance with article 51 (certification of plans etc.) are

*Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.*

certified by the Secretary of State, provide a set of those plans to Network Rail in the form of a computer disc with read only memory.

SCHEDULE 11

Article 56

FOR THE PROTECTION OF THE ENVIRONMENT AGENCY

1.—(1) The following provisions of this Schedule, unless otherwise agreed in writing between the Authority and the Agency, have effect.

(2) In this Schedule—

“the Agency” means the Environment Agency;

“construction” includes execution, placing, altering, replacing, relaying and removal and “construct” and “constructed” are construed accordingly;

“drainage work” means any watercourse and includes any land which provides or is expected to provide flood storage capacity for any watercourse and any bank, wall, embankment or other structure, or any appliance, constructed or used for land drainage, flood defence or tidal monitoring;

“plans” includes sections, drawings, specifications and method statements;

“specified work” means so much of any work or operation authorised by this Order as is in, on, under, over or within 9 metres of a drainage work or is otherwise likely to—

(a) affect any drainage work or the volumetric rate of flow of water in or flowing to or from any drainage work; or

(b) affect the flow, purity or quality of water in any watercourse or ground water; and

“watercourse” includes all rivers, streams, ditches, drains, culverts, dykes, sluices, sewers and passages through which water flows (whether or not the flow is intermittent) except a public sewer or drain.

2.—(1) Before beginning to construct any specified work, the Authority must submit to the Agency plans of the specified work and such further particulars available to it as the Agency may within 28 days of the submission of the plans reasonably require.

(2) Any such specified work must not be constructed except in accordance with such plans as may be approved in writing by the Agency, or determined under paragraph 11.

(3) Any approval of the Agency required under this paragraph—

(a) must not be unreasonably withheld;

(b) is deemed to have been given if it is neither given nor refused within 2 months of the submission of the plans for approval and, in the case of a refusal, accompanied by a statement of the grounds of refusal; and

(c) may be given subject to such reasonable requirements as the Agency may make for the protection of any drainage work or for the protection of water resources, or for the prevention of flooding or pollution or in the discharge of its environmental duties.

(4) The Agency must use its reasonable endeavours to respond to the submission of any plans before the expiration of the period mentioned in sub-paragraph (3)(b).

3. Without limitation on the scope of paragraph 2, the requirements which the Agency may make under that paragraph include conditions requiring the Authority at its own expense to construct such protective works, whether temporary or permanent, during the construction of the specified

works (including the provision of flood banks, walls or embankments or other new works and the strengthening, repair or renewal of existing banks, walls or embankments) as are reasonably necessary—

- (a) to safeguard any drainage work against damage; or
- (b) to secure that its efficiency for flood defence purposes is not impaired and that the risk of flooding is not otherwise increased,

by reason of any specified work.

4.—(1) Subject to sub-paragraph (2), any specified work, and all protective works required by the Agency under paragraph 3, must be constructed—

- (a) without unreasonable delay in accordance with the plans approved or deemed to have been approved or settled under this Schedule; and
- (b) to the reasonable satisfaction of the Agency,

and an officer of the Agency is entitled to watch and inspect the construction of such works.

(2) The Authority must give to the Agency not less than 14 days' notice in writing of its intention to commence construction of any specified work and notice in writing of its completion not later than 7 days after the date on which it is brought into use.

(3) If any part of a specified work or any protective work required by the Agency is constructed otherwise than in accordance with the requirements of this Schedule, the Agency may by notice in writing require the Authority at the Authority's own expense to comply with the requirements of this Schedule or (if the Authority so elects and the Agency in writing consents, such consent not to be unreasonably withheld or delayed) to remove, alter or pull down the work and, where removal is required, to restore the site to its former condition to such extent and within such limits as the Agency reasonably requires.

(4) Subject to sub-paragraph (5) and paragraph 7, if within a reasonable period, being not less than 28 days from the date when a notice under sub-paragraph (3) is served upon the Authority, it has failed to begin taking steps to comply with the requirements of the notice and subsequently to make reasonably expeditious progress towards their implementation, the Agency may execute the works specified in the notice and any expenditure incurred by it in so doing is recoverable from the Authority.

