2022 No. 1197

OFFSHORE INSTALLATIONS

The Offshore Installations (Safety Zones) (No. 3) Order 2022

Made - - - - 15th November 2022

Coming into force in accordance with article 1(2)

The Secretary of State makes this Order—

- (a) in exercise of the powers conferred by section 22 of the Petroleum Act 1987 (“the Act”)(1); and
- (b) for the purpose of giving effect to proposals submitted by the Health and Safety Executive under section 24(2A)(2) of the Act

Citation and commencement

1.—(1) This Order may be cited as the Offshore Installations (Safety Zones) (No. 3) Order 2022.

(2) This Order comes into force 21 days after the day on which it is made (“the general coming into force date”), except for article 2(2) which comes into force as provided in article 2(3).

Establishment of safety zones

2.—(1) A safety zone is established around each installation specified in column 1 of the table in Part 1 of the Schedule (being an installation stationed in waters to which subsection (7) of section 21 of the Act applies) having a radius of five hundred metres, as respects that installation, from the point which has the co-ordinates of latitude and longitude according to the World Geodetic System 1984(3) specified in columns 2 and 3 of the table in Part 1 of the Schedule.

(2) A safety zone is established around each installation specified in column 1 of the table in Part 2 of the Schedule (being an installation to be stationed in waters to which subsection (7) of section 21 of the Act applies) having a radius of five hundred metres, as respects that installation, from the point which has the co-ordinates of latitude and longitude according to the World Geodetic System 1984 specified in columns 2 and 3 of the table in Part 2 of the Schedule.

(3) Paragraph (2) comes into force, as respects the installation—

(1) 1987 c. 12.

(2) Section 24(2A) was inserted by S.I. 1993/1823 and amended by S.I. 2008/960.

(3) The World Geodetic System 1984 (“WGS 84”) defines a reference frame for the Earth, for use in geodesy and navigation. It was developed by the United States’ National Geospatial-Intelligence Agency and is maintained by it. WGS 84 is defined at paragraph 2.1 of the NGA Standardization Document, Department of Defense, World Geodetic System 1984 (updated 8 July 2014) (https://earth-info.nga.mil/index.php?dir=wgs84&action=wgs84#tab_wgs84-res). Hard-copies are available upon request from the offices of the Health and Safety Executive, Aberdeen International Business Park (AIBP), Building 2, Level 1, Dyce Drive, Dyce, Aberdeen AB21 0BR.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

- (a) on the general coming into force date, where the installation arrives at its station before that date; and
- (b) when the installation arrives at its station, in any other case.

15th November 2022

Mims Davies
Parliamentary Under Secretary of State
Department of Work and Pensions

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

SCHEDULE

Article 2

INSTALLATIONS

PART 1

Installations stationed at the time this Order is made

<i>(1) Name or other designation</i>	<i>(2) Latitude</i>	<i>(3) Longitude</i>
Ensign, Ensign, Block 48/14a	53° 35.430'N	01° 46.399'E
BL-WL PLEM, Brent, Block 211/29	61° 02.05'N	01° 41.97'E
Kingfisher SSIV, Kingfisher, Block 16/7a	58° 47.36'N	01° 21.01'E

PART 2

Installations not stationed at the time this Order is made

<i>(1) Name or other designation</i>	<i>(2) Latitude</i>	<i>(3) Longitude</i>
Captain Area D Drill Centre, Captain, Block 13/22a	58° 19.798'N	01° 42.743'W
Captain Area E Drill Centre, Captain, Block 13/22a	58° 18.438'N	01° 41.525'W

EXPLANATORY NOTE

(This note is not part of the Order)

Article 2 of this Order establishes, under section 22 of the Petroleum Act 1987 (c. 12) (“the Act”), safety zones having a radius of 500 metres from the specified point around the 5 installations (which are subsea installations) specified in the Schedule to this Order stationed, or to be stationed, in waters to which section 21(7) of that Act applies (these include territorial waters and waters in areas designated under section 1(7) of the Continental Shelf Act 1964 (c. 29)).

An automatic safety zone was established around the installation known as Ensign. It is intended that this installation will be completely dismantled by December 2023. In order to maintain a safety zone around this installation as dismantlement is completed, the automatic safety zone will be replicated by the safety zone established by this Order.

It is estimated that the installations specified in Part 2 of the Schedule, Captain Area D Drill Centre and Captain Area E Drill Centre, will arrive at their stations at the earliest by March 2023.

Status: This is the original version (as it was originally made). This item of legislation is currently only available in its original format.

Section 23(1) of the Act prohibits vessels, which for these purposes include hovercraft, submersible apparatus and installations in transit, from entering or remaining in a safety zone except with the consent of the Health and Safety Executive or in accordance with regulations made under section 23(1) of the Act (currently regulation 21H of the Offshore Installations and Pipeline Works (Management and Administration) Regulations 1995 (S.I. 1995/738), inserted by paragraph 14 of Schedule 13 to S.I. 2015/398).

The United Kingdom Hydrographic Office (UKHO) publishes nautical charts covering the area in which installations are located, which include information on the existence and, where the scale allows, the location of safety zones (<https://www.gov.uk/government/organisations/uk-hydrographic-office>). Mariners are advised to keep paper charts up-to-date by using appropriate Notices to Mariners or, where electronic charts are used, to subscribe to an appropriate updating service. Vessels meeting the requirements of the International Convention for the Safety of Life at Sea 1974 will carry nautical charts and nautical publications (such as Notices to Mariners) to plan and display the ship's route for the intended voyage and to plot and monitor positions throughout the voyage. This may be compulsory for some vessels, for example under the Merchant Shipping (Safety of Navigation) Regulations 2020 (S.I. 2020/673). The UKHO also broadcasts Radio Navigational Warnings in relation to safety zones where updates to charts have yet to take effect and where installations are in transit.

Maritime safety information, which includes information on safety zones, is issued via the appropriate International Maritime Organisation, Global Maritime Distress and Safety System broadcast systems as defined by the World-Wide Navigational Warning Service.