(5) In the event of any dispute as to whether sub-paragraph (3) is properly applicable to any work in respect of which notice has been served under that sub-paragraph, or as to the reasonableness of any requirement of such a notice, the Agency must not except in emergency exercise the powers conferred by sub-paragraph (4) until the dispute has been finally determined.

5.—(1) Subject to the provisions of this Schedule and except to the extent that the Agency or another person is liable to maintain any such work and is not precluded by the exercise of the powers conferred by this Order from so doing, the Authority must from the commencement of the construction of the specified works maintain in good repair and condition and free from obstruction any drainage work which is situated within the limits of deviation or on land held by the Authority for the purposes of or in connection with the specified works, whether or not the drainage work is constructed under the powers conferred by this Order or is already in existence.

(2) If any such drainage work which the Authority is liable to maintain is not maintained to the reasonable satisfaction of the Agency, the Agency may by notice in writing require the Authority to repair and restore the work, or any part of such work, or (if the Authority so elects and the Agency in writing consents, such consent not to be unreasonably withheld or delayed), to remove the work and restore the site to its former condition, to such extent and within such limits as the Agency reasonably requires.

(3) Subject to paragraph 7, if, within a reasonable period being not less than 28 days beginning with the date on which a notice in respect of any drainage work is served under sub-paragraph (2) on the Authority, the Authority has failed to begin taking steps to comply with the reasonable requirements of the notice and has not subsequently made reasonably expeditious progress towards their implementation, the Agency may do what is necessary for such compliance and may recover any expenditure reasonably incurred by it in so doing from the Authority.

(4) In the event of any dispute as to the reasonableness of any requirement of a notice served under sub-paragraph (2), the Agency must not except in a case of emergency exercise the powers conferred by sub-paragraph (3) until the dispute has been finally determined.

6. Subject to paragraph 7, if by reason of the construction of any specified work or of the failure of any such work the efficiency of any drainage work for flood defence purposes is impaired, or that drainage work is otherwise damaged, such impairment or damage must be made good by the Authority to the reasonable satisfaction of the Agency and if the Authority fails to do so, the Agency may make good the impairment or damage and recover from the Authority the expense reasonably incurred by it in doing so.

7. Nothing in paragraphs 4(4), 5(3) and 6 authorises the Agency to execute works on or affecting the authorised works.

8. The Authority must indemnify the Agency in respect of all costs, charges and expenses which the Agency may reasonably incur or have to pay or which it may sustain—

- (a) in the examination or approval of plans under this Schedule; and
- (b) in the inspection of the construction of the specified works or any protective works required by the Agency under this Schedule.

9.—(1) Without affecting the other provisions of this Schedule, the Authority must indemnify the Agency from all claims, demands, proceedings, costs, damages, expenses or loss, which may be made or taken against, recovered from, or incurred by, the Agency by reason of—

- (a) any damage to any drainage work so as to impair its efficiency for the purposes of flood defence;
- (b) any raising or lowering of the water table in land adjoining the authorised works or any sewers, drains and watercourses;
- (c) any flooding or increased flooding of any such lands; or
- (d) inadequate water quality in any watercourse or in any groundwater,

which is caused by the construction of any of the specified works or any act or omission of the Authority, its contractors, agents or employees whilst engaged upon the work.

(2) The Agency must give to the Authority reasonable notice of any such claim or demand and no settlement or compromise may be made without the agreement of the Authority which agreement must not be unreasonably withheld or delayed.

10. The fact that any work or thing has been executed or done by the Authority in accordance with a plan approved or deemed to be approved by the Agency, or to its satisfaction, or in accordance with any directions or award of an arbitrator, does not relieve the Authority from any liability under the provisions of this Schedule.

11. Any dispute arising between the Authority and the Agency under this Schedule, if the parties agree, is to be determined by arbitration under article 53 (arbitration), but otherwise is to be determined by the Secretary of State for Environment, Food and Rural Affairs and the Secretary of State for Transport acting jointly on a reference to them by the Authority or the Agency, after notice in writing by one to the other.
